16 ¹ Janice Hahn, a member of the Los Angeles County Board of Supervisors, has been added as Doe
17 Defendant 1 due to omission of Hahn’s name from the caption on the original lawsuit. Doe
18 Defendant 2 is City Fire Chief Kristin Crowley who was sworn in to replace Fire Chief Terrazas;
19 Doe Defendant 3 is Aram Salmasi aka Salmassian and Salmasizadeh, a Personnel Representative
20 for the City of Los Angeles. Doe Defendant 4-8 are also City supervisors, including Agassi
21 Topchian, Brett Terell, Ulric Carpenter, Glenn Penny and Eddie Cromwell.

22 Doe Defendant 9 is Rob Lester, the head of the Construction Division for LAUSD.

23 Doe Defendant 10-14 are the State of California’s Departments, including the Department of
24 Transportation (CalTRANS), the State of California Department of Corrections and Rehabilitation
25 (CDCR), the Department of Motor Vehicles (DMV); the Department of Human Resources
26 (CalHR) and the State of California Department of Public Health (CDPH). Doe Defendants 15-20
27 including the heads of said Departments, including Kathleen Allison, Jeff Macomber, of CDCR,
28 and Warden Glen Pratt and Employee Relations Officer Robin Franklin; Doe Defendant 21 is
29 Toks Omishakin, the then head of CalTRANS.

30 Doe Defendants 22 and 23 are County Managers Bill Evans and Allan Khozahi of the Auditor-
31 Controller’s Office, 24-26 are Karyn Smith, Krisanne Kremer and Steve Poon, direct supervisors
32 and/or the heads of Personnel responsible for LAC+USC, Harbor General and Olive View and
33 Doe Defendants 27-28 are Irma Rios and Lily Ortiz of the Department of Child Support Services.

1 **Preliminary Statement**

2 1. While most Americans enjoyed the traditional Macy’s Parade on November 25,
3 2021 and heard the media quoting the President of the United States, Joseph Biden, as stating that
4 the Parade was proof of a return to normalcy, this was and remained farthest from the truth for
5 public sector employees and school-aged children in the County and the City of Angels, namely
6 Los Angeles, California. Immediately prior to the Thanksgiving holiday, numerous City and
7 County employees were greeted with notices of firing, disciplinary action, and/or leaves of
8 absence without pay because said employees have refused to capitulate to medical tyranny in the
9 form of COVID-19 mandates, including vaccinations and polymerase chain reaction (PCR) and
10 antigen testing. In response, undersigned counsel on behalf of *FREEDOMTOCHOOSELA.*, a
11 grassroots humanitarian effort of public and private sector employees, taxpayers, and, if
12 applicable, their families identified in Appendix “A” hereto², notified the City and County

13 _____
14 ² Appendix “A” consists of a listing of all F2C Members who signed-up to be Plaintiffs in this
15 matter, while Appendix “B” , is the Sample F2C Form which members initially filed in these
16 regards. Appendix “A” details the names of all F2C Members asserting Constitutional Claims
17 embodied in the 1st through 4th Causes of Action, as well as requesting Declaratory Relief and a
18 Writ of Mandate listed in the 50th and 51st Causes of Action, respectively, against all Defendants
19 and Doe Defendants Janice Hahn, Kristin Crowley, Aram Salamasi and State of California
20 entities, the Department of Transportation, the Department of Corrections and the California
21 Department of Public Health.

22 Appendix “C” lists all F2C Members employed by and asserting DFEH and Whistleblowing
23 Claims against the City of Los Angeles and if applicable, its elected leaders, managers, department
24 and bureau heads and supervisors. These Causes of Action involving the City-related Defendants
25 are set forth in the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th, and 45th Causes of Action.

26 Appendix “D” lists all F2C Members employed by and asserting DFEH and Whistleblowing
27 Claims against the County of Los Angeles and if applicable, its elected leaders, managers,
28 department and bureau heads and supervisors. These Causes of Action involving the County-
related Defendants are set forth in the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st, and 45th Causes of
Action.

Appendix “E” lists all F2C Members employed by and asserting DFEH and Whistleblowing
Claims against the Los Angeles School District and if applicable, its elected leaders,
Superintendent, Site Personnel, managers, and supervisors. These Causes of Action involving the
LAUSD-related Defendants are set forth in the 7th, 12th, 17th, 22th, 27th, 32nd, 37th, 42nd, and 47th
Causes of Action.

1 governments by letter dated November 22, 2021, to stop furthering violations of the privacy and
2 Equal Employment Opportunity rights of dedicated City and County employees. Said letter,
3 attached hereto as Exhibit “1”, became necessary since religious and medical exemption requests
4 submitted either remained unanswered or were and continue to be met with severe resistance in
5 various Departments. The attitude towards exemption requests had already been vividly expressed
6 during a Command Meeting in the City Fire Department, as reflected in Exhibit “2”, namely
7 affording management a license to demote employees, including Firefighters, and to reduce their
8 pay, if exemption requests were tendered or granted, despite laws providing for religious and
9 medical exemptions.³ Meanwhile, Senior Personnel Analyst in other City Departments, including
10 Aram Salamasi (Salamassian) have taken great pleasure in denying exemption requests, including
11 claiming Osteopaths cannot attest to medical issues and then while serving as a purportedly
12 “unbiased” Skelly Hearing Officer castigating and then causing the firing of City employees like
13 Plumber David Shubin, if not others whose cases remain outstanding, while ridiculing Shubin for
14 daring to “*invite God into the workplace*”.

15 2. In the case of many City employees, pre-Thanksgiving letters issued in 2021 and
16 again in 2022, including in such Departments as General Services, the Zoo, Parks and Recreation,
17 Transportation, Building and Safety, and LA Housing stating that unvaccinated employees were
18 being sent home without pay or constructively terminated. In November 2021, government
19

20 Appendix “F” lists all F2C Members employed by and asserting DFEH and Whistleblowing
21 Claims against LACOE and if applicable, its elected leaders, Superintendent, Site Personnel,
22 managers, and supervisors. These Causes of Action involving the LACOE-related Defendants are
23 set forth in the 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd, and 48th Causes of Action.

24 Appendix “G” lists all F2C Members employed by and asserting DFEH and Whistleblowing
25 Claims against the State of California and if applicable, its elected leaders, managers, department
26 and bureau heads and supervisors. These Causes of Action involving the State City-related
27 Defendants are set forth in the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th, and 49th Causes of Action.

28 ³ Since making this threat, the City has closed a number of its fire stations without notice to the
community, resulting in even the horrific death of an elderly mobile home resident in Chatsworth
whose home was engulfed in flames, while forcing the recall of extremely fatigued and sick
personnel.

1 officials had already been told by the Los Angeles Police Protective League that the City’s
2 demand that the unvaccinated would have to pay \$520 per month from their paychecks to fund
3 PCR testing of the unvaccinated by a private enterprise, *BlueStone Safe*, violated *Labor Code*
4 §2602.⁴ The Honorable Rupert Byrdsong finally issued a ruling sustaining the League’s case
5 against the City on September 30, 2022, Case No. 21 STCV39987. Meanwhile LAPD Chief
6 Michel Moore, a Defendant herein, has since publicly acknowledged that the Covid-19
7 Vaccination Ordinance should be repealed, was not scientifically-based and is responsible for
8 vaccinated employees becoming repeatedly reinfected if not hospitalized. Nonetheless, the City
9 has continued to conduct *Skelly* hearings and has refused to reinstate employees, including first

11

12
13 ⁴ However, *BlueStone* was not subjected to a bidding process when awarded a three-million-dollar
14 (\$3,000,000.00) contract which has since grown to close to sixteen million dollars, in all
15 likelihood because the Company was directly linked to Police Commissioner Dr. Pedram
16 Salimpour, an avid supporter of now former Mayor, Eric Garcetti. In *BlueStone’s* case, the
17 Personnel and Payroll Departments had also given unfettered access to financial, personal and
18 medical information, including bank account and routing numbers, without procuring the informed
19 consent of employees. Instead, retroactive authorization was then demanded from those
20 employees who have involuntarily submitted to nasal and/or mouth swab testing by *BlueStone*
21 purportedly to protect their jobs, although Garcetti reneged on same not only when removing
22 numerous first responders and key City employees opposed to the City’s Vaccine Ordinance but
23 then also by distributing another message that in the City, as of December 18, 2021, one must be
24 vaccinated or else. The City’s Ordinance also demands that boosters be taken, as part of a scheme
25 to make vaccines a condition of employment. However, on January 10, 2023, the City Council
26 finally voted to end the state of emergency, effective the beginning of February 2023, but will
27 condition vaccinating for all new hires.

28
29 Meanwhile other employees who have been relieved of their duties were told, including by
30 Senior Personnel Analyst Mae Huey at the Zoo, that by agreeing in writing to pay the money
31 (\$520 per month) demanded, said employees would be reinstated and could submit exemption
32 requests as well. Still others have been told they will be placed on rehire lists, despite their years
33 of seniority, while knowing full well the City claims that it will only hire and promote those who
34 are vaccinated hereinafter. If anything, removing employees and then demanding money as a
35 condition of reinstatement by the City bears a striking resemblance to a racketeering scheme that
36 the government sanctioned and may still be condoning by seeking to not only limit Judge
37 Byrdsong’s decision to the LAPD, but by providing for additional monies to be paid to *BlueStone*
38 if the minimum number of tests are not submitted to *BlueStone* each month.

1 responders, many of whom have been on leave without pay for many months, if not more than a
2 year.

3 3. At the same time, many County employees also learned that the mandated PCR
4 testing for its employees, conducted by *Fulgent Genetics*, a company based in Monterey Park, has
5 direct ties to the *Chinese Communist Party (CCP)*, with then Sheriff Alex Villanueva releasing
6 investigative results on November 29, 2021, not only showing the links, but condemning
7 *Fulgent's* acknowledgements that all information uploaded is stored and shared in databanks
8 around the world, thereby compromising the confidentiality and safety of all who have been
9 forced to submit to testing with *Fulgent* or face firing, like County employees named herein who
10 have been so advised. A true and correct copy of Sheriff Villanueva's letter summarizing a
11 meeting conducted at the FBI's Field Office on November 26, 2021, is attached hereto as Exhibit
12 "3." In response, Fulgent changed its website and then claimed it would agree to confidentiality,
13 with the head of Personnel for the County, Lisa Garrett, seeking to give assurances that the
14 contract with *Fulgent Genetics* has been modified to address these concerns, with Garrett's
15 correspondence attached as Exhibit "4" hereto. But the County cannot rectify its failure to address
16 before the fact that data sharing would occur, let alone *Fulgent's* insistence on a monopoly,
17 although other forms of testing and facilities exist.⁵

18
19 _____
20 ⁵ Although *Fulgent* is based in the United States and is traded on the New York Stock Exchange,
21 the fact remains that the FBI was concerned and so advised Sheriff Alex Villanueva and others
22 attending the briefing about *Fulgent* on November 26, 2021. The failure of the County to address
23 these issues before awarding this no-bid contract and the absence of most elected officials at the
24 November 26th Briefing, although invited, is just as troubling since if participation in *Fulgent* let
alone *BlueStone* is mandatory, under penalty of discipline, the reason for bypassing other health
care institutions who provided such testing to its members, including County employees, was not
palatable, particularly once it was acknowledged that PCR testing could not detect the virus.

25 Nonetheless, for the most part, only nonvaccinated employees in each of the government
26 institutions named herein were obligated to continue testing, with Plaintiffs Manny Barrios, Tami
27 Olenik, Lissette Mejia-Cruz, Toby Iland, Carlos Argumedo, David Shubin and Ruben Maldonado
28 prepared to so testify, even though compliance with said directive has not spared these Plaintiffs
from continuing threats and in the case of Shubin, from discharge.

1 4. The adverse repercussions from the alleged “vaccinations” themselves and the lack
2 of neutrality of the testing entities, the purpose for such testing, and the scientific unreliability of
3 PCRs and masking continues to necessitate judicial intervention. Absent same, civil servants have
4 and will continue to be used as guinea pigs at the whim of whomever is issuing or implementing
5 directives, let alone bypassing bidding procedures so their contributors can be awarded contracts at
6 taxpayers’ expense, including without full disclosure. Despite efforts by government officials and
7 their designees to put the “*cat back in the bag*”, the fact remains that Personnel and Human
8 Resources employees were directed to provide information without an employee’s authorization to
9 *Fulgent* and/or *BlueStone*, including payroll information to begin with.

10 5. These events and the edict from health officials, including Dr. Barbara Ferrer of the
11 County Health Department, that unvaccinated students have to forfeit participation in extra-
12 curricular activities and prepare to resume virtual classrooms, also known as distance learning,
13 shows precisely why *F2C* is more than 4,500 members strong and has been growing in leaps and
14 bounds across the nation as *FreedomtoChooseUSA* as these matters continue to unfold. At the
15 same time, this suit is designed to expose critical events that the public has only limited, if any,
16 knowledge of, including that a *Delta Airlines* pilot, recently vaccinated, died inflight while en
17 route to Los Angeles World Airport, causing local Air Traffic Controllers to threaten a walk-out.
18 In contrast, the Memorials in Airport Lounges in the Spring of 2021 for several other vaccinated
19 pilots on British Airways and other airlines who also died after accepting economic incentives to
20 vaccinate was previously heralded as fake news. It is not fake news. To minimize same, a
21 petition was then circulated by members of Congress in Washington, D.C. on November 11, 2021,
22 with a copy of same attached as Exhibit “5”, to support passage of *HR 4980*, seeking to have all
23 air travel restricted to only the vaccinated, even though medical and scientific evidence shows the
24 vaccinated can spread the virus and lose immunities themselves when contracting the virus.
25 Nonetheless, *HR 4980* was passed by the House of Representatives on December 2, 2021,
26 claiming that this is necessary to reboot the travel industry and encourage others to become
27 vaccinated. *F2C* maintains however, that travel safety has been compromised, while the wellbeing
28 and livelihood of America remains at stake as long as the mandates persists.

1 6. Plaintiff, *FREEDOMTOCHOOSELA. (F2CLA and F2C)*, founded by Plaintiffs
2 NEIL and KIMBERLY STILLER, includes public sector and private sector employees and family
3 members who pay taxes locally and to the State of California, including on behalf of their school-
4 aged children, including ones attending colleges and universities in California. *F2CLA* brings this
5 action to stop the relentless campaign of medical tyranny that employers and school districts are
6 engaging in, namely threatening, and in many cases, causing the loss of one’s job and a cessation
7 of one’s means to make a living, while precluding one’s children and grandchildren to receive a
8 classroom education and to attend college. Said hostilities were intensified to convince close to
9 50% of the remaining workforce and their families to forfeit their constitutional rights, including
10 to refuse to divulge whether they are or are not vaccinated and to speak up on behalf of
11 unvaccinated workers due to risks which vaccinated employees have encountered.

12 7. *F2C* seeks to ensure that citizens of the State of California are not prohibited from
13 enjoying their chosen professions or deprived of long-standing due process protections embodied
14 in civil service systems, legislatively passed Bill of Rights governing Firefighters and Police, and
15 anti-retaliation provisions designed to ensure equal employment opportunities. At the same time,
16 *F2C* and its membership seeks to provide for uninterrupted education and extra-curricular
17 activities for all students to ensure that *no child is left behind*, while affording everyone
18 uninterrupted access to businesses and events which provide for the nutritional, cultural,
19 psychological and physical well-being of all residents and visitors to Southern California and
20 elsewhere in the State of California.

21 8. Individually named Plaintiffs and each member identified in Appendices “A” and
22 “C” –“G” have authorized *F2C* to initiate legal action and to actively oppose all COVID-19
23 related Ordinances and Directives of DEFENDANTS mandating COVID-19-related
24 “*Vaccinations*”, *Testing*, *Masking*, *Microsoft Daily Passes* and *Passports*, which have been
25 targeted at certain persons of various ages, race, national origin, religion, disabilities, sex, sexual
26 orientation, political beliefs and associations, while exempting public officials and their designees
27 from same. Efforts to discourage the responsible public officials from proceeding with the
28 reckless course of action which was threatened when various officials started introducing

1 Mandates in August 2021 and set constantly changing deadline dates for implementation have
2 been largely ignored. Requests for a reasonable postponement and a *Cease-and-Desist* Letter was
3 forwarded to all politicians on September 20, 2021, with a true and correct copy of same attached
4 hereto as Exhibit “6”. Efforts to expose politicians and their constituents to an educational
5 program which presents medical, scientific and legal opinions, including from pathologists and
6 other specialties, including treating health care practitioners and researchers at such esteemed
7 facilities as LAC+USC and UCLA, fell on deaf ears, in all likelihood to avoid exposing the no-bid
8 contracts, let alone the biased and ill-conceived opinions of DR. TOMÁS ARAGÓN, who is in
9 charge of the CALIFORNIA DEPARTMENT OF PUBLIC HEALTH, as well as the CITY and
10 the COUNTY’S Health Officers, including DR. BARBARA FERRER, a Social Worker, DR.
11 MUNTU DAVIS, M.D., and DR. ARTHUR MANUKIAN, a former member of the CITY’s
12 Health Department. In fact, shortly after this Cease and Desist was issued, LAUSD placed more
13 than 400 classified staffers on leave and then terminated these employees on Pearl Harbor Day,
14 December 7, 2021, in a closed-door session. Defendant Nick Melvoin, the Vice President of the
15 Board of Education, then noted that overall about 1,100 employees, including the 400 fired on
16 December 7th, will be dismissed. These threats have since become reality for unvaccinated
17 teachers who were reassigned to the Virtual Academy as teachers and as administrators since
18 receiving notice that dwindling enrollment in the Virtual Academy, in all likelihood because
19 certain courts are ruling once again that a virtual education does not satisfy state and federal
20 mandates, necessitates a curtailment of employment within LAUSD because of a continuing
21 refusal to permit unvaccinated staff to return to classrooms and school settings, even though
22 unvaccinated students are attending these schools.

23 9. *F2C* seeks to contest Orders and Directives which continue to deprive citizens
24 and/or taxpayers of the State of California of their rights of privacy, association and employment;
25 to exercise freedom of religion and choice relative to medical decisions, and to ensure that all
26 children receive their constitutional guarantee of an education without impediment. Individually
27 named Plaintiffs and all members of *F2C* seek to dispel the widely glorified notion that elected
28 officials and appointees can spare themselves from taking the “*jab*” because of who they are,

1 while civil servants who have in many cases labored for decades on behalf of the County, the City
2 of Los Angeles and the State, as well as in public and private schools, must now submit to
3 vaccinations and other mandates because said officials and appointees have now branded same as
4 a term and condition of employment. But it is not, nor have all labor organizations who have
5 donated millions to the coffers of the politicians in question conceded same, with the California
6 Correctional Peace Officers Association (CCPOA) intervening and appealing the rulings sought
7 by a Receiver broadening mandates in correctional facilities. *Plata, et al., vs. Newsom, et al.*
8 (USDC, 01-CV-01351-JST).⁶

9 10. The actions of government officials responsible for the debacle herein, under the
10 guise of a public health necessity pales when actions by the government officials in exempting

11 _____
12 ⁶ In turn, Circuit Judges W. Fletcher, Ikuta and Bennett of the 9th Circuit, on November 26, 2021,
13 in 9th Circuit Case No. 21-16696, issued a Stay pending briefing relative to the Receiver’s Orders,
14 which would force correctional employees and prisoners to vaccinate. On April 25, 2022, the 9th
15 Circuit issued its Memorandum Opinion and found that vaccination of employees was not
16 mandatory and that deferral to the wisdom of the prison authorities’ current attitudes and conduct
17 was warranted. Governor Newsom has since proudly noted when seeking dismissal from this case
18 that he too sought reversal of the Receiver’s Orders in these regards.

19 However, Governor Newsom has used his “*soap box*” to demand that all Californians, including
20 infants, toddlers and children ages 5-12, be vaccinated. Although Governor Newsom claims
21 immunity, the fact remains that his directives, coupled with those issued by Defendant Dr. Tomás
22 Aragón of the CDPH have driven other Defendants herein to adopt conditions of employment and
23 conditions of attendance legislation to the continuing detriment of F2C members and others living
24 in or visiting California.

25 For instance, Governor Newsom has also since signed into law Assembly Bill 2098, on
26 September 30, 2022, that would compel disciplinary action against licensed physicians and
27 surgeons by the Medical Board of California and the Osteopathic Medical Board of California for
28 unprofessional conduct. The conduct is defined as the disseminating of “misinformation or
disinformation” related to the SARS-CoV-2 coronavirus, or “COVID-19”. This law effectively
seals shut the availability of medical exemptions for F2C members, for fear that a medical
professionals ability to continue practicing will be endangered, even though the California
Supreme Court in 1974 condemned efforts to prevent osteopaths from practicing medicine.
D’Amico vs. Board of Medical Examiners (1974), 11 Cal. 3d 1. It is the alternative medicine that
osteopaths have encouraged in lieu of vaccinations that has created this latest effort to rewrite
history to ensure suppression of the truth about Covid-19 and the dastardly ramifications of
“*jabbing*”, wearing masks, taking PCR tests and resorting to traditional prescriptions offered by
the very pharmaceuticals who are producing and marketing the “*jab*”.

1 themselves, their families and friends, mirror the protections normally afforded to prisoners under
2 the *Eighth Amendment* of the *United States Constitution*, namely the right to lawfully refuse
3 vaccinations. However, by withholding such protection from public sector, as well as private
4 sector employees, blatant discrimination and a denial of equal protection persists. This has and
5 will continue to occur, notwithstanding guarantees in California’s Constitution, which were
6 designed to protect all Californians and to keep the Golden State, *GOLDEN!* including for visitors
7 and former residents who have moved away from California, either because of the skyrocketing
8 cost of living and/or the sad state of affairs more fully described herein.

9 11. Likewise, more than 500 Firefighters, now more than 1000 strong, sued the *CITY*
10 *OF LOS ANGELES*, in *FIREFIGHTERS4FREEDOM FOUNDATION, ET AL., VS. CITY OF LOS*
11 *ANGELES*, Los Angeles Superior Court Case No. 21 STCV34490, with said action previously
12 pending before Judge Michael Linfield in Department 34. The Court issued prejudicial rulings of
13 a political nature and has effectively terminated said action on Demurrer in February 2022, while
14 sanctioning the actions of the City in placing employees, including *Firefighters4Freedom (F4F)*
15 members who have refused the “*jab*,” off on an indefinite leave of absence without pay, without
16 first satisfying due process requirements under *Skelly vs. State of California (1975), 15 Cal.3d 194*
17 let alone the *Firefighters Procedural Bill of Rights, Government Code § 3250, et seq.* In turn,
18 Judge Linfield sought to extend his rulings to the instant lawsuit on invitation of the City of Los
19 Angeles who was then refusing to file an appearance in the instant lawsuit, although Barbara
20 Romero, the head of Sanitation and Wastewater, had already acknowledged receipt of service of
21 the lawsuit as well as the DFEH/Tort Claim enclosed therewith.

22
23 12. After Judge Linfield initially transferred the instant action to his Department,
24 undersigned counsel then filed Objections along with an affidavit of prejudice commonly known
25 as a *170.6* against Judge Linfield. Suffice it to say this gamesmanship and the latest brand of
26 “*industrial justice*” dispensed against *F4F* and its members⁷ has sought to eradicate longstanding
27

28

⁷ See Appendix “A” and reference to John Knox, the founder of *F4F*, and his role in ensuring that the rights of *F4F* are not buried in a legal morass, but rather remain viable hereinafter. Also see

1 labor laws condemning disciplinary actions, including indefinite leaves of absence without pay
2 without any indicia of due process; has caused an onslaught of religious exemption denials,
3 including for the Fire Department’s Chaplain; and is now resulting in Board of Rights hearings
4 designed to discharge unvaccinated firefighters, particularly vocal ones who have expressed not
5 only sincere religious beliefs but challenged mandates which have threatened the livelihood of the
6 public, including their own families and themselves. Towards this end, these first responders have
7 been instrumental in preparing a tracking system about adverse events due to the unreliability⁸ of
8 metrics utilized by Dr. Barbara Ferrer to impose greater mandates. *F2C* on behalf of the instant
9 public sector employees which includes firefighters, submits that this ramping up of firings and
10 the most recent visit by now Fire Chief Kristin Crowley at Fire Stations to express her dismay
11 (veiled threats) about the large number of exemption requests pending on her desk, cannot be
12 countenanced, particularly since other City and County Departments, as well as LACOE and
13 LAUSD, by and through Personnel Representatives have been arbitrarily picking and choosing
14 whom to accommodate and whom to discharge and/or keep off without pay, while castigating City
15 employees like Plumber David Shubin for daring to “bring God into the workplace”. At the same
16 time, Plaintiffs’ and *F2C* members have experienced the devastating effects upon family,
17 coworkers and/or friends who now regret succumbing to a “medical procedure” that United States
18
19
20
21

22 Appendix “C” and “D” detailing first responders who persist in challenging the unlawful actions
23 at issue herein.

24 ⁸ This is especially true since not a single trial on the safety of the three vaccinations in use in the
25 United States had been completed, with the Lymphoma and Leukemia Society COVID-19
26 Registry not even set to disclose its results until February 23, 2031. In the meantime, the
27 deleterious effects upon the public at large is no longer speculative, with the proof of same
28 embodied in firsthand accounts from *F2C* and *F4F* members, including in the Department of
Water and Power, who either refused or accepted the “jab” and then learned after-the-fact that
there is no insurance or workers compensation coverage to cover their newly discovered ailments
because the “*Jab*” and its spike protein was and remains experimental in nature.

1 Supreme Court Justice Clarence Thomas has warned they “cannot undo”.⁹ In light of same and
2 the continuing efforts by Defendants to strip the public sector workforce of its right to continue
3 working without jeopardizing their physical, emotional and financial wellbeing, let alone the
4 livelihood of school-aged children as well as young adults now banned from colleges and
5 universities for refusing to vaccinate, necessitates further pursuit of this action at this time.

6 13. In light hereof, the STILLERS’ and many F2C members, including first responders
7 in the County and the City, continue to firmly believe that the “jab” needs to be halted along with
8 other mandates at issue herein. Plaintiffs submit there is ample evidence that the vaccination is a
9 bioweapon designed to depopulate the world, and to abolish basic tenements of the *Nuremberg*
10 *Code* embodied in 50 U.S. Code §1520(a), which criminalized the use of experimental testing and
11 medical procedures during *World War II*. In fact, the Vaccine Adverse Events Reporting System
12 (VAERS) maintained by the Department of Health and Human Services notes that the number of
13 adverse events since the beginning of the “pandemic” from these vaccinations far exceed reports
14 covering three decades of adverse events involving all other vaccinations on the market. A true
15 and correct copy of three VAERS Reports, including in 2021, as well as of December 23 and 30,
16 2022 for the 2022 Calendar Year, has been reproduced from <https://VAERS.hhs.gov> and is
17 attached hereto as Exhibit “7”. The most recent report shows 33,469 deaths and the reporting of at
18 least 1,494,362 adverse reactions; when F4F referenced the VAERS statistics from August 2021,
19 the number of adverse events was only 447,446, with only 6,112 deaths reported. So either
20 273570 more deaths have occurred or as government authorities have finally admitted not all
21 adverse events were reported to begin with, with many other deaths excluded because the deaths
22 occurred too close to the date of vaccination or comorbidities could be blamed instead, including
23 at such health care facilities in the County and the City as LAC+USC, Harbor-UCLA and Olive
24 View. Nonetheless as Exhibit "7" notes, the number of deaths associated with Covid-19 vaccines
25

26
27 ⁹ Thomas, J. Dissenting Opinion, *Biden vs. Missouri, et al.*, 595 US -- (2022); then see *National*
28 *Federation of Independent Business vs. OSHA, et al.*, 595 US - , 142 S.Ct. 661 (2022, per curiam)
refusing to force mandates upon private sector employers with more than 100+ employees.

1 is greater than the number of deaths associated with all other vaccines combined since the year
2 1990. Meanwhile, the CDC has reported that the current vaccine is incapable of stopping
3 transmission of variants since other studies have shown that the very vaccines all of F2Cs
4 members are being ordered to take cause the vaccinated to pass the dominant (>99%) Delta strain
5 amongst each other, while vaccinating one who has previously had Covid and/or possesses natural
6 immunities threatens the immunities themselves.¹⁰

7 14. Plaintiffs are informed that the Los Angeles Police Protective League (LAPPL), the
8 United Firefighters of Los Angeles, Local 1014, and other Unions have stepped up to challenge
9 the bargaining which Defendants have engaged in, claiming there are unfair labor practices
10 particularly with respect to *BlueStone* and *PCR* developments. See decision of the Honorable
11 Rupert Byrdsong which issued on July 13, 2022, *LAPPL vs. City, et al.*, Los Angeles Superior
12 Court Case No. 21 STCV 39987, precluding the City from charging unvaccinated workers, as a
13 condition of employment, for *PCR* testing. However, *F2C* and its members submit that the real
14 issue is not simply about wages and forced leaves of absence, but the wholesale abrogation of the
15 privacy rights and sincere religious beliefs of all humans to maintain bodily autonomy and to
16 freely travel and associate with one another, while retaining one's employment, and to ensure
17 equal education for school aged-children and young adults.

18 15. Notwithstanding the United States Supreme Court's sharply divided opinion
19 refusing to stay President Biden's edict that all healthcare workers be vaccinated or face loss of
20 Medicare and Medicaid funding in *Biden vs. Missouri, et al.*, 595 US (2022), that same Court
21 relieved private employers of OSHA Regulations which was promulgated as a vehicle to impose
22 mandatory vaccination mandates upon private sector employers with 100 + employees. See
23

24
25 ¹⁰ See the New England Journal of Medicine, *Resurgence of SARS-CoV-2 Infection in a Highly*
26 *Vaccinated Health System Workforce* (September 30, 2021), <https://www.nejm.org/doi/full/10.1056/NEJMc2112981>. Similar opinions have issued relative to the strain from South Africa,
27 while others have turned their attention away from *Covid* to avoid the consequences of what
28 government officials have arbitrarily and capriciously imposed and continue to threaten to
impose in Southern California, including yet another mask mandate.

1 National *Federation, supra*, 595 US -, 142 S.Ct. 661, finding that the government could not
2 compel private sector employers to mandate vaccinations, let alone require its unvaccinated to be
3 subject to precisely what the instant unvaccinated public sector employees have been facing,
4 namely, weekly testing, and face masks. Despite same, many private Employers in California are
5 relying upon the ill-conceived opinions of Dr. Aragón from CDPH and the Social Worker who
6 heads up Los Angeles County’s Public Health Department, namely Dr. Barbara Ferrer, in all
7 likelihood to cash in on the substantial Covid Relief Funds which have provided more than a
8 billion dollars collectively to the very government entities sued herein.

9 16. Between litigation separately brought by *F4FF, LAPD* and other employees who
10 have initiated their own litigation and the instant case, more than 4,000 employees have actively
11 gone on record in resisting the “*jab*” or are declining to state whether they are or are not
12 vaccinated because of the fundamental privacy rights at issue. *F2C* is informed and believes that
13 many employees who were cajoled into jabbing have joined *F2C* because of the adverse effects
14 experienced by them or their family members, and/or their recently renewed belief that
15 government should not have the right to dictate one’s right to bodily autonomy. If all these
16 employees are removed, including for refusing boosters specifically mentioned in the Vaccine
17 Ordinances, the sheer number and length of time to provide due process to these employees, many
18 of whom are long term dedicated civil servants, will postpone for years a timely and fair
19 disposition of these matters to the detriment of not only the public but employees and their
20 families alike. Plaintiffs are aware that the City Attorneys Office and Personnel and Human
21 Resources representatives have assured unvaccinated employees, as well as vaccinated refusing to
22 divulge their status for privacy reasons, that a process will exist to challenge one’s removal.
23 However, revelations by the CITY’s CIVIL SERVICE COMMISSION to Plaintiff GARY
24 ROGERS who was removed from work before Thanksgiving 2021 that he will not be allowed to
25 challenge the merits of the underlying mandates when contesting his anticipated severance or
26 disciplinary actions, provides Plaintiffs and *F2C* members with a hollow Civil Service system
27 incapable of ensuring the merit system, let alone a forum in which to enforce state and federal
28 statutes. The acknowledgement by Executive Director Bruce Whidden on December 1, 2021, that

1 the City Council divested the Commission of jurisdiction to consider such defenses without even
2 giving Civil Service Advocates or the public an opportunity to be heard shows the arbitrary and
3 capricious manner in which *F2C* members and all City and presumably County employees will be
4 treated. In fact, *F2C* members John Knox, founder of *F4F*, and Armando Carranza, both first
5 responders from the City, are aware that the City has already caused similar directives to be issued
6 to Panel Members sitting on Board of Rights hearings involving police officers and firefighters,
7 thereby precluding allegedly unbiased Panel Members from rendering informed decisions before
8 deciding the fate of aggrieved firefighters facing termination after, in most cases, more than one
9 year off without pay.

10 17. At the same time, because many Union representatives were “unavailable” to
11 answer calls, *F2C* knows that many rank-and-file employees of the City and County of Los
12 Angeles are being denied timely assistance to defend against threatened disciplinary actions let
13 alone the sudden denial of exemption requests with unreasonably short times to appeal therefrom.
14 For instance, City employees have been given 5 days to appeal from the date of Discharge Letters
15 and/or Exemption Denials, even though the mail transmittal was delayed and intervening holidays,
16 if applicable, were also counted in the 5 day appeal deadline. Despite same, *F2C* will not abandon
17 its members and believes the time has come for these wage earners to be respected along with the
18 first responders who have joined in this action on behalf of themselves and all other employees
19 and dependents facing the loss of their constitutional and statutory guarantees, i.e. privacy,
20 freedom of speech and association, and a proper education for all young people.

21 18. Although IBEW Local 18 claimed to have procured orders exempting all DWP
22 employees from the vaccination mandates, the release of disciplinary letters on December 1, 2021,
23 to DWP employees, and the withholding of overtime and promotional assignments ever since,
24 including involving the Navajo Nation has intensified the hostile and offensive working conditions
25 to which unvaccinated employees have been and are being subjected. As a consequence, Plaintiffs
26 must persist in their efforts to contest all mandates issued by the City and the County, as well as
27 the State of California. This is especially necessary because even the general public was
28 forewarned that effective December 18, 2021, only the vaccinated could enter government

1 facilities, including the Headquarters of DWP and various government offices. Access is still
2 being hampered for unvaccinated employees and members of the public seeking services, although
3 private vendors delivering pizzas or furnishing UBER services are not so treated. Such continued
4 retaliation against anyone who dares to question how named Defendant government officials have
5 and will continue to force vaccinations, *PCRs*, continued masking, and passports upon residents,
6 taxpayers, children, and its workforce in Southern California while hiding behind a virtual screen
7 in place and stead of an open forum with robust debate must be enjoined Without accountability,
8 the only ones with rights will be those to whom the masses are allegedly beholden, rather than
9 vice versa.

10 **A) PARTIES AND JURISDICTION**

11 19. Plaintiff *FREEDOMTOCHOOSELA (F2CLA)* is a grassroots humanitarian effort
12 which has applied for California non-profit corporation status to secure and protect the rights of its
13 members to earn a living and to ensure the education of ones' children, without infringement upon
14 one's right to privacy, to ensure one's bodily autonomy, and the continued enjoyment of such
15 basic freedoms of speech, religion, association and assembly.

16 20. As Founders of *F2C*, NEIL STILLER, employed by the CITY OF LOS
17 ANGELES' DEPARTMENT OF WATER AND POWER (DWP) as an Electrical Repairer and
18 his wife, KIMBERLY STILLER (THE STILLERS), pay taxes to the State of California. Both
19 actively oppose the loss of privacy and the discrimination which Government Employers and
20 Government entities named herein seek to impose upon some but not all public and private sector
21 employees and residents of the State of California, including school-aged children and young
22 adults, while depriving all but a select few of the right to decide one's course of medical treatment,
23 to freely move throughout the State of California, to associate with one's colleagues, and to
24 provide for the health and wellbeing of not only themselves, but all human beings.

25 21. The remaining lead Plaintiffs and their job classifications include the following
26 City employees: ISABEL MARQUEZ (Senior Admin Clerk, DWP-EC), WILSON TURNER
27 (Instrument Mechanic, DWP), DAVID GUNTHER (Heavy Duty Equipment Mechanic, DWP-
28 Fleet), TODD TYLOCH (Lineman, DWP), RAY MOILANEN (AMM, DWP/Power Operations),

1 GABRIEL DOYLE (Electrical Mechanic Supervisor, DWP), ISAAC HERNANDEZ (Welder
2 Supervisor, DWP/General Construction PCM), ED MITCHELL (Systems Programmer I, Harbor
3 Department/IT), BRYAN EPSTEIN (Senior Building Mechanical Inspector, Building & Safety),
4 TRACY BARON (Underground Distribution Construction Supervisor, DPW), MAYRA B.
5 RAYA CRUZ (Airport Superintendent of Operations), AMBER LESLIE (Management Aide,
6 Harbor/Port Police), ADRIAN GAUTHIER (Code Enforcement Inspector, LA Housing
7 Department), HAROLD RAPHAEL (Engineer, City Fire Department), CHRIS KEY (Building
8 Mechanical Inspector, Building & Safety), GARY ROGERS (Air Conditioning Mechanic,
9 General Services Department), SANTIAGO ENRIQUEZ (Refuse Collection Truck Operator,
10 Bureau of Sanitation), SUSANNA HERNANDEZ (Adult Teacher, LAUSD), NICHELE
11 WEATHERFORD (Security Officer, DWP) and JOSEPH “JZ” ZEICHICK (Building Repairer,
12 Zoo).

13 22. Likewise, State employee BERNICE MOLANO¹¹ (Office Technician, CDCR), as
14 well as County employees TAMI OLENIK (RN/Case Manager, LAC+USC), MANNY BARRIOS
15 (Supervising Lake Lifeguard, Beaches and Recreation), RAMONA BILANCSUK (Payroll Clerk
16 I), GLORIA CHAVEZ (Deputy Sheriff/Sergeant First Class, US Army Reserves), JOANNA
17 CENTENO (RN/Case Manager, LAC+USC), LISETTE MEJIA CRUZ (LVN – Olive View),
18 ANGEL VASQUEZ (Deputy Sheriff), as well as CRISTIAN GRANUCCI (Captain/Paramedic,
19 City Fire Department), and parent RICHARD McDONALD (Project Engineer) are the remaining
20 Lead Plaintiffs. All Lead Plaintiffs and those separately identified in Appendix “A” are also
21
22

23 ¹¹ The state-wide vaccination mandates in Correctional facilities which would have forced long
24 term State employee, Bernice Molano, a firm believer in God, as well as her colleagues to “*jab*”
25 has since been halted in a case about prison overcrowding. *Plata, et al., vs. Newsom, et al.*
26 (USDC, 01-CV-01351-JST). As of April 25, 2022, the Ninth Circuit (Case No. 21-16696) has
27 stated that mandatory staff vaccinations is no longer required, although local officials retain
28 authority to make decisions in these regards. In the meantime, the State has turned over testing of
unvaccinated employees to a new carrier who is actively compiling private information about
State employees, while electronically signing consents not even presented to employees. Because
Molano protested this practice, Molano has since been disciplined.

1 speaking out on behalf of their children and grandchildren and have authorized this legal action to
2 actively oppose all COVID-19 related Ordinances and Directives of DEFENDANTS mandating
3 COVID-19-related “*Vaccinations*”, *Testing*, *Masking*, *Microsoft Daily Passes* and *Passports*,
4 which have been targeted at Plaintiffs and their families, while exempting public officials from
5 same. Like THE STILLERS, all Lead Plaintiffs are taxpayers who are personally affected by the
6 mandates at work, during their off-duty hours, and in their childrens’ schools.

7 23. The STATE OF CALIFORNIA (STATE) is a sovereign State which employ
8 thousands of employees in its various agencies located throughout the State of California, with its
9 most noticeable Departments including, but not limited to, CALTRANS (the Department of
10 Transportation), the California Highway Patrol, the California Department of Public Health, the
11 Department of Forestry, the Department of Motor Vehicles, and the Department of Corrections
12 and Rehabilitation, maintaining facilities in the Southern California area. *F2C* is informed and
13 believes the State of California employs more than 150,000 civil servants, including many serving
14 at the pleasure of the appointing authority, as well as those covered and protected by the State
15 Employer-Employee Relations Act, *Government Code §3512, et seq.*, often cited as the *Ralph*
16 *Dills Act*.

17 24. Despite same, GOVERNOR GAVIN NEWSOM (NEWSOM), sued in his official
18 capacity, was among the first in the nation to take credit for exercising his gubernatorial authority
19 during 2020 to place California in a State of Emergency because a COVID-19 virus was believed
20 to have escaped from the Wuhan Laboratory in China. NEWSOM also caused a Memorandum of
21 Understanding to be entered into with KAISER PERMANENTE to ensure the vaccination of
22 essentially *everyone* in California¹² and has sought to take away basic freedoms and rights
23 guaranteed by the California Constitution, if not the Constitution of the United States as well,
24 when mandating for residents in California various COVID protocols, including social distancing,
25

26
27 ¹² See lawsuit filed with the support of America’s Frontline Doctors, entitled *United KP Freedom*
28 *Alliance, et al., v. Kaiser Permanente*, USDC 21-CV-07894, to redress the mass firing of Kaiser
employees who refused to be vaccinated by September 30, 2021.

1 school and church closures, mask mandates, and most recently vaccinations, including for State
2 employees and healthcare workers. Finally, on October 1, 2021, NEWSOM announced that once
3 the Food and Drug Administration (FDA) approved a COVID vaccine, California will require
4 eligible students in public and private schools between the ages of 5 and 12 to be vaccinated, while
5 others are seeking to impose vaccinations on infants at the age of six months, even though many
6 conceived during the “*plandemic*” have already been subjected to such doses in utero.

7 25. The CITY OF LOS ANGELES (CITY) is a government entity whose primary
8 offices are located at 200 N. Spring, Los Angeles, California 90012, within this judicial district. In
9 these regards, the CITY operates numerous Departments, including, but not limited to, its POLICE
10 DEPARTMENT, FIRE DEPARTMENT, SANITATION DEPARTMENT, the HARBOR
11 DEPARTMENT/THE PORT OF LOS ANGELES, the ZOO, GENERAL SERVICES, PARKS &
12 RECREATION, BUILDING & SAFETY, ANIMAL SERVICES, TRANSPORTATION, LA
13 HOUSING, LOS ANGELES WORLD AIRPORTS, and the DEPARTMENT OF WATER AND
14 POWER, while employing more than 75,000 civil servants, including many serving at the pleasure
15 of the appointing authority, as well as those covered under various Memorandums of
16 Understanding, pursuant to the City’s Charter and Local Employee Relations Ordinance, which
17 seeks to internally provide for compliance with the *Meyers-Milias Brown Act, Government Code*
18 *§3500, et seq.* As of the date of its first series of threats, it was estimated that of the workforce, less
19 than 50% have been vaccinated, with politicians claiming this is due to political affiliations, while
20 making a mockery of legitimate requests for religious and medical exemptions which the City has
21 largely overlooked or borne animus towards.

22 26. ERIC GARCETTI, the MAYOR of the City of Los Angeles, has directed the
23 leadership of various City Departments including, but not limited to, MICHAEL MOORE, Chief
24 of the Los Angeles Police Department; RALPH TERRAZAS, Fire Chief of the Los Angeles City
25 Fire Department; MARTIN ADAMS, General Manager of the DEPARTMENT OF WATER
26 AND POWER; JUSTIN ERBACCI, Chief Executive Officer of the LOS ANGELES WORLD
27 AIRPORTS; DENISE M. VERRET, Chief Executive Officer, the LA ZOO; MICHAEL
28 SHULL, General Manager, PARKS & RECREATION; BARBARA ROMERO, General

1 Manager, BUREAU OF SANITATION; TONY ROYSTER, General Manager, GENERAL
2 SERVICES DEPARTMENT; ANN SEWILL, General Manager, LA HOUSING DEPART-
3 MENT; EUGENE SEROKA, Executive Director and MARLA BLEVINS, Deputy Executive
4 Director and Chief Financial Officer, PORT OF LOS ANGELES and its HARBOR DEPART-
5 MENT; OSAMA YOUNAN, General Manager, and ERIC JAKEMAN, Assistant Bureau Chief,
6 LA BUILDING AND SAFETY; BRUCE WHIDDEN, Executive Director, THE LOS ANGELES
7 CIVIL SERVICE COMMISSION; and MATTHEW SZABO, Los Angeles City Administrative
8 Officer; to implement COVID mandates touted by GARCETTI and adopted by the CITY
9 COUNCIL, including NURY MARTINEZ, GIL CEDILLO, PAUL KREKORIAN, BOB
10 BLUMENFIELD, NITHYA RAMAN, PAUL KORETZ, MONICA RODRIGUEZ,
11 MARQUEESE HARRIS-DAWSON, CURRY PRICE, MARK RIDLEY-THOMAS, MIKE
12 BONIN, JOHN LEE, MITCH O'FARRELL, KEVIN DE LEÓN, AND JOE BUSCAINO. The
13 City tallied by Department who was or was not vaccinated and/or declined to state, with the
14 results of same attached hereto as Exhibit "8". Because close to only 50% had been "jabbed", the
15 City ramped up its efforts and issued Public Orders on October 6, 2021, wherein the
16 COVID mandates continue to reference social distancing and mask requirements, but also full
17 vaccinations, unless given an exemption, as a condition of continuing employment, or as a
18 condition to being given access to events and as most recently announced by the City Council,
19 entrance into even grocery stores. A true and correct copy of said Ordinance is attached hereto as
20 Exhibit "9". In light of same, GARCETTI, MOORE, TERRAZAS, ADAMS, ERBACCI,
21 VERRET, SHULL, ROMERO, ROYSTER, SEWILL, SEROKA, BLEVINS, YOUNAN,
22 JAKEMAN, WHIDDEN, and SZABO and each COUNCIL MEMBER named herein are sued in
23 their official capacity.

24 27. The COUNTY OF LOS ANGELES, a government entity whose primary offices
25 are located at 222 North Grand Avenue, Los Angeles, California 90012, within this judicial
26 district, operates numerous Departments throughout unincorporated areas of the COUNTY OF
27 LOS ANGELES and provides services for a fee to Contract Cities. The COUNTY's Departments
28 include, but are not limited to, the SHERIFF'S OFFICE, the FIRE DEPARTMENT, the

1 DEPARTMENT OF PUBLIC WORKS, the PROBATION DEPARTMENT, the PUBLIC
2 HEALTH DEPARTMENT and its ENVIRONMENTAL HEALTH UNIT, the TAX
3 COLLECTOR, the DEPARTMENTS OF HEALTH SERVICES, PUBLIC SOCIAL SERVICES,
4 BEACHES AND RECREATION, and numerous other Departments providing services to
5 residents, businesses and non-residents. Plaintiffs are informed and believe that the COUNTY
6 employs more than 110,000 employees in its various Departments. As of the date of threatening
7 this action, it is estimated that of that workforce, less than 50% had been vaccinated, with a wide
8 spread number of its employees disputing the claim that the COVID mandates should be
9 mandatory, treated as a condition of employment for some but not all, or used as a means to
10 withhold COUNTY services and benefits, including admission into Museums or other recreational
11 areas, maintained with monies received from taxes paid by Plaintiffs and others on a regular basis.

12 28. MEMBERS OF THE BOARD OF SUPERVISORS, including HILDA SOLIS,
13 JANIS HAHN, HOLLY MITCHELL, SHEILA KUEHL and KATHRYN BARGER, are hereby
14 sued in their official capacities, along with FESIA DAVENPORT, the COUNTY's CHIEF
15 EXECUTIVE OFFICER, for not only authorizing a mandatory vaccination policy, but taking
16 additional steps to ensure that only fully vaccinated members of the public will receive a passport
17 permitting attendance at concerts and public events and the ability to enjoy indoor dining and
18 similar activities which the non-vaccinated shall be restricted from unless one has taken a
19 mandatory PCR test within the 72 hours prior to admission. These measures have been adopted
20 without regard to the fact that nonvaccinated residents of the County contribute the same, if not
21 greater monies as taxpayers to the County of Los Angeles. The Orders of the COUNTY's
22 HEALTH DEPARTMENT, dated September 28, 2021, detailing how the COVID-19 mandates
23 would be implemented, as of October 7, 2021, is attached hereto as Exhibit "10". Shortly
24 thereafter the COUNTY's COVID-19 Vaccination Policy prepared by the County's Department of
25 Human Resources was codified into Policy #640, effective October 1, 2021, and signed off on by
26 DEFENDANT LISA GARRETT, with a true and correct copy of same attached hereto as Exhibit
27 "11".

28 29. The LOS ANGELES UNIFIED SCHOOL DISTRICT (LAUSD), under the day-to-

1 day operations of Superintendent MEGAN REILLY, who was preceded by AUSTIN BEUTNER,
2 operates the second largest public school system in the United States, grades K-12, and in which
3 more than 620,000 students attend, as well as independent Charters and affiliated Charter Schools
4 throughout Los Angeles County. LAUSD is primarily headquartered at 333 S. Beaudry, Los
5 Angeles, California 90017, within this judicial district and employs more than 75,000 employees.
6 Plaintiffs are informed and believe that LAUSD sets the bar for all other School Districts in the
7 State of California. As of the date of filing, it is believed that LAUSD has perpetuated discourse
8 between parents and school-aged children by seeking to bully students into accepting the
9 vaccinations, in some cases without parental consent, to avoid the student losing contact with
10 his/her friends or the ability to enjoy extra-curricular activities. This has occurred even though
11 LAUSD has refused to inform parents and students of VAERS data which has irreversibly
12 affected the lives of many school-aged children across the country who were vaccinated and have
13 either died or will suffer the consequences for the rest of their lives. To achieve compliance,
14 LAUSD has imposed further draconian measures recommended by the COUNTY's Public Health
15 Officer, Dr. Barbara Ferrer, including that as of October 3, 2021, or the next latest date of
16 November 1, 2021, unvaccinated youth are prohibited from participating in extra-curricular
17 activities, while distant learning or virtual attendance in the future has also been threatened. At the
18 same time, LAUSD has sought to obtain full vaccination compliance amongst staff, and in so
19 doing have severed more than 400 employees, while indicating to non-vaccinated employees,
20 including Plaintiff SUSANA HERNANDEZ and JENY VASQUEZ, that although Virtual
21 Learning assignments exist, for the most part the non-vaccinated employees will not be so
22 assigned, but instead forced to depart the District entirely.

23 30. Defendant MEGAN REILLY (hereinafter Defendant REILLY) is the
24 Superintendent of the Los Angeles County Unified School District ("LAUSD") who is now
25 charged with the daily operations of LAUSD, including implementing the policies and mandates
26 established by former Superintendent Austin Beutner. Defendant REILLY is sued in her official
27 capacity, only.

28 31. The LOS ANGELES COUNTY OFFICE OF EDUCATION (LACOE) under the

1 auspices of its Superintendent, DR. DEBRA DUARDO, sued in her individual capacity, provides
2 support to School Districts throughout the County of Los Angeles and other educational facilities,
3 including alternative education, juvenile court schools, custodial facilities, and various schools of
4 the performing arts. LACOE is primarily headquartered at 9300 Imperial Highway, Downey,
5 California 90242 and represents itself as providing services to more than 1.4 million students
6 attending schools throughout the County of Los Angeles. If LAUSD and LACOE are not
7 enjoined, students throughout the State of California will continue to be deprived of the equal
8 education that they are entitled to receive according to California’s Constitution and federal
9 mandates.

10 32. Defendants GEORGE MCKENNA, MONICA GARCIA, JACKIE GOLDBERG,
11 SCOTT SCHMERELSON, NICK MELVOIN, KELLY GONEZ, and TANYA ORTIZ
12 FRANKLIN, respectively, are members of the LAUSD Board of Education (collectively, the
13 “Board Members”), who despite being apprised of the ill-conceived vaccination mandates, PCR
14 Testing, masking, and *Daily Pass* programs, have insisted instead that each School enforce the
15 mandates upon students and staff members alike. Each of the Board Members are sued in their
16 official capacity as well.

17 33. Additionally, members of the BOARD OF WATER COMMISSIONERS which
18 oversees DWP, is also sued herein, including President CYNTHIA McCLAIN HILL, SUSANA
19 REYES, NICOLE NEEMAN BRADY, JILL BANKS BARAD-HOPKINS and MIA LEHRER, in
20 their official capacities.

21 34. PUBLIC HEALTH OFFICIALS DR. TOMÁS ARAGÓN, DR. MUNTO DAVIS
22 and DR. BARBARA FERRER, who have guided and prescribed the terms of the various
23 mandates now being enforced are sued in their official capacity.

24 35. The true names and capacities, whether individual, corporate, associate, or
25 otherwise, of DOES 1 through 500 inclusive, are unknown to Plaintiffs at this time. Plaintiffs
26 therefore sue said Defendants by such fictitious names. Plaintiffs are informed, believe and
27 thereon allege that each of the fictitiously named Defendants are in some way responsible for,
28 participated in, or contributed to the matters and things complained of herein and is legally

1 responsible in some manner. Plaintiffs will seek leave to amend this Complaint when the true
2 names, capacities, participation, and responsibilities have been ascertained. Plaintiffs are informed
3 and believe, and thereon allege, that at all times herein mentioned, the Defendants named in this
4 action, as well as the fictitiously named Defendants, and each of them, were agents and employees
5 of the remaining Defendants and in so doing the things hereinafter complained of, were acting
6 within the course and scope of such agency and/or employment and with the knowledge and
7 consent of the remaining Defendants.

8 **B) GOVERNING LEGISLATION**

9 36. This lawsuit seeks declaratory and injunctive relief, as well as damages, due to the
10 passage and enforcement of the following but not limited to COVID-19 Vaccination Mandates
11 which were adopted and have or are being rolled out in full force and effect by the government
12 entities and their officials, collectively Defendants herein. It should be noted there are numerous
13 legislative enactments which authorized various public agencies, including municipalities, County
14 governments, and other public entities, i.e. School Districts, institutions of higher learning and
15 similar entities, to handle their own labor relations matters in lieu of the State's Public
16 Employment Relations Board (PERB) which may enforce provisions of the *Meyers-Milias Brown*
17 *Act, Government Code §3500, et seq.* and the *Higher Education Employer-Employee Relations*
18 *Act, Government Code §3560, et seq.* if a mechanism does not separately exist to ensure stable
19 labor relations within municipalities and County governments. Herein, Defendant government
20 entities, generally by charter provisions, have established their own procedures to provide for
21 collective bargaining and a means to adjudicate disputes before its own Civil Service and/or
22 Employees Relations Commission. However, F2C is informed and believes that a ruling from the
23 Public Employment Relations Board (PERB), which issued on July 26, 2021, involving AFSCME,
24 *PERB Decision 2783-H*¹³, was and is still being used to thwart the obligation to bargain with
25

26 _____
27 ¹³ *PERB Decision 2783-H* found that flu vaccine mandates are not proper subjects of bargaining,
28 but rather permits a Union to bargain over the effects of the mandates on its employees. Plaintiffs
wholeheartedly disagree with the initial premise since AFSCME did not seek to refute the Regents
case, nor did it offer any evidence calling into question the true motive of the University to justify

1 employee representatives over the vaccine mandates, on the basis that PERB said you do not have
2 to bargain. However, each government entity herein is not bound by said decision, while
3 Defendants have also refused to permit employees to ratify or reject these critical changes to their
4 terms and conditions of employment, even though their pay could be grossly reduced by more
5 than \$500.00 per month because of *BlueStone* and possibly even *Fulgent*. Ironically, Defendants
6 will in all likelihood assert an “emergency”, but will be unable to explain why additional pay due
7 and owing for rendering services because of the “emergency”, per the terms of various
8 Memorandums of Understanding, aka collective bargaining agreements, has not been paid. Each
9 of these machinations are directly contrary to sound labor relations.¹⁴

10 **(1) The State of California**

11 a) Although NEWSOM in January 2021 caused an Agreement to be entered into
12 with KAISER PERMANENTE to make California a “fully vaccinated” state, KAISER and in
13 turn the STATE OF CALIFORNIA issued various orders to sidestep the collective bargaining
14 process. When KAISER believed its employees would leave employment with KAISER for
15 other healthcare institutions, on August 5, 2021, the State of California announced it would
16 impose a vaccine mandate on healthcare workers. The pending challenge to same by *America’s*
17 *Frontline Doctors* is referenced in footnote 4, above.

18 b) Days before, on July 26, 2021, Governor Gavin Newsom announced in a press
19 conference that the State of California, as one of the largest employers in California would lead by
20

21
22 its intentions on mandating Covid-19 shots, rather than the typical flu vaccine most have been
23 accustomed to taking for years. AFSCME likewise did not appeal the decision even though the
24 “*jab*”, namely, to alter one’s genetic make-up is fundamentally different that fighting a flu virus.
25 It is rather ironic that the “flu” vaccine was quickly abandoned by the Regents of the University of
26 California post hearing, while governments have refused to bargain in good faith ever since.

27 ¹⁴ Unlike the County Firefighters Union, Local 1014, which believes that giving some money to
28 its recalcitrant firefighters which the County has offered will cause more to vaccinate, *F2C* and
F4F believe that one’s life should be worth quite more. As noted above, deceased pilots learned
that money is not the saving grace that it was supposed to be.

1 example and would implement a policy requiring vaccine verification of all state employees and
2 mandate regular COVID-19 testing for all unvaccinated employees working on site.
3 [https://www.gov.ca.gov/2021/07/26/california-implements-first-in-the-nation-measures-to-](https://www.gov.ca.gov/2021/07/26/california-implements-first-in-the-nation-measures-to-encourage-state-)
4 [encourage-state-](https://www.gov.ca.gov/2021/07/26/california-implements-first-in-the-nation-measures-to-encourage-state-). In fact, there was no Executive Order or anything signed or stamped by the
5 Governor, just a publication on his website following the announcement, although various State
6 Department under Newsom’s chain of command, including CalHR took immediate action.
7 Caltrans also immediately issued a Personnel Information Bulletin PIB 21-29 dated July 26, 2021.
8 Following the policy bulletin, a testing contract was executed to *ShareStaff* for COVID-19 testing
9 and testing was rolled out to all Caltrans Districts. In doing so, the Department implemented
10 mandatory weekly testing for those that are unvaccinated against SARS-CoV-2 or those who
11 chose not to declare their status when reporting to a worksite.

12 c) NEWSOM also sought to carry out a vaccine mandate at facilities under the
13 auspices of a Receiver in charge of the Department of Corrections and Rehabilitation (CDCR). As
14 the Order which issued on September 27, 2021, in *Plata, et al., vs. Newsom, et al.* (USDC, 01-CV-
15 01351-JST) reflected, approximately 75% of both incarcerated persons and health care staff, and
16 approximately 42% of custody staff, had been fully vaccinated as of that date. US District Judge
17 Jon Tigar noted in *Plata, supra*, that the overall staff vaccination rate was approximately 55%
18 statewide, with rates in the 30% range at several institutions and a correctional staff rate as low as
19 18% at one institution. Although Judge Tigar then sought to impose a vaccine mandate on
20 employees and prisoners, the California Correctional Peace Officers Association intervened and
21 appealed said decision. See footnote 6, above.

22 d) NEWSOM has also issued statements supporting vaccination of all school aged
23 children, including from ages 5-12, with the last such Press Release issuing from NEWSOM on
24 October 1, 2021. Although NEWSOM maintains that he cannot be held culpable for his Public
25 Statements, the fact remains that NEWSOM vigorously continues to claim the existence of an
26 emergency including when seeking to force Covid mandates upon older school aged children,
27 despite Health and Safety Code section 120335 which enumerates ten illnesses from which a
28 child must be immunized as a condition for enrollment in California’s schools. COVID-19 and

1 its variants are not included in the list, while government officials turned a blind eye to the
2 personal exemption process envisioned by the Legislature for all but the ten mandated
3 vaccinations.

4 **(2) The County of Los Angeles**

5 a) The purported Executive Order issued on August 4, 2021, by Hilda Solis, chair of
6 the LOS ANGELES COUNTY BOARD OF SUPERVISORS “[e]stablish(ing) a mandatory
7 vaccination policy, effective immediately, which requires all County employees to provide proof
8 of full vaccination by October 1, 2021” was then ratified by the BOARD OF SUPERVISORS on
9 August 10, 2021. These actions were undertaken in contravention of the *Ralph M. Brown Act*,
10 §§ 54950 et seq. of the California *Government Code*. When so ratifying the Order, HILDA
11 SOLIS, KATHRYN BARGER, HOLLY MITCHELL, SHEILA KUEHL and JANICE HAHN
12 engaged in little debate about the far-reaching consequences of this unprecedented mandate
13 affecting not only more than 110,000 employees of the County, but the population of Southern
14 California and all visitors who come to the COUNTY OF LOS ANGELES. The Order remains
15 in full force and effect, with COUNTY DEPARTMENTS, with the exception of the then
16 Sheriff’s Department, enforcing said Orders by mandating masking and *PCR* testing for its
17 employees, while also implementing a “*Passport Program*” set initially to commence on
18 October 7, 2021, which discriminates against individuals seeking to gain access to concerts,
19 clubs, indoor and outdoor events, restaurants, and businesses, including stores, henceforth, unless
20 they can show proof of one’s vaccination status or receipt of negative testing procured within 72
21 hours of one seeking to gain access. Such a requirement is not mandated from the vaccinated,
22 despite their greater propensity to spread let alone be infected with the virus.

23 b) At the same time, the County has resisted granting exemptions submitted by non-
24 vaccinated employees in the County of Los Angeles and have allowed religious and medical
25 exemption requests to be largely ignored. To try and hide its dilatory response, the County
26 commenced questioning the religious beliefs of employees seeking a religious exemption by
27 demanding that additional forms be filled out about such topics as fetal cells and one’s exposure
28 and/or use of same during one’s lifetime. A copy of this inquiry postponing the granting of an

1 exemption for Plaintiff RN TAMI OLENIK and RN OLENIK's well-reasoned response founded
2 on her religious beliefs is attached hereto as Exhibit "12". Suffice it to say, however, the
3 questionnaire is yet another stall tactic which continues to intrude upon one's right to enjoy
4 his/her religious beliefs, and seeks to use a *red herring*, namely the use of fetal tissues in food
5 and vaccinations, to diffuse issues. Plaintiffs submit that like RN OLENIK, most Americans had
6 no idea fetal cells were being used in vaccinations taken more than sixty years ago let alone are
7 present in consumable products.

8 **(3) The City of Los Angeles**

9 a) The COVID-19 Vaccination Mandate Ordinance, Ordinance 187134, was passed by
10 the LOS ANGELES CITY COUNCIL on or about August 16, 2021 and added Article 12 to
11 Chapter 7 of Division 4 of the Los Angeles Administrative Code to require COVID-19
12 vaccinations and boosters for all current and future city employees and required that all City
13 employees report their vaccination status in accordance with the City's Workplace Safety
14 Standards, no later than October 19, 2021, pursuant to Section 4.701(a) of the Ordinance. Said
15 Ordinance has been cited by the head of the Civil Service Commission as the instrument wherein
16 the City Council divested the Civil Service Commission of any jurisdiction to adjudicate issues
17 pertaining to the mandates, even though equal employment opportunity issues abound because of
18 the manner in which employees have been singled out, harassed as well as discriminated and
19 retaliated against because of their religious beliefs, disabilities, demands for accommodations,
20 protests, whistleblowing and associations.

21 b) Because of opposition to the mandates, repeated and nagging demands that
22 employees report their vaccination status have included threats of cessation of employment,
23 suspensions and denial of promotional opportunities, with proof of same issuing to employees in
24 at least the General Services, Building & Safety, Parks and Recreation, LA Housing, Sanitation
25 and Zoo Departments right before Thanksgiving 2021. DPW started issuing its Orders on
26 December 1, 2021, by memo purportedly issued by DWP General Manager Martin Adams,
27 although not signed, demanding that one report vaccination status by December 5, 2021, even
28 though Martin Adams and others, assured employees that DWP would be excluded from all

1 mandates. This latest threat to a workforce of more than 10,000, many of whom are listed in
2 Appendix “A” hereto as members of *F2C*, has been served on various employees, in some cases
3 with less than 24 hours business notice to comply. Compliance has been ramped up even more
4 since, with management employees including Superintendents visiting job sites seeking to bully
5 employees, without providing *Weingarten* representation, into complying, in the same way that
6 Fire Chief Crowley is doing so now. The City’s Department of Transportation, on the other hand,
7 appeared to ignore the Ordinance and used unvaccinated employees to staff the vaccination lines
8 at venues like Dodger Stadium, but are now trying to say that these employees, like Vito Maciel
9 and Jose Diaz, can no longer be employed unless vaccinated.

10 c) Although the City announced that effective December 18, 2021, all employees
11 had to be vaccinated, testing would not be allowed, and all City facilities would bar entrance to
12 the unvaccinated, the City has been dilatory in responding to exemption requests and has been
13 challenged in Grievance Hearings and other forums about the \$520.00 the City states it will
14 extract from employees on behalf of *BlueStone*’s PCR testing. In turn, the City broadly
15 disseminated another Memo, a true and correct copy of which is attached as Exhibit “13” which
16 requires an employee whose exemption request has not been ruled upon to agree to take the *PCR*
17 test and to pay \$260.00 per pay period, with the City having two pay periods per month, until the
18 exemption request is acted upon. Although on July 13, 2022, the Honorable Rupert Byrdsong of
19 the Los Angeles Superior Court has ruled that *Labor Code §2802* prohibits an Employer from
20 forcing employees to pay said monies, namely the LAPD, the fact remains that repeated threats
21 of invoicing became commonplace, including for testing which has since been conceded as
22 incapable of discerning a live virus. To date, the City has refused to give written assurances to
23 non-LAPD employees that said ruling covers their Departments.

24 **(4) Schools and Governing Entities**

25 a) Pursuant to state and local law and emergency orders promulgated as a result of
26 the COVID-19 pandemic, all schools in Los Angeles County were permitted to reopen on

27 //

28 //

1 February 26, 2021, but LAUSD declined to do so.¹⁵ LAUSD was then sued for refusing to
2 reopen its schools. Sometime thereafter, former Superintendent Austin Beutner in collaboration
3 with the Board Members named in paragraph 32, above, announced that LAUSD would only
4 allow non-vaccinated students to attend school if they submitted to: (i) regular mandatory PCR
5 tests; (ii) the use of the *Microsoft Daily Pass* digital tracking system (“*Microsoft Daily Pass*”);
6 and, (iii) covered their noses and mouths with masks at all times while on school grounds
7 (“mandatory masking”). Plaintiffs have further reason to believe that the *Microsoft Daily Pass*
8 system screens out a disproportionate number of unvaccinated students because of their
9 whereabouts and known associations. As of January 8, 2023, students have also been required to
10 upload results of a rapid antigen test into the *Daily Pass* system, as a condition of returning to
11 school for the Spring Semester of 2023.

12 b) Since these measures have been instituted and are currently in force in LAUSD
13 schools and are highly recommended by LACOE and the Board of Education, other School
14 Districts in California, i.e. *Hart Unified School District* in the City of Santa Clarita as well as
15 *Bishop Unified School District* in Bishop, California, close to the site of *Manzanar*, California’s
16 last internment camp during *World War 2*, seeks to implement certain of these measures within
17 their own Districts. Doing so will only exacerbate the deterioration of the educational system,
18 which was supposed to afford all students equal access, including to extra-curricular activities.

19 c) At the same time, Plaintiffs are informed and believe that vaccinated teachers in
20

21 ¹⁵ Instead of allowing students to attend school, the Board Members and then Superintendent
22 Austin Beutner instituted a virtual learning program that empirical data proves and at least one
23 California state court judge has held is not an adequate substitute for in-person learning. See *A.A.,*
24 *et al. vs. Newsom*, Case No. 37-2021-00007536-CU-WM-NC (Superior Court of the State of CA,
25 County of San Diego, North Country Div., March 17, 2021). Therein the Court noted, citing
26 *Serrano vs. Priest* (1971), 5 Cal. 3d 584, that “(T)he evidence submitted demonstrates that the
27 January 2021 Framework and the Approval with Conditions, which perpetuate remote learning for
28 some students while not for others, has created an impermissible divide in access to education as
otherwise guaranteed by the California Constitution and as otherwise prescribed by the California
Education Code. As the California Supreme Court in *Serrano* noted, ‘unequal education . . . leads
to . . . handicapped ability to participate in the social, cultural, and political activity of our society.’”
Serrano, supra, at 606.”

1 LAUSD classrooms, if not LACOE's as well, have been authorized to publicly shame those students
2 who fail to raise their hands and acknowledge that he/she has been vaccinated. When one student
3 pointed out the vaccinations were not FDA-approved, the teacher noted that it was not approved for
4 her either, but that they will miss the student when the mandate prevents the students' return to campus
5 completely. In turn the teacher distributed AirPods to vaccinated students, while LAUSD's Incentive
6 Programs offered money, headsets, and expensive admission tickets to popular events to trick students
7 into vaccinating. Effectively leading children to the slaughter should not be countenanced by the
8 teaching profession, particularly since the vaccinations have proven to be a means through which the
9 recipients are reinfected with Covid. After demanding that unvaccinated students and staff be turned
10 away, Plaintiffs are informed that LAUSD has announced yet another emergency, with Dr. Barbara
11 Ferrer seeking to impose another "mask mandate", possibly to bolster the conversion of all campuses
12 to full-time virtual learning for everyone to avoid the purported spreading of covid on the campus and
13 the need for wearing masks. If implemented, not only will California's educational system be
14 dismantled, but a need for teachers will become greatly reduced since videos of instruction can simply
15 be played during set hours wherein participation by students will be monitored by the convenient
16 devices afforded students to monitor their whereabouts. In the meantime, LAUSD is actively seeking
17 to eliminate unvaccinated staff assigned to the Virtual Academy, while refusing to acknowledge that
18 return to the classroom is an accommodation that is reasonable and should be granted.

19 **C) RATIONALE FOR AFOREMENTIONED MANDATES LACKS COMMONSENSE**

20 37. Ironically, although the CITY, THE COUNTY, LAUSD and LACOE, through
21 their government officials and Governing Boards, as well as NEWSOM in the STATE have
22 framed Covid-19 mandates as "necessary," the various policies were carefully crafted to exempt
23 many of the most influential people in the State of California from the requirement that same be
24 vaccinated. For example, on information and belief, the vaccination policy does not apply to
25 elected officials, many of whom are referenced in paragraphs 24, 26-34, above. While seeking to
26 impose mandates at the federal courthouses in Los Angeles, Presiding Judge Philip Gutierrez has
27 indicated that although one must be vaccinated to enter the courthouse and serve on civil juries,
28 said requirement will not be enforced with respect to criminal juries due to a recognition that a

1 criminal defendant is entitled to have his/her case heard by a cross-section of the community, to
2 wit, non-vaccinated jurors. Such an exemption was not then extended to civil cases in federal
3 court where litigants are also entitled to present their matters to a jury of their peers, including
4 citizens who embrace and decry vaccinations let alone any mandate affected by a removal of one's
5 freedom to choose. At the same time, Posters at the Los Angeles County Superior Court were
6 then displayed finally recognizing that vaccinated persons also experience Covid symptoms, yet
7 they only need quarantine for 10 days, even though the Covid load in their noses alone far exceeds
8 what is generally found in the unvaccinated. Nonetheless, the non-vaccinated with symptoms
9 must stay away from the Superior Court for 14 days.

10 38. When justifying her decision to unilaterally issue a directive on August 4, 2021,
11 Hilda Solis has ever since couched the decision in political terms, saying that the “*unvaccinated*”
12 had “*refuse[d] to do their part altogether.*” Supervisor Holly Mitchell is reported as saying:
13 “*While it may be tempting to provide more flexibility for people not to be vaccinated and be*
14 *tested instead, this would just delay the inevitable.*” When speaking to the issue of the *Passport*
15 Program, Supervisor Janis Hahn stated that perhaps individuals who had taken only one of two
16 required “*Jabs*” should be treated as if fully vaccinated.

17 39. These politically inspired rationales are likewise illogical since it has been
18 admitted that placebos have been given to some test groups, meaning these individuals are
19 considered to be fully vaccinated when in fact they are not, but yet will be treated differently and
20 better than all individuals who have refused “medical procedures” when neither the risks nor the
21 consequences, including relative to the donation of blood by the “vaccinated” are fully known.
22 Similarly, the County Board, like the City, did not consider whether they could make
23 accommodations for individuals who do not want to get the shots, even though in 2020, these
24 same governments, acting as Employers, insisted that “*high risk*” individuals stay at home. Now
25 the City and County are revoking “*telecommute*” assignments without rhyme or reason, while
26 favoring the vaccinated employees for these positions. Simply put, either you are “*high risk*”, or
27 you are not; either you have been vaccinated to prevent the spread of the virus, or this excuse has
28 been given to reduce the size of the workforce by firing or disciplining the disabled and/or

1 persons with religious beliefs and/or because of one's associations, despite civil service and EEO
2 protections designed to prohibit such discrimination and retaliation.

3 40. LAUSD and LACOE have also relied on the advice of the County's Health
4 Officer, Barbara Ferrer, who has caused students to be segregated and removed from extra-
5 curricular activities in the Fall of 2021, if not vaccinated. Said policy was initially set to take
6 effect October 3, 2021, but was postponed to November 1, 2021. Although LAUSD claimed
7 77% of its athletes became fully vaccinated, the impact upon students and their schools was best
8 described by Eric Sondheimer of the *Los Angeles Times* in his article on November 1, 2021,
9 entitled, "LAUSD removing athletes who aren't fully vaccinated from rosters".¹⁶ Plaintiffs are
10 informed and believe that Barbara Ferrer also played a pivotal role in more than eighteen months
11 of virtual learning which deprived most students of a classroom education, even though the
12 consequence was a rise in suicide rates and enhanced online bullying. Rather than address these
13 basic issues head on, Barbara Ferrer and her cadre of staff, including her own daughter employed
14 by LAUSD, have refused to consider ample testimony from physicians, scientists and researchers
15 at UCLA, LAC+USC and other reputable universities that demand a stop to the very mandates
16 opposed by *F2C* and its members herein.

17 41. This continues to take place even though a well-rounded education includes the
18 ability to qualify and join after-hours school programs which help shape and fine tune social and
19

21 ¹⁶ As noted by Sondheimer, more than 100 students at Taft High School in Woodland Hills were
22 alerted they no longer were allowed to play on teams, while "University High School had to forfeit
23 its City Section Division II semifinal girls' tennis match against Hamilton because it didn't have
24 enough players vaccinated. Torres had pulled out of its football playoff game Friday against New
Designs Watts because of the same issue."

25 *F2C* Plaintiffs Amber Leslie and Richard McDonald are also aware that some students who
26 wished to remain in their extra-curricular activities were able to vaccinate and are now hiding the
27 adverse consequences of having done so from their parents and others. At the same time Richard
28 McDonald and his son were denied admission into the Zoo and even Griffith Park Observatory
because they lacked Passports, while even undersigned counsel who had purchased tickets for an
Art Fundraiser in Hollywood featuring Ukrainian artists was denied admission as well.

1 motor skills, but also enhance one’s standing in school and future opportunities. Although a split
2 decision by the 9th Circuit which issued on December 4, 2021 in *Doe, et al. vs. San Diego*
3 *Unified School District, et al. 21-56259*, 2021 U.S. App. LEXIS 35760 *; _ F.4th_, refused to
4 stay mandates and claimed it was speculative for an anonymous female athlete to claim that her
5 ability to procure scholarships and to advance in the competitive market will be stymied, in a
6 Dissenting Opinion, Circuit Judge Ikuta properly noted that “Doe’s irreparable injury is not her
7 inability to obtain an athletic scholarship, but the loss of her First Amendment rights, which
8 “*unquestionably constitutes irreparable injury*”. (Citation). F2C is now informed that LAUSD,
9 in tandem with the City of Los Angeles, has removed unvaccinated students, including the son of
10 lead Plaintiff Amber Leslie, from the LAFD Fire Cadet program. Similarly, various colleges and
11 universities, including CalStateNorthridge, have even denied unvaccinated students, including
12 the children of City Plumber Anthony Johnson who has a race discrimination case presently
13 pending against the City, the ability to register for online classes or to complete their degree
14 programs.

15 42. F2C and its members¹⁷ identified in Appendix “A” clearly agree that irreparable
16 injury exists, while not all of the devastating effects of the vaccinations are yet known. Forcing a
17 vaccination under these circumstances is arbitrary and capricious, while Plaintiffs have reason to
18 believe that not all employees and students are being subjected to the same scrutiny. Most
19 Plaintiffs, including members identified in Appendix “A” are also aware of the heart-wrenching
20 account by the mother of Everest Romney, a star basketball player in Utah, who after he received
21 in April 2021 the “*jab*” required for youth and their chaperones then taking a summer mission
22 trip, found himself alongside his chaperone, his father, in the hospital for several weeks with
23 life-threatening consequences which will plague them for the balance of their lives.¹⁸
24

25 ¹⁷ Herein, Plaintiffs have identified on Appendix “A”, students subject to the mandates now and in
26 the future by referencing the students’ either by name or by initials placed in the column next to
27 their parents, grandparents or guardians name. Concern for the wellbeing of these children will
not be dissipated simply because of the threats that Respondents may seek to carry out.

28 ¹⁸ In the same way, mainstream media has failed to share that Buffalo Bills’ *Damar Hamlin*

1 43. F2C is also informed and believes that schools and affiliated Charters have even
2 caused children during the regular school day and after hours to be segregated from their
3 classmates and former team members. F2C is also aware that some students have even been left
4 alone in locker rooms, without supervision, despite Educational Codes and regulations
5 mandating adequate supervision on campuses. Undersigned counsel previously served notices
6 about these matters upon LAUSD, including Principals, at Birmingham, John Burroughs Middle
7 School, Hesby Oaks, Eagle Rock and San Pedro High School, only to have the Incentive
8 Program ramped up thereafter.

9 44. Thus, the decision-making process does not pass muster and is on its face,
10 arbitrary and capricious, since neither the State, the City, the County, LAUSD nor LACOE have
11 engaged in any unbiased fact-finding nor offered a plausible basis for differentiating between the
12 unvaccinated with exemptions still pending or denied, and those who have been politically
13 exempted from vaccinating without having to even apply for such protection. Like the federal
14 government which mandated shots for military¹⁹ service personnel and overlooked its own
15

16
17 received vaccinations on December 26, 2022, only days before he collapsed during the *Bills* and
18 *Bengals* game on January 2, 2022. Likewise, the accounts of brave high profile entertainers who
19 did vaccinate, including *Eric Clapton* and *Kid Rock*. *Clapton* acknowledged being bedridden and
20 incapable of even playing his guitar, to wit, effectively paralyzed because of the “*jab*”. *Clapton*
21 has even posted a video decrying the government for not warning the public about the adverse
22 consequences, while also stating that despite efforts to book him at concerts restricted to the
23 vaccinated (similar to those taking place under the *Passport* program touted by the City and
24 County herein), *Clapton* will not under any circumstance play a concert where the unvaccinated
25 are barred from attending. At the same time, *Kid Rock* has acknowledged that he as well as
26 members of his band have become reinfected and are susceptible to breakthrough viruses.

27 ¹⁹ See Army Regulation 40-562, applicable to all branches of the military, which provides that
28 Immunization and Chemoprophylaxis for the Prevention of Infectious Diseases” presumptively
exempts from any vaccination requirement a service member that the military knows has had a
documented previous infection. The applicable section of the Federal Food, Drug, and Cosmetic
Act (Title 21, Chapter 9) regarding EUA of biologics for the military is found at 21 U.S.C. Section
360bbb-3. A lengthy list of requirements and findings must issue before the Secretary of the
Department of Homeland Security, the Secretary of Defense, or the Secretary of the FDA, may
override a servicemembers’ right of *informed consent*.

1 Regulations and statutes which prohibit the mandating of experimental vaccinations without
2 “*informed consent*”²⁰, Defendants must be penalized for falsely informing their employees that
3 the vaccinations have been approved.

4 45. Nor are the Vaccines and *PCR* tests the equivalent of lawful drug testing
5 programs agreed to by labor organizations when a reasonable suspicion that an employee is
6 under the influence while on the clock exists to warrant a drug test. However, a reasonable
7 suspicion in the current situation does not exist simply because someone refuses to vaccinate or
8 declines to divulge their vaccination status. In fact, government officials have excluded from
9 testing and even masking, vaccinated employees and ones politically exempted from doing so,
10 even though these individuals may actually exhibit Covid symptoms. At the same time, drug
11 testing can be performed by a variety of entities, and not simply a monopoly like the one enjoyed
12 by *Fulgent Genetics* in the County and *BlueStone* in the City.

13 **D) THE MANDATES AT ISSUE**

14 **(1) COVID Vaccines**

15 46. Three Covid vaccines were granted emergency use authorization²¹ (EUA) by the
16 FDA and are currently in use. One is manufactured by Moderna (the “Moderna Vaccine”), a
17 second by Pfizer BioNTech (the “Pfizer Vaccine”) and a third by Johnson & Johnson/Janssen (the
18

19
20
21 ²⁰ It should be noticed that the Department of Defense has contemporaneous with this filing, finally
22 rescinded its vaccination mandates and has agreed to start rectifying adverse actions taken against
23 the unvaccinated members of the military. It is a frightening proposition that the vaccinated
24 military may be incapable of defending the United States, let alone its institutions and personnel
25 serving abroad.

26 ²¹ Quite sadly, government agencies, including the California Department of Fair Employment and
27 Housing, have put out contradictory literature suggesting the vaccines have been “FDA-
28 approved”, ignoring however what the law says about EUA status, namely, the vaccine is to be
used only on an emergency use basis and then provided “*informed consent*” has been given.

1 “J&J Vaccine”). These vaccines are collectively referred to as the “Covid Vaccines”. However,
2 none of these currently available Covid Vaccines has been approved by the FDA, under the
3 statutory emergency use approval requirements of the Food, Drug and Cosmetics Act (“FDCA”).
4 See §564 of the FDCA (21 U.S.C. Section 360bbb-3) “during the effective period of a declaration
5 [of emergency], of a drug, device, or biological product intended for use in an actual or potential
6 emergency...” 21U.S.C. Section 360bbb-2(a) ((1). Plaintiffs are informed that the CDC in August
7 2021 announced that Pfizer requested and received approval for, yet another vaccine known as
8 *Comirnaty*, but conveniently failed to acknowledge that the subject vaccine, *Comirnaty*, has only
9 “*deferred approval*”, meaning *Comirnaty’s* approval will not take effect until the required studies
10 on infants from ages 6 months to 16 years old are complete and studies pertaining to pregnant
11 women are undertaken. The projected date for *Comirnaty* becoming available is 2024, while *Pfizer*
12 is also considering a lower dose for children, but by doing so, *Pfizer* would have to tender a new
13 application for FDA consideration. The FDA Letter dated August 23, 2021, a true and correct
14 copy of which is attached hereto as Exhibit “14”, acknowledges these deadlines and also raises
15 serious questions and demands studies because of myocarditis, immunogenicity and adverse
16 events involving pregnant women and school-aged children. Undoubtedly, this explains why
17 NEWSOM announced on October 1, 2021, that upon receipt of approval, his vaccine mandate will
18 be implemented for children, ages 5-12, at some time in the future. Whether this should occur at
19 all is seriously undermined by such revelations that *Comirnaty*, just like *Pfizer’s BioNTech* which
20 remains an EUA, contains an ingredient known as Polyethylene glycol. The molecular makeup is
21 in the same family of synthetic polymers known as *Propylene Glycol*, a common ingredient used
22 in *anti-freeze*.

23 47. It is scientifically irrefutable that long term side effects of the Covid Vaccinations
24 are presently unknown, although many believe that deaths of vaccinated in close proximity to their
25 receipt of the “*jab*” required the “*scientists*” to set new parameters, namely refusing to permit a
26 causal link to be drawn unless adverse events, including death occur more than 14 days after the
27 vaccine is administered. However, the human body is a complex biological system, with long-
28 term side effects incapable of being accurately forecast vis a vis computational technology or

1 statistics. Only laboratory experimental results, and vigilant long term human trial data
2 accumulated over a statistically significant period of time, will allow scientists to reasonably
3 predict the long-term side effects of the Covid Vaccines. But, as noted, the decision to ignore
4 adverse events, including death and miscarriages, occurring immediately after the *jab*, has itself
5 been designed to skew the numbers and destroy any possible accuracy of statistics which have
6 been or will be released in the next decade. It appears that the very individuals who issued
7 contradictory directives during 2020, and insisted that immediate deaths be reported as
8 comorbidities, have no desire to conduct a true human study nor will they concede that absent a
9 vaccine mandate, alternatives exist to combat COVID, i.e., *Vitamin D-3 megadoses, Ivermectin,*
10 *Vitamin C, and Zinc.* When faced with numerous recipients fainting (syncope), particularly
11 adolescents, Pfizer has stated that “procedures should be in place to avoid injury from fainting.”
12 As of June 25, 2021, the FDA also mandated that Pfizer’s Fact Sheet be revised to include a
13 warning about myocarditis and pericarditis, namely injuries to the heart muscle and the heart’s
14 outer lining. However, the refusal of named Defendants to educate employees and their
15 dependents in these regards before insisting that one be “*jabbed*” as a condition of employment or
16 a condition of attending school shows that Defendants have acted oppressively, with malice and in
17 conscious disregard of Plaintiffs rights.

18 48. While opinions on the efficiency and safety of the Covid Vaccines vary widely, a
19 reasonable opinion exists which shows that a Covid vaccination, until proven to be safe, should
20 not be taken into a person’s body unless and until potential short and long-term effects are better
21 understood. Naturally these warnings have been buried including from parents whose children
22 have been and still are being bullied to be vaccinated. For instance, as of September 13, 2021, an
23 FDA review memorandum entitled Benefit-Risk Assessment of the Pfizer Vaccine for Age 16-17
24 years stated that the Pfizer vaccine provides a 6-month protection period and was *predicted to*
25 *prevent 142 COVID-19 hospitalizations but could cause 196 myocarditis/pericarditis*
26 *hospitalizations for males 16 to 17 years old; for males ages 12 to 15, the vaccine may prevent*
27 *122 COVID-19 hospitalizations but could cause 179 myocarditis/pericarditis hospitalizations.* The
28 memorandum further states: “We note that COVID-19 incidence highly influences the predicted

1 benefits of the vaccine. If the disease incidence is higher, the benefits of the vaccine will be
2 greater, and vice versa. Therefore, the benefit-risk conclusion may change if the COVID-19
3 incidence rate becomes very low in the future.” Plaintiffs submit this reasoning alone is flawed in
4 that the serious medical risks now conceded by the FDA have been relegated to the backburner
5 rather than featured as a basis to negate consideration, adoption and implementation of vaccine
6 mandates by private and public sector employers, let alone educational institutions, including
7 LAUSD and LACOE.

8 49. On information and belief, the government entities named herein, through their
9 public officials have made findings about Covid and vaccine mandates, while refusing to engage
10 in a meaningful scientific review of available data and evidence concerning: (a) whether or not
11 vaccination is, in fact, the most effective way to prevent transmission and limit Covid-19
12 hospitalizations and deaths; and (b) whether unvaccinated employees are, in fact, at a greater risk
13 of contracting and spreading Covid-19 within the workplace, including to the public that depends
14 on government services than their vaccinated counterparts. The latter question appears to have
15 been answered by public health officials in the negative since vaccinated employees are now being
16 given telecommuting assignments that greatly reduce public contact.

17 50. Plaintiffs are informed and believe that the finding that unvaccinated employees are
18 at a greater risk of contracting and spreading COVID-19 within the workplace, and risk
19 transmission to the public that depends on City services is contrary to the preponderance of
20 scholarly evidence now emerging regarding the Delta and Gamma variants of the Covid virus on
21 both sides of the vaccine debate. Evidence now shows an increased “viral load” after vaccination,
22 which tends to actually *increase* the spread of Covid-19 by vaccinated people. A recent study
23 found vaccinated individuals carry *251 times the load of covid-19 viruses* in their nostrils
24 compared to the unvaccinated.

25 51. Because of same, the Center for Disease Control (CDC) has finally admitted that
26 fully vaccinated still get infected (i.e., “breakthrough infections”) and thus there is a risk of
27 transmission to others, while their role in repeatedly changing the definition of “vaccine” so that
28 the Covid-19 “*jab*” would even qualify as a vaccine has since been noted as well. In July 2021, a

1 CDC study noted that of 469 cases reviewed, approximately three quarters (346; 74%) of Covid
2 cases occurred in fully vaccinated persons, i.e., those who had completed a 2-dose course of the
3 mRNA vaccine (Pfizer-BioNTech or Moderna) or had received a single dose of Johnson &
4 Johnson’s vaccine. Likewise, a Report to the LAPD Police Commission on November 22, 2022, a
5 true and correct copy of which is attached as Exhibit “15”, shows that vaccinated employees are
6 being hospitalized and reinfected in significantly greater numbers than the unvaccinated, in Los
7 Angeles.

8 52. Thus, if the goal is to prevent Public and private sector employees let alone school-
9 aged children, including young adults, who are also listed as members of *F2C*, from contracting
10 and spreading Covid-19 within the workplace or schools, evidence now shows that mandatory
11 vaccinations will actually *thwart* that laudable goal by exposing the public to a vaccinated
12 populace more capable of spreading the virus.

13 53. Further, on information and belief, neither the City, the County, the State, LAUSD
14 nor LACOE have considered reasonable alternatives for workers and parents who oppose
15 mandatory vaccinations and have failed to consider least restrictive alternatives. Nor do
16 these entities have Constitutional authority to force anyone to take an experimental vaccine against
17 his or her will without considering, and granting where possible, *reasonable* accommodations for
18 those who chose to not take the vaccine. The State of California, the City, the County and
19 applicable School Districts do not have constitutional authority under normal times, nor during an
20 emergency, to pick and choose who will live and who should die, let alone who can or cannot
21 procreate.

22 54. The vaccine mandates unnecessarily violate the right of all F2C members and their
23 families to privacy, as codified in *Article I, §1* of the California Constitution, unlike the Federal
24 Constitution which merely alludes to same, to support decisions which have decried similar
25 intrusions upon a person’s bodily integrity. To satisfy the California Constitution, the City must
26 consider and offer reasonable accommodations to avoid unnecessary intrusion upon an
27 individual’s freedoms as a middle ground between individual freedoms and collective rights.
28 Instead of doing so, the government entities sued herein have used a lens of partisan politics,

1 saying they “want[] a vaccinated workforce,” without regards to constitutional provisions which
2 require far more than that before invading the bodily integrity of thousands of public employees
3 whom the public depends on, let alone future generations of this country. As noted by the
4 California Supreme Court in *Long Beach City Employees Association vs. City of Long*
5 *Beach* (1986), 41 Cal. 3d 937, a public employee cannot be arbitrarily deprived of a basic
6 constitutional right of privacy when ordered to take a polygraph examination as a condition to
7 ensuring one’s continued public employment, at a time when other City employees assigned as law
8 enforcement were exempted from taking the polygraph. Such second-class citizenry was rejected
9 in *Long Beach CEA*. Efforts to make Plaintiffs and their colleagues because they refuse to
10 vaccinate or refuse to reveal their vaccination status the latest second class should be rejected now
11 since exclusions individually named Defendants let alone the President of the United States has
12 given to political constituents, certain Departments like the Post Office, or even themselves
13 destroy any semblance of purpose.

14 55. Even if Defendants claim the power to order forced vaccinations of its employees,
15 school-aged children, visitors and other residents, as a condition to living in, working for,
16 attending Defendants school, enjoying government sponsored activities or moving freely
17 throughout the State, it may not do so without using the least restrictive way to mitigate the effects
18 of Covid-19. As noted above, none of the government entities sued herein can persuasively argue
19 that their mandates are least restrictive. In fact, there is mounting evidence that the vaccine does
20 not prevent the virus from spreading, while protection of the vaccinated against serious illness no
21 longer appears to be possible since the “*Jab*” turns its recipients into super spreaders who have
22 lost the immunities they once had. Plaintiffs submit it does not make sense to cause only the
23 vaccinated to be given access to government-sponsored events, unless the intention is to magnify
24 spreading amongst participants.

25 56. As a result of Defendants’ unlawful actions, Plaintiffs have suffered damages,
26 ranging from being forced to take an unnecessary drug with an unknown long-term safety profile
27 without informed consent or being continuously harassed for refusing. Certain Plaintiffs have
28 been discharged or threatened with disciplinary action; endured differential treatment and have

1 been segregated from eating with one's colleagues at government owned facilities, with access in
2 some cases restricted to only vaccinated employees and members of the public. Defendants by
3 and through their different Departments are denying unvaccinated employees, as well as those
4 who decline to divulge their vaccination status, leave with pay or continuing accommodations,
5 while one's freedom of movement is also being actively monitored.

6 57. In the same vein, these actions are being challenged, including in Colorado,
7 because the Department of Defense (DoD), Health and Human Services (HHS), and the FDA,
8 violated a federal statute, namely 50 U.S.C. Section 1520, when it illegally required military
9 personnel who have already had the virus to submit to COVID-19 vaccinations. As noted in said
10 action, the right of informed consent is one of the sacrosanct principles that came out of the
11 Tribunals at Nuremburg which practiced experiments with little regard for the dignity of those
12 forced to undergo same. Plaintiffs agree that the overriding legal principle of Nuremburg was that
13 no State, not even the United States, may force its citizens to undergo unwanted medical
14 procedures merely by declaring an emergency. Plaintiffs submit that these conditions would
15 violate the Constitution even in the throes of a global pandemic, while this action and the relief
16 requested by Plaintiffs is further supported by the large, and growing, body of scientific data that
17 shows that children in school are at negligible risk of contracting and/or suffering serious adverse
18 impacts of contracting COVID-19. Further, there is no proof that children in school create a
19 greater risk of transmission of the virus nor that schools generally have a higher degree of case
20 rates or transmissibility than any other location where people are congregated.

21 58. Even the alternative considered by Defendants government entities of requiring
22 unvaccinated to submit to PCR tests and to continued masking, while establishing PCR testing,
23 *Passport* and *Daily Pass* programs that allow the government to know precisely where one is at all
24 times are infirm. Plaintiffs submit that the sudden need for the government to know pales in
25 comparison to the serious consequences that have been recorded, including the death of vaccinated
26 pregnant women and/or their unborn fetuses during the first, second and third trimesters, let alone
27 the likelihood of one becoming sterile, to wit an irreversible event that even school-aged children
28 who may one day seek to have their own families should not be forced to endure. Similarly,

1 scientific studies and data, as will be alleged in further detail below, show that the *PCR* test is of
2 no diagnostic value in determining whether a test subject is infected with COVID-19, nor are
3 masks effective in preventing or reducing the spread of COVID-19 but are instead hazardous to
4 adults and childrens’ physical, psychological and developmental health.

5 **(2) Mandatory PCR and Antigen Testing**

6 59. Plaintiffs submit that mandated Testing for unvaccinated²² throughout key public
7 sector Employers named herein, including the State of California,²³ as well as the School Districts
8 is also infirm and is used as a vehicle for procurement of genetic information. Many public and
9

10
11 ²² The testing policy blatantly violates 42 U.S. Code § 12112(d)(4)(A) which states that employers
12 “shall not require a medical examination... unless such examination or inquiry is shown to be job-
13 related and consistent with business necessity.” The EEOC updated their guidance on July 12,
14 2022 saying that an employer must show that testing is “job-related and consistent with business
15 necessity” as a COVID-19 viral test is a medical exam under the ADA. EEOC Releases New
16 Covid-19 Guidance Updates. (natlawreview.com)

17 Mandating products that are Emergency Use Authorization (EAU) is a violation of Federal
18 Law. The vaccines, tests (antigen and PCR) and masks are all under EAU. Title 21 U.S.C. §
19 360bbb-3(e)(1)(A)(ii)(I-III) of the Federal Food, Drug, and Cosmetic Act states: individuals to
20 whom the product is administered are informed— (I) that the Secretary has authorized the
21 emergency use of the product; (II) of the significant known and potential benefits and risks of such
22 use, and of the extent to which such benefits and risks are unknown; and (III) of the option to
23 accept or refuse administration of the product, of the consequences, if any, of refusing
24 administration of the product, and of the alternatives to the product that are available and of their
25 benefits and risks. EUA products are by definition experimental and thus require the right to
26 refuse.

27 Under California’s laws, Antigen testing by CFR 21 § 56.102 definition is an investigational test
28 article and specifically an investigational device. California Health and Safety Code §§ 111550,
111590 and 111595 limit the use of an investigational drug, device or biologic to only be used in
medical experiments. None of the requirements for a medical experiment have been met for the
vaccine, testing or masking.

²³ A description of why the testing policies are infirm, including discriminatory and humiliating –
is best explained by the manner in which CalTRANS conducted same. As noted by F2C Plaintiff
BRIAN WINZENEAD, Engineer, in the Owens Valley, there was no discreteness or
confidentiality maintained by the public display of testing. Those unvaccinated or choosing not to
declare their status were required for more than one year “to report to a large conference room

1 private sector employees, as well as members of the community and parents of students attending
2 schools in Los Angeles County, including *F2C* members also have concerns about the *Fulgent*
3 *Genetics* and *BlueStone* technology the County and the City are using to track an individuals'
4 medical status and to gain access to their financial information as well. Plaintiffs are informed and
5 believe and, on that basis, allege that the *Fulgent* and *BlueStone* applications gather genetic and
6 medical data and cross-references and links the same through blockchain technology to an
7 individuals' assets, property, residence, credit and financial data. It stores the
8 same and shares said data with other data mining companies including throughout the world. By
9 so doing, PCR testing with the imprimatur and contractual assistance of the Defendants invades
10 Plaintiffs' right to privacy under *Article I, §I* of the California Constitution, as well as recent
11 additions to California's Fair Employment and Housing Act that prohibits discrimination on the
12 basis of genetic information. See *California Government Code § 12920*.

13 60. As is the case with vaccinations, none of the currently available *PCR* tests for
14 COVID-19 have received final approval from the Food and Drug Administration. Rather, all such
15 tests are unapproved products that have been authorized for emergency use only under an
16 Emergency Use Authorization (EUA). To illustrate this and by way of example, the following
17 language is contained in (and excerpted from) Labcorp's COVID-19 RT-PCR Test EUA
18 Summary, dated May 11, 2021(2):

19 Results are for the identification of SARS-CoV-2 RNA. The
20

21 within the main building of the District Office. The room includes a common kitchen area where
22 many employees store their lunch in a refrigerator. Other employees who are not required to test
23 are aware of when testing occurs and who is testing. There was no privacy as we line up to test.
24 We were required by policy to wear a mask to perform the testing even though we were not
25 required to wear a mask in any other part of the District offices. We were required to perform the
26 humiliating ritual of standing in front of a healthcare worker while sticking a swab up our noses.
27 The State has not shown the necessity of COVID-19 vaccines or testing requirement. Testing of
28 the undisclosed and unvaccinated does not prevent a vaccinated person from coming into work
and infecting others. In fact, at our Caltrans District, approximately 80% of all registered cases
have been vaccinated. The vaccinated individuals often (elect to) test after they have already been
to the office with symptoms. The unvaccinated or undisclosed are being treated as though we are
a direct threat which is unsubstantiated. Only a medical doctor can make this determination and the
determination must be performed for each individual."

1 SARS-CoV-2 RNA is generally detectable in respiratory
2 specimens during the acute phase of infection. Positive results
3 are indicative of the presence of SARS-Co-V-2 RNA; clinical
4 correlation with patient history and other diagnostic information
5 is necessary to determine patient infection status. *Positive*
6 *results do not rule out bacterial infection or co-infection with*
7 *other viruses.* The agent detected may not be the definite cause
8 of disease. Laboratories with the United States and its
9 territories are required to report all results to the appropriate
10
11 public health authorities. *Negative results do not preclude*
12 *SARS-CoV-2 infection and should not be used as the sole basis*
13 *for patient management decisions...*The COVID-19 RT-PCR
14 Test is only for use under the Food and Drug Administrations”
15 Emergency Use Authorization.

16 61. The statute granting the FDA the power to authorize a medical product for
17 emergency use requires, *inter alia*, that the person being administered the unapproved product be
18 advised of his or her right to refuse administration of the product. See 21 U.S.C. Section 360bbb-
19 3(e)(1)(A) (“Section 360bbb-3”). Also see <https://www.fda.gov/media/136151>. Rather than respect
20 these constraints, Defendants have demanded full compliance with PCR tests, with the level of
21 intrusion into the nostrils varying by worksite. Several Plaintiffs who were initially led to believe
22 the PCR tests were confidential conditions of employment have since learned about the blockchain
23 technology resorted to as well as the toxic nature of the swabs. At the same time, many Plaintiffs
24 have been told in the City that they owe \$520.00 a month which will be deducted from their
25 paychecks to pay for *BlueStone’s* PCRs, when one’s health care institutions offer a variety of
26 PCRs, including providing a sample by spitting, as well as mouth swabs, at no cost. It should be
27 further noted that the County and the City intentionally failed to inform employees subject to PCR
28 testing that spit tests, a far less invasive PCR, had become available, let alone that testing was now

1 accessible without registering and simply by showing one’s employee badge. For these reasons,
2 Plaintiffs submit that the County and the City in concert with *Fulgent* and *BlueStone* have ulterior
3 motives for seeking to capture this genetic information from its employees, let alone all data stored
4 in phones and computers which are used by employees to “register”²⁴ with *Fulgent* and
5 *BlueStone*. Likewise, a change in testing companies at State Correctional facilities has even
6 sought to erase testing results for those who have dutifully tested to ensure continuing
7 employment, while also countenancing the preparation of documents with one’s electronic
8 signature, even though same has never been presented to employees in question. In light of same,
9 it should be readily obvious that each test administered to date and in the future will violate one’s
10 constitutional right of privacy which should otherwise have precluded the collection of data by
11 others about *F2C* Plaintiffs and members, including their financial information and genetic
12 information from all named Employers, herein.

13 62. Besides compelling public employees to submit to PCR testing,
14 LAUSD, by and through its former Superintendent and the Board Members, acting under color of
15 law, also ordered mandatory PCR testing for all students, with same scheme being actively carried
16 out by Superintendent Meagan Reilly and her cohorts, including following Reilly’s departure from
17 LAUSD. However, due to publicly available information, LAUSD-related Defendants, including
18 Board Members, knew or should have known that PCR testing does not provide accurate
19 diagnostic information regarding whether the test subject is infected with COVID-19, or is
20

21 _____
22 ²⁴ Above the line Plaintiff, Ed Mitchell, a Systems Programmer in the Harbor Department, was
23 narrowly able to escape firing in January 2022 because his Department was willing to register
24 Mitchell into *BlueStone*, without using Mitchell’s personal devices, once Mitchell produced
25 documentation from *BlueStone* admitting its ability to capture one’s data base, including from
26 one’s employer. Mitchell was able to then start “spitting”, although the City and the County
27 withheld that option from many unvaccinated workers who were subjecting themselves to invasive
28 nasal and mouth swabs without knowing same were laden with toxic material. In close proximity
Fulgent then announced a new test capable of easily detecting liver cancer, while diminishing the
toxicity of invasive PCR tests by claiming only a trace amount existed. However, for employees
who have tested twice a week, for well over a year, the statement by Defendant Employers that the
trace amount quickly disappears is itself suspect, if not designed to shield oneself from liability.

1 contagious with COVID-19, and thus no reasonable basis for the past and future privacy intrusions
2 of the mandatory PCR testing exists.

3 63. Defendants have also failed to inform Plaintiffs and their minor children that the
4 mandatory PCR testing has not been approved for use in humans by the FDA for the purpose of
5 diagnosing whether they have COVID-19 or are contagious with COVID-19 as required by the
6 statutory framework governing issuance of EUAs generally, as well as the particular EUAs
7 authorizing the emergency use of the PCR tests. Defendants have also failed to inform Plaintiffs
8 and their minor children that they have the option to refuse the mandatory PCR testing as required
9 by the statutory framework governing issuance of EUAs, as well as the particular EUAs
10 authorizing the emergency use of the PCR tests.

11 64. Thus, and although LAUSD and its Board Members instituted the mandatory PCR
12 testing purportedly to prevent or diminish the spread of COVID-19, it has since been shown that
13 PCR testing is not an effective diagnostic tool to achieve this goal, as recognized by state and
14 federal officials. A “positive” test result is not necessarily indicative of COVID-19 infection
15 because PCR tests do not actually test for any disease or infection. PCR tests amplify biological
16 test material taken from the test subject, and then match it to a handful of short genetic sequences
17 “gene snippets” from the genome of the SARS Co-V-2 virus. The test does not determine whether
18 the test subject is infected with any live virus, nor can it diagnose a test subject as actually infected
19 with, ill from, or contagious with COVID-19.

20 65. As the CDC expressly states in the “Instructions for Use” of the PCR testing kit,
21 “[d]etection of viral RNA may not indicate the presence of infections virus or that 2019-nCoV is
22 the causative agent for clinical symptoms”.²⁵ PCR tests are also known to produce a high level of
23 false positives. Varying numbers of testing “cycles” or “amplifications” drastically impact the
24 number of positives results. After approximately 40 amplifications, almost 100% of the positives
25

26 ²⁵ CDC 2019–Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel, “Instruc-
27 tions for Use,” Catalog#2019-nCoV EUA-01, 1000 reactions; CDC-006-00019, Revision: 06,
28 CDC/DDID/NCIRD/Division of Viral Diseases Effective: 12/01/2020, [www.fda.gov/media/
134922/download](http://www.fda.gov/media/134922/download)

1 are likely to be false positives due to: (1) over-amplification; (2) failure to use FDA “gold
2 standard” Sanger sequencing to confirm each PCR positive matches the SARS CoV-2 genetic
3 sequence; and (3) failure to culture a positive sample to determine infectiousness. The cycle
4 threshold (hereinafter “Ct”) for all tests in California had been set at 40, until recently when the
5 CDC changed the Ct to 28 (only for those who have been vaccinated, while leaving the Ct at 40
6 for everyone else).

7 66. Even Dr. Anthony Fauci, Director of the National Institutes of Allergy and
8 Infectious Diseases of the National Institutes of Health, acknowledged in July 2020 that a positive
9 RT-PCR test result using a Ct above 35 is useless for diagnostics.²⁶ He said, “[I]f you get a cycle
10 threshold of 35 or more, ...the chance of it being replication-competent are [sic] miniscule. And
11 we have patients – and it’s very frustrating for the patients as well as for the physicians –
12 somebody comes in and they repeat their PCR, and it’s like 37 cycle thresholds, but you almost
13 never can culture virus for a 37-cycle threshold. So, I think if someone does come in with 37-38,
14 even 36, you got to say, “You know, it’s just dead nucleotides, period”.

15 67. In sum, the PCR test is entirely useless as a tool to identify the presence of a
16 SARS-CoV-2 virus in the test subject unless the CT is set at an appropriate level. Even then,
17 however, the PCR test does not diagnose whether the test subject is infected with, ill from, or
18 contagious with COVID-19. It merely compares whether amplified biological test material taken
19 from the test subject matches a handful of genetic snippets, representing a minute portion of the
20 SARS-CoV-2 virus.

21 68. Plaintiffs are informed and believe that besides employees, students being subject
22 to PCR tests are being required in close proximity to each other to give samples in other than
23 pristine laboratory conditions. For instance, school personnel at the Bishop Unified School
24 District in Bishop, California, have lined students up outside and then placed extracted specimens
25 in plastic baggies in front of the students. However, any final diagnosis that a test subject is
26

27 _____
28 ²⁶ TWiV 641: COVID-19, Video interview with Dr. Anthony Fauci, This Week in Virology, 4:22-
5-10 (Jul. 16, 2020), at https://www.youtube.com/watch?v=a_Vy6fgaBPE

1 actually infected with COVID-19, and therefore potentially contagious to others, can only be made
2 following examination by a medical doctor. The PCR test cannot and does not make that
3 diagnosis.

4 69. Nevertheless, the City on behalf of *BlueStone* has mandated that \$520.00 per month
5 be withdrawn from the payroll accounts of City employees who are required to test. If PCR
6 testing was vital and reliable, then public sector employees could simply have themselves tested
7 by laboratories and facilities covered under the negotiated health care plans, rather than vendors
8 who received their contracts without competitive bidding, likely because of the influence of Police
9 Commissioner Dr. Pedram Salimpour or the Chinese Communist Party, relative to *BlueStone* and
10 *Fulgent Genetics*, respectively. In the meantime, County RN Joanne Centeno has been fired for
11 seeking such an accommodation, while Gary Rogers and Krista Anderson Moller have not been
12 invited to return to work because of their opposition to these unsafe practices.

13 70. Despite the above, Defendants have unlawfully segregated employees and students
14 into unequal groups based upon their consent or refusal to being subjected to mandatory PCR
15 testing, let alone vaccinations in the first place. Although LAUSD had stated that only the students
16 who consent to the mandatory PCR testing will receive quality in-person teaching and
17 extracurricular activities, this appears to have been abandoned by Dr. Barbara Ferrer in favor of a
18 school campus where only vaccinated students and vaccinated parents will be given preferential
19 treatment. As proof of same, LAUSD in concert with the City's LAFD, removed unvaccinated
20 students from its Fire Cadet Program, much to the chagrin of the son of Amber Leslie now serving
21 in the Marines.

22 71. By following the edicts of Barbara Ferrer, Defendants are coercing parents and
23 children to "consent" to PCR testing on threat of being denied the right to attend school in blatant
24 violation of California state law. Under California Health and Safety Code § 2440 *et seq.*,
25 voluntary consent to medical intervention is required. Cal. Gov. Code § 37100 prevents any
26 creation, application or enforcement of a law or policy that violates the California Constitution or
27 the Constitution of the United States. The mandatory PCR testing violates both, particularly since
28 false positives also lead to isolation and quarantine of healthy people, causing economic,

1 academic, social, legal and psychological harm to Plaintiffs’ and their minor children, including
2 educational apartheid in violation of federal law and the United States Constitution.

3 **(3) Mandatory Masking**

4 72. The wearing of face coverings or masks is purportedly required for a medical
5 purpose, i.e., to slow the community spread of the SARS-CoV-2 virus and protect the health,
6 safety, and welfare of individuals in the community, regardless of whether they are working,
7 studying and/or visiting properties belonging to or run by Defendants. Prior to the prevalence of
8 this “virus”, the use of surgical masks was limited to use by healthcare workers, who are trained in
9 their use, and were only worn for single use and short periods of time. Plaintiffs are informed that
10 various surgeons²⁷ have since commented upon the deleterious effects upon themselves and
11 members of the operating room when performing extended surgeries while masked. In the summer
12 of 2022, Defendant COUNTY contemplated reimposing indoor mask mandates, but has
13 withdrawn same in all likelihood due to pending litigation, if not demands for the firing of DR.
14 BARBARA FERRER.

15 73. For close to twenty months, physicians and scientists have documented the adverse
16 short and long-term physical, psychological, and social side-effects to children and adults from
17 being forced to wear masks, especially for hours on end while at school or work. At the same time
18 there is no reliable scientific evidence that face coverings or masks reduce or prevent infection
19 from SARS-CoV-2, while ample evidence shows exactly the opposite. Nonetheless, masking has
20 been made a key component of the mandates for even healthy persons that County and City
21 officials, named Defendants herein, have issued for employees and school-aged children, and
22 more recently the general population of Southern California, as well as visitors.

23 74. When authorizing general emergency use of face masks, the FDA stated that it
24 “would misrepresent the product’s intended use” to state that it “is for use ... as infection
25
26
27

28 ²⁷ A study of 20 surgeons wearing surgical masks showed lower arterial O2 levels after surgery
(deoxygenation); <https://pubmed.ncbi.nlm.nih.gov/33670983/>; <https://pubmed.ncbi.nlm.nih.gov/18500410/>.

1 prevention or reduction.”²⁸ Similarly, in its Enforcement Policy for Face Masks and Respirators
2 during the Coronavirus Disease (COVID-19) Public Health Emergency (Revised) ²⁹, the Food and
3 Drug Administration clearly states face masks are not intended to reduce or prevent infection. The
4 first and only randomized controlled trial on the use of masks in connection with this SARS-CoV-
5 2, outbreak concluded that masks are ineffective in reducing or preventing transmission.³⁰

6 75. A study published in the Emerging Infectious Disease Journal in May 2020 found
7 that then randomized control trial studies of the use of face masks to control the influenza virus – a
8 virus essentially the same size as the SARS-CoV-2 – showed no significant reduction in influenza
9 transmission with the use of face masks.³¹ Likewise, a study of nearly two thousand United States
10 Marine Corps recruits published in the New England Journal of Medicine on November 11, 2020
11 concluded that masks do not reduce or prevent the spread of SARS-CoV-2. ³²

12 76. The World Health Organization announced in 2020 that “at present, there is no
13 direct evidence (from studies on COVID-19) of the effectiveness face masking of healthy people
14 in the community to prevent infection of respiratory viruses, including COVID-19.”³³

15 77. Instead, Cloth masks – the type most used by schoolchildren and the community
16 generally – are particularly problematic according to a randomized control trial conducted on cloth
17 masks with regard to the influenza virus in 2015. The study concluded that due to moisture

27 ³² SARS-CoV-2 Transmission among Marine Recruits during Quarantine / NEJM.

28 ³³ World Health Organization. Advise on the use of masks in the context of COVID-19. Geneva,
Switzerland; 2020.

1 retention, reuse of cloth masks and poor filtration, cloth masks may result in increased risk of
2 infection.³⁴

3 78. Furthermore, the physical properties of masks versus the SARS-CoV-2 virus alone
4 proves that masks simply cannot prevent the virus from exiting the nose and mouth of infected
5 individuals into the air around them to be breathed in by others. The SARS-CoV-2 virus has a
6 diameter of 60nm to 140nm (nanometers, a billionth of a meter). Medical and non-medical
7 facemasks' thread diameter, on the other hand, ranges from 55 um to 440 um (micrometers, one
8 millionth of a meter), which is more than 1000 times larger than the diameter of the virus. Due to
9 the difference in sizes between SARS-CoV-2 diameter and facemasks thread diameter (the virus is
10 1000 times smaller), SARS-CoV-2 can easily pass through any face mask.³⁵

11 79. Despite the same, Defendants continue to embrace masks for its unvaccinated
12 employees, its school-aged children, outdoor activities and other events at which *Passports* are
13 needed, while at various times, sparing the vaccinated from having to wear same. In fact, Dr. Jill
14 Biden attended a Thanksgiving activity in 2021 with school-aged children who were masked, yet
15 Dr. Biden was not. Not only are masks ineffective at reducing or preventing the spread of SARS-
16 CoV-2, the prolonged use of masks by children and adults is detrimental to their physical and
17 mental health. Breathing is the most important physiological function to sustain life and health.
18 Humans are welcomed into the world with the first breath and ushered from it with their last.
19 Without a continuous and adequate oxygen supply to all organs and cells for normal function and
20 survival, life can quickly end, particularly when metabolic byproducts, like carbon dioxide,
21 occurring during cell respiration, cannot be removed. This occurs automatically when face masks
22 used by most consumers force users to rebreathe their own expelled air over extended periods of
23 times, thereby decreasing oxygen intake and increasing levels of carbon dioxide in the body.
24

25 ³⁴ A cluster randomized trial of cloth masks compared with medical masks in healthcare workers
26 – PubMed (nih.gov). Also see July 2020 study by Japanese researchers which found that cloth
27 masks “offer zero protection against coronavirus,” <http://www.asahi.com/ajw/articles/13523664>.

28 ³⁵ <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7224694/>.

1 Confirmation of these principles and the inherent risks has been confirmed in a Meta Analysis of
2 Universal Public Masking and Associated Risks which was released on September 1, 2022 by
3 Premier Risk Management, with a true and correct copy of same attached hereto as Exhibit "16".

4 80. It has been shown that prolonged mask wearing causes the following non-
5 exhaustive list of physical symptoms and damage:

- 6 • Hypercapnia
- 7 • Shortness of Breath
- 8 • Acidosis
- 9 • Chronic Inflammation
- 10 • Increase in Stress Hormone Levels
- 11 • Immunosuppression
- 12 • Loss of concentration
- 13 • Loss of Reaction Time
- 14 • Long-term Neurodegenerative Disease
- 15 • Cardiovascular Disease
- Hypoxia
- Increased Lactate Concentration
- Toxicity
- Self-Contamination
- Increased Muscle Tension
- Fatigue
- Headaches
- Loss of Brain Cells and Brain Function
- Hypertension
- Premature Aging and Premature Death
- Increased Disposition for Viral and Infection Illnesses
- Abnormal Cognitive Development in Children
- Exacerbation of Existing Chronic Conditions

16 81. Masks also cause the following non exhaustive list of psychological effects in the
17 wearer:

- 18 • Fear
- 19 • Mood Disturbances
- 20 • Peer Pressure
- Claustrophobia
- Compromised Cognitive Performance

21 82. There is no known history of persons wearing cloth masks or face coverings for
22 purposes other than religious-based, subjugation and dehumanization of the persons made to wear
23 them, or other non-medical reasons. Masks have been used as a form of torture in prisons, to
24 isolate prisoners from one another, and even helped silence prisoners during trials. Masks
25 dehumanize society by separating members of society from one another. The face is the essential
26 tool for inter-human recognition and interaction. Hiding the face isolates people from one another,
27 atomizing the members society, and breaking down the social structure naturally social humans
28 require.

1 83. Thus, the mandatory masking policy Social Worker Ferrer recommended, with
2 blessings from Dr. Munto and Dr. Aragon, let alone most of the individually named Defendants
3 clearly disrupts and irreparably harms humans generally, impacts recovery of senior citizens who
4 have survived the nursing home scandals of the past 20 months, and thwarts childhood
5 development.

6 84. Nonverbal communication is one of the most important channels in the social
7 development of younger children and is often key to recovery of geriatric patients as well.
8 Furthermore, facial expression is one of the central signals through which one communicates one's
9 own emotional state and infer the emotional state of others, which makes this one of the
10 fundamental building blocks for the development of empathy. The wearing of masks inhibits the
11 development of this important ability. Mask-wearing can also cause children and geriatric patients
12 in nursing homes to experience a negative distortion of emotion experience. Fear and sadness are
13 more likely to be read from the eyes and joy from the mouth region. The wearing of masks could
14 therefore lead to the perception of less positive and more negative emotions in the faces of others.

15 85. The inability to see faces also interferes with a child's early education. One of the
16 goals of daycare and preschools is to teach children cooperation and communication skills, but this
17 pedagogical work is jeopardized when the child cannot see the teacher or caregiver's face.

18 86. A masked face also impairs the development of attachment and relationships,
19 which are essential for the education and upbringing of children. It is precisely the personal and
20 familiar contact between child and staff that is enormously important for early childhood
21 education.

22 87. The wearing of masks is also associated with the impairment of verbal skills
23 development. A mask mutes the voice's higher frequencies, while visual signals from mouth and
24 lip movement are completely obstructed. This has a particularly detrimental effect on a child's
25 ability to learn language.

26 88. Similarly, the currently available face coverings for COVID-19 lack final approval
27 from the FDA and are considered unapproved products that have been authorized for emergency
28 use under an Emergency Use Authorization ("EUA"). 21 U.S.C. Section 360bbb-3(e)(1)(A), the

1 statute granting the FDA the power to authorize a medical product for emergency use, requires,
2 *inter alia*, that the person being administered the unapproved product be advised of his or her right
3 to refuse administration of the product. However, Defendants government entities and their
4 officials have removed if not negated entirely the ability of its constituents and taxpayers to go
5 mask less for fear of violating municipal, County and State “directives”. Whatever arguments
6 may be advanced for placing masks on persons infected with the virus, there is absolutely no logic
7 to the masking of healthy persons and especially not school aged children, unless the undisclosed
8 ulterior motive is to make our children inferior relative to learning and growth opportunities that
9 public and private educational institutions normally provide.

10 //

11 **(4) Microsoft Daily Pass and Passports**

12 89. *Microsoft Daily Pass* was developed jointly under a partnership by and between
13 LAUSD (including the Board Members and Beutner) and Microsoft, and, upon information and
14 belief, with input from and in collaboration with the County Department of Public Health, for use
15 in all LAUSD schools. Microsoft acted under the active supervision of, and pursuant to the
16 encouragement, endorsement, and participation of, LAUSD, the Board Members and Beutner.
17 Since that time, County and City officials have adopted a *Passport* Program for the general
18 population which will afford access to City and County services and cultural events taking place in
19 facilities throughout Southern California. For reasons noted herein, both *Passport* programs,
20 regardless of whether Microsoft’s name is attached to one or the other, are infirm and should be
21 stricken. The invasion of one’s right of privacy, regardless of one’s age, is not justified and is
22 discriminatory, arbitrary and irrational.

23 90. LAUSD, the Board Members and Beutner directed the development and
24 implementation of the *Daily Pass* in LAUSD schools and Superintendent Megan Reilly continued
25 said program up through and including her own departure from LAUSD. *Microsoft Daily Pass* is
26 an app downloaded onto students’ smart phones from a website controlled by *Microsoft* acting for
27 and on behalf of LAUSD. *Microsoft Daily Pass* forces each student to successfully answer a
28 series of health questions and to be current on their mandatory PCR testing prior to issuing a QR

1 Code to the student. That QR code then serves as a “pass” to allow the student onto the school
2 campus. When introducing this program former Superintendent Beutner described the code as the
3 student’s “golden ticket” onto campus. However, knowledgeable Plaintiffs know that the reward
4 is not at all like the never-ending supply of Chocolate that Willy Wonka salivated for.

5 91. Instead, *Microsoft Daily Pass* is an enforcement device for the mandatory PCR
6 testing. The required “pass” to attend school cannot be obtained without submitting to and
7 obtaining a negative result from the mandatory PCR testing. Microsoft and its unknown partners,
8 agents, and assigns are privy to students’ private health information, including genetic information
9 gathered through the mandatory PCR testing. Parents, therefore, have legitimate concerns that
10 their children’s personal health data, genetic material, and other private information will be
11 circulated to other corporate and government entities without their explicit consent since they are
12 being coerced into giving up their rights under federal and state law (including, but not limited to
13 the Health Insurance Portability and Accountability Act of 1996 “HIPAA”)³⁶ to be able to send
14 their children to school. Simply put, they are being forced to choose between their children’s right
15 to an education and their children’s right to medical privacy and bodily autonomy. This is not a
16 choice at all.

17 92. On April 5, 2021, an LAUSD Principal’s Resource Guide (*Guide*) was issued; the
18 *Guide* details the procedures to be utilized if a student tests positive on a PCR. Without
19 investigating whether the student is actually ill, the student is barred from school for a period of 14
20 days and his or her contacts are identified and traced by the “Community Engagement Team”.
21 The student is also given isolation instructions determined by the County Department of Public
22

23 ³⁶ The HIPAA Privacy Rule, 45 CFR Part 160 and Subparts A and E of Part 164, establishes
24 national standards to protect individuals’ medical records and other personal health information
25 and applies to health plans, health care clearinghouses, and those health care providers that
26 conduct certain health care transactions electronically. HIPAA clearly requires appropriate
27 safeguards to protect the privacy of personal health information and sets limits and conditions on
28 the uses and disclosures that may be made of such information without patient authorization. The
Rule also gives patients’ rights over their health information, including rights to examine and
obtain a copy of their health records, and to request corrections. These same provisions should
equally apply when PCR testing, and collection and transmission of such data takes place.

1 Health and is not allowed to return to school until cleared by the Community Engagement Team.
2 *Guide* at page 10. As the *Guide* continues at pages 12-14, close contacts of the student are then
3 required to be tested and potentially quarantined. If the student was on campus, the Transportation
4 Team is also advised of the Positive test, which leads to further contact tracing and potential
5 quarantine of healthy children and adults, with all such data uploaded into the *Daily Pass*
6 platform. In turn the student with the positive test has their *Daily Pass* turned off until the student
7 is “cleared” by the Community Education Team. Meanwhile, the County’s Department of Health
8 is also recording and tracking this information.

9 93. However, the California *Education Code* forbids access to a school district’s pupil
10 records without written parental consent or judicial order, except pursuant to certain non-
11 applicable exceptions. *Cal. Ed. Code Section 49076*.

12 94. The United States Constitution guarantees citizens of the United States a zone of
13 privacy emanating from the penumbras of the Bill of Rights into which no state actor can intrude
14 unless it is to achieve a compelling state interest through a narrowly tailored methodology.
15 Plaintiffs submit that forcing the minor children of Plaintiffs enumerated in Appendix “A” to use
16 the extraordinarily invasive *Microsoft Daily Pass* absent any knowledge of, or assurances
17 concerning, the protection of the data gathered, or its subsequent use, and by whom,
18 unconstitutionally invades this protected zone of personal privacy.

19 95. Plaintiffs submit that mandatory PCR testing, *Microsoft Daily Pass*, and mandatory
20 masking impinge upon Plaintiffs’ fundamental rights (and those of their minor children) and must
21 therefore survive strict scrutiny. Under that test, Defendants must prove that these policies serve a
22 compelling state interest and are narrowly tailored to achieve that goal. Of all people in society,
23 children are at lowest risk of COVID-19 infection and still lower risk of serious medical
24 consequences if they do contract the virus. Thus, it cannot be said that any compelling state
25 interest is served by the policies complained of herein. Even if there were a compelling state
26 interest, the dragnet testing and monitoring of each and every student is overly broad, and clearly
27 not narrowly tailored.

28 96. Thus, when LAUSD and LACOE, their Board Members and their Superintendents

1 refuse to open their schools to all students for education and extracurricular activities, a growing
2 body of evidence continues to show that reopening schools for all students in all grades is vital and
3 can be safely accomplished. Numerous treatises from respected sources, in addition to data
4 amassed by various universities, have shown that schools are among the lowest risk settings for
5 infection from COVID-19. There is now almost universal scientific consensus that schools are a
6 safe environment for both students and staff and that their low case rates actually make them the
7 safest place for children to be during the COVID-19 pandemic. As the CDC wrote in its
8 “Summary of Guidance” on December 4, 2020, “because of ... the disproportionate impact that
9 school closures can have on those with the least economic means, kindergarten through grade 12
10 schools should be the last settings to close after all other mitigation measures have been employed
11 and the first to reopen when they can do so safely.” Unfortunately, Defendants in concert with
12 each other have turned schools into a vehicle preventing the return to normalcy desired, especially
13 since the schools in LAUSD are now among the most restrictive setting in the state if not the
14 country.

15 97. In many respects it appears the County, LAUSD and LACOE, and individually
16 named Defendants associated with said entities, including Dr. Barbara Ferrer are angry that they
17 had to open the schools in the first place. Therefore, to punish parents and students alike, these
18 Defendants have seized upon the vaccinated/unvaccinated issue to further retaliate, while ignoring
19 that a virtual education, aka “*Distancing Learning*” does not pass constitutional muster. Although
20 these events and judicial intervention has diminished the number of students attending the Virtual
21 Academy, the campaign of retaliation has now turned back to those teachers and staff who refused
22 to vaccinate, as evidenced by recent notices that the unvaccinated can no longer be accommodated
23 and must either resign or have their credentials scarred because of one’s anticipated public firing.
24 Susana (Rodriguez) Hernandez, and Adult Teacher, was fired for refusing to vaxx, at a time when
25 she was diagnosed with cancer, and upon suffering a significant decrease in income finally
26 capitulated and vaxxed. However, LAUSD declined to reinstate Susana Hernandez, despite
27 correspondence from even the EEOC in these regards.

28 98. The alarming effects of prolonged and indefinite school closures on students which

1 commenced in early 2020 are just as pertinent when Defendants continue to seek to segregate
2 students and more importantly use their *Principal's Resource Guide* as a vehicle to keep
3 unvaccinated students at home, even when those students were simply exposed to vaccinated
4 students testing positive for Covid without symptoms and vice versa.

5 99. After being told to stop doing so, Defendants have exacerbated the situation by
6 using Covid-19 as an excuse to divide the human race, including students, between vaccinated and
7 unvaccinated, with the *Passport* program designed to afford the vaccinated admission into
8 concerts, public events, businesses and even food stores, while depriving the unvaccinated of the
9 same opportunities. However, Defendants must recognize that Covid-19 is no longer an
10 emergency condition that requires draconian restrictions to handle, with Dr. Brad Seligman, the
11 Chief Medical Officer at LAC+USC, so announcing during a press conference conducted on July
12 13, 2022. The virus cannot be eliminated. It is endemic. Furthermore, neither the State, the City,
13 the County nor any of the individually named Defendants herein have the authority to declare an
14 emergency forever. It must terminate a state of emergency "at the earliest possible date that
15 conditions warrant." That date has long since passed.

16 100. Plaintiffs submit that the State of California and especially all government entities
17 located within Southern California, including those named herein along with their officials, must
18 end the "emergency" and return to normal governance. Defendants do not have the constitutional
19 authority to condition a return to normalcy on forced medical treatments and digital surveillance
20 that a large percentage of the taxpayers, let alone the workforce of public and private sector
21 Employers, parents and their children, do not want.

22 **E) IMMINENT AND CONTINUING HARM**

23 101. Moreover, the mass termination of thousands of City, County and LAUSD
24 employees will continue to have a devastating effect on the public, causing social services to be
25 cut and laws to not be enforced. In a recent Public Records Response from the City's Chief
26 Administrative Officer, dated December 12, 2022, statistics showing the number who have refused
27 to vaccinate, attached hereto as Exhibit "17", as well as those who have, remains significant, while
28 acknowledgement of the adverse consequences suffered by unvaccinated workers is disturbing at

1 best. This evidence and recent concessions that the “*jab*” did not even qualify as a “vaccination”
2 until the definition was repeatedly changed by the Center for Disease Control, shows that public
3 sector and private sector employees have been deliberately misled, in all likelihood to ensure
4 continuing receipt of Covid Relief Funds amounting to well in excess of a billion dollars in
5 Southern California alone. Since Defendants are continuing to pursue the discharge of non-
6 vaccinated employees, including firefighters, those plans cannot be upheld since doing so will
7 continue to result in the dismantling of the civil service system that most Plaintiffs fall under, on
8 the guise that Defendants have simply adopted a new “condition of employment”, even though
9 most Plaintiffs herein are long term employees who have never agreed to a change in their
10 “conditions of employment”. Similarly, it is unreasonable to expect that new hires will be
11 adequately trained to engage in such highly specialized jobs that maintain our electricity, let alone
12 other positions without training from the very individuals who will be displaced because they are
13 unvaccinated. *F2C* further alleges that Southern California and the entire State will continue to
14 suffer irreparable harm from the threats of mass termination which is continuing, including against
15 City, County and LAUSD employees, as well as State employees, ranging from first responders,
16 including firefighters, law enforcement, nurses, and hospital staffs, to engineers and inspectors;
17 from mechanics to lineman who keep the electrical grid in California and neighboring states
18 functioning, to employees who maintain facilities, dispose of trash, and protect our waterways.
19 Defendants have not spared anyone and have continued to threaten not only the livelihood of
20 lower income wage earners, including Sanitation and Zoo workers, to administrative and
21 management employees, including in the Port of Los Angeles and its Harbor Department, as well
22 as attorneys. As threatened actions of firing are being implemented, employees who planned on
23 saving their retirements for their golden years are contemplating loans against if not total
24 withdrawals which could seriously undermine the financial stability of retirement programs in
25 which State, City and County employees participate, including PERS, SERS and LACERA.

26 102. Each of the Plaintiffs above the line have been damaged and treated negatively for
27 asserting their rights to privacy and exercising their guarantees under the First Amendment,
28 including to cling to their religious beliefs without being ridiculed. Plaintiffs also claim damages

1 because the vaccination mandates seek to further objectives that will dissipate equal employment
2 opportunities, while further impinging upon the right of all employees under the California
3 Constitution and applicable DFEH regulations to associate with one another, including in one's
4 community and elsewhere in Southern California. By drawing distinctions between the vaccinated
5 and the unvaccinated while insisting on collection of genetic information on the guise of PCR
6 testing, Defendants and their agents, including lower level management representatives, including
7 personnel assigned to Human Resources, Payroll and Personnel functions, have distinguished
8 between those "cooperating" and those refusing to put a toxic substance into their bodies, via
9 vaccination or designated PCR methods. The claim that Defendants will in all likelihood try to
10 make, namely that PCR testing and Passports have been abandoned, is wrong, with disparate
11 treatment and a hostile work environment perpetrated when staff and their guests were invited to
12 holiday Christmas parties, as evidenced by the flyer distributed by the City's Department of Water
13 and Power in December 2022, with a copy attached hereto as Exhibit "18".

14 103. By doing so, Plaintiffs and persons with whom they associate continue to be
15 perceived as disabled by Defendants, yet Defendants have refused to extend accommodations and
16 to engage in a good faith interactive process with said employees, despite the perception of
17 disability, the existence of disabilities or because of one's religious beliefs, medical condition or
18 medical exemption requests. Defendants have likewise sought to penalize Plaintiffs because of
19 their association with Plaintiffs and others of like mind in these regards, especially since the "jab"
20 has been found to have had far more reaching adverse consequences because of one's age, national
21 origin, race and even sex. The frequent occurrence of these events carried out by representatives
22 of Defendant Employers alone demonstrates that Defendants have acted blindly and violated the
23 very oaths of office they swore to uphold by imposing vaccination mandates upon some of its who
24 otherwise enjoy working with a diverse population as the equal employment opportunity laws
25 were intended to ensure.

26 **F) COMPLIANCE WITH FEHA AND TORT CLAIM ACT REQUIREMENTS**

27 104. Plaintiffs have filed Charges of Discrimination, Harassment and Retaliation with
28 the California Department of Fair Employment and Housing and have procured Right-to-Sue

1 Letters dated December 9, 2021, to redress Plaintiffs claims of Discrimination because of one's
2 perceived disabilities, religious beliefs, genetic information, one's associations and one's protests.
3 The Narrative to the DFEH Charge specifically referenced Tort Claims, while Defendants were
4 sent by Priority Mail on December 19 and 20, 2022 a copy of these filings and correspondence
5 from counsel to satisfy each of the statutory prerequisites which arguably govern this case. A true
6 and correct copy of same is attached hereto as Exhibit "19".

7 105. The docketing of Tort Claims occurred to ensure that whistleblowing activities
8 reporting and objecting to violations of constitutional protections, statutes and regulations were
9 docketed to comply with the applicable Government Tort Claims Act, while satisfying DFEH
10 requirements as well. Despite submitting these documents to the government entities and their
11 representatives, F2C affirmatively alleges that Defendants collectively, with the exception of
12 LACOE, LAUSD, Barbara Romero of the City's Sanitation Department, and Governor Gavin
13 Newsom, ignored the F2C mailings, including service of the lawsuit and a request for
14 Acknowledgement of Receipt of Service of not only the lawsuit that was filed on December 13,
15 2021, the Summons which subsequently issued, and the DFEH and Tort Claim filings. The
16 decision to pretend that there was no service before December 25, 2021 backfired when a limited
17 number of defendants acknowledged service, including Barbara Romero. At no time have the
18 Defendants from the City, LAUSD, LACOE and the County, rejected the Tort Claim, nor have
19 they notified Plaintiffs' counsel of any deficiency in the notice provided. The Attorney General's
20 Office did however request that separate service be made upon specific Departments and
21 Defendants like Dr. Aragon who was served but declined to acknowledge such service.

DEFENDANTS and DOE DEFENDANTS, including All Government Employers and All
individually named Defendants and Doe Defendants For Violation of Privacy Rights)

106. Plaintiff re-alleges Paragraphs 1-102, 105, above as though fully set forth herein.

107. The California Constitution, Article 1, § 1, expressly provides that “[a]ll people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety, happiness, and *privacy*.” Unlike the United States Constitution, the citizenry of California in 1972 expressly included the right to privacy as a fundamental right guaranteed by public policies of this State and is a right protected against all state action.

108. The ballot pamphlet, which was distributed to the voters prior to the election, stated that the constitutional right to privacy encompassed a variety of rights involving private

1 choice in personal affairs. “The right to privacy is the right to be left alone. It is a fundamental and
2 compelling interest. It protects our homes, our families, our thoughts, our emotions, our
3 expressions, our personalities, our freedom of communion, and our freedom to associate with
4 the people we choose [para.] The right of privacy is an important American heritage and
5 essential to the fundamental rights guaranteed by the First, Third, Fourth, Fifth, and Ninth
6 Amendments to the U.S. Constitution. This right should be abridged only when there is
7 compelling public need.” (Ballot Pamphlet, Proposed Amends. to Cal. Const. with arguments to
8 voters, Gen. Elec. (Nov. 7, 1972) p. 27, as quoted in *White vs. Davis* (1975), 13 Cal.3d 757, 775-
9 776; also see *Robbins v. Superior Court* (1985) 38 Cal.3d 199, 212.

10 109. Plaintiffs submit that the surveillance activities engaged in leading up to passage of
11 a right to privacy are implicated herein due to the implementation of contact tracing schemes that
12 have evolved in educational institutions and are inherent in the testing and passport programs
13 adopted by Defendant government entities and their elected and appointed officials.

14 110. Plaintiffs submit that the right to privacy is not simply synonymous with protecting
15 the confidentiality of one’s medical records or private thoughts. Instead, it includes the right to
16 determine what happens to one’s own body. The right to bodily autonomy includes the right *to*
17 *exercise informed consent to accept, or not accept, novel and unproven medical treatments*
18 *without force, fraud, deceit, duress, coercion, or undue influence* and protected constitutionally as
19 well as at common law.

20 111. Public and private sector employees, including members of F2C, have a legally
21 protected privacy interest in their bodily integrity and their right to choose which medical
22 treatment they receive. They also have a reasonable expectation of privacy in these circumstances,
23 since the long-term side effects of the Covid vaccines are presently unknown to a reasonable
24 degree of scientific certainty. Under normal circumstances, rather than a “plandemic”, long-term
25 side effects are typically studied for 10 years before FDA approval is granted to any proposed drug
26 or medication. That level of rigorous experimental evaluation of safety and efficacy has not yet
27 occurred with respect to the Covid vaccines and will never occur because Defendant government
28 entities and their elected and appointed officials have no interest in ferreting out the truth about the

1 origins of the virus, let alone how to properly treat individuals who appear to have symptoms,
2 even though same are consistent with typical bouts of influenza. It is therefore fair and reasonable
3 for *F2C* and its members as well as everyone else for that matter to object to a Covid injection
4 until long-term side effects of those vaccinations are understood and all ingredients are disclosed.

5 112. Further, it is scientifically irrefutable that current vaccines available do not prevent
6 the spread of Covid and its variants and may increase spread of the virus due to viral load factors
7 more harshly affecting those who have been vaccinated. Thus, Public and private sector
8 employees, including all members of *F2C* recited in the caption hereto, are entitled to reasonable
9 accommodations which would allow them to continue employment without being forced to take a
10 Covid vaccine, yet the State, the City and the County, as well as LAUSD and LACOE, have
11 largely refused to provide such accommodations. Given these issues and concerns, Defendants'
12 insistence that members of the public workforce, take the Covid vaccine and be fully vaccinated
13 including boosted by dates specified, and their ongoing efforts to threaten to fire, and in some
14 cases actually fire those who did not comply, while publicly ridiculing said employees in front of
15 their colleagues, constitutes a serious infringement upon the privacy rights of not only civil
16 servants, but their families and their communities as well.

17 113. The County and City mandates which also insist on a passport scheme designed
18 to exclude the unvaccinated, including visitors and residents alike, is equally infirm by precluding
19 entrance into events, let alone businesses to which accessibility is needed to ensure one is fed and
20 clothed, and constitutes a serious invasion of one's inalienable right to privacy, let alone to
21 happiness.

22 114. In light of existing reasonably available accommodations, Defendants had no
23 legitimate employer interest in mandating vaccinations let alone PCR tests accessible only through
24 *Fulgent Genetics* or *BlueStone Safe* for their workforce, let alone students attending LAUSD and
25 LACOE educational institutions. By setting the benchmark in the way that the City and the
26 County did even local colleges and universities are denying admission and/or readmittance into
27 colleges and universities.

28 115. Plaintiffs submit that the privacy rights of Plaintiffs have been violated because of

1 the manner in which Defendants have insisted on using certain PCR firms, including *Fulgent*
2 *Genetics* and *BlueStone Safe*, without complying with the bidding process; without offering all
3 alternatives to placement of a toxic substance on nasal swabs, i.e. the collection of saliva as
4 previously utilized at certain correctional institutions; and without ensuring that any information
5 procured leading up to, during and after the testing process remains confidential. Instead, as noted
6 above, *Fulgent Genetics* has touted on its website that information procured through its testing
7 processes, including test results, is shared throughout the world. Efforts by the County of Los
8 Angeles to revise the Fulgent contract after the fact does not detract from the violations that have
9 already occurred, ever since PCR testing was mandated for County employees who are not
10 vaccinated. At the same time, the information which employees and students must give, including
11 relative to their financial affairs and insurance plans, as well as concerning their health, if not
12 already downloaded by Defendants personnel and payroll offices, is clearly private information
13 that Defendants should not be able to gain access to, let alone distribute to the vendors chosen by
14 government officials. F2C is also informed that the State has now changed certain PCR entities,
15 but same at Correctional Institutions have been creating documents with electronic signatures
16 authorizing and agreeing to tests even though the employees have not even been shown the
17 documents, let alone even given an opportunity to read or object to same.

18 116. In light hereof, a justifiable controversy exists between Plaintiffs and residents of
19 California, including all public and private sector employees and school aged children, and
20 Defendant Employers and educational institutions with respect to each of the Mandates which the
21 State, the County, the City, LAUSD and LACOE have issued. Plaintiffs allege that each of the
22 mandates passed and/or enforced by Defendant government entities and their agents and
23 representatives, including mandating vaccinations, PCR testing, masking and Microsoft Daily Pass
24 and Passport programs, are unnecessary and not the least restrictive. Each impermissibly invade
25 the constitutional right of privacy that F2C members, Plaintiffs herein, and all others similarly
26 situated are guaranteed.

27 117. Pursuant to Code of Civil Procedure Section 1060, and at common law, F2C and its
28 members are entitled to declaratory relief that:

1 a. The requirement that public employees and school aged children, including young
2 adults receive a vaccination as a condition of continued employment or the right to attend
3 classroom learning in person, if at all, violates Plaintiffs' inalienable autonomous rights to
4 determine what is done to one's own body;

5 b. The requirement that public employees receive a vaccination as a condition of
6 continued employment and that students must vaccinate as a condition of attending in person
7 classroom learning and participating in extra-curricular activities violates Plaintiffs' inalienable
8 autonomous rights to exercise informed consent to accept, or not accept, novel and unproven
9 medical treatments without force, fraud, deceit, duress, coercion, or undue influence, and,

10 c. Accommodations are reasonably available to Defendants that would allow continued
11 employment and school attendance without a Covid Vaccine.

12 118. F2C and its Members on behalf of themselves and the public, are entitled to
13 preliminary and permanent injunctive relief:

14 a. Prohibiting Defendants from enforcing their mandates requiring Public and private
15 sector employees, including members of F2C, must receive a Covid Vaccination as a condition of
16 continued employment;

17 b. Prohibiting Defendants from enforcing their mandates that school children must
18 receive a Covid Vaccination as a condition of in person learning and participation in extra-
19 curricular activities;

20 c. Requiring Defendants to offer reasonable accommodations to Public and private
21 sector employees, including members of F2C, to allow continued employment without a Covid
22 Vaccination and without testing controlled by *Fulgent Genetics* or *BlueStone*;

23 d. Prohibiting Defendants from using the *Passport* and *Microsoft Daily Pass*
24 programs to engage in surveillance of Plaintiffs and others residing in or visiting California;

25 e. Removing restrictions which prohibit the unvaccinated from gaining entrance into
26 events, businesses and cultural activities which the vaccinated are invited to or regularly access;

27 f. Affirmatively finding that the Covid Mandates at issue, including mandating
28 Vaccinations, Masking, PCR testing, Microsoft Daily Pass and Passports, are unconstitutional; and

1 g. Prohibiting Defendants from engaging in discrimination, harassment and
2 retaliation against Plaintiffs who have protested these matters, including when bringing this action.

3 119. Until CDC fully discloses all ingredients contained in the COVID vaccine
4 to which one is expected to submit and reports all adverse events, then Public and private sector
5 employees, including members of F2C, and school-aged children, including young adults, should
6 receive injunctive relief which:

7 a) prohibits the Defendants from imposing their vaccination mandates and from
8 encouraging private sector employers as well as colleges and universities to implement their own
9 mandates;

10 b) from mandating PCR testing from staff not currently experiencing COVID symptoms;

11 c) prohibiting *BlueStone* and *Fulgent Genetics* from monopolizing PCR tests for public
12 and private sector employees, including by allowing Plaintiffs and others to offer, if necessary,
13 medical statements or testing results from other currently in use methods of Covid testing,
14 including saliva collection without use of toxic-laden swabs; and

15 d) prohibiting continued storage of the results of one's testing on Passport and Daily pass
16 programs, let alone the offering of same to personnel to engage in surveillance activities of
17 students, parents and employees alike.

18 120. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs enumerated in
19 Appendix "A" and others similarly situated have become mentally upset, distressed and
20 aggravated and have sustained irreparable damages to their reputations, particularly in light of
21 disciplinary documents that have been appended to Personnel files which will negatively impact
22 efforts at upward mobility. Because of DEFENDANTS and their representatives' actions in these
23 regards, Plaintiffs and their colleagues who are unvaccinated or who decline to provide their status
24 have had their career paths irreparably thwarted because Defendants have stated that promotional
25 and overtime opportunities will not be afforded the unvaccinated. Accordingly, Plaintiffs claim
26 general damages in a sum to be proven at trial.

27 121. Plaintiffs who were, were it not for their firing or constructive discharge, and/or
28 who remain employed, albeit without pay or at greatly reduced rates due to Defendants' efforts to

1 extract monies for PCR testing, have been further damaged in the amount of lost earnings and
2 benefits, and future lost promotional and overtime opportunities, in ways and in amounts to be
3 proven at time of trial.

4 122. On behalf of the school-aged children identified in Appendix “A”, and others
5 similarly situated, Plaintiffs further seek general damages, according to proof. Because of same,
6 certain Plaintiffs and F2C members have pursued internal grievance and appeals processes and
7 have docketed their DFEH charges as the basis for Tort Claims, to the extent same is necessary to
8 support recovery of the full panoply of damages against Defendants.

9 123. The more than 4800 F2C Members specifically identified in Appendix “A”
10 (collectively Plaintiffs herein, including school-aged children identified by initials or by names)
11 have in certain circumstances been further forced to obtain medical care, as a consequence of
12 Defendants failure to ensure informed consent before insisting on vaccinations, and have
13 aggravated the physical and psychological wellbeing of Plaintiffs. Accordingly Plaintiffs seek
14 special damages, including for past and future additional care that may be needed, according to
15 proof.

16 124. In light of concerted effort by DEFENDANTS elected and appointed officials,
17 agents and representatives to invade Plaintiffs rights to privacy, including bodily autonomy and to
18 associate freely with their colleagues and community, without government snooping, and to
19 collect confidential information about Plaintiffs, Plaintiffs do hereby seek punitive damages
20 against Defendant government entities. Plaintiffs submit the actions of Defendants, particularly
21 Governor Gavin Newsom, elected government officials enumerated in paragraphs 24, 28 and 29-
22 34, including Dr. Barbara Ferrer, Dr. Tomás Aragón, was and remains willful, wanton, malicious
23 and oppressive, and justifies the awarding of punitive damages against individually named
24 Defendants, if not the government entities from which each individually named Defendant is
25 affiliated.

26 125. Plaintiffs further note that because this action serves the public interest, an award of
27 attorneys’ fees under section 1021.5 of the California Code of Civil Procedure is also warranted.

SECOND CAUSE OF ACTION
(All Plaintiffs listed in Appendix “A”,³⁸ against all Defendants
and Doe Defendants, including Government Employers and individually
named Defendants For Denial of Equal Protection)

126. Plaintiff re-alleges Paragraphs 1-102, 105, above as though fully set forth herein.

127. The Equal Protection Clause of the California Constitution, Article I, § 7, subd. (a), states that “[a] person may not be ... denied equal protection of the laws.” Further, “[a] citizen or class of citizens may not be granted privileges or immunities not granted on the same terms to all citizens.” (Cal. Const., Art. I, § 7, subd. (b).)

128. Equal protection of the laws ensures that people who are similarly situated for purposes of a law are generally treated similarly by the law. This means that a government actor may not adopt a rule that affects two or more similarly situated groups in an unequal manner.

129. The first prerequisite to a meritorious claim under the equal protection clause is a showing that the state has adopted a classification that affects two or more similarly situated groups in an unequal manner. This initial inquiry is not whether persons are similarly situated for all purposes, but whether they are similarly situated for purposes of the law challenged.” (*Cooley v. Superior Court* (2002) 29 Cal.4th 228, 253, citations omitted; see also *DiMartile v. Cuomo* (N.D.N.Y. 2020, No. 1:20-CV-0859 (GTS/CFH)), 2020 WL 4558711, at *10 [holding pandemic restrictions violated equal protection guarantees]; *Deese v. City of Lodi* (1937) 21 Cal.App.2d 631, 635 [holding health restrictions applicable only to certain industries violated equal protection guarantees].)

130. Herein, Plaintiffs are informed and believe that not only have Defendant government officials carved out exceptions which purport to make themselves an exception to the mandates but have also afforded exceptions to highly influential people and their friends and families. At the same time, certain elected law enforcement officials as well as heads of various Departments have refused to carry out the mandates in their own Departments and have publicly stated they will not enforce same, thereby creating a situation whereby not everyone is subject to

³⁸ Identical to detailed Listing of Plaintiffs in the First Cause of Action, above and to the alphabetized Cover Sheet to Appendix “A”.

1 the same mandates. Because of same, equal protection is denied to Plaintiffs not assigned to those
2 Departments, while individuals who desire to visit certain businesses and events have been and are
3 being treated differently because of their vaccination or PCR status, with the most recent “Holiday
4 Party” invitation issued by the City’s Department of Water and Power, Exhibit “19” hereto,
5 reflecting same.

6 131. The government’s exercise of police power “cannot be so used as to arbitrarily
7 limit the rights of one class of people and allow those same rights and privileges to a different
8 class, where the public welfare does not demand or justify such a classification.” *Deese, supra*, 21
9 Cal.App.2d at 640.

10 132. Defendants’ restrictions violate the Equal Protection Clause of the California
11 Constitution because (1) there is no statewide mandate; (2) Defendants’ regulations distinguish
12 between vaccinated and unvaccinated children, and impose independent study as the sole option
13 for education for children over the age of 16 who are unvaccinated, including children who have
14 natural immunity from prior infection, while providing in-person education and opportunities to
15 participate in extracurricular activities to those who are vaccinated; (3) Defendants’ rules
16 wholly ignore the efficacy of naturally acquired immunity, while only recognizing vaccinated
17 immunity and sanctioning preferential treatment for vaccinated individuals, even though medical
18 opinions are now suggesting that the vaccinated have lost their immunities; (4) Defendants’
19 rules enable its employees to request a religious and medical exemption from the mandate, yet
20 Defendants refuse to process said requests or threaten to retaliate against said employees for
21 making the requests in the first place on the guise that “*God has no right to be brought to the*
22 *workplace*”; and (5) officials are now suggesting that employees who are partially vaccinated
23 should enjoy privileges reserved exclusively for the vaccinated, while refusing said privileges, i.e.
24 the Passport, to the unvaccinated who either have exemptions, have had same speciously turned
25 down, or are still awaiting decisions on their submissions.

26 133. Where a rule results in infringement of a fundamental right, such rule is subject
27 to strict scrutiny. The right to privacy is a fundamental right under the California Constitution.
28 Thus, any rule that deprives a person or group of their privacy rights is subject to strict scrutiny.

1 Strict scrutiny demands that the government actor establish (1) it has a compelling interest that
2 justifies the challenged rule; (2) the rule is necessary to further that interest; and (3) the rule is
3 narrowly drawn to achieve that end.

4 134. The alleged government interest in slowing the spread of the virus that causes
5 COVID-19 does not justify Defendants' rules, considering ample evidence that Covid is no
6 different than a seasonal flu and the EUA vaccines cause greater harm than ever envisioned.
7 Defendants' rules are not narrowly drawn to minimize infringements on the constitutionally
8 protected right of Californians, including Plaintiffs and their designed school-aged children,
9 including young adults seeking to commence or resume their studies at colleges and universities.

10 135. Accordingly, Plaintiffs seek to eliminate the denial of equal protection that
11 Defendants and their representatives have sought to foster, in the workplace and throughout
12 California, including at its schools, colleges and universities.

13 136. Plaintiffs further seek all such damages, pecuniary and non-pecuniary, which may
14 be afforded Plaintiffs by the trier of fact, including nominal as well as punitive damages to
15 demonstrate that Defendants do not have a right to segregate between the vaccinated and the
16 unvaccinated, let alone to carve out special exceptions for themselves. Because of same, Plaintiffs
17 have also utilized their DFEH filings to support Tort Claims, to the extent Defendants claim same
18 is necessary to support recovery of damages against Defendants.

19 137. Plaintiffs further note that because this action serves the public interest, an award of
20 attorneys' fees under section 1021.5 of the California Code of Civil Procedure is also warranted.

21 **THIRD CAUSE OF ACTION**
22 **(All Plaintiffs listed in Appendix "A",³⁹ including**
23 **against all Defendants and Doe Defendants, including Government**
24 **Employers and individually named Defendants and Doe Defendants For Failure**
25 **to Provide an Equal Education)**

26 138. Plaintiff re-alleges Paragraphs 1-36, 40-100, 105, 117-119, above as though fully
27 set forth herein.

28 ³⁹ Identical to detailed Listing of Plaintiffs in the First Cause of Action, above and to the
alphabetized Cover Sheet to Appendix "A".

1 139. Education is a fundamental right under the California Constitution, Article IX, as
2 noted by the California Supreme Court in *Serrano vs. Priest* (1971), 5 Cal. 3d 584, a case which
3 challenged efforts to decrease funding for public schools. The importance of said decision took on
4 added significance when LAUSD sought to foreclose classroom learning completely, this past
5 year, see footnote 11, above, so it could resort to virtual classrooms. Once forced to open,
6 LAUSD and LACOE, with direction from government officials, including its Board of Education,
7 as well as Public Health Officers, including Dr. Barbara Ferrer, set about to use the virus as a
8 means to reduce opportunities for campus learning to primarily vaccinated students. This in turn
9 has set similar benchmarks for college officials who have now gone beyond exclusion from in
10 person college classes to even denying admission into Internet classes.

11 140. Plaintiffs believe the Microsoft Daily Pass has been used to exclude students who
12 allegedly test positive or associate with others who do but reduces the amount of time a vaccinated
13 student must remain off campus from that of unvaccinated students. The constant quarantining of
14 students has the effect, in Plaintiffs opinion, of “depriving children of the opportunity to obtain an
15 education.” *Serrano, supra*, 5 Cal 3d at 607. As was the case before when .. an Indian girl sought
16 to attend state public schools, we declared: “[T]he common schools are doorways opening into
17 chambers of science, art, and the learned professions, as well as into fields of industrial and
18 commercial activities. Opportunities for securing employment are often more or less dependent
19 upon the rating which a youth, as a pupil of our public institutions, has received in his schoolwork.
20 These are rights and privileges that cannot be denied.” *Piper v. Big Pine School District* (1924),
21 193 Cal. 664, 664, 673. But they are being denied, including the right to participate in extra-
22 curricular activities which also enhance one’s standing, on the guise that one is unvaccinated or is
23 conveniently testing with false positives which force one to be denied access to the classroom,
24 even though the risk of contracting Covid to school-aged children is far less than anyone else in
25 the population. Amber Leslie’s son was even removed from the LAFD Fire Cadet Program, while
26 Todd Thornburg’s daughter, Emma, was denied Girl’s State participation because of their
27 respective vaccination status. The son and daughter of Anthony Johnson have also been denied
28 reentrance into college programs, including Internet classes and one’s mandated for completion of

1 one's engineering degree.

2 141. Plaintiffs intend to engage in extensive discovery which shows that the vaccinated
3 students are treated more favorably, including relative to the length of time he/she is away from
4 school for allegedly testing positive, if even removed at all. As noted above, teachers have even
5 been allowed to reward vaccinated students by giving them AirPods, while castigating those
6 students who acknowledged not being vaccinated. Whether or not a teacher was foolish enough to
7 intake a vaccination that still is not FDA-approved misses the point. The vaccinations available in
8 the United States are not FDA approved and should not be given to our children, let alone the
9 populace, including many Plaintiffs, who have refused to take the “*Jab*”. Efforts to further
10 deceive the public by suggesting that the “deferred approval” of *Cominarity* means that Pfizer’s
11 *BioNtech* is interchangeable with *Cominarity*. Although there is a common molecular structure
12 and use of anti-freeze ingredients in both, until *BioNtech* is approved on its own merit, warning
13 notices must still be issued for *BioNtech*. Certain plaintiffs believe this misinformation is still
14 being given even though *Cominarity* is still not available, while the FDA Letter dated August 23,
15 2021, a true and correct copy of which is attached hereto as Exhibit “14”, raises serious questions
16 and demands studies because of myocarditis, immunogenicity and adverse events involving
17 pregnant women and school-aged children. None of those studies have been completed, with the
18 FDA and Pfizer referencing the need to consider lower dosages and to study the effects of same in
19 6-month-old infants to 12 years of age, 5-year-olds to 15 years of age, 12-year-olds to 15 years of
20 age, and 12 years old to 30 years of age, as well as pregnant women. So why the City, County and
21 State would want to lead the public to believe that *BioNtech* can be used in place of *Cominarity* is
22 a bait and switch tactic that must not be condoned. In the same way, removing a reference to
23 “swine” as a gelatin on vaccination labels cannot be condoned, even though certain religious
24 leaders have opined despite historical teachings affecting many different faiths that a “*little swine*
25 *will not hurt you.*”

26 142. The alleged government interest in slowing the spread of the virus that causes
27 COVID-19 does not justify Defendants’ rules, considering ample evidence that Covid is no
28 different than a seasonal flu and the EUA vaccines cause greater harm than ever envisioned.

1 Defendants' rules are not narrowly drawn to minimize infringements on the constitutionally
2 protected right to an education.

3 143. Accordingly, in addition to seeking injunctive and declaratory relief, Plaintiffs
4 further seek all such damages, pecuniary and non-pecuniary, which may be afforded Plaintiffs by
5 the trier of fact, including nominal damages if necessary to demonstrate that Defendants do not
6 have a right to reduce the educational opportunities of unvaccinated students, and in particular,
7 those young people whose parents have been afraid to speak out in these regards for fear of
8 retaliation let alone being labeled by politicians and members of the Board of Education as
9 "domestic terrorists". In support hereof, Plaintiffs have also appended their mass DFEH Charge
10 Narrative to support the Tort Claims which F2C and its members sought to file, to the extent
11 Defendants claim same is necessary to permit recovery of damages against Defendants.

12 144. Plaintiffs further note that because this action serves the public interest, an award of
13 attorneys' fees under section 1021.5 of the California Code of Civil Procedure is also warranted.

14 **FOURTH CAUSE OF ACTION**

15 **(All Plaintiffs listed in Appendix "A",⁴⁰ including**
16 **against all Defendants, including Government Employers and individually**
17 **named Defendants for Violation of the Right to Refuse Medical Treatment)**

18 145. Plaintiff re-alleges Paragraphs 1-36, 40-100, 105, 117-119, above as though fully
19 set forth herein.

20 146. Although for the most part every person has the right to informed consent, with
21 doctors obligated to tell you the potential benefits, risks, and alternative methods of any medical
22 procedure, and procure your consent before proceedings, these requirements have been negated by
23 Defendants who have insisted on imposing mandates as a condition of employment and a
24 condition of attending public schools, as well as various colleges and universities. The decision of
25 Defendant government officials and their representatives, including management employees, to
26 ignore overwhelming evidence that Covid vaccines *in circulation* continue to hold only

27 _____
28 ⁴⁰ Identical to detailed Listing of Plaintiffs in the First Cause of Action, above and to the
alphabetized Cover Sheet to Appendix "A".

1 emergency use authorization, while *Cominarity* is not yet available is reprehensible. Thus,
2 Defendants did not intend to comply with the obligation to procure informed consent let alone
3 afford its employees and students the right to refuse the medical treatment/procedures which were
4 mandated⁴¹. The same can be said about masking since Defendants have recklessly placed
5 employees at risk by refusing to provide the training/testing required by established California
6 OSHA guidelines for those employees required to wear N95 respirators at all times rather than the
7 maximum of 8 hours. Although Firefighters have had access to better masks, the fact remains that
8 CAPTAIN CRISTIAN GRANNUCI tried to forewarn his colleagues and the public about these
9 risks and the lack of informed consent since he (GRANNUCI) was ordered to administer
10 vaccinations to. Due to a workplace accident in August 2021, GRANNUCI was placed off on
11 medical leave, only to find the CITY FIRE DEPARTMENT initiating disciplinary proceedings
12 against GRANNUCI which it refused to provide a reasonable continuance of, despite knowing
13 GRANNUCI was scheduled for yet another back surgery, and despite the Firefighters Bill of
14 Rights.

15 147. Entwined with the right to informed consent is the right to refuse. For most non-
16 life-threatening treatments, you have a right to refuse medical treatment. These rights to consent
17 and refuse are also codified in California's Health & Safety Code section 1262.6(a)(3). Since a
18 hospital is required to "provide each patient ... written information regarding the right's to ...
19 *participate actively in decisions regarding medical care*", so should such obligation apply to
20 Defendants and their elected and appointed officials, including their Public Health Officials like
21 Dr. Tomás Aragón, Dr. Barbara Ferrer, Dr. Arthur Manukian and Dr. Munto Davis, who have
22 orchestrated mass vaccinations which have resulted in significant adverse events, including for
23 various Plaintiffs and their family members.

24
25
26 ⁴¹ It now appears that Government entities engaged in healthcare have also failed to segregate
27 blood from vaccinated donors, let alone given notice to blood recipients of the source of blood to
28 be administered. F2C will seek to have such information included within notices that must be
given to recipients of blood transfusions hereinafter.

1 148. Instead, Defendant government entities have even operated testing and vaccination
2 sites at government facilities without ensuring informed consent and the right to refuse. At the
3 same time, certain State operated facilities have allowed newly retained testing vendors to create
4 electronic authorizations without even showing same to affected employees. Because Bernice
5 Molano dared to expose same, she was rewarded with a punitive memo.

6 149. Plaintiffs have reason to believe that government officials have intentionally
7 misrepresented the viability and life-threatening consequences of vaccinations which Defendants
8 have insisted be taken by public employees to continue working; by students seeking an
9 education; and by Californians in general who would seek to access events, businesses and other
10 activities for which a Passport is required. Evidence of same can be found in the pamphlets
11 distributed as early as March 4, 2021, by the Department of Fair Employment and Housing, which
12 falls under Governor Newsom’s domain. In the DFEH Employment Information on COVID-19,
13 at page 8, DFEH affirmatively represented that the vaccinations at issue herein had been FDA-
14 authorized and recommended and could be required by Employers, with same published well
15 before Cominarity received “*deferred approval*”.

16 150. In light hereof, Defendants should be required to correct their misstatements and
17 should be prohibited from imposing their Mandates as a condition of employment, let alone a
18 basis to exclude unvaccinated under the Passport and Microsoft Daily Pass programs. Plaintiffs
19 have also participated in internal grievance and appeals processes and offered their mass DFEH
20 and Right-to-Sue to support Tort Claims, to the extent Defendants claim same is necessary to
21 support recovery of damages against Defendants.

22 151. Accordingly, in addition to seeking injunctive and declaratory relief, Plaintiffs
23 further seek all such damages, pecuniary and non-pecuniary, which may be afforded Plaintiffs and
24 others similarly situated, by the trier of fact, including nominal damages if necessary to
25 demonstrate that Defendants did and do not have a right to condition continuing employment,
26 equal education and access to services, events and necessary businesses on one’s vaccination
27 status.

28 152. Plaintiffs further note that because this action serves the public interest, an award of

1 attorneys' fees under section 1021.5 of the California Code of Civil Procedure is also warranted.

DISCRIMINATION DUE TO ASSOCIATION)

1 153. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
2 Action above as though fully set forth herein.

3 154. Plaintiffs who are employed by Defendant CITY OF LOS ANGELES have
4 opposed vaccination mandates largely because of adverse events which they have either directly
5 experienced or become privy to. Said Plaintiffs identified in the caption have provided support to
6 one another to oppose furtherance of the medical tyranny which DEFENDANTS have inflicted.
7 Because the negative effects which have taken place have more harshly and adversely impacted
8 employees, community members and schoolchildren based on race, national origin, and sex,
9 Plaintiffs opposed to the Covid vaccination as well as Plaintiffs who believe in the right to choose,
10 have provided support to each other, much to the dismay of Defendants who would prefer to fire
11 anyone who refuses to vaccinate. In these regards, it should be noted that the CITY commencing
12 in November 2021 started placing employees off on indefinite leaves of absence, without pay,
13 including not simply firefighters who have now been without pay for more than one year,
14 including JOHN KNOX, NATE HELTON, and others, but also for example, KRISTA MOLLER
15 ANDERSON who cares for animals at the Zoo; General Services employees GARY ROGERS
16 and DAVID SHUBIN, assigned to Air Conditioning and Plumbing, respectively. Shubin has since
17 been fired and subjected to severe criticism from Aram Salamassian because of Shubin's
18 Protestant and Russian Molokan religious beliefs. Although Sanitation employees CARLOS
19 ARGUMEDO, a Refuse Truck Driver, and RUBEN MALDONADO, a supervisor at WasteWater
20 were also placed off duty without pay and were forced to use their accumulated benefits yet have
21 finally been returned to work in July 2022, had MALDONADO remained at DWP he would not
22 have been displaced over the course of close to eight months. While Argumedo and Maldonado
23 were awaiting reinstatement, city employees ANNE SPURGEON, PEARL PANTOJA, JESSICA
24 JIMINEZ, and SUSAN MALDONADO have been fired. Code, Housing and Building inspectors
25 like BRYAN EPSTEIN, ADRIAN GAUTHIER, CHRISTOPER KEY and FREIDA HELLER
26 have also encountered actions not experienced by other vaccinated personnel, including subjected
27 to far greater workloads, and are being repeatedly threatened with firing, with SALAMASSIAN
28 threatening same against FREIDA HELLER just last month. Meanwhile these employees have

1 defended their exemption requests in the interim, while noting that their use of masks has been
2 monitored but not those of other employees, including management routinely failing to wear
3 masks.

4 155. Once privy to these associational activities, Defendant Employers by and through
5 their management representatives and personnel have purposefully severed telecommuting
6 assignments, including for DWPs NEIL STILLER and GABRIEL DOYLE's, on the guise such
7 assignments would no longer exist. Shortly thereafter affected Plaintiffs learned the assignments
8 remained but were now being offered to vaccinated employees instead. Almost immediately
9 thereafter, GABRIEL DOYLE's brother, MATTHEW DOYLE, was severed by DWP from its
10 METAL TRADES APPRENTICESHIP PROGRAM and told that he was fired from the CITY
11 during a probationary period even though his tests showed better results than those retained.
12 GABRIEL DOYLE had to intervene and ensure that his brother, who has yet to be fully
13 compensated, be reinstated to GSD, where he had worked for years. Defendants have also resorted
14 to issuing disciplinary notices on the guise one's Department did not know if one is or is not
15 vaxxed, while ignoring the constitutional rights of Plaintiffs, including the right to privacy, while
16 also forgetting that representatives from the CITY OF LOS ANGELES, including the Department
17 of Water and Power, had told employees that it would be unnecessary to report one's status since
18 DWP would assume one was not vaccinated by not reporting. Despite said language, Managers
19 and Superintendents continued to badger employees for not filling out the forms, necessitating that
20 DWP employees DAVID BOLOG, SEAN MERGEL, SCOTT CANDISH, DAVON LOWERY,
21 DAVID JUAREZ, PHILIP NEFAS, GABRIEL DOYLE, NEIL STILLER, WILLIAM
22 ARRIOLA, WILSON TURNER and others internally protested same, to no avail. Meanwhile,
23 DWP has instituted overtime and promotional restrictions, similar to those exposed in Command
24 Meetings of the Fire Department, which punish unvaccinated employees. In the case of DWP,
25 lucrative overtime opportunities out-of-state, including at locations throughout the Navajo Nation,
26 have been withheld from unvaccinated workers, even though the passage of time has shown that
27 the vaccinated have fewer immunities and a greater propensity to become reinfected and to spread
28 the virus. At the same time, as noted by WILLIAM ARRIOLA, DWP has refused to provide

1 “emergency” pay to unvaccinated employees, while claiming that “no emergency” exists, even
2 though the CITY refused to lift the state of emergency which it declared when passing its
3 Vaccination Mandates until January 10, 2023, with February 1, 2023 now listed as the date of
4 expiration.

5 156. Because F2C has claimed that not all CITY Departments have been uniformly
6 enforcing the mandates, starting in the summer of 2022 the Department of Transportation and
7 thereafter the ZOO finally started issuing threats of discharge, claiming that previously submitted
8 exemption requests were being denied. This has occurred even though unvaccinated DOT
9 employees like VITO MACIEL were called upon to and faithfully manned the Covid lines,
10 including at Dodger Stadium, and even though JZ ZEICHICK had faithfully maintained the Zoo
11 both prior to and after the ZOO reopened. Despite such, MACIEL, JOSE DIAZ, JZ ZEICHICH
12 and others enumerated in Appendix “C” and the caption above have been repeatedly threatened
13 with firing, while DALE CRUZ, a Sign-Painter, has been laid-off, with unvaccinated temporary
14 workers told they could staff positions even though not vaccinated because they are not permanent
15 CITY employees. Plaintiffs believe that DEFENDANTS have likewise sought to punish the
16 association with employees, parents, community members and school-aged children who have
17 dared to seek religious exemptions, including by losing the requests as well as scoffing about and
18 trying to make a mockery of Plaintiffs religious beliefs. The fact that the CITY has declined to
19 identify the “experts” ruling upon requests, especially when some denial documents simply state
20 “Risk Management” or Human Resources personnel, and has relegated the tasks to rule upon
21 Appeals from exemption denials to even heads of Departments like now Fire Chief KRISTIN
22 CROWLEY, merely aggravates the improper manner in which unvaccinated employees have been
23 treated. Similarly, unvaccinated firefighters included within Appendix “C” who have been
24 removed from duty have learned for the first time on January 10, 2023, from Department
25 Advocate GLENN BAHAM during Engineer Matt Mammone’s Board of Rights Hearing, that the
26 CITY OF LOS ANGELES believes its Charter provisions, § 1060, which govern Firefighters, as
27 well as protections provided by the Firefighters Bill of Rights, *Government Code § 3250, et seq.*,
28 no longer apply because purportedly conditions of employment altering even basic *Skelly*-rights

1 was insisted upon by the CITY officials, including MAYOR GARCETTI, elected members of the
2 CITY COUNCIL, and others, when adopting the Vaccine Ordinance.

3 157. By these and other actions, Plaintiffs allege that all Defendant Employers have
4 acted in concert with each other to deliberately create a workplace permeated with discriminatory
5 intimidation, ridicule and insult that was so severe or pervasive that it has impermissibly and
6 unlawfully altered the terms and conditions of Plaintiffs employment and the prospective
7 employment of unvaccinated Fire Cadets who were removed from their program at LAUSD
8 because they were unvaccinated. By reducing wages of the unvaccinated for designated PCR
9 testing and by threatening to take away all prospects of advancement, DEFENDANT CITY OF
10 LOS ANGELES has created an abusive working environment for F2C Members identified in the
11 caption hereto as well as Appendix "C", to the ongoing detriment of Plaintiffs' physical and
12 mental wellbeing. As a consequence of the hostile work environment and differential treatment to
13 which Plaintiffs are being subjected, because of their association with each other to ensure that
14 equal employment opportunities remain, Plaintiffs have collectively filed Charges of
15 Discrimination, Harassment and Retaliation, and have been or will soon be issued statutory Right
16 to Sue Letters on said charges. Plaintiffs brings the instant action within the one-year period
17 following issuance of the Right to Sue Letters dated December 9, 2021. Having satisfied these
18 statutory prerequisites to suit, Plaintiffs named in this cause of action hereby bring an action
19 against Defendant CITY for discriminating against Plaintiffs do hereby bring an action against
20 Defendant Employers who have acted in concert with each other to discriminate against Plaintiffs
21 for associating with each other, at a time when Defendants would prefer to make all public sector
22 employers, if not private sector as well, in Southern California and the entire State, vaccinated,
23 based on the uncanny perception that the unvaccinated are disabled.

24 158. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
25 Section 12965(b), which provides for the same, against Defendant CITY OF LOS ANGELES, and
26 each of them.

27 159. As a result of the aforesaid acts of DEFENDANT CITY OF LOS ANGELES,
28 Plaintiffs currently employed by and/or recently removed from their positions with the CITY OF

1 LOS ANGELES, have become mentally upset, distressed and aggravated and have sustained
2 irreparable damage to their careers and reputation, especially when disciplinary actions have been
3 imposed for refusal to vaccinate or to continuously repeat one's vaccination status.

4 160. Accordingly, CITY-Plaintiffs claim general damages in a sum to be proven at trial.

5 161. CITY-Plaintiffs have been further damaged in the amount of lost earnings and
6 benefits, and future lost promotional opportunities, in ways and in amounts to be proven at time of
7 trial. Because of Defendants actions, especially during the holidays, certain CITY-Plaintiffs may
8 have been forced to withdraw retirement monies to survive. These withdrawals alone have
9 exacerbated the damages even more because Plaintiffs who may seek to redeposit said monies to
10 ensure that there is no break in service arising out of one's wrongful termination and/or placement
11 on an indefinite leave of absence without pay, will be expected to pay substantial interest and
12 other monies to redeposit.

13 162. Many CITY-Plaintiffs have been further forced to obtain medical care, because of
14 Defendants actions, including the demand that masks be worn at all times as well as forcing
15 employees to comply with vaccine mandates by taking injections often available in the workplace,
16 on the false premise the vaccines were FDA-approved, when they were not. Similarly, CITY-
17 Plaintiffs, including their children and grandchildren have been subjected to shedding of the spike
18 protein, and each of them, and may need additional medical care, and accordingly seeks special
19 damages, according to proof.

20 163. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendant CITY
21 OF LOS ANGELES, and its elected officials, heads of departments and management employees
22 from subjecting CITY Plaintiffs and their colleagues to a continuing hostile and offensive work
23 environment, let alone unequal educational opportunities for their children within LAUSD and
24 LACOE, as well as local colleges and universities.

27 **DISCRIMINATION DUE TO ASSOCIATION)**

18 164. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
19 Action above as though fully set forth herein.

20 165. Plaintiffs who are employed by Defendant COUNTY OF LOS ANGELES have
21 opposed vaccination mandates largely because of adverse events which they have either directly
22 experienced or become privy to. Said Plaintiffs identified in the caption have provided support to
23 one another to oppose furtherance of the medical tyranny which DEFENDANTS have inflicted.
24 Because the negative effects which have taken place have more harshly and adversely impacted
25 employees, community members and schoolchildren based on race, national origin, and sex,
26 Plaintiffs opposed to the Covid vaccination as well as Plaintiffs who believe in the right to choose,
27 have provided support to each other, much to the dismay of Defendants who would prefer to fire
28 anyone who refuses to vaccinate. In these regards, it should be noted that the COUNTY among

1 the first to fire workers for refusing to vaccinate, including ERIC PELTON, RN JOANNE
2 CENTENO, and RAMONA BILANCSUK, while placing other F2C members off on disciplinary
3 suspensions for not vaccinating and refusing to register with FULGENT, i.e. RN TAMI OLENIK,
4 RN JOANNE CENTENO, LVN LISETTE MEJIA-CRUZ, RN TERESA NOLAN, SUPPLY
5 OFFICER TOBY ILAND, and others. Said employees at LAC+USC have likewise been subjected
6 to offensive working conditions, including required to walk through areas laden with asbestos, to
7 carry their Care Cases at LAC+USC up several flights of stairs despite knowledge of an
8 employee's disabilities, while at OLIVE VIEW, LISETTE MEJIA-CRUZ and TERESA NOLAN
9 were assigned to work in trailers situated in an unsecure area behind the hospital where a Nurse
10 was fatally attacked by homeless known to be living in the woods abutting OLIVE VIEW. Other
11 hospital personnel were given freeway therapy and forced to travel from the Antelope Valley as
12 well as the South Bay to work at Olive View where they, like MEJIA-CRUZ, and OLENIK and
13 others at LAC+USC were expected to make telephone calls that vaccinated employees were
14 allowed to perform on virtual assignments from their own homes. Plaintiffs believe that
15 DEFENDANTS have likewise sought to punish the association with employees, parents,
16 community members and school-aged children who have dared to seek religious exemptions,
17 including by losing the requests as well as scoffing about and trying to make a mockery of
18 Plaintiffs religious beliefs, including both Christians like OLENIK and ILAND (also Jewish) and
19 Muslims like SAYYORA KHUSENOVA.

20 166. F2C and its members have reason to believe first-hand that Defendants have sought
21 to eradicate equal employment opportunities within DEFENDANT government employers,
22 including the County of Los Angeles. DEFENDANT COUNTY OF LOS ANGELES by and
23 through its management and personnel representatives repeatedly tried to bully low-income wage
24 earners and their children into vaxxing, including by demanding that unvaccinated Case Managers
25 call and schedule Vaccination appointments for the community and themselves, while refusing to
26 take into consideration the adverse reactions experienced because of one's sex, national origin,
27 disabilities, genetics, and race.

28 167. Once privy to these associational activities, Defendant Employers by and through

1 their management representatives and personnel have purposefully eliminated or reduced
2 telecommuting assignments, including for OLENIK, ILAND, and others, on the guise such
3 assignments would no longer exist. Shortly thereafter certain Plaintiffs learned the assignments
4 remained but were now being offered to vaccinated employees for a greater period of duration, i.e.
5 five days a week, rather than only one or two days. Defendants have also resorted to issuing
6 disciplinary notices on the guise one's Department did not know if one is or is not vaxxed or had
7 submitted exemption requests, while ignoring the constitutional rights of Plaintiffs in these
8 regards. For instance, PLAINTIFFS BARRIOS, CENTENO, OLENIK, ILAND, and MEJIA-
9 CRUZ were harassed for declining to sign-up with FULGENT, even though BARRIOS and
10 CENTENO offered to provide tests from their medical providers. Although the COUNTY has
11 now recognized that testing can be procured from one's medical provider, or from home test kits,
12 the COUNTY has refused to reinstate RN CENTENO who was fired for seeking to use a different
13 provider. As this case progresses, discovery will show whether or not employees of the Sheriffs
14 Department, included in APPENDIX "D", will now experience adverse repercussions because
15 former SHERIFF ALEX VILLANUEVA has been voted out of office following a vocal attack
16 from COUNTY-government officials named herein because of his stance on Covid-19, Covid
17 vaccinations, and *Fulgent*.

18 168. By these and other actions, Plaintiffs allege that all Defendant Employers have
19 acted in concert with each other to deliberately create a workplace permeated with discriminatory
20 intimidation, ridicule and insult that was so severe or pervasive that it has impermissibly and
21 unlawfully altered the terms and conditions of Plaintiffs employment. By threatening to take away
22 all prospects of advancement and by deliberately mishandling exemption requests, DEFENDANT
23 COUNTY OF LOS ANGELES has created an abusive working environment for F2C Members
24 identified in the caption hereto as well as Appendix "D", to the ongoing detriment of Plaintiffs'
25 physical and mental wellbeing. As a consequence of the hostile work environment and differential
26 treatment to which Plaintiffs are being subjected, because of their association with each other to
27 ensure that equal employment opportunities remain, Plaintiffs have collectively filed Charges of
28 Discrimination, Harassment and Retaliation, and have been or will soon be issued statutory Right

1 to Sue Letters on said charges. Plaintiffs brings the instant action within the one-year period
2 following issuance of the Right to Sue Letters dated December 9, 2021. Having satisfied these
3 statutory prerequisites to suit, Plaintiffs named in this cause of action hereby bring an action
4 against Defendant COUNTY for discriminating against Plaintiffs for associating with each other,
5 at a time when Defendants would prefer to make all public sector employers, if not private sector
6 as well, in Southern California and the entire State, vaccinated, based on the uncanny perception
7 that the unvaccinated are disabled.

8 169. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
9 Section 12965(b), which provides for the same, against Defendant COUNTY OF LOS
10 ANGELES, and each of them.

11 170. As a result of the aforesaid acts of DEFENDANT COUNTY OF LOS ANGELES,
12 all of the Plaintiffs currently employed by the COUNTY OF LOS ANGELES and/or recently
13 severed from their positions like PELTON, BILANCSUK and CENTENO, have become mentally
14 upset, distressed and aggravated and have sustained irreparable damage to their careers and
15 reputation, especially when disciplinary actions have been imposed for refusal to vaccinate or to
16 continuously repeat one's vaccination status.

17 171. Accordingly, COUNTY-Plaintiffs claim general damages in a sum to be proven at
18 trial.

19 172. COUNTY-Plaintiffs have been further damaged in the amount of lost earnings and
20 benefits, and future lost promotional opportunities, in ways and in amounts to be proven at time of
21 trial. Because of Defendants actions, especially during the holidays, certain COUNTY Plaintiffs,
22 including ERIC PELTON, may have been forced to withdraw retirement monies to survive.
23 These withdrawals alone will exacerbate the damages even more so when Plaintiffs seek to
24 redeposit said monies to ensure that there is no break in service arising out of one's wrongful
25 termination and/or placement on an indefinite leave of absence without pay.

26 173. Many COUNTY-Plaintiffs have been further forced to obtain medical care,
27 because of Defendants actions, including the demand that masks be worn at all times as well as
28 forcing employees to comply with vaccine mandates by taking injections often available in the

1 workplace, on the false premise the vaccines were FDA-approved, when they were not. Similarly,
2 COUNTY-Plaintiffs, including their children and grandchildren have been subjected to shedding
3 of the spike protein, and each of them, and may need additional medical care, and accordingly
4 seeks special damages, according to proof.

5 174. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendant
6 COUNTY OF LOS ANGELES, and its elected officials, heads of departments and management
7 employees from subjecting COUNTY Plaintiffs and their colleagues to a continuing hostile and
8 offensive work environment, let alone unequal educational opportunities within the COUNTY OF
9 LOS ANGELES.

10 SEVENTH CAUSE OF ACTION

11 (All Plaintiffs listed in Appendix “E”⁴⁴, including

12 **SUSANA HERNANDEZ; DANA ABUNDIS; ANOUSH BURMAYAN; TRACY**
13 **CALDWELL; MIKE CASTRUITA; RACHEL CHUA; AMY DRANEY; JONATHAN**
14 **GOODMAN; KRISTINA GRUMBINE; JEREMIAH HARRISON; AILEEN MORA;**
15 **JAVIER ORTEGA; MARIELA PEREZ; YVETTE PRICE; LINDA SABATINO;**
16 **JACQUELINE SHAPIRO; CARRIN SPALDING; CASSANDRA STEWART ; JORGE**
17 **VALENCIA; MONIQUE LUKENS; MARY REYES; TREVOR SCHMIDT; MARIA**
18 **GUTIERREZ; MIURELL IRAHETA; FRANKIE DEGUZMAN; MELISSA BANKS;**
19 **JENY VASQUEZ against LAUSD for DISCRIMINATION DUE TO ASSOCIATION)**

20 175. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
21 Action above as though fully set forth herein.

22 176. Plaintiffs who were employed by Defendant LAUSD have had same and similar
23 experiences as parents and grandparents opposing Vaccine Mandates, largely because of adverse
24 events which they have either directly experienced or become privy to and have provided support
25 to one another to oppose furtherance of the medical tyranny which DEFENDANT LAUSD and its
26 elected leaders, as well as managers and superiors have inflicted. Because the negative effects
27 which have taken place have more harshly and adversely impacted employees, community
28

25 ⁴⁴ This listing of Plaintiffs and all members of F2CLA employed by the LAUSD is identical for the
26 7th, 12th, 17th, 22nd, 27th, 32nd, 37th, 42nd and 47th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LAUSD -employees is attached to Appendix “E”, along
with the Spreadsheets.

1 members and schoolchildren based on race, national origin, and sex, Plaintiffs opposed to the
2 Covid vaccination as well as Plaintiffs who believe in the right to choose, have provided support
3 to each other, much to the dismay of Defendants who would prefer to fire anyone who refuses to
4 vaccinate. In these regards, it should be noted that LAUSD removed well qualified teachers and
5 staff, including but not limited to SUSANA (RODRIGUEZ) HERNANDEZ, MARY REYES and
6 JENY VASQUEZ from the classroom and in some cases placed said employees into virtual
7 assignments which were then removed from said employees because of a purported decline in
8 virtual enrollments. LAUSD has refused to return said staff to the live classroom settings on the
9 guise the unvaccinated will jeopardize the health and wellbeing of the vaccinated, yet it has
10 unvaccinated students to remain in classrooms with vaccinated students, teachers and staff.
11 Plaintiffs believe that DEFENDANT LAUSD has likewise sought to punish the association with
12 employees, parents, community members and school-aged children who have dared to seek
13 religious exemptions, including by losing the requests as well as scoffing about and trying to make
14 a mockery of Plaintiffs religious beliefs. Thus, Plaintiffs are informed and believe that Defendant
15 Employers have claimed there is “no room at the inn” for Plaintiffs, while affording said
16 accommodations instead to vaccinated employees. F2C includes teachers, staff, and even field
17 personnel who have purportedly been granted religious exemptions within LAUSD, but then been
18 informed by Personnel representatives and attorneys from the LAUSD General Counsel’s staff
19 that their requests for accommodation could not be accommodating. This in turn has resulted in
20 the subject employees, including TREVOR SCHMIDT and JENY VASQUEZ to be displaced
21 from their positions completely. The latter activities against JENY VASQUEZ and other teachers
22 commenced in the summer of 2022, at a time when preparations for a new school year are
23 underway. Contemporaneously, F2C is informed that these unvaccinated teachers, principals and
24 staff were threatened with a “blot on their credentials” if they did not resign, since LAUSD would
25 no longer accommodate said employees.

26 177. F2C and its members have reason to believe first-hand that Defendants have sought
27 to eradicate equal employment opportunities within DEFENDANT government employers,
28 including at the State of California, the City of Los Angeles, the County of Los Angeles, LAUSD

1 and LACOE. DEFENDANT Employers by and through their management and personnel
2 representatives have repeatedly tried to bully low-income wage earners and their children into
3 vaxxing, while refusing to take into consideration the adverse reactions experienced because of
4 one's sex, national origin, disabilities, genetics, and race.

5 178. Once privy to these associational activities, Defendant Employers by and through
6 their management representatives and personnel have purposefully severed telecommuting
7 assignments, on the guise such assignments would no longer exist; shortly thereafter affected
8 Plaintiffs learned the assignments remained but were now being offered to vaccinated employees
9 instead. Defendants have resorted to issuing disciplinary notices on the guise one's Department
10 did not know if one is or is not vaxxed, while ignoring the constitutional rights of Plaintiffs, and
11 have badgered employees prior to any even after the BOARD OF EDUCATION fired more than
12 400 employees on December 7, 2021. SUSANA HERNANDEZ would also note that because she
13 dared to protest these unlawful working conditions, with others, HERNANDEZ who was
14 diagnosed with cancer, reluctantly vaxxed in June 2022 in hopes of regaining her employment
15 with LAUSD from which she was dismissed in March 2022. However, despite being told about
16 same, including by the EEOC, LAUSD has refused to reemploy HERNANDEZ in all likelihood
17 because of her protests, associations, disabilities and medical condition.

18 179. By these and other actions, Plaintiffs allege that all Defendant Employers have
19 acted in concert with each other to deliberately created a workplace permeated with discriminatory
20 intimidation, ridicule and insult that was so severe or pervasive that it has impermissibly and
21 unlawfully altered the terms and conditions of Plaintiffs employment. By removing Plaintiffs
22 from their assignments, DEFENDANT LAUSD has created an abusive working environment for
23 F2C Members identified in Appendix "E", to the ongoing detriment of Plaintiffs' physical and
24 mental wellbeing. As a consequence of the hostile work environment and differential treatment to
25 which Plaintiffs are being subjected, because of their association with each other to ensure that
26 equal employment opportunities remain, Plaintiffs have collectively filed Charges of
27 Discrimination, Harassment and Retaliation, and have been or will soon be issued statutory Right
28 to Sue Letters on said charges. Plaintiffs brings the instant action within the one-year period

1 following issuance of the Right to Sue Letters dated December 9, 2021. Having satisfied these
2 statutory prerequisites to suit, Plaintiffs named in this cause of action hereby bring an action
3 against Defendant LAUSD for discriminating against Plaintiffs for associating with each other, at
4 a time when Defendants would prefer to make all public sector employers, if not private sector as
5 well, in Southern California and the entire State, vaccinated.

6 180. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
7 Section 12965(b), which provides for the same, against Defendants, and each of them.

8 181. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
9 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
10 and reputation, especially when disciplinary actions including termination and removal from the
11 classrooms have been imposed for refusal to vaccinate.

12 182. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

13 183. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
14 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.
15 Because of Defendants actions, especially during the holidays, Plaintiffs may be forced to
16 withdraw retirement monies to survive. These withdrawals alone will exacerbate the damages
17 even more so when Plaintiffs seek to redeposit said monies to ensure that there is no break in
18 service arising out of one's wrongful termination and/or placement on a leave of absence without
19 pay.

20 184. Many Plaintiffs have been further forced to obtain medical care, because of
21 Defendants actions, including the demand that masks be worn at all times as well as forcing
22 employees to comply with vaccine mandates by taking injections often available in the workplace,
23 on the false premise the vaccines were FDA-approved, when they were not. Similarly, other
24 Plaintiffs, including their children and grandchildren have been subjected to shedding of the spike
25 protein, and each of them, and may need additional care like vaccinated personnel, and
26 accordingly seeks special damages, according to proof.

27 185. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
28 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,

1 let alone unequal educational opportunities for children within LAUSD and LACOE.

2 **EIGHTH CAUSE OF ACTION**
3 **(Plaintiff Nicholas Thomas as listed in Appendix “F”⁴⁵**
4 **Against LACOE for Redress of Unlawful Discrimination**
5 **on the basis of Association against LACOE)**

6 186. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
7 Action above as though fully set forth herein.

8 187. Plaintiffs who are employed by Defendants and have same and similar experiences
9 as parents and grandparents opposing Vaccine Mandates, largely because of adverse events which
10 they have either directly experienced or become privy to have provided support to one another to
11 oppose furtherance of the medical tyranny which DEFENDANTS have inflicted. Because the
12 negative effects which have taken place have more harshly and adversely impacted
13 employees, community members and schoolchildren based on race, national origin, and sex,
14 Plaintiffs opposed to the Covid vaccination as well as Plaintiffs who believe in the right to choose,
15 have provided support to each other, much to the dismay of Defendants who would prefer to fire
16 anyone who refuses to vaccinate. In these regards, it should be noted that LACOE has terminated
17 NICHOLAS THOMAS, a probationary employee working in LACOE’s IT Department, in
18 October 2021, after THOMAS indicated he would not vaccinate. In the months leading up to his
19 firing, THOMAS was assured that he was performing satisfactorily and would be passing
20 probation. Plaintiff THOMAS believes that DEFENDANTS have likewise sought to punish
21 THOMAS because of his association with employees, parents, community members and school-
22 aged children who have dared to seek religious exemptions, including by losing the requests as
23 well as scoffing about and trying to make a mockery of Plaintiffs religious beliefs.

24
25
26
27
28

⁴⁵ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along with the Spreadsheets.

1 188. F2C and its members have reason to believe first-hand that Defendants have sought
2 to eradicate equal employment opportunities within DEFENDANT government employers,
3 including at the State of California, the City of Los Angeles, the County of Los Angeles, LAUSD
4 and LACOE. DEFENDANT Employers by and through their management and personnel
5 representatives repeatedly tried to bully low-income wage earners and their children into vaxxing,
6 while refusing to take into consideration the adverse reactions experienced because of one’s sex,
7 national origin, disabilities, genetics, and race.

8 189. Once privy to these associational activities, Defendant Employers by and through
9 their management representatives and personnel terminated NICHOLAS THOMAS and have
10 refused to reinstate him ever since.

11 190. By these and other actions, Plaintiffs allege that all Defendant Employers have
12 acted in concert with each other to deliberately created a workplace permeated with discriminatory
13 intimidation, ridicule and insult that was so severe or pervasive that it has impermissibly and
14 unlawfully altered the terms and conditions of Plaintiff THOMAS’ employment who is listed in
15 Appendix “F”. F2C notes that many of its members listed in Appendix “A” have school-aged
16 children and young adults who are especially concerned that Members of the Board of Education
17 named herein have been setting policies which other school districts throughout the State have
18 been blindly following, to the continuing detriment of students and parents alike who wish to
19 remain unvaccinated and without imposition of other devices, including masking and PCR and
20 antigen testing, which also threaten their well being. As a consequence of the hostile work
21 environment and differential treatment to which Plaintiffs are being subjected, because of their
22 association with each other to ensure that equal employment opportunities remain, Plaintiffs have
23 collectively filed Charges of Discrimination, Harassment and Retaliation, and have been or will
24 soon be issued statutory Right to Sue Letters on said charges. Plaintiffs brings the instant action
25 within the one-year period following issuance of the Right to Sue Letters dated December 9, 2021.
26 Having satisfied these statutory prerequisites to suit, Plaintiffs named in this cause of action
27 hereby bring an action against Defendant LAUSD for discriminating against Plaintiffs for
28 associating with each other, at a time when Defendants would prefer to make all public sector

1 employers, if not private sector as well, in Southern California and the entire State, vaccinated.

2 191. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
3 Section 12965(b), which provides for the same, against Defendants, and each of them.

4 192. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
5 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
6 and reputation, especially when the utmost adverse employment action, namely a firing has been
7 imposed against THOMAS for refusing to comply with LACOE's mandates.

8 192. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

9 193. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
10 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

11 194. Many Plaintiffs have been further forced to obtain medical care, because of

21 NINTH CAUSE OF ACTION

22 (All Plaintiffs listed in Appendix "G"⁴⁶)

23 **BERNICE MOLANO; ALFRED ARBALLO; LILA ARELLANO; JOAN BECK; DAWN**
24 **BOWERS; MARC BROWN; OMAR CAPACETE; BLAKE CLEMENTS; KAREN**
25 **DANSEREAU; MIKE DOMINGUEZ; DEAN DRAKE; PETER DUFF; JODY EDDINGS;**

26 ⁴⁶ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
27 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
"G", along with the Spreadsheets.

1 **ANTHONY ELLIOTT; ISABEL FALCON; NOEL FLORES; FRANCISCO GARCIA;**
2 **ROBERTO GARIBAY; VICTORIA GEDDED; YOLANDA A. GONZALEZ; MICHAEL**
3 **GOSE; ROBERT GUZMAN; HAILEY HERRINGTON; JEFFREY HERRMANN;**
4 **NATALIE JAUREGUI; LISA JOHNSTON; ATHENA KOLINSKI; JARED KRAFT;**
5 **CELINA LOPEZ; KELLY MCGETTIGAN; MICHAEL MEISENBACH; DIANE**
6 **MERCADO; RUFINA MIRANDA; RICHARD MOBERLY; ART MOLINA; TIMOTHY**
7 **OAKES; STEVEN OWEN; EDWARD P.; MATTHEW PAGAN; JAMES PATERSON;**
8 **JOHN REDWINE; ANGELA RIESEN; EDWARD P RIVERA; GREGORY ROBLES;**
9 **BROCK ROMERO; TRACY SANCHEZ; JENNIFER SHONAFELT; ISABEL FALCON**
10 **TALAB; JOHN THORNTON; NICOLE TURPIN; STEPHEN WINZENREAD; BRYAN**
11 **WINZENREAD against the STATE OF CALIFORNIA and Its DEPARTMENT OF**
12 **CORRECTIONS AND REHABILITATION, the DEPARTMENT OF HUMAN**
13 **RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE DEPARTMENT OF**
14 **PUBLIC HEALTH and the DEPARTMENT OF TRANSPORTATION for Redress of**
15 **Unlawful Discrimination**
16 **on the basis of Association)**

17 196. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
18 Action above as though fully set forth herein.

19 197. Plaintiffs who are employed by Defendant STATE OF CALIFORNIA and its
20 DEPARTMENTS OF TRANSPORTATION, MOTOR VEHICLES as well as CORRECTIONS
21 AND REHABILITATION, have had same and similar experiences as parents and grandparents
22 opposing Vaccine Mandates, largely because of adverse events which they have either directly
23 experienced or become privy to and have provided support to one another to oppose furtherance of
24 the medical tyranny which DEFENDANTS have inflicted. Because the negative effects which
25 have taken place have more harshly and adversely impacted employees, community members and
26 schoolchildren based on race, national origin, and sex, Plaintiffs opposed to the Covid vaccination
27 as well as Plaintiffs who believe in the right to choose, have provided support to each other, much
28 to the dismay of Defendants who would prefer to fire anyone who refuses to vaccinate. In these
regards, it should be noted that the STATE has sought to penalize employees refusing to comply
with mandates and have been actively monitoring the whereabouts of unvaccinated employees.
Plaintiffs believe that DEFENDANTS have likewise sought to punish the Plaintiffs' association
with each other, including employees, parents, community members and school-aged children
who have dared to seek religious exemptions, including by losing the requests as well as scoffing
about and trying to make a mockery of Plaintiffs religious beliefs.

1 198. F2C and its members have reason to believe first-hand that Defendants have sought
2 to eradicate equal employment opportunities within DEFENDANT government employers,
3 including at the State of California, the City of Los Angeles, the County of Los Angeles, LAUSD
4 and LACOE. DEFENDANT Employers by and through their management and personnel
5 representatives repeatedly tried to bully low-income wage earners and their children into vaxxing,
6 while refusing to take into consideration the adverse reactions experienced because of one's sex,
7 national origin, disabilities, genetics, and race.

8 199. Once privy to these associational activities, Defendant DEPARTMENT OF
9 CORRECTIONS AND REHABILITATION has actively monitored the whereabouts of
10 BERNICE MOLANO and has even disciplined MOLANO for questioning and reporting including
11 to the WARDEN that newly retained PCR Vendors are falsifying consent forms by reporting that
12 employees have consented to testing, without even showing or requesting employees to sign same.
13 Plaintiffs have likewise been subjected to more onerous working conditions, including increased
14 caseloads, because of their associations, religious beliefs, disabilities and protests.

15 200. By these and other actions, Plaintiffs allege that all Defendant Employers have
16 acted in concert with each other to deliberately created a workplace permeated with discriminatory
17 intimidation, ridicule and insult that was so severe or pervasive that it has impermissibly and
18 unlawfully altered the terms and conditions of Plaintiffs employment. By threatening to take away
19 all prospects of advancement, DEFENDANT DEPARTMENTS of the STATE OF CALIFORNIA
20 have, at the direct invitation of GOVERNOR NEWSOM, created an abusive working environment
21 for F2C Members identified in Appendix "G", to the ongoing detriment of Plaintiffs' physical and
22 mental wellbeing. As a consequence of the hostile work environment and differential treatment to
23 which Plaintiffs are being subjected, because of their association with each other to ensure that
24 equal employment opportunities remain, Plaintiffs have collectively filed Charges of
25 Discrimination, Harassment and Retaliation, and have been or will soon be issued statutory Right
26 to Sue Letters on said charges. Plaintiffs brings the instant action within the one-year period
27 following issuance of the Right to Sue Letters dated December 9, 2021. Having satisfied these
28 statutory prerequisites to suit, Plaintiffs named in this cause of action hereby bring an action

1 against Defendant STATE OF CALIFORNIA and its NAMED DEPARTMENTS for
2 discriminating against Plaintiffs for associating with each other, at a time when Defendants would
3 prefer to make all public sector employers, if not private sector as well, in Southern California and
4 the entire State, vaccinated.

5 201. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
6 Section 12965(b), which provides for the same, against Defendants, and each of them.

7 202. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
8 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
9 and reputation, especially when disciplinary actions have been imposed for refusal to vaccinate or
10 to continuously repeat one's vaccination status.

11 203. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

12 204. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
13 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

14 205. Many Plaintiffs have been further forced to obtain medical care, because of
15 Defendants actions, including the demand that masks be worn at all times as well as forcing
16 employees to comply with vaccine mandates by taking injections often available in the workplace,
17 on the false premise the vaccines were FDA-approved, when they were not. Similarly, other
18 Plaintiffs, including their children and grandchildren have been subjected to shedding of the spike

TENTH CAUSE OF ACTION

(All Plaintiffs listed in Appendix “C”⁴⁷ against the CITY OF LOS ANGELES for Redress of Perceived Disability Discrimination)

207. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, as well as paragraphs 154-157 of the Fifth Cause of Action, as though fully set forth herein.

208. Plaintiffs named herein have been perceived by Defendant CITY OF LOS ANGELES and its DEPARTMENTS and BUREAUS as disabled. Plaintiffs have been treated as “lepers” and accused of suffering from life-threatening disabilities, including to their respiratory system, even though many Plaintiffs have, for the most part, remained clear of Covid symptoms.

209. Efforts by the CITY to extract \$520.00 per month from affected Plaintiffs for PCR testing which is unreliable, while refusing to demand that vaccinated employees be tested let alone pay for same, evidences a continuing effort to treat Plaintiffs differently because of the perception that affected employees are disabled and warrant constant testing. This has occurred even though hospital statistics, employee attendance records and even reports to various commissions have shown that the vaccinated are responsible for the lionshare of hospitalizations and absences that are now plaguing these public sector employers.

210. The Mandates as written coupled by the perceptions that Plaintiffs are limited in their abilities to engage in major life activities, including to freely walk about without infecting others, has resulted in notice that government entities will not allow Plaintiffs to enter government buildings or engage in activities like those whom Defendants have identified as being fully or partially vaxxed. Although Plaintiffs are fully capable of performing their job duties and have in fact done so throughout the “Pandemic”, DEFENDANT EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’ which have materially altered the terms

⁴⁷ This listing of Plaintiffs and all members of F2CLA employed by the City of Los Angeles is identical for the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th and 45th Causes of Action. To avoid unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line Plaintiffs and F2C Members who are also City-employees is attached to Appendix “C”, along with the Spreadsheets.

1 and conditions and privileges of Plaintiffs’ employment. Extended Leaves without any pay for
2 first responders who were previously heralded as “heroes”, as well as highly decorated employees
3 who have saved the lives of members of the community, including Ruben Maldonado, has directly
4 and indirectly affect Plaintiffs’ compensation and benefits. Proclamations from the Mayor of Los
5 Angeles and various Department heads, including Martin Adams, quoting the City’s Vaccine
6 Ordinance that the unvaccinated will be denied upward mobility henceforth and will not be
7 allowed to work substantial overtime to be afforded vaccinated employees, is hostile and directly
8 contrary to maintaining a good working relationship between Employers and their workers.
9 Similarly, purporting to unilaterally gut civil service protections that otherwise entitle Plaintiffs to
10 due process and a right to contest all accusations levied at them, on the guise that the Charter of
11 the City of Los Angeles let alone state and federal laws do not govern these matters, is repugnant
12 to our democracy.

13 211. In light hereof, Plaintiff alleges that Defendant CITY has actively discriminated
14 against Plaintiffs because of their perceived disabilities and purported inability to engage in major
15 life activities, all contrary to California's Fair Employment and Housing Act which embodies
16 fundamental public policies against discrimination against disabled employees in employment.

17 212. Plaintiffs have filed charges of disability discrimination against their respective
18 public sector Employer with the California Department of Fair Employment and Housing and
19 have sought or been immediately issued statutory Right to Sue Letters on said charges. Affected
20 Plaintiffs bring the instant action against Defendant Employer within the one-year period
21 following issuance of the December 9, 2021 Right to Sue Letter attached as Exhibit “18” hereto.

22 213. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
23 bring an action against their respective Defendant Employer for having created, tolerated and
24 perpetuated prohibitory discrimination against Plaintiff, because of their perceived disabilities, in
25 violation of the laws of the State of California.

26 214. Upon prevailing, Plaintiffs also seeks attorneys’ fees and costs, Government Code
27 Section 12965(b), which provides for the same, against Defendants, and each of them.

28 215. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become

1 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
2 and reputation, especially when disciplinary actions have been imposed for refusal to vaccinate or
3 to continuously announce one's vaccination status.

4 216. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

5 217. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
6 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

7 218. Many Plaintiffs have been further forced to obtain medical care, because of
8 Defendants actions, including the demand that masks be worn at all times as well as forcing
9 employees to comply with vaccine mandates by taking injections often available in the workplace,
10 on the false premise the vaccines were FDA-approved, when they were not. Similarly, Plaintiffs,
11 including their children and grandchildren have been subjected to shedding of the spike protein,
12 and each of them, and may need additional care like personnel perceived to not be disabled, and
13 accordingly seeks special damages, according to proof.

14 219. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
15 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
16 let alone unequal educational opportunities for their children and young adults because of the
17 actions of Defendant CITY and its officials.

18 **ELEVENTH CAUSE OF ACTION**
19 **(All Plaintiffs listed in Appendix "D"⁴⁸**
20 **against the COUNTY OF LOS ANGELES for**
21 **Redress of Perceived Disability Discrimination)**

22 220. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
23 Action, as well as paragraphs 165-168 of the Sixth Cause of Action, as though fully set forth
24 herein.

25 _____
26 ⁴⁸ This listing of Plaintiffs and all members of F2CLA employed by the County of Los Angeles is
27 identical for the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st and 46th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also County-employees is attached to
Appendix "D", along with the Spreadsheets.

1 221. Plaintiffs named herein have been perceived by Defendant COUNTY OF LOS
2 ANGELES and its DEPARTMENTS and BUREAUS as disabled. Plaintiffs have been treated as
3 “lepers” and accused of suffering from life-threatening disabilities, including to their respiratory
4 system, even though many Plaintiffs have, for the most part, remained clear of Covid symptoms.

5 222. Efforts by the COUNTY to force registration with FULGENT for testing which is
6 unreliable, while refusing to demand that vaccinated employees be tested evidences a continuing
7 effort to treat Plaintiffs differently because of the perception that affected employees are disabled
8 and warrant constant testing. This has occurred even though hospital statistics, employee
9 attendance records and even reports to various commissions have shown that the vaccinated are
10 responsible for the lionshare of hospitalizations and absences that are now plaguing these public
11 sector employers.

12 223. The Mandates as written coupled by the perceptions that Plaintiffs are limited in
13 their abilities to engage in major life activities, including to freely walk about without infecting
14 others, has resulted in notice that government entities will not allow Plaintiffs to enter government
15 buildings or engage in activities like those whom Defendants have identified as being fully or
16 partially vaxxed. Although Plaintiffs are fully capable of performing their job duties and have in
17 fact done so throughout the “Pandemic”, DEFENDANT EMPLOYERS have engaged in various
18 material adverse employment actions against Plaintiffs’ which have materially altered the terms
19 and conditions and privileges of Plaintiffs’ employment. Extended Leaves without any pay for
20 first responders who were previously heralded as “heroes”, as well as highly decorated employees
21 who have saved the lives of members of the community, including RNs who staffed the
22 Fairgrounds where homeless were relocated to, has directly and indirectly affect Plaintiffs’
23 compensation and benefits. Proclamations from COUNTY officials stating that the unvaccinated
24 will be denied upward mobility henceforth and will not be allowed to work substantial overtime to
25 be afforded vaccinated employees, is hostile and directly contrary to maintaining a good working
26 relationship between Employers and their workers. Similarly, purporting to unilaterally gut civil
27 service protections that otherwise entitle Plaintiffs to due process and a right to contest all
28 accusations levied at them, on the guise that this is a state of “emergency” to which state and

1 federal laws do not apply, is repugnant to our democracy.

2 224. In light hereof, Plaintiff alleges that Defendant COUNTY has actively
3 discriminated against Plaintiffs because of their perceived disabilities and purported inability to
4 engage in major life activities, all contrary to California's Fair Employment and Housing Act
5 which embodies fundamental public policies against discrimination against disabled employees in
6 employment.

7 225. Plaintiffs have filed charges of disability discrimination against their respective
8 public sector Employer with the California Department of Fair Employment and Housing and
9 have sought or been immediately issued statutory Right to Sue Letters on said charges. Affected
10 Plaintiffs bring the instant action against Defendant Employer within the one-year period
11 following issuance of the December 9, 2021 Right to Sue Letter attached as Exhibit "18" hereto.

12 226. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
13 bring an action against their respective Defendant Employer for having created, tolerated and
14 perpetuated prohibitory discrimination against Plaintiff, because of their perceived disabilities, in
15 violation of the laws of the State of California.

16 227. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
17 Section 12965(b), which provides for the same, against Defendants, and each of them.

18 228. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
19 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
20 and reputation, especially when disciplinary actions have been imposed for refusal to vaccinate or
21 to continuously announce one's vaccination status.

22 229. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

23 230. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
24 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

25 231. Many Plaintiffs have been further forced to obtain medical care, because of
26 Defendants actions, including the demand that masks be worn at all times as well as forcing
27 employees to comply with vaccine mandates by taking injections often available in the workplace,
28 on the false premise the vaccines were FDA-approved, when they were not. Similarly, Plaintiffs,

1 including their children and grandchildren have been subjected to shedding of the spike protein,
2 and each of them, and may need additional care like personnel perceived to not be disabled, and
3 accordingly seeks special damages, according to proof.

4 232. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
5 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
6 let alone unequal educational opportunities for their children and young adults because of the
7 actions of Defendant COUNTY and its officials.

8 **TWELFTH CAUSE OF ACTION**
9 **(All Plaintiffs listed in Appendix “E”⁴⁹**
10 **against LAUSD for Redress of Perceived Disability Discrimination)**

11 233. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
12 Action, as well as paragraphs 176-179 of the Seventh Cause of Action, as though fully set forth
13 herein.

14 234. Plaintiffs named herein have been perceived by Defendant LAUSD as disabled.
15 Plaintiffs have been treated as “lepers” and accused of suffering from life-threatening disabilities,
16 including to their respiratory system, even though many Plaintiffs have, for the most part,
17 remained clear of Covid symptoms.

18 235. Efforts by LAUSD to force PCR testing upon unvaccinated workers, when same is
19 is unreliable, also evidences a continuing effort to treat Plaintiffs differently because of the
20 perception that affected employees are disabled and warrant constant testing.

21 236. The Mandates as written coupled by the perceptions that Plaintiffs are limited in
22 their abilities to engage in major life activities, including to freely walk about without infecting
23 others, has resulted in notice that government entities will not allow Plaintiffs to enter LAUSD
24 buildings let alone work in the fields surrounding school buildings, where TREVOR SCHMIDT

25 _____
26 ⁴⁹ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
27 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
28 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along
with the Spreadsheets.

1 assigned to Construction worked, or engage in activities like those whom Defendants have
2 identified as being fully or partially vaxxed. Although Plaintiffs are fully capable of performing
3 their job duties and have in fact done so throughout the “Pandemic”, DEFENDANT
4 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’
5 which have materially altered the terms and conditions and privileges of Plaintiffs’ employment.
6 Placing unvaccinated teachers in virtual learning programs, only to have said employees subjected
7 to further threats of discharge and a blot on their credentials because not enough students
8 registered for virtual learning is despicable and indicative of further discrimination and retaliation
9 against Plaintiffs named herein because of their disabilities and medical conditions, including in
10 the case of SUSANA (RODRIGUEZ) HERNANDEZ, cancer. The fact that members of the
11 School Board have labeled unvaccinated employees as “domestic terrorists” for protesting these
12 discriminatory working conditions which will irreversibly change their lives, while prohibiting
13 same from working overtime or competing for promotional opportunities, is hostile and directly
14 contrary to maintaining a good working relationship between Employers and their workers.
15 Similarly, purporting to unilaterally gut civil service protections that otherwise entitle Plaintiffs to
16 due process and a right to contest all accusations levied at them, on the guise that state and federal
17 laws do not govern these matters, is repugnant to our democracy.

18 237. In light hereof, Plaintiff alleges that Defendant LAUSD has actively discriminated
19 against Plaintiffs because of their perceived disabilities and purported inability to engage in major
20 life activities, all contrary to California's Fair Employment and Housing Act which embodies
21 fundamental public policies against discrimination against disabled employees in employment.

22 238. Plaintiffs have filed charges of disability discrimination against their respective
23 public sector Employer with the California Department of Fair Employment and Housing and
24 have sought or been immediately issued statutory Right to Sue Letters on said charges. Affected
25 Plaintiffs bring the instant action against Defendant Employer within the one-year period
26 following issuance of the December 9, 2021 Right to Sue Letter attached as Exhibit “18” hereto.

27 239. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
28 bring an action against their respective Defendant Employer for having created, tolerated and

1 perpetuated prohibitory discrimination against Plaintiff, because of their perceived disabilities, in
2 violation of the laws of the State of California.

3 240. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
4 Section 12965(b), which provides for the same, against Defendants, and each of them.

5 241. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
6 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
7 and reputation, especially when disciplinary actions have been imposed for refusal to vaccinate or
8 to continuously announce one's vaccination status.

9 242. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

10 243. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
11 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

12 244. Many Plaintiffs have been further forced to obtain medical care, because of
13 Defendants actions, including the demand that masks be worn at all times as well as forcing
14 employees to comply with vaccine mandates by taking injections often available in the workplace,
15 on the false premise the vaccines were FDA-approved, when they were not. Similarly, Plaintiffs,
16 including their children and grandchildren have been subjected to shedding of the spike protein,
17 and each of them, and may need additional care like personnel perceived to not be disabled, and
18 accordingly seeks special damages, according to proof.

19 245. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
20 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
21 let alone unequal educational opportunities for their children and young adults because of the
22 actions of Defendants herein.

23 **THIRTEENTH CAUSE OF ACTION**
24 **(Plaintiff Nicholas Thomas listed in Appendix "F")⁵⁰**

25 _____
26 ⁵⁰ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
27 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
28 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix "F", along

Against LACOE for Redress of Perceived Disability Discrimination)

246. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, as well as paragraphs 187-190 of the Eighth Cause of Action, as though fully set forth herein.

247. Plaintiff NICHOLAS THOMAS has been perceived by Defendant LACOE as disabled. Plaintiff THOMAS and other colleagues in same or similar situations have been treated as “lepers” and accused of suffering from life-threatening disabilities, including to their respiratory system, even though many Plaintiffs have, for the most part, remained clear of Covid symptoms.

248. Firing THOMAS because he refused to vaccinate is direct evidence that THOMAS has been treated differently because of the LAUSD perception that unvaccinated employees are disabled and warrant constant testing. In the case of THOMAS, THOMAS was not even allowed to retain employment, let alone pursue the exemption process, but rather was fired while on probation. Leading up to same, THOMAS was repeatedly commended for the quality of his work and was told he would in fact pass probation.

249. The Mandates as written coupled by the perceptions that Plaintiffs are limited in their abilities to engage in major life activities, including to freely walk about without infecting others, has resulted in notice that government entities will not allow Plaintiffs to enter government buildings or engage in activities like those whom Defendants have identified as being fully or partially vaxxed. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’ which have materially altered the terms and conditions and privileges of Plaintiffs’ employment. Said actions directly and indirectly affect Plaintiffs’ compensation and benefits, including when announcing that the unvaccinated will be terminated while on probation.

250. In light hereof, Plaintiff alleges that Defendant LACOE has actively discriminated against Plaintiff THOMAS and others because of their perceived disabilities and purported inability to engage in major life activities, all contrary to California's Fair Employment and

1 Housing Act which embodies fundamental public policies against discrimination against disabled
2 employees in employment.

3 251. Plaintiffs have filed charges of disability discrimination against their respective
4 public sector Employer with the California Department of Fair Employment and Housing and
5 have sought or been immediately issued statutory Right to Sue Letters on said charges. Affected
6 Plaintiffs bring the instant action against Defendant Employer within the one-year period
7 following issuance of the December 9, 2021 Right-to-Sue Letter.

8 252. Having satisfied these statutory prerequisites to suit, Plaintiff THOMAS and others
9 identified in discovery do hereby bring an action against their respective Defendant Employer for
10 having created, tolerated and perpetuated prohibitory discrimination against Plaintiff, because of
11 their perceived disabilities, in violation of the laws of the State of California.

12 253. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
13 Section 12965(b), which provides for the same, against Defendants, and each of them.

14 254. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
15 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
16 and reputation, especially when fired for refusing to vaccinate.

17 255. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

18 256. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
19 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

20 257. Many Plaintiffs have been further forced to obtain medical care, because of
21 Defendants actions, including the demand that masks be worn at all times as well as forcing
22 employees to comply with vaccine mandates by taking injections often available in the workplace,
23 on the false premise the vaccines were FDA-approved, when they were not. Similarly, Plaintiffs,
24 including their children and grandchildren have been subjected to shedding of the spike protein,
25 and each of them, and may need additional care like personnel perceived to not be disabled, and
26 accordingly seeks special damages, according to proof.

27 258. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
28 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,

1 let alone unequal educational opportunities for their children within LAUSD and LACOE.

2 **FOURTEENTH CAUSE OF ACTION**

3 **(All Plaintiffs listed in Appendix “G”⁵¹ against the STATE OF CALIFORNIA and**
4 **Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT**
5 **OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE**
6 **DEPARTMENT OF PUBLIC HEALTH and the DEPARTMENT OF**
7 **TRANSPORTATION for Redress of Perceived Disability Discrimination)**

8 259. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
9 Action, as well as paragraphs 197-199 of the Ninth Cause of Action, as though fully set forth
10 herein.

11 260. Plaintiffs who are employed by Defendant STATE OF CALIFORNIA and its
12 DEPARTMENTS have had same and similar experiences as other public sector employees, as
13 well as parents, students and grandparents identified in Appendix “A” who have opposed Vaccine
14 Mandates. The State employees enumerated in Appendix “G” have provided support to one
15 another to oppose furtherance of medical tyranny which robs one of their rights of privacy,
16 including to not divulge whether one is vaxxed. As a consequence the named Plaintiffs have been
17 perceived by Defendants as disabled. Plaintiffs have been treated as “lepers” and accused of
18 suffering from life-threatening disabilities, including to their respiratory system, even though
19 many for the most part have remained clear of Covid symptoms.

20 261. Continuing efforts by the State to demand that the unvaccinated test, while in some
21 cases refusing to demand that vaccinated employees be tested, evidences a continuing effort to
22 treat Plaintiffs differently because of the perception that affected employees are disabled and
23 warrant constant testing.

24 262. The Mandates as written coupled by the perceptions that Plaintiffs are limited in
25 their abilities to engage in major life activities, including to freely walk about without infecting

26 ⁵¹ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
27 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
“G”, along with the Spreadsheets.

1 others, has resulted in notice that government entities will not allow Plaintiffs to enter government
2 buildings or engage in activities like those whom Defendants have identified as being fully or
3 partially vaxxed. Although Plaintiffs are fully capable of performing their job duties,
4 DEFENDANT EMPLOYERS have engaged in various material adverse employment actions
5 against Plaintiffs' which have materially altered the terms and conditions and privileges of
6 Plaintiffs' employment. Said actions directly and indirectly affect Plaintiffs' compensation and
7 benefits, including when announcing that the unvaccinated will be denied upward mobility
8 henceforth, while also threatening and announcing the imminent removal of affected Plaintiffs
9 from their job duties permanently, while purporting to unilaterally gut civil service protections that
10 otherwise entitle Plaintiffs to due process and a right to contest all accusations levied at them.

11 263. In light hereof, Plaintiff alleges that Defendant STATE OF CALIFORNIA and its
12 DEPARTMENTS and BUREAUS have actively discriminated against Plaintiffs because of their
13 perceived disabilities and purported inability to engage in major life activities, all contrary to
14 California's Fair Employment and Housing Act which embodies fundamental public policies
15 against discrimination against disabled employees in employment.

16 264. Plaintiffs have filed charges of disability discrimination against their respective
17 public sector Employer with the California Department of Fair Employment and Housing and
18 have sought or been immediately issued statutory Right to Sue Letters on said charges. Affected
19 Plaintiffs bring the instant action against Defendant Employer within the one-year period
20 following issuance of the December 9, 2021 Right-to-Sue Letter.

21 265. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
22 bring an action against their respective Defendant Employer for having created, tolerated and
23 perpetuated prohibitory discrimination against Plaintiff, because of their perceived disabilities, in
24 violation of the laws of the State of California.

25 266. Upon prevailing, Plaintiffs also seeks attorneys' fees and costs, Government Code
26 Section 12965(b), which provides for the same, against Defendants, and each of them.

27 267. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
28 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers

1 and reputation, especially when disciplinary actions have been imposed for refusal to vaccinate, or
2 protesting the compilation of fraudulent data about testing within the DEPARTMENT OF
3 CORRECTIONS AND REHABILITATION.

4 268. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

5 269. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
6 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

7 270. Many Plaintiffs have been further forced to obtain medical care, because of
8 Defendants actions, including the demand that masks be worn at all times as well as forcing
9 employees to comply with vaccine mandates by taking injections often available in the workplace,
10 on the false premise the vaccines were FDA-approved, when they were not. Similarly, Plaintiffs,
11 including their children and grandchildren have been subjected to shedding of the spike protein,
12 and each of them, and may need additional care like personnel perceived to not be disabled, and
13 accordingly seeks special damages, according to proof.

14 271. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
15 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
16 let alone unequal educational opportunities for their children within the STATE OF
17 CALIFORNIA.

18
19 **FIFTEENTH CAUSE OF ACTION**

20 **(All City of Los Angeles Plaintiffs listed in Appendix “C”⁵² against the CITY OF LOS**
21 **ANGELES for Redress of Forced Genetic Testing)**

22 272. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
23 Action, Paragraphs 154-157 of the Fifth Cause of Action, and Paragraph 165-167 of the Tenth
24 Cause of Action as though fully set forth herein.

25 _____
26 ⁵² This listing of Plaintiffs and all members of F2CLA employed by the City of Los Angeles is
27 identical for the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th and 45th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also City-employees is attached to Appendix
“C”, along with the Spreadsheets.

1 273. By their actions and the terms of the Vaccination and PCR mandates Defendant
2 Employers and their representatives have sought to collect genetic information and engage in
3 genetic testing despite Plaintiffs continuous protests against being so subjected. Plaintiffs who are
4 employed by Defendants have been singled out for continued testing, including with *Fulgent*
5 *Genetics*, *BlueStone Safe*, or now, other designated providers.

6 274. Continuing efforts by the City to extract \$520.00 per month from affected Plaintiffs
7 for PCR testing which is unreliable, while refusing to demand that vaccinated employees be tested
8 let alone pay for same, evidences a continuing effort to treat Plaintiffs differently because of the
9 desire to capture genetic information from genetic testing that Plaintiffs have sought to escape
10 from, but been forced to endure.

11 275. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
12 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs'
13 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
14 including the continued collection of genetic information and the engaging in genetic testing
15 without genuine consent from Plaintiffs, let alone their children. Said actions directly and
16 indirectly affect Plaintiffs' compensation and benefits, including when announcing that the
17 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
18 the imminent removal of affected Plaintiffs from their job duties permanently, while purporting to
19 unilaterally gut civil service protections that otherwise entitle Plaintiffs to due process and a right
20 to contest all accusations levied at them.

21 276. In light hereof, Plaintiff alleges that Defendant CITY has actively discriminated
22 against Plaintiffs because of genetic information and genetic testing, contrary to California's Fair
23 Employment and Housing Act which embodies fundamental public policies against discrimination
24 due to genetics.

25 277. Plaintiffs have filed charges of genetics discrimination against their respective
26 public sector Employer with the California Department of Fair Employment and Housing and
27 have sought or been immediately issued statutory Right to Sue Letters on said charges on
28 December 9, 2021. Affected Plaintiffs bring the instant action against Defendant Employer within

1 the one-year period following issuance of same.

2 278. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
3 bring an action against their respective Defendant Employer for having created, tolerated and
4 perpetuated prohibitory discrimination against Plaintiffs on the basis of genetic information and
5 genetic testing, in violation of the laws of the State of California.

6 279. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
7 Section 12965(b), which provides for the same, against Defendants, and each of them.

8 280. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
9 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
10 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
11 genetics or to voluntarily permit alteration or collection and distribution of same.

12 281. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

13 282. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
14 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

15 283. Many Plaintiffs have been further forced to obtain medical care, as a consequence
16 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
17 basis and that masks be worn at all times, based on the false premise the vaccines in use during
18 material times herein were FDA-approved, when they were not. Similarly, Plaintiffs, including
19 their children and grandchildren have been subjected to shedding of the spike protein, and each of
20 them, and may need additional care like personnel perceived to not be disabled, and accordingly
21 seeks special damages, according to proof.

22 284. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
23 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
24 let alone unequal educational opportunities for their children within the State of California.

28 //

1 **SIXTEENTH CAUSE OF ACTION**
2 **(All Plaintiffs listed in Appendix “D”⁵³ against the COUNTY OF LOS ANGELES for**
3 **for Redress of Forced Genetic Testing)**

4 285. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
5 Action, Paragraphs 165-168 of the Sixth Cause of Action, and Paragraph 221-223 of the Eleventh
6 Cause of Action as though fully set forth herein.

7 286. By their actions and the terms of the Vaccination and PCR mandates Defendant
8 Employers and their representatives have sought to collect genetic information and engage in
9 genetic testing despite Plaintiffs continuous protests against being so subjected. Plaintiffs who are
10 employed by Defendants have been singled out for continued testing, including with *Fulgent*
11 *Genetics*, *BlueStone Safe*, or now, other designated providers.

12 287. Refusing to demand that vaccinated employees be tested let alone pay evidences a
13 continuing effort to treat Plaintiffs differently because of the desire to capture genetic information
14 from genetic testing that Plaintiffs have sought to escape from, but been forced to endure.

15 288. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
16 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’
17 which have materially altered the terms and conditions and privileges of Plaintiffs’ employment,
18 including the continued collection of genetic information and the engaging in genetic testing
19 without genuine consent from Plaintiffs, let alone their children. Said actions directly and
20 indirectly affect Plaintiffs’ compensation and benefits, including when announcing that the
21 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
22 the imminent removal of affected Plaintiffs from their job duties permanently, while purporting to
23 unilaterally gut civil service protections that otherwise entitle Plaintiffs to due process and a right
24 to contest all accusations levied at them.

25 _____
26 ⁵³ This listing of Plaintiffs and all members of F2CLA employed by the County of Los Angeles is
27 identical for the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st and 46th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also County-employees is attached to
Appendix “D”, along with the Spreadsheets.

1 289. In light hereof, Plaintiff alleges that Defendant COUNTY has actively
2 discriminated against Plaintiffs because of genetic information and genetic testing, contrary to
3 California's Fair Employment and Housing Act which embodies fundamental public policies
4 against discrimination due to genetics.

5 290. Plaintiffs have filed charges of genetics discrimination against their respective
6 public sector Employer with the California Department of Fair Employment and Housing and
7 have sought or been immediately issued statutory Right to Sue Letters on said charges on
8 December 9, 2021. Affected Plaintiffs bring the instant action against Defendant Employer within
9 the one-year period following issuance of same.

10 291. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
11 bring an action against their respective Defendant Employer for having created, tolerated and
12 perpetuated prohibitory discrimination against Plaintiffs on the basis of genetic information and
13 genetic testing, in violation of the laws of the State of California.

14 292. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
15 Section 12965(b), which provides for the same, against Defendants, and each of them.

16 293. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
17 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
18 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
19 genetics or to voluntarily permit alteration or collection and distribution of same.

20 294. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

21 295. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
22 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

23 296. Many Plaintiffs have been further forced to obtain medical care, as a consequence
24 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
25 basis and that masks be worn at all times, based on the false premise the vaccines in use during
26 material times herein were FDA-approved, when they were not. Similarly, Plaintiffs, including
27 their children and grandchildren have been subjected to shedding of the spike protein, and each of
28 them, and may need additional care like personnel perceived to not be disabled, and accordingly

1 seeks special damages, according to proof.

2 297. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
3 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
4 let alone unequal educational opportunities for their children within the State of California.

5
6 **SEVENTEENTH CAUSE OF ACTION**
7 **(All Plaintiffs listed in Appendix “E”⁵⁴**
8 **against LAUSD for**
9 **for Redress of Forced Genetic Testing)**

10 298. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
11 Action, Paragraphs 176-179 of the Seventh Cause of Action, and Paragraph 234-236 of the
12 Twelfth Cause of Action as though fully set forth herein.

13 299. By their actions and the terms of the Vaccination and PCR mandates Defendant
14 Employers and their representatives have sought to collect genetic information and engage in
15 genetic testing despite Plaintiffs continuous protests against being so subjected. Plaintiffs who are
16 employed by Defendants have been singled out for continued testing, including with *Fulgent*
17 *Genetics* and *BlueStone Safe*.

18 300. Continuing efforts by the City to extract \$520.00 per month from affected Plaintiffs
19 for PCR testing which is unreliable, while refusing to demand that vaccinated employees be tested
20 let alone pay for same, evidences a continuing effort to treat Plaintiffs differently because of the
21 desire to capture genetic information from genetic testing that Plaintiffs have sought to escape
22 from, but been forced to endure.

23 301. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
24 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’

25 ⁵⁴ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along
with the Spreadsheets.

1 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
2 including the continued collection of genetic information and the engaging in genetic testing
3 without genuine consent from Plaintiffs, let alone their children. Said actions directly and
4 indirectly affect Plaintiffs' compensation and benefits, including when announcing that the
5 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
6 the imminent removal of affected Plaintiffs from their job duties permanently, while purporting to
7 unilaterally gut civil service protections that otherwise entitle Plaintiffs to due process and a right
8 to contest all accusations levied at them.

9 302. In light hereof, Plaintiff alleges that Defendant LAUSD has actively discriminated
10 against Plaintiffs because of genetic information and genetic testing, contrary to California's Fair
11 Employment and Housing Act which embodies fundamental public policies against discrimination
12 due to genetics.

13 303. Plaintiffs have filed charges of genetics discrimination against their respective
14 public sector Employer with the California Department of Fair Employment and Housing and
15 have sought or been immediately issued statutory Right to Sue Letters on said charges on
16 December 9, 2021. Affected Plaintiffs bring the instant action against Defendant Employer within
17 the one-year period following issuance of same.

18 304. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
19 bring an action against their respective Defendant Employer for having created, tolerated and
20 perpetuated prohibitory discrimination against Plaintiffs on the basis of genetic information and
21 genetic testing, in violation of the laws of the State of California.

22 305. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
23 Section 12965(b), which provides for the same, against Defendants, and each of them.

24 306. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
25 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
26 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
27 genetics or to voluntarily permit alteration or collection and distribution of same.

28

1 307. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

2 308. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
3 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

4 309. Many Plaintiffs have been further forced to obtain medical care, as a consequence
5 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
6 basis and that masks be worn at all times, based on the false premise the vaccines in use during
7 material times herein were FDA-approved, when they were not. Similarly, Plaintiffs, including
8 their children and grandchildren have been subjected to shedding of the spike protein, and each of
9 them, and may need additional care like personnel perceived to not be disabled, and accordingly
10 seeks special damages, according to proof.

11 310. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
12 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
13 let alone unequal educational opportunities for their children within the State of California.

14
15 **EIGHTEENTH CAUSE OF ACTION**

16 **(Plaintiff Nicholas Thomas**

17 **Against LACOE for**

18 **for Redress of Forced Genetic Testing)**

19 311. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
20 Action, Paragraphs 187-190 of the Eighth Cause of Action, and Paragraph 247-249 of the
21 Thirteenth Sixth Cause of Action as though fully set forth herein.

22 312. By their actions and the terms of the Vaccination and PCR mandates Defendant
23 Employers and their representatives have sought to collect genetic information and engage in
24 genetic testing despite Plaintiffs continuous protests against being so subjected. Plaintiffs who are
25 employed by Defendants have been singled out for continued testing.

26 313. Refusing to demand that vaccinated employees be tested let alone pay for same, if
27 applicable, evidences a continuing effort to treat Plaintiffs differently because of the desire to
28 capture genetic information from genetic testing that Plaintiffs have sought to escape from, but
been forced to endure.

1 314. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
2 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’
3 which have materially altered the terms and conditions and privileges of Plaintiffs’ employment,
4 including the continued collection of genetic information and the engaging in genetic testing
5 without genuine consent from Plaintiffs, let alone their children. Said actions directly and
6 indirectly affect Plaintiffs’ compensation and benefits, including when announcing that the
7 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
8 the imminent removal of affected Plaintiffs from their job duties permanently, while purporting to
9 unilaterally gut civil service protections that otherwise entitle Plaintiffs to due process and a right
10 to contest all accusations levied at them.

11 315. In light hereof, Plaintiff alleges that Defendant LACOE has actively discriminated
12 against Plaintiffs because of genetic information and genetic testing, contrary to California's Fair
13 Employment and Housing Act which embodies fundamental public policies against discrimination
14 due to genetics.

15 316. Plaintiffs have filed charges of genetics discrimination against their respective
16 public sector Employer with the California Department of Fair Employment and Housing and
17 have sought or been immediately issued statutory Right to Sue Letters on said charges on
18 December 9, 2021. Affected Plaintiffs bring the instant action against Defendant Employer within
19 the one-year period following issuance of same.

20 317. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
21 bring an action against their respective Defendant Employer for having created, tolerated and
22 perpetuated prohibitory discrimination against Plaintiffs on the basis of genetic information and
23 genetic testing, in violation of the laws of the State of California.

24 318. Upon prevailing, Plaintiffs also seek attorneys’ fees and costs, Government Code
25 Section 12965(b), which provides for the same, against Defendants, and each of them.

26 319. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
27 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
28 and reputation, especially when disciplinary actions have been imposed for refusal to share one’s

1 genetics or to voluntarily permit alteration or collection and distribution of same.

2 320. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

3 321. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
4 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

5 322. Many Plaintiffs have been further forced to obtain medical care, as a consequence
6 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
7 basis and that masks be worn at all times, based on the false premise the vaccines in use during
8 material times herein were FDA-approved, when they were not. Similarly, Plaintiffs, including
9 their children and grandchildren have been subjected to shedding of the spike protein, and each of
10 them, and may need additional care like personnel perceived to not be disabled, and accordingly
11 seeks special damages, according to proof.

12 323. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
13 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
14 let alone unequal educational opportunities for their children within the State of California.

15
16 **NINETEENTH CAUSE OF ACTION**

17 **(All Plaintiffs listed in Appendix “G”⁵⁵ against the STATE OF CALIFORNIA and**
18 **Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT**
19 **OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE**
20 **DEPARTMENT OF PUBLIC HEALTH and the DEPARTMENT OF**
21 **TRANSPORTATION for Redress of Forced Genetic Testing)**

22 324. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
23 Action, Paragraphs 197-199 of the Ninth Cause of Action, and Paragraphs 260-262 of the
24 Fourteenth Cause of Action as though fully set forth herein.

25 ⁵⁵ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
26 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
27 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
28 above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
“G”, along with the Spreadsheets.

1 325. By their actions and the terms of the Vaccination and PCR mandates Defendant
2 Employers and their representatives have sought to collect genetic information and engage in
3 genetic testing despite Plaintiffs continuous protests against being so subjected. Plaintiffs who are
4 employed by Defendants and also have same and similar experiences as parents and grandparents
5 opposing Vaccine Mandates, as well as their colleagues who have provided support to one another
6 to oppose furtherance of medical tyranny which robs one of their rights of privacy, have been
7 singled out for continued testing, including by various vendors hand-picked by the State of
8 California.

9 326. Refusing to demand that vaccinated employees be tested evidences a continuing
10 effort to treat Plaintiffs differently because of the desire to capture genetic information from
11 genetic testing that Plaintiffs have sought to escape from, but been forced to endure.

12 327. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
13 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs'
14 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
15 including the continued collection of genetic information and the engaging in genetic testing
16 without genuine consent from Plaintiffs, let alone their children. Said actions directly and
17 indirectly affect Plaintiffs' compensation and benefits, including when announcing that the
18 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
19 the imminent removal of affected Plaintiffs from their job duties permanently, while purporting to
20 unilaterally gut civil service protections that otherwise entitle Plaintiffs to due process and a right
21 to contest all accusations levied at them. The fact that local governments are relying upon a
22 decision of the State's Public Employment Relations Board for the proposition that the
23 government employers were entitled to impose the Covid vaccine as a condition of employment,
24 while the Fair Employment and Housing Commission issued notices falsely claiming that the
25 vaccines were "FDA-approved", when they were not, demonstrates that the State of California is
26 fully entrenched in causing the public health crisis now confronting public sector employers and
27 the public in general and must be held fully accountable.

28 328. In light hereof, Plaintiff alleges that Defendant STATE OF CALIFORNIA and its

1 named DEPARTMENTS has actively discriminated against Plaintiffs because of genetic
2 information and genetic testing, contrary to California's Fair Employment and Housing Act which
3 embodies fundamental public policies against discrimination due to genetics.

4 329. Plaintiffs have filed charges of genetics discrimination against their respective
5 public sector Employer with the California Department of Fair Employment and Housing and

15 **O’FARRELL, KEVIN DE LEÓN, JOE BUSCAINO, DR. MUNTO DAVIS, CYNTHIA**
16 **McCLAIN HILL, SUSANA REYES, NICOLE NEEMAN BRADY, JILL BANKS BARAD-**
17 **HOPKINS and MIA LEHRER, and Doe Defendants FIRE CHIEF KRISTEN CROWLEY,**
18 **ARAM SALMASI (aka Salamassian aka Salmasizadeh), AGASSI TOPCHIAN, BRETT**
19 **TERELL, ULRIC CARPENTER, GLENN PENNY and EDDIE CROMWELL for Redress**
20 **of Proscribed Harassment)**

21 337. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
22 Action, Paragraphs 154-156 of the Fifth Cause of Action, Paragraphs 208-210 of the Tenth Cause
23 of Action and Paragraphs 273-275 of the Fifteenth Cause of Action, as though fully set forth
24 herein.

25 338. By their actions when seeking to implement the terms of the Vaccination and PCR
26 mandates in the workplace, Defendant Employers and their representatives, including individually
27 named supervisors, executives and Department heads, enumerated in the Caption to this Cause of
28 Action, have harassed and created a hostile work environment for Plaintiffs who have identified
themselves as not vaccinated, or have declined to identify their status because of their

⁵⁶ This listing of Plaintiffs and all members of F2CLA employed by the City of Los Angeles is identical for the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th and 45th Causes of Action. To avoid unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line Plaintiffs and F2C Members who are also City-employees is attached to Appendix “C”, along with the Spreadsheets.

1 constitutional right to privacy and the well-founded belief that all employees must have the
2 freedom to choose whether one should or should not be vaccinated and provided Defendant
3 Employers have provided sufficient information, including about adverse events, to permit
4 informed consent or the right to refuse to be exercised. Each of the Plaintiffs who are employed by
5 Defendant CITY have experienced thug tactics for refusing to vaccinate, have been followed in
6 and out of their work locations, and in many cases, particularly in the Fire Department, have had
7 documents seeking to sever their employment delivered to their homes, in the presence of Police
8 Officers, all because said first responders and their colleagues have provided support to one
9 another to oppose furtherance of medical tyranny which robs one of their right of privacy and to
10 control one's own destiny, including the right to procreate, and to equal protection. Said
11 personnel and all City Plaintiffs have been singled out for continuing harassment, including having
12 their personal financial and insurance information given by staff assigned to Payroll and
13 Personnel, to such testing entities as *BlueStone Safe*.

14 339. Continuing efforts by the City to threaten and/or extract \$520.00 per month from
15 affected Plaintiffs for PCR testing which is unreliable, while refusing to demand that vaccinated
16 employees be tested let alone pay for same, evidences a continuing effort to treat Plaintiffs
17 differently, including to subject said Plaintiffs to a hostile and offensive work environment,
18 despite in many cases, Plaintiffs submission of requests for religious and medical exemptions.
19 Plaintiffs are informed and believe that requests for religious and medical exemptions have been
20 tossed aside by Defendant Employers and their representatives, despite laws which entitle
21 Plaintiffs to accommodations from the Mandates in these regards.

22 340. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
23 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs'
24 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
25 including the continued demands for collection of genetic information and the engaging in genetic
26 testing without genuine consent from Plaintiffs, let alone their children, while openly castigating
27 Plaintiffs for exercising their constitutional rights. Plaintiffs including CHRISTOPHER KEY have
28 been stalked and even followed to the bathroom, including by ULRIC CARPENTER, while

1 TODD THORNBERG of DWP in Bishop, California has been repeatedly confronted by personnel
2 not wearing masks for violating the mask mandates. Each of the named Plaintiffs allege that their
3 superiors have “religiously” confronted unvaccinated workers, with EDDIE CROMWELL and
4 GLEN PENNY actively confronting Custodian BONIFACIO CHAGOLIA to such a degree that
5 CHAGOLIA, like DANNY SOTO in Sanitation were forced to resign to supposedly eliminate the
6 stigma of being fired, even though both had planned on working several more years of
7 employment. Named City employees have even had enhanced caseloads thrust upon them, while
8 vaccinated workers have been excused from same, with these actions clearly being punitive, with
9 supervisors and department heads announcing their intentions to make examples of the
10 unvaccinated for refusing to capitulate. Likewise, Plaintiffs’ compensation and benefits have been
11 adversely targeting, including when Department managers have announced that the unvaccinated
12 will be denied upward mobility henceforth, while also threatening and announcing the imminent
13 removal of certain affected Plaintiffs from their job duties permanently. A refusal to even assign
14 unvaccinated employees to jobs at the Navajo Nation where substantial overtime is being earned,
15 including in the Navajo Nation, while denying “emergency” pay to DWP employees has adversely
16 affected the vast majority of DWP employees listed in Appendix “C”. Likewise, emphasis by
17 these Department managers and personnel representatives that civil service protections that
18 otherwise entitle Plaintiffs to due process and to be treated equally, including relative to testing no
19 longer exist aggravates the hostile working conditions to which these Plaintiffs have been
20 purposefully subjected by individually named Defendants.

21 341. In light hereof, Plaintiff alleges that Defendant CITY has actively harassed
22 Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
23 fundamental public policies against harassment stemming from discriminatory conditions
24 prohibited by said Act. Plaintiffs have filed charges of harassment against their respective public
25 sector Employer with the California Department of Fair Employment and Housing and have
26 sought or been immediately issued statutory Right to Sue Letters on said charges on December 9,
27 2021. Affected Plaintiffs bring the instant action against Defendant Employer within the one-year
28 period following issuance of same. Affected Plaintiffs bring the instant action against Defendant

1 Employer within the one-year period following issuance of same and will be filing additional
2 charges to cover additional harassment that has taken place in the interim while that this case has
3 been on file.

4 342. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
5 bring an action against their respective Defendant Employer and individually named Defendants
6 for having created, tolerated and perpetuated prohibitory harassment against Plaintiffs, in violation
7 of the laws of the State of California.

8 343. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
9 Section 12965(b), which provides for the same, against Defendants, and each of them.

10 344. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
11 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
12 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
13 protected information.

14 345. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

15 346. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
16 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

17 347. Many Plaintiffs have been further forced to obtain medical care, as a consequence
18 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
19 basis and that masks be worn at all times, based on the false premise the vaccines in use during
20 material times herein were FDA-approved, when they were not. The repeated demands by
21 Defendant Employers and their representatives seeking to enforce same ignores scientific and
22 medical evidence showing the harmful effects of same, as well as what is occurring due to the
23 shedding of the spike protein in the workplace. Accordingly, Plaintiffs seek special damages,
24 according to proof.

25 348. Because of their relentless campaign of harassing unvaccinated employees,
26 including threatening their livelihood and ability to financially care for their families; following
27 employees to the bathroom and forcing many to engage in freeway therapy and to receive
28 substantially greater workloads than unvaccinated employees; and singling out Plaintiffs for

1 ridicule, disciplinary memos, suspensions, and even firings, individually named Defendants from
2 the CITY OF LOS ANGELES have clearly and intentionally subjected F2C Plaintiffs to a
3 a hostile and offensive work environment. F2C and all Plaintiff do hereby seek punitive damages
4 against CITY-government officials, Managers and Supervisors, set forth in the caption to this
5 Cause of Action. Plaintiff alleges the actions of individually named Defendants was and remains
6 willful, wanton, malicious and oppressive, and justify the awarding of punitive damages against
7 individually named Defendants in these Plaintiffs' favor.

8 349. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
9 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
10 let alone unequal educational opportunities for their children within LAUSD and LACOE and
11 elsewhere in the STATE OF CALIFORNIA.

12
13 **TWENTY-FIRST CAUSE OF ACTION**
14 **(All Plaintiffs listed in Appendix "D"⁵⁷ against the COUNTY OF LOS ANGELES AND ITS**

18 **EVANS, ALLAN KHOZAH, KARYN SMITH, KRISANNE KREMER, IRMA RIOS,**
19 **LILY ORTIZ and STEVE POON for Redress of Proscribed Harassment)**

20 350. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
21 Action, Paragraphs 165-168 of the Sixth Cause of Action, Paragraphs 221-223 of the Eleventh
22 Cause of Action and Paragraphs 286-288 of the of the Sixteenth Cause of Action, as though fully
23 set forth herein.

24 351. By their actions when seeking to implement the terms of the Vaccination and PCR
25 mandates in the workplace, Defendant Employers and their representatives, including individually

26 ⁵⁷ This listing of Plaintiffs and all members of F2CLA employed by the County of Los Angeles is
27 identical for the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st and 46th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also County-employees is attached to
Appendix "D", along with the Spreadsheets.

1 named supervisors, executives and Department heads, have engaged in a direct campaign of
2 harassment resulting in a clearly hostile work environment for Plaintiffs who have identified
3 themselves as not vaccinated, or have declined to identify their status because of their
4 constitutional right to privacy and the well-founded belief that all employees must have the
5 freedom to choose whether one should or should not be vaccinated, and provided one's Employer
6 has provided sufficient information, including about adverse events, to permit informed consent or
7 the right to refuse to be exercised. Plaintiffs who are employed by Defendants and also have same
8 and similar experiences as parents and grandparents opposing Vaccine Mandates, as well as their
9 colleagues who have provided support to one another to oppose furtherance of medical tyranny
10 which robs one of their rights of privacy, have been singled out for continuing harassment,
11 including having their personal financial and insurance information given by staff assigned to
12 Payroll and Personnel to such testing entities as *Fulgent Genetics*.

13 352. Refusing to demand that vaccinated employees be tested, evidences a continuing
14 effort to treat Plaintiffs differently, including to subject said Plaintiffs to a hostile and offensive
15 work environment, despite in many cases, Plaintiffs submission of requests for religious and
16 medical exemptions. Plaintiffs are informed and believe that requests for religious and medical
17 exemptions have been tossed aside by Defendant Employers and their representatives, despite
18 laws which entitle Plaintiffs to accommodations from the Mandates in these regards.

19 353. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
20 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs'
21 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
22 including the continued demands for collection of genetic information and the engaging in genetic
23 testing without genuine consent from Plaintiffs, let alone their children, while openly castigating
24 Plaintiffs for exercising their constitutional rights. F2C is aware that unvaccinated COUNTY
25 employees assigned to hospitals in the South Bay, or the Antelope Valley have been given
26 freeway therapy and required to work at Olive View, including in trailers in close proximity to
27 where a nurse was brutally and fatally assaulted by homeless living in close proximity to Olive
28 View. Defendant KRISANNE KREMER repeatedly confronted Plaintiff MEJIA-CRUZ about not

1 vaxxing, while KARYN SMITH while functioning as the head of Human Resources at HARBOR-
2 UCLA, along with STEVE POON, did so as well, causing MEJIA-CRUZ to sustain suspensions
3 without pay. Unvaccinated employees at LAC+USC on directions from LISA GARRETT as the
4 head of Personnel for the entire COUNTY have been forced to endure working conditions laden
5 with asbestos and/or been reassigned temporarily to the LA COUNTY FAIR GROUNDS where
6 homeless provided with drugs (“cocktails”) have been housed. Despite complying with said
7 directives, same employees have continued to be scorned and discriminated against, including
8 because of their participation in Bible Studies during their breaks. Said actions are punitive and
9 directly and indirectly impact the public. Likewise, Plaintiffs’ compensation and benefits have
10 been adversely targeted by COUNTY Defendants, including when announcing that the
11 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
12 the imminent removal of certain affected Plaintiffs from their job duties permanently, while
13 purporting to unilaterally gut civil service protections that otherwise entitle Plaintiffs to due
14 process and to be treated equally, including relative to testing. CENTENO, BILANCSUK,
15 JOSEPH DELUNA and PELTON were fired for refusing to comply with orders from their
16 superiors in Public Health, the Auditors Controller Office, Parks and Recreation, and Child
17 Support Services. In each case the demand that one vaccinate and sign-up with *Fulgent*, while
18 also experiencing suspensions for failing to comply in these regards, are and remain unlawful.

19 354. In light hereof, Plaintiff alleges that Defendant COUNTY has actively harassed
20 Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
21 fundamental public policies against harassment stemming from discriminatory conditions
22 prohibited by said Act. Plaintiffs have filed charges of harassment against their respective public
23 sector Employer and the parties directly engaging in harassment with the California Department of
24 Fair Employment and Housing and have sought or been immediately issued statutory Right to Sue
25 Letters on said charges. Affected Plaintiffs bring the instant action against Defendant Employer
26 within the one-year period following issuance of same and will be filing additional charges to
27 cover additional harassment that has taken place in the interim while that this case has been on
28 file.

1 355. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
2 bring an action against their respective Defendant Employer for having created, tolerated and
3 perpetuated prohibitory harassment against Plaintiffs, in violation of the laws of the State of
4 California.

5 356. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
6 Section 12965(b), which provides for the same, against Defendants, and each of them.

7 357. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
8 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
9 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
10 protected information.

11 358. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

12 359. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
13 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

14 360. Many Plaintiffs have been further forced to obtain medical care, as a consequence
15 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
16 basis and that masks be worn at all times, based on the false premise the vaccines in use during
17 material times herein were FDA-approved, when they were not. The repeated demands by
18 Defendant Employers and their representatives seeking to enforce same ignores scientific and
19 medical evidence showing the harmful effects of same, as well as what is occurring due to the
20 shedding of the spike protein in the workplace. Accordingly, Plaintiffs seek special damages,
21 according to proof.

22 361. Because of their relentless campaign of harassing unvaccinated employees,
23 including threatening their livelihood and ability to financially care for their families; following
24 employees to the bathroom and forcing many to engage in freeway therapy and to receive
25 substantially greater workloads than unvaccinated employees; and singling out Plaintiffs for
26 ridicule, disciplinary memos, suspensions, and even firings, individually named Defendants from
27 the COUNTY OF LOS ANGELES have clearly and intentionally subjected F2C Plaintiffs to a
28 a hostile and offensive work environment. F2C and all Plaintiff do hereby seek punitive damages

1 against COUNTY-government officials, Managers and Supervisors, set forth in the caption to this
2 Cause of Action. Plaintiff alleges the actions of individually named Defendants was and remains
3 willful, wanton, malicious and oppressive, and justify the awarding of punitive damages against
4 individually named Defendants in these Plaintiffs' favor.

5
6 362. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
7 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
8 let alone unequal educational opportunities for their children within the State of California.

9
10 **TWENTY-SECOND CAUSE OF ACTION**
11 **(All Plaintiffs listed in Appendix "E")⁵⁸**
12 **Against LAUSD and individually named Defendants**
13 **GEORGE MCKENNA, MONICA GARCIA, JACKIE GOLDBERG, SCOTT**
14 **SCHMERELSON, NICK MELVOIN, KELLY GONEZ, TANYA ORTIZ FRANKLIN and**
15 **MEGAN REILLY for Redress of Proscribed Harassment)**

16 363. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
17 Action, Paragraphs 176-179 of the Seventh Cause of Action, Paragraph 234-236 of the Twelfth
18 Cause of Action and Paragraphs 299-301 of the Seventeenth Cause of Action, as though fully set
19 forth herein.

20 364. By their actions when seeking to implement the terms of the Vaccination and PCR
21 mandates in the workplace, Defendant Employers and their representatives, including individually
22 named supervisors, executives and Department heads, have harassed and created a hostile work
23 environment for Plaintiffs who have identified themselves as not vaccinated, or have declined to
24 identify their status because of their constitutional right to privacy and the well-founded belief that
25 all employees must have the freedom to choose whether one should or should not be vaccinated,

26 ⁵⁸ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
27 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
28 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix "F", along
with the Spreadsheets.

1 with said decision made after Defendant Employers have provided sufficient information,
2 including about adverse events, to permit informed consent or the right to refuse to be exercised.
3 Plaintiffs who are employed by Defendants and also have same and similar experiences as parents
4 and grandparents opposing Vaccine Mandates, as well as their colleagues who have provided
5 support to one another to oppose furtherance of medical tyranny which robs one of their rights of
6 privacy, have been singled out for continuing harassment, including having their personal financial
7 and insurance information given by personnel assigned to payroll deposits, to testing entities.

8 365. Refusing to demand that vaccinated employees be tested let alone pay for same,
9 evidences a continuing effort to treat Plaintiffs differently, including to subject said Plaintiffs to a
10 hostile and offensive work environment, despite in many cases, Plaintiffs submission of requests
11 for religious and medical exemptions. Plaintiffs are informed and believe that requests for
12 religious and medical exemptions have been tossed aside by Defendant Employers and their
13 representatives, despite laws which entitle Plaintiffs to accommodations from the Mandates in
14 these regards.

15 366. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
16 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs'
17 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
18 including the continued demands for collection of genetic information and the engaging in genetic
19 testing without genuine consent from Plaintiffs, let alone their children, while openly castigating
20 Plaintiffs for exercising their constitutional rights. Likewise, Plaintiffs' compensation and benefits
21 have been adversely targeted by LAUSD Defendants, including when announcing that the
22 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
23 the imminent removal of certain affected Plaintiffs from their job duties permanently, while
24 purporting to unilaterally gut civil service protections that otherwise entitle Plaintiffs to due
25 process and to be treated equally, including relative to testing. TREVOR SCHMIDT has also been
26 verbally assaulted by his superior, ROB LESTER, who has continued to withhold SCHMIDT's
27 personal belonging, even though SCHMIDT supposedly was given a religious exemption, but one
28 which LAUSD refused to accommodate despite the existence of job duties that SCHMIDT was

1 fully capable of performing. LAUSD, after steadfastly prodding SUSANA HERNANDEZ to
2 vaccinate, then released HERNANDEZ and refused to reinstate her even after she Vaxxed, to
3 HERNANDEZ' continuing detriment. At the same time, unvaccinated assigned to Virtual jobs
4 were greeted by personnel in the summer of 2022 with the latest threat, namely resign or have a
5 permanent blot of firing placed on one's State credential because LAUSD would no longer
6 accommodate said employees, including teacher JENY VASQUEZ who became a principal to
7 maintain her employment previously.

8 367. In light hereof, Plaintiff alleges that Defendant LAUSD has actively harassed
9 Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
10 fundamental public policies against harassment stemming from discriminatory conditions
11 prohibited by said Act. Plaintiffs have filed charges of harassment against their respective public
12 sector Employer, LAUSD herein and individually named Defendant ROBERT LESTER with the
13 California Department of Fair Employment and Housing and have sought or been immediately
14 issued statutory Right to Sue Letters on said charges. Affected Plaintiffs bring the instant action
15 against Defendant Employer within the one-year period following issuance of same and will be
16 filing additional charges to cover additional harassment that has taken place in the interim while
17 that this case has been on file.

18 368. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
19 bring an action against their respective Defendant Employer for having created, tolerated and
20 perpetuated prohibitory harassment against Plaintiffs, in violation of the laws of the State of
21 California.

22 369. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
23 Section 12965(b), which provides for the same, against Defendants, and each of them.

24 370. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
25 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
26 and reputation, especially when disciplinary actions have been imposed for refusing to vaccinate
27 and/or to share one's protected information.

28 371. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

1 372. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
2 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

3 373. Many Plaintiffs have been further forced to obtain medical care, as a consequence
4 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
5 basis and that masks be worn at all times, based on the false premise the vaccines in use during
6 material times herein were FDA-approved, when they were not. The repeated demands by
7 Defendant Employers and their representatives seeking to enforce same ignores scientific and
8 medical evidence showing the harmful effects of same, as well as what is occurring due to the
9 shedding of the spike protein in the workplace. Accordingly, Plaintiffs seek special damages,
10 according to proof.

11 374. Because of their relentless campaign of harassing unvaccinated employees,
12 including threatening their livelihood and ability to financially care for their families; following
13 employees to the bathroom and forcing many to engage in freeway therapy and to receive
14 substantially greater workloads than unvaccinated employees; and singling out Plaintiffs for
15 ridicule, disciplinary memos, suspensions, and even firings, individually named Defendants from
16 LAUSD have clearly and intentionally subjected F2C Plaintiffs to a hostile and offensive work
17 environment. F2C and all Plaintiff do hereby seek punitive damages against LAUSD-government
18 officials, Managers and Supervisors, set forth in the caption to this Cause of Action. Plaintiff
19 alleges the actions of individually named Defendants was and remains willful, wanton, malicious
20 and oppressive, and justify the awarding of punitive damages against individually named
21 Defendants in these Plaintiffs' favor, particularly since members of the SCHOOL BOARD have
22 sought to deflect attention from the underlying issues, including injecting or placing toxic
23 substances into the human anatomy of employees and children alike by labeling F2C members
24 who have dared to speak up as "domestic terrorists".

25 375. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
26 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
27 let alone unequal educational opportunities for their children within LAUSD, LACOE and
28 elsewhere in the State of California.

TWENTY-THIRD CAUSE OF ACTION
(Plaintiff Nicholas Thomas
Against LACOE and individually named Defendant
GEORGE MCKENNA, MONICA GARCIA, JACKIE GOLDBERG,
SCOTT SCHMERELSON, NICK MELVOIN, KELLY GONEZ, TANYA ORTIZ
FRANKLIN and DEBRA DUARDO for Redress of Proscribed Harassment)

376. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, Paragraphs 187-190 of the Eighth Cause of Action, Paragraph 247-249 of the Thirteenth Cause of Action and Paragraphs 312-314 of the Eighteenth Cause of Action, as though fully set forth herein.

377. By their actions when seeking to implement the terms of the Vaccination and PCR mandates in the workplace, Defendant Employers and their representatives, including individually named supervisors, executives and Department heads, have harassed and created a hostile work environment for Plaintiffs who have identified themselves as not vaccinated, or have declined to identify their status because of their constitutional right to privacy and the well-founded belief that all employees must have the freedom to choose whether one should or should not be vaccinated, with said decision made after Defendant Employers have provided sufficient information, including about adverse events, to permit informed consent or the right to refuse to be exercised. Plaintiffs who are employed by Defendants including NICHOLAS THOMAS has been singled out and fired for opposing furtherance of policies established by SUPERINTENDENT DEBRA DUARDO which evidence medical tyranny which robs one of his/her right of privacy. Leading up to his removal, THOMAS was singled out for continuing harassment, and has reason to believe that his personal financial and insurance information was given by personnel assigned to payroll deposits to testing entities.

378. Refusing to demand that vaccinated employees be tested let alone pay for same, evidences a continuing effort to treat Plaintiffs differently, including to subject said Plaintiffs to a hostile and offensive work environment, despite in many cases, Plaintiffs submission of requests for religious and medical exemptions. Plaintiffs are informed and believe that requests for religious and medical exemptions have been tossed aside by Defendant Employers and their representatives, despite laws which entitle Plaintiffs to accommodations from the Mandates in

1 these regards.

2 379. Although Plaintiffs, including NICHOLAS THOMAS, are fully capable of
3 performing their job duties, DEFENDANT EMPLOYER LACOE has engaged in various material
4 adverse employment actions against Plaintiffs' which have materially altered the terms and
5 conditions and privileges of Plaintiffs' employment, including the continued demands for
6 collection of genetic information and the engaging in genetic testing without genuine consent from
7 Plaintiffs, let alone their children, while openly castigating Plaintiffs for exercising their
8 constitutional rights. Said actions, including firing NICHOLAS THOMAS during his
9 probationary period, after giving him repeated commendations on the quality of his work, are
10 punitive and directly and indirectly impact the public. Likewise, Plaintiff THOMAS and his
11 colleagues compensation and benefits have been adversely targeted, including when LACOE
12 stated that the unvaccinated would be denied upward mobility henceforth, while also threatening
13 and announcing the imminent removal of certain affected Plaintiffs from their job duties
14 permanently, as fortified by the firing of NICHOLAS THOMAS who because he was
15 probationary was deprived of civil service protections that would otherwise entitle Plaintiffs to due
16 process.

17 380. In light hereof, Plaintiff alleges that Defendant LACOE has actively harassed
18 Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
19 fundamental public policies against harassment stemming from discriminatory conditions
20 prohibited by said Act. THOMAS affirmatively alleges that although he was a probationary
21 employee assigned to IT, THOMAS enjoys the same protections delineated in the Fair
22 Employment and Housing Act, namely to be free of unlawful discrimination, harassment and
23 retaliation because of his disabilities, associations and protests.

24 381. Plaintiffs have filed charges of harassment against their respective public sector
25 Employer with the California Department of Fair Employment and Housing and have sought or
26 been immediately issued statutory Right to Sue Letters on said charges on December 7, 2021.
27 Affected Plaintiffs bring the instant action against Defendant Employer within the one-year period
28 following issuance of same. Having satisfied these statutory prerequisites to suit, Plaintiff

1 employees do hereby bring an action against their respective Defendant Employer for having
2 created, tolerated and perpetuated prohibitory harassment against Plaintiffs, in violation of the
3 laws of the State of California.

4 382. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
5 Section 12965(b), which provides for the same, against Defendants, and each of them.

6 383. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
7 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
8 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
9 protected information.

10 384. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

11 385. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
12 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

13 386. Many Plaintiffs have been further forced to obtain medical care, as a consequence
14 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
15 basis and that masks be worn at all times, based on the false premise the vaccines in use during
16 material times herein were FDA-approved, when they were not. The repeated demands by
17 Defendant Employers and their representatives seeking to enforce same ignores scientific and
18 medical evidence showing the harmful effects of same, as well as what is occurring due to the
19 shedding of the spike protein in the workplace. Accordingly, Plaintiffs seek special damages,
20 according to proof.

21 387. Because of their relentless campaign of harassing unvaccinated employees,
22 including threatening their livelihood and ability to financially care for their families; following
23 employees to the bathroom and forcing many to engage in freeway therapy and to receive
24 substantially greater workloads than unvaccinated employees; and singling out Plaintiffs for
25 ridicule, disciplinary memos, suspensions, and even firings, individually named Defendants from
26 LACOE have clearly and intentionally subjected F2C Plaintiffs, including NICHOLAS
27 THOMAS, to a hostile and offensive work environment. F2C and all Plaintiff do hereby seek
28 punitive damages against LAUSD-government officials, Managers and Supervisors, set forth in

1 the caption to this Cause of Action. Plaintiff alleges the actions of individually named Defendants
2 was and remains willful, wanton, malicious and oppressive, and justify the awarding of punitive
3 damages against individually named Defendants in these Plaintiffs' favor, particularly since
4 members of the SCHOOL BOARD have sought to deflect attention from the underlying issues,
5 including injecting or placing toxic substances into the human anatomy of employees and children
6 alike by labeling F2C members who have dared to speak up as "domestic terrorists".

7 388. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
8 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
9 let alone unequal educational opportunities for their children in LAUSD, LACOE or elsewhere
10 within the State of California.

11
12 **TWENTY-FOURTH CAUSE OF ACTION**

13 **(All Plaintiffs listed in Appendix "G" ⁵⁹ against the STATE OF CALIFORNIA and**
14 **Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT**
15 **OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, the**
16 **DEPARTMENT OF TRANSPORTATION and THE DEPARTMENT OF PUBLIC**
17 **HEALTH; GOVERNOR GAVIN NEWSOM and DR. TOMÁS ARAGÓN as well as Doe**
18 **Defendants KATHLEEN ALLISON, JEFF MACOMBER, GLEN PRATT, ROBIN**
19 **FRANKLIN of DCR; and TOKS OMISHAKIN of DOT for Redress of Harassment)**

20 389. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
21 Action, Paragraphs 197-199 of the Ninth Cause of Action, Paragraphs 260-262 of the Fourteenth
22 Cause of Action and Paragraphs 325-327 of the Nineteenth Cause of Action, as though fully set
23 forth herein.

24
25 ⁵⁹ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
26 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
27 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
28 above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
"G", along with the Spreadsheets.

1 390. By their actions when seeking to implement the terms of the Vaccination and PCR
2 mandates in the workplace, Defendant Employers and their representatives, including individually
3 named supervisors, executives and Department heads, being contemporaneously served as DOE
4 DEFENDANTS including KATHLEEN ALLISON, JEFF MACOMBER, GLEN PRATT, ROBIN
5 FRANKLIN of DCR; and TOKS OMISHAKIN of DOT have carried out a scheme devised by the
6 STATE OF CALIFORNIA to harass and create a clearly hostile and offensive work environment
7 for Plaintiffs who have identified themselves as not vaccinated, or have declined to identify their
8 status because of their constitutional right to privacy and the well-founded belief that all
9 employees must have the freedom to choose whether one should or should not be vaccinated,
10 with said decision made after Defendant Employers have provided sufficient information,
11 including about adverse events, to permit informed consent or the right to refuse to be exercised.
12 Plaintiffs enumerated in Appendix “G” have provided support to one another to oppose
13 furtherance of a medical tyranny which robs one of their rights of privacy, because of a branding
14 of Plaintiffs as having perceived disabilities. These Plaintiffs have been singled out for continuing
15 harassment, including having their personal financial and insurance information given by
16 personnel assigned to such testing entities who have even falsified documents at the
17 DEPARTMENT OF CORRECTIONS AND REHABILITATION claiming employees have given
18 consent to specified testing without even presenting the consent form to employees. In the
19 DEPARTMENT OF TRANSPORTATION, commonly known as CALTRANS, between
20 September 2021 and September 2022, unvaccinated employees were according to Plaintiff BRIAN
21 WINZENEAD corralled in full view of other workers and members of the public work into testing
22 areas, thereby diminishing if not extinguishing the privacy rights of unvaccinated Plaintiffs. These
23 acts, designed by TOKS OMISHAKIN, the then head of CALTRANS, was publicly humiliating,
24 degrading and unlawful.

25 391. Refusing to demand that vaccinated employees be tested let alone pay for same,
26 evidences a continuing effort to treat Plaintiffs differently, including to subject said Plaintiffs to a
27 hostile and offensive work environment, despite in many cases, Plaintiffs submission of requests
28 for religious and medical exemptions. Plaintiffs are informed and believe that requests for

1 religious and medical exemptions have been tossed aside by Defendant Employers and their
2 representatives, despite laws which entitle Plaintiffs to accommodations from the Mandates in
3 these regards.

4 392. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
5 STATE DEPARTMENTS have engaged in various material adverse employment actions against
6 Plaintiffs' which have materially altered the terms and conditions and privileges of Plaintiffs'
7 employment, including the continued demands for collection of genetic information and the
8 engaging in genetic testing without genuine consent from Plaintiffs, let alone their children, while
9 openly castigating Plaintiffs for exercising their constitutional rights. Said actions are punitive and
10 directly and indirectly impact the public safety negatively. Likewise, Plaintiffs' compensation and
11 benefits have been adversely targeted by STATE-related Defendants, including when announcing
12 that the unvaccinated will be denied upward mobility henceforth, while also threatening and
13 announcing the imminent removal of certain affected Plaintiffs from their job duties permanently,
14 while purporting to unilaterally gut civil service protections that otherwise entitle Plaintiffs to due
15 process and to be treated equally, including relative to testing.

16 393. In light hereof, Plaintiff alleges that Defendant STATE and individually named
17 DOE DEFENDANTS and DEPARTMENTS have actively harassed Plaintiffs, contrary to
18 California's Fair Employment and Housing Act which embodies fundamental public policies
19 against harassment stemming from discriminatory conditions prohibited by said Act. Plaintiffs
20 have filed charges of harassment against their respective public sector Employer with the
21 California Department of Fair Employment and Housing and have sought or been immediately
22 issued statutory Right to Sue Letters on said charges. Affected Plaintiffs bring the instant action
23 against Defendant Employer within the one-year period following issuance of same and will be
24 filing additional charges to cover additional harassment that has taken place in the interim while
25 this case has been on file.

26 394. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
27 bring an action against their respective Defendant Employer for having created, tolerated and
28 perpetuated prohibitory harassment against Plaintiffs, in violation of the laws of the State of

1 California.

2 395. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
3 Section 12965(b), which provides for the same, against Defendants, and each of them.

4 396. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
5 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
6 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
7 protected information.

8 397. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

9 398. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
10 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

11 399. Many Plaintiffs have been further forced to obtain medical care, as a consequence
12 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
13 basis and that masks be worn at all times, based on the false premise the vaccines in use during
14 material times herein were FDA-approved, when they were not. The repeated demands by
15 Defendant Employers and their representatives seeking to enforce same ignores scientific and
16 medical evidence showing the harmful effects of same, as well as what is occurring due to the
17 shedding of the spike protein in the workplace. Accordingly, Plaintiffs seek special damages,
18 according to proof.

19 400. Because of their relentless campaign of harassing unvaccinated employees,
20 including threatening their livelihood and ability to financially care for their families; following
21 employees to the bathroom and forcing many to engage in freeway therapy and to receive
22 substantially greater workloads than unvaccinated employees; placing unvaccinated workers on
23 public display and singling out Plaintiffs for ridicule, as was allowed to occur for close to one year
24 in CALTRANS; and the issuance of disciplinary memos, suspensions, and even firings,
25 individually named Defendants from the STATE OF CALIFORNIA DEPARTMENTS OF
26 TRANSPORTATION, MOTOR VEHICLES, PUBLIC HEALTH and CORRECTIONS AND
27 REHABILITATION, have clearly and intentionally subjected F2C Plaintiffs to a hostile and
28 offensive work environment. F2C and all Plaintiff do hereby seek punitive damages against these

1 STATE OF CALIFORNIA government officials, Managers and Supervisors, set forth in the
2 caption to this Cause of Action. Plaintiff alleges the actions of individually named Defendants
3 was and remains willful, wanton, malicious and oppressive, and justify the awarding of punitive
4 damages against individually named Defendants in these Plaintiffs' favor, particularly since
5 supervisors have sought to deflect attention from the underlying issues, including injecting or
6 placing toxic substances into the human anatomy of employees and children alike without
7 providing "informed consent", while allowing its testing vendors to generate false forms
8 suggesting otherwise. The decision to then impose discipline against MOLANO for reporting
9 these occurrences is improper and justify the recovery of punitive damages against ALLISON,
10 PRATT, FRANKLIN and MACOMBER in favor of MOLANO.

11 401. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
12 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
13 let alone unequal educational opportunities for their children within the State of California.

14
15 **TWENTY-FIFTH CAUSE OF ACTION**

16 **(All City of Los Angeles Plaintiffs listed in Appendix "C"⁶⁰ against the CITY OF LOS**
17 **ANGELES to Redress Discrimination due to Religious Beliefs)**

18 402. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
19 Action, Paragraphs 154-156 of the Fifth Cause of Action, Paragraphs 208-210 of the Tenth Cause
20 of Action, Paragraphs 273-275 of the Fifteenth Cause of Action, and Paragraphs 338-340, of the
21 Twentieth Cause of Action as though fully set forth herein.

22 403. Although Plaintiffs are entitled to submit and obtain exemptions from all or some
23 of the Mandates due to their religious beliefs, Plaintiffs are informed and believe that Defendant
24

25 _____
26 ⁶⁰ This listing of Plaintiffs and all members of F2CLA employed by the City of Los Angeles is
27 identical for the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th and 45th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also City-employees is attached to Appendix
"C", along with the Spreadsheets.

1 Employers delayed the process for the submission of exemption requests, let alone
2 acknowledgement that said requests had been granted so that it could benefit from the services of
3 unvaccinated employees who have proven their capabilities of doing their jobs and other tasks
4 assigned to them. At the same time, representatives of Defendant Employers, including
5 management personnel at staff meetings, including in the City Fire Department have threatened to
6 reduce the wages and demote personnel who submit and/or procure religious belief exemptions.
7 Similarly, the County has chosen to scoff at the religious beliefs of its employees, including by
8 trying to use a red herring about the use of cells from fetuses, to detract from requests stemming
9 from one's sincere belief in God. Plaintiffs herein have provided support to one another to oppose
10 diminishment of the First Amendment right of religion, and have been singled out for continuing
11 harassment, including having their personal financial and insurance information given by
12 personnel assigned to payroll deposits to such testing entities as *Fulgent Genetics* and *BlueStone*
13 *Safe*. Identifying said Plaintiffs to testing vendors who broadcast that their information is
14 broadcast globally is indicative of an effort to cause covert entities to engage in a witch hunt of
15 employees who continue to adhere to their religious beliefs, in light of their ability to now pinpoint
16 the work and home locations of public sector employees, if not their financial dealings, including
17 tithing and offerings, as well.

18 404. Continuing efforts by the City to extract \$520.00 per month from affected Plaintiffs
19 for PCR testing which is unreliable, up through and including issuance of Judge Byrdsong's
20 Orders on September 30, 2022, while refusing to demand that vaccinated employees be tested let
21 alone pay for same, evidences a continuing effort to treat Plaintiffs differently, including because
22 of their religious beliefs. Plaintiffs are informed and believe that requests for religious and
23 medical exemptions have been tossed aside by all Defendant Employers and their representatives,
24 despite laws which entitle Plaintiffs to accommodations from the Mandates because of sincerely
25 held beliefs and/or medical reasons. Although it has been opined that the Bible does not openly
26 address what one puts into their body, i.e. toxic material or vaccinations designed to alter one's
27 DNA, Plaintiffs respectfully disagree and note that one of the earliest accounts in the Bible refer to
28 the admonitions that God gave to Adam and Eve to not partake of the forbidden fruit in the

1 Garden that Satan and other satanic forces insisted were good to be partaken of. Similarly,
2 evidence that Jewish people upon escaping through the Red Sea from Egypt were detained from
3 entering the promised land for forty years because of their resort to ungodly practices, bolsters
4 rather than detracts from the religious beliefs held by many Plaintiffs herein. Using said analogies,
5 Defendants' representatives have touted the benefits of taking the vaccine, but have neglected to
6 fully inform Plaintiffs, including school aged children and young adults, of the risks associated
7 with the vaccine to one's bodily autonomy and DNA, but also externally because of the shedding
8 of the spike proteins by the vaccinated that Defendants insist Plaintiffs' encounter.

9 405. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
10 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs'
11 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
12 including the continued demands for collection of genetic information and the engaging in genetic
13 testing without genuine consent from Plaintiffs, let alone their children, while openly castigating
14 Plaintiffs for exercising their constitutional rights. Said actions directly and indirectly affect
15 Plaintiffs' compensation and benefits, including when announcing that the unvaccinated will be
16 denied upward mobility henceforth, while also threatening and announcing the imminent removal
17 of affected Plaintiffs from their job duties permanently. Custodian BONIFACIO CHAGOLLA,
18 once denied requested exemptions, was told that if he did not resign, he would be fired. The
19 pressure placed upon CHAGOLLA has been so traumatic that he has been hospitalized for a
20 substantial period ever since.

21 406. Plaintiffs are further informed that although some religious belief exemptions have
22 been granted, others have been turned down without rhyme or reason, and even though said
23 employees have otherwise complied with "spitting" requirements. In turn shortened time frames
24 for appeal have been imposed by all Government Employers herein, without regards to whether
25 work computers have even been accessible to deliver notice of denials, especially to employees on
26 medical leaves who lack access to same. While participating in grievance hearings and internal
27 appeals, certain Lead Plaintiffs and other members have unsuccessfully sought to ascertain the
28 process and persons utilized to rule upon Exemption Requests, since various Departments have

1 denied that this power has been given to Risk Managers, with Fire Chief Crowley now stating that
2 she has been empowered to rule upon such requests, despite her lack of expertise in these regards.
3 City employee DAVID SHUBIN had his exemption request turned down even though his religion,
4 Russian Molokan, has been the guiding force when SHUBIN has refused to vaccinate well before
5 obtaining his position as a Plumber with the City. Like SHUBIN, ANNE SPURGEON and other
6 CITY employees were terminated for not vaccinating without regards to their beliefs, with many
7 of the first responders identified in Appendix “C” still out of work, despite placing the CITY on
8 notice of their reliance upon these constitutional guarantees.

9 407. In light hereof, Plaintiff alleges that Defendant CITY has actively harassed
10 Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
11 fundamental public policies against discrimination because of religious beliefs.

12 408. Plaintiffs have filed charges of discrimination because of religious beliefs against
13 their respective public sector Employer with the California Department of Fair Employment and
14 Housing and have sought or been immediately issued statutory Right to Sue Letters on said
15 charges. Affected Plaintiffs bring the instant action against Defendant Employer within the one-
16 year period following issuance of same and will file additional charges as necessary to ensure that
17 this claim may proceed.

18 409. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
19 bring an action against their respective Defendant Employer for having created, tolerated and
20 perpetuated prohibitory harassment against Plaintiffs, in violation of the laws of the State of
21 California.

22 410. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
23 Section 12965(b), which provides for the same, against Defendants, and each of them.

24 411. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
25 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
26 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
27 protected information. Accordingly, Plaintiffs claim general damages in a sum to be proven at
28 trial.

**against the COUNTY OF LOS ANGELES for
Redress of Discrimination due to Religious Beliefs)**

415. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, Paragraphs 165-168 of the Sixth Cause of Action, Paragraphs 221-223 of the Eleventh Cause of Action, Paragraphs 286-288 of the Sixteenth Cause of Action, Paragraphs 351-353 of the Twenty-First Cause of Action and Paragraph 404 of the Twenty-Fifth Cause of Action, as though fully set forth herein.

416. Although Plaintiffs are entitled to submit and obtain exemptions from all or some of the Mandates due to their religious beliefs, Plaintiffs are informed and believe that Defendant Employers delayed the process for the submission of exemption requests, let alone acknowledgement that said requests had been granted, undoubtedly to benefit from the continuing delivery of services by unvaccinated employees. At the same time, representatives of Defendant Employers, including management personnel at staff meetings, including in the City Fire Department have threatened to reduce the wages and demote personnel who submit and/or procure religious belief exemptions. Similarly, the County has chosen to scoff at the religious beliefs of its employees, including by trying to use a red herring about the use of cells from fetuses, to detract from requests stemming from one’s sincere belief in God or others. Plaintiffs who are employed by Defendant COUNTY, have steadfastly opposed diminishment of the First Amendment right of religion and have been singled out for continuing harassment, including having their personal financial and insurance information given by staff assigned to payroll deposits to such testing entities as *Fulgent Genetics*. Identifying said Plaintiffs to Fulgent Genetics, given its ties to the Communist Chinese Party which openly assaults Asians and others who are devoted to God and seek to practice their Christian beliefs, is outrageous and indicative of the intentions to engage in a witch hunt of employees who continue to adhere to their religious beliefs.

417. Likewise, refusing to demand that vaccinated employees be tested evidences a continuing effort to treat Plaintiffs differently, including because of their religious beliefs, without regards to the toxicity levels inherent in PCR testing that the COUNTY has in fact utilized.

1 Plaintiffs are informed and believe that requests for religious and medical exemptions have been
2 tossed aside by all Defendant Employers and their representatives, despite laws which entitle
3 Plaintiffs to accommodations from the Mandates because of sincerely held beliefs and/or medical
4 reasons.

5 418. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
6 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’
7 which have materially altered the terms and conditions and privileges of Plaintiffs’ employment,
8 including the continued demands for collection of genetic information and the engaging in genetic
9 testing without genuine consent from Plaintiffs, let alone their children, while openly castigating
10 Plaintiffs for exercising their constitutional rights. Said actions directly and indirectly affect
11 Plaintiffs’ compensation and benefits, including when announcing that the unvaccinated will be
12 denied upward mobility henceforth, while also threatening and announcing the imminent removal
13 of affected Plaintiffs from their job duties permanently, while purporting to unilaterally gut civil
14 service protections that otherwise entitle Plaintiffs to due process and a right to contest all
15 accusations levied at them.

16 419. Plaintiffs are further informed that although some religious belief exemptions have
17 been granted, others have been turned down without rhyme or reason, and even though said
18 employees including Lead Plaintiff LVN LISETTE MEJIA-CRUZ has otherwise complied with
19 “spitting” requirements. In turn shortened time frames for appeal have been imposed by all
20 Government Employers herein, without regards to whether work computers have even been
21 accessible to deliver notice of denials, especially to employees on medical leaves who lack access
22 to same. While participating in grievance hearings and internal appeals, certain Lead Plaintiffs and
23 other members have unsuccessfully sought to ascertain the process and persons utilized to rule
24 upon Exemption Requests, since various Departments have denied that this power has been given
25 to Risk Managers and Personnel Representatives. When asked to explain why a Muslim Nurse at
26 LAC+USC who objects to placing fetal cells let alone pork found in vaccines inside her body, in
27 light of her religious upbringing, would be denied an exemption, while a Christian or a Catholic
28 would be granted same, based upon the same reasoning, Defendants and their representatives have

1 steadfastly refused to provide any explanation for same. By so doing, Defendants have elevated
2 certain religions over others, even though the sincere beliefs remain the same, regardless of
3 whether one belongs to the Nations of Israel or Islam, or other denominations or non-
4 denominations. At the same time Defendants and their representatives have sought to ignore the
5 personal experiences of foreign-born employees, including RAMONA BILANCSUK, now fired,
6 and SAYYORA KHUSENOVA. KHUSENOVA has been repeatedly threatened with firing as
7 well as detained in a work area after her colleagues whose exemptions were granted were moved
8 because she has held to her religious beliefs, like BILANCSUK, when others expected that
9 employees from foreign born countries which have experienced communism and/or socialism
10 first-hand would not embrace the holy scriptures.

11 420. In light hereof, Plaintiff alleges that Defendant COUNTY has actively harassed
12 Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
13 fundamental public policies against discrimination because of religious beliefs.

14 421. Plaintiffs have filed charges of discrimination because of religious beliefs against
15 their respective public sector Employer with the California Department of Fair Employment and
16 Housing and have sought or been immediately issued statutory Right to Sue Letters on said
17 charges. Affected Plaintiffs bring the instant action against Defendant Employer within the one-
18 year period following issuance of same and will, if necessary, file additional charges to ensure that
19 this cause of action can proceed.

20 422. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
21 bring an action against their respective Defendant Employer for having created, tolerated and
22 perpetuated prohibitory harassment against Plaintiffs, in violation of the laws of the State of
23 California.

24 423. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
25 Section 12965(b), which provides for the same, against Defendants, and each of them.

26 424. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
27 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
28 and reputation, especially when disciplinary actions have been imposed for refusal to share one's

1 protected information. Accordingly, Plaintiffs claim general damages in a sum to be proven at
2 trial.

3 425. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
4 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

5 426. Many Plaintiffs have been further forced to obtain medical care, because of
6 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
7 and that masks be worn at all times, based on the false premise the vaccines in use during material
8 times herein were FDA-approved, when they were not. The repeated demands by Defendant
9 Employers and their representatives, as well as LAUSD and LACOE in seeking to enforce the
10 mandates that impose requirements upon unvaccinated employees with religious beliefs is yet
11 another device to penalize employees because of their religious beliefs, while ignoring
12 overwhelming scientific and medical evidence showing the harmful effects of the vaccines, PCRs
13 and masking, as well as what is occurring due to the shedding of the spike protein. Said actions
14 are arbitrary and capricious and warrants collection of special damages, according to proof.

15 427. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
16 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment, let
17 alone unequal educational opportunities for their children within LAUSD and LACOE, or elsewhere
18 in the State of California because of one's sincerely held religious beliefs.

19 **TWENTY-SEVENTH CAUSE OF ACTION**
20 **(All Plaintiffs listed in Appendix "E"⁶² against LAUSD for**
21 **to Redress Discrimination due to Religious Beliefs)**

22 428. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
23 Action, Paragraphs 176-179 of the Seventh Cause of Action, Paragraph 234-236 of the Twelfth
24

25 ⁶² This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix "F", along
with the Spreadsheets.

1 Cause of Action, Paragraphs 299-301 of the Seventeenth Cause of Action, Paragraphs 364-366 of
2 the Twenty-Second Cause of Action and Paragraph 404 of the Twenty-Fifth Cause of Action, as
3 though fully set forth herein.

4 429. Although Plaintiffs are entitled to submit and obtain exemptions from all or some
5 of the Mandates due to their religious beliefs, Plaintiffs are informed and believe that Defendant
6 LAUSD delayed the process for the submission and granting of exemption requests, let alone
7 acknowledgement that said requests had been ruled upon. At the same time, representatives of
8 Defendant LAUSD, including management personnel at Exemption hearings, have threatened to
9 reduce the wages and demote personnel who submit and/or procure religious belief exemptions.

10 430. Refusing to demand that vaccinated employees be tested let alone pay for same,
11 evidences a continuing effort to treat Plaintiffs differently, including because of their religious
12 beliefs. Plaintiffs are informed and believe that requests for religious and medical exemptions
13 have been tossed aside by all Defendant Employers and their representatives, despite laws which
14 entitle Plaintiffs to accommodations from the Mandates because of sincerely held beliefs and/or
15 medical reasons.

16 431. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
17 LAUSD has engaged in various material adverse employment actions against Plaintiffs' which
18 have materially altered the terms and conditions and privileges of Plaintiffs' employment,
19 including the continued demands for collection of genetic information and the engaging in genetic
20 testing without genuine consent from Plaintiffs, let alone their children as well as others, while
21 openly castigating Plaintiffs for exercising their constitutional rights. Said actions directly and
22 indirectly affect Plaintiffs' compensation and benefits, including when announcing that the
23 unvaccinated will be denied upward mobility henceforth, while also threatening and announcing
24 the imminent removal of affected Plaintiffs from their job duties permanently.

25 432. Plaintiffs are further informed that although some religious belief exemptions have
26 been granted, others have been turned down without rhyme or reason. Although at least two
27 employees were told their religious exemption requests were granted, JENY VASQUEZ and
28 TREVOR SCHMIDT were then told "*there was no room at the inn*" for them. In turn LAUSD has

1 made a mockery of the entire exemption process, while affording others with exemptions granted
2 by LAUSD to work directly in classrooms alongside of vaccinated staff, as well as students.

3 433. In light hereof, Plaintiff alleges that Defendant LAUSD has actively discriminated
4 against Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
5 fundamental public policies against discrimination because of religious beliefs.

6 434. Plaintiffs have filed charges of discrimination because of religious beliefs against
7 their respective public sector Employer with the California Department of Fair Employment and
8 Housing and have sought or been immediately issued statutory Right to Sue Letters on said
9 charges. Affected Plaintiffs bring the instant action against Defendant Employer within the one-
10 year period following issuance of same.

11 435. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
12 bring an action against their respective Defendant Employer for having created, tolerated and
13 perpetuated prohibitory harassment against Plaintiffs, in violation of the laws of the State of
14 California.

15 436. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
16 Section 12965(b), which provides for the same, against Defendants, and each of them.

17 437. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
18 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
19 and reputation, especially when disciplinary actions have been imposed for refusal to vaccinate.
20 Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

21 438. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
22 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

23 439. Many Plaintiffs have been further forced to obtain medical care, because of
24 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
25 and that masks be worn at all times, based on the false premise the vaccines were FDA-approved,
26 when they were not. The repeated demands by Defendant LAUSD and its representatives in
27 seeking to enforce the mandates upon only those with sincere religious beliefs, while ignoring
28 overwhelming scientific and medical evidence showing the harmful effects of the vaccines, PCRs

1 and masking, as well as what is occurring due to the shedding of the spike protein, is arbitrary and
2 capricious and warrants collection of special damages, according to proof.

3 440. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
4 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
5 let alone unequal educational opportunities for their children within LAUSD and LACOE, because
6 of one’s sincerely held religious beliefs.

7
8 **TWENTY-EIGHTH CAUSE OF ACTION**
9 **(Plaintiff Nicholas Thomas as listed in Appendix “F”⁶³**
10 **Against LACOE to Redress Discrimination due to Religious Beliefs)**

11 441. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
12 Action, Paragraphs 187-190 of the Eighth Cause of Action, Paragraph 247-249 of the Thirteenth
13 Cause of Action, Paragraphs 312-314 of the Eighteenth Cause of Action, Paragraphs 377-379
14 of the Twenty-Third Cause of Action and Paragraph 404 of the Twenty-Fifth Cause of Action, as
15 though fully set forth herein.

16 442. Although Plaintiffs are entitled to submit and obtain exemptions from all or some
17 of the Mandates due to their religious beliefs, Plaintiffs are informed and believe that Defendant
18 Employers delayed the process for the submission of exemption requests, so it could fire
19 employees despite their religious beliefs for refusing to vaccinate. This was the fate of
20 NICHOLAS THOMAS at LACOE.

21 443. Refusing to demand that vaccinated employees be tested let alone pay for same,
22 evidences a continuing effort to treat Plaintiffs differently, including because of their religious
23 beliefs.

24
25 ⁶³ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along
with the Spreadsheets.

1 444. Although Plaintiffs, including NICHOLAS THOMAS, are fully capable of
2 performing their job duties, DEFENDANT EMPLOYERS have engaged in various material
3 adverse employment actions against Plaintiffs' which have materially altered the terms and
4 conditions and privileges of Plaintiffs' employment, including the continued demands that
5 THOMAS vaccinated or be severed during his probationary period. Said actions directly and
6 indirectly affected Plaintiffs' compensation and benefits and will continue to prevent THOMAS, a
7 respected IT employee from advancing at future employment opportunities because he has been
8 fired by LAUSD, after asserting his religious beliefs.

9 445. Plaintiffs have reason to believe that LACOE has also, like other public sector
10 employers herein, elevated certain religions over others, even though the sincere beliefs remain the
11 same, regardless of whether one belongs to the Nations of Israel or Islam, or other denominations
12 or non-denominations.

13 446. In light hereof, Plaintiff alleges that Defendant COUNTY has actively harassed
14 Plaintiffs, contrary to California's Fair Employment and Housing Act which embodies
15 fundamental public policies against discrimination because of religious beliefs.

16 447. Plaintiffs have filed charges of discrimination because of religious beliefs against
17 their respective public sector Employer with the California Department of Fair Employment and
18 Housing and have sought or been immediately issued statutory Right to Sue Letters on said
19 charges. Affected Plaintiffs bring the instant action against Defendant Employer within the one-
20 year period following issuance of same and will file additional charges to ensure that this cause of
21 action is allowed to proceed.

22 448. Having satisfied these statutory prerequisites to suit, Plaintiff employees, including
23 NICHOLAS THOMAS, does hereby bring an action against his Employer, LACOE, for having
24 created, tolerated and perpetuated prohibitory harassment against Plaintiffs, in violation of the
25 laws of the State of California.

26 449. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
27 Section 12965(b), which provides for the same, against Defendants, and each of them.

28 450. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become

1 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
2 and reputation, especially since THOMAS was terminated during his probationary period after
3 asserting his constitutional rights in these regards. Accordingly, Plaintiffs claim general damages
4 in a sum to be proven at trial.

5 451. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
6 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

7 452. Many Plaintiffs have been further forced to obtain medical care, because of
8 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
9 and that masks be worn at all times, based on the false premise the vaccines in use during material
10 times herein were FDA-approved, when they were not. The repeated demands by Defendant
11 Employers and their representatives, as well as LAUSD and LACOE in seeking to enforce the
12 mandates while ignoring overwhelming scientific and medical evidence showing the harmful
13 effects of the vaccines, PCRs and masking, as well as what is occurring due to the shedding of the
14 spike protein, is arbitrary and capricious and warrants collection of special damages, according to
15 proof.

16 453. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
17 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment,
18 let alone unequal educational opportunities for their children within LAUSD and LACOE, or
19 elsewhere in the State of California, because of one's sincerely held religious beliefs.

20 **TWENTY-NINTH CAUSE OF ACTION**
21 **(All Plaintiffs listed in Appendix "G" ⁶⁴**
22 **against the STATE OF CALIFORNIA and**
23 **Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT**
24 **OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE**
25 **DEPARTMENT OF PUBLIC HEALTH and the DEPARTMENT OF**

25 ⁶⁴ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
26 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
27 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
28 above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
"G", along with the Spreadsheets.

TRANSPORTATION to Redress Discrimination due to Religious Beliefs)

1
2 454. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
3 Action, Paragraphs 197-199 of the Ninth Cause of Action, Paragraphs 260-262 of the Fourteenth
4 Cause of Action, Paragraphs 325-327 of the Nineteenth Cause of Action, Paragraphs 390-392, of
5 the Twenty-Fourth Cause of Action, and Paragraph 404 of the Twenty-Fifth Cause of Action as
6 though fully set forth herein.

7 455. Although Plaintiffs are entitled to submit and obtain exemptions from all or some
8 of the Mandates due to their religious beliefs, Plaintiffs are informed and believe that Defendant
9 STATE of CALIFORNIA Employers delayed the process for the submission of exemption
10 requests, let alone acknowledgement that said requests had been granted. At the same time,
11 representatives of Defendant Employers, including management personnel at staff meetings,
12 have threatened to negatively affect one financially, either by firing, disciplining or demoting
13 personnel who submit and/or procure religious belief exemptions. MOLANO believes the DCR
14 has chosen to scoff at the religious beliefs of its employees, including by trying to use a red
15 herring about the use of cells from fetuses, to detract from requests stemming from one's sincere
16 belief in God or others. Plaintiffs who are employed by Defendants as well as their colleagues who
17 have provided support to one another to oppose diminishment of the First Amendment right of
18 religious freedom, have been singled out for continuing harassment, including having their
19 personal financial and insurance information given by personnel to testing vendors and is
20 indicative of the intentions to engage in a witch hunt of employees who continue to adhere to their
21 religious beliefs.

22 456. Refusing to demand that vaccinated employees be tested, while corralling
23 unvaccinated employees in the DEPARTMENT OF TRANSPORTATION (CALTRANS) into a
24 room for testing, in full view of their colleagues and the public, with BRIAN WINZENEAD
25 repeatedly subjected to same along with his unvaccinated colleagues for one year, evidences a
26 continuing effort to treat Plaintiffs differently, including because of their religious beliefs.
27 Plaintiffs are informed and believe that requests for religious and medical exemptions have been
28 tossed aside by all Defendant Employers and their representatives, despite laws which entitle

1 Plaintiffs to accommodations from the Mandates because of sincerely held beliefs and/or medical
2 reasons.

3 457. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
4 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs'
5 which have materially altered the terms and conditions and privileges of Plaintiffs' employment,
6 including the continued demands for collection of genetic information and the engaging in genetic
7 testing without genuine consent from Plaintiffs, let alone their children, while openly castigating
8 Plaintiffs for exercising their constitutional rights. Said actions directly and indirectly affect
9 Plaintiffs' compensation and benefits, including when announcing that the unvaccinated will be
10 denied upward mobility henceforth, while also threatening and announcing the imminent removal
11 of affected Plaintiffs from their job duties permanently. Although testing stopped in September
12 2022 at DOT, the fact remains that employees were segregated and ridiculed for holding to their
13 religious beliefs. MOLANO was also disciplined for reporting fraudulent practices a testing
14 vendor at DCR was engaging in by claiming employees consented to testing, when in fact they did
15 not and would not due to their religious beliefs.

16 458. Plaintiffs are further informed that although some religious belief exemptions have
17 been granted, others have been turned down without rhyme or reason. While participating in
18 grievance hearings and internal appeals, certain Lead Plaintiffs like BERNICE MOLANO and
19 other members have unsuccessfully sought to ascertain the process and persons utilized to rule
20 upon Exemption Requests, to no avail.

21 459. In light hereof, Plaintiff alleges that Defendant STATE OF CALIFORNIA,
22 CALTRANS, DMV, DHR, DCR and DPH have actively discriminated against Plaintiffs, contrary
23 to California's Fair Employment and Housing Act which embodies fundamental public policies
24 against discrimination because of religious beliefs.

25 460. Plaintiffs have filed charges of discrimination because of religious beliefs against
26 their respective public sector Employer with the California Department of Fair Employment and
27 Housing and have sought or been immediately issued statutory Right to Sue Letters on said
28 charges. Affected Plaintiffs bring the instant action against Defendant Employer within the one-

1 year period following issuance of same.

2 461. Having satisfied these statutory prerequisites to suit, Plaintiff employees do hereby
3 bring an action against their respective Defendant Employer for having created, tolerated and
4 perpetuated prohibitory discrimination against Plaintiffs, in violation of the laws of the State of
5 California.

6 462. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
7 Section 12965(b), which provides for the same, against Defendants, and each of them.

8 463. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
9 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
10 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
11 protected information. Accordingly, Plaintiffs claim general damages in a sum to be proven at
12 trial.

13 464. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
14 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

15 465. Many Plaintiffs have been further forced to obtain medical care, because of
16 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
17 and that masks be worn at all times; imposing such a requirement upon only the unvaccinated is
18 itself a further form of discrimination against employees who have sincere beliefs.

19 466. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
20 subjecting Plaintiffs and their colleagues to a continuing hostile and offensive work environment, let
21 alone unequal educational opportunities for their children within the State of California, because of
22 one's sincerely held religious beliefs.

AGAINST THE CITY OF LOS ANGELES for Unlawful Failure to Accommodate)

467. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, Paragraphs 154-156 of the Fifth Cause of Action, Paragraphs 208-210 of the Tenth Cause of Action, Paragraphs 273-275 of the Fifteenth Cause of Action, Paragraphs 338-3400 of the Twentieth Cause of Action, and Paragraphs 403-406 of the Twenty-Fifth Cause of Action, as though fully set forth herein.

468. By their actions when seeking to implement the terms of the Vaccination and PCR mandates in the workplace, Defendant Employers and their representatives have displaced unvaccinated employees from telecommuting assignments and even refused to accommodate requests from said employees for restoral of same, despite Plaintiffs’ articulation of legitimate reasons for such, including to not be exposed to the vaccinated. Plaintiffs are informed and believe that Defendant Employers have claimed there is “no room at the inn” for Plaintiffs, while affording said accommodations instead to vaccinated employees, including employees with pending disciplinary accusations against them, including in the CITY’s Fire Department.

469. Likewise continuing efforts by the City threatening to extract \$520.00 per month from affected Plaintiffs for PCR testing which is unreliable, if one is to receive an accommodation, while refusing to demand that vaccinated employees be tested let alone pay for same, evidences a continuing effort to treat Plaintiffs differently, including to subject said Plaintiffs to a hostile and offensive work environment because one has sought accommodations in the first place.

470. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT CITY has engaged in various material adverse employment actions against Plaintiffs’ and refused to accommodate Plaintiffs in the workplace, on the false premise that one has failed to reveal their vaccination status, when in reality that status has been repeatedly divulged individually and collectively, including at group meetings. Firing employees, placing same on unpaid leaves of absence, and/or extracting monies from one’s payroll in exchange for the

1 opportunity to work, on the guise that testing is directly linked to one’s ability to be
2 accommodated, is yet another “*pay to play/pay to work*” scheme that has been deemed
3 unlawful in the employment arena. Despite same, Defendant Employers and their representatives
4 have continued to directly and indirectly affect Plaintiffs’ compensation and benefits, including
5 when announcing that the unvaccinated will be denied upward mobility henceforth, while also
6 threatening and announcing the imminent removal of affected Plaintiffs’ from their job duties
7 permanently, including DAVID SHUBIN, JESSICA JIMINEZ, SUSAN MALDONADO,
8 BONIFACIO CHAGOLLA, DANNY SOTO, and numerous other first responders.
9 Although the *Labor Code §2802* ruling from the Honorable Rupert Byrdsong seeks to dispel any
10 notion that employees will be charged for testing, it remains to be seen whether the Government
11 Defendants will challenge said ruling hereinafter. As of present, F2C City employees have not
12 received any emails stating that any obligation which has supposedly accrued in these regards will
13 be extinguished, while the testing program remains in full swing, with *BlueStone* receiving
14 substantial monies if its monthly quota of tests is not satisfied.

15 471. Although various Plaintiffs have provided medical certifications or religious belief
16 exemption requests to support their requests for accommodations, Defendant government entities
17 have refused to accommodate Plaintiff employees and have instead forced removal of Plaintiffs
18 from their work assignments and jobs, or in the case of school children, their extra-curricular
19 activities, while threatening cessation of classroom learning as well. Plaintiffs are further
20 informed that all Government Employers have sought to diminish the standing of its employees
21 who have refused to vaccinate by reassigning or threatening to reassign said personnel to lesser
22 paying positions.

23 472. PLAINTIFFS have reason to believe that named Defendant entities by and through
24 their elected and appointed officials and management representatives have purposefully soured all
25 work opportunities including promotions previously promised to Plaintiffs, while continuously
26 treating Plaintiffs in a discriminatory and retaliatory fashion.

27 473. In light hereof, Plaintiffs allege that Defendant government entities have violated
28 their statutory obligations to achieve a reasonable accommodation of Plaintiffs, in lieu of firing or

1 placing said employees off on disciplinary action without pay indefinitely or for finite periods of
2 time.

3 474. As a consequence of the harassment, hostile work environment and differential
4 treatment being afforded individual Plaintiffs, certain Plaintiffs have internally protested the
5 actions of said City Defendants to Human Resources, the Equity Unit and others, largely to no
6 avail. Since protesting the actions of individually named Defendants internally, Plaintiffs have
7 been subjected to further unbearable harassment and continuous retaliation ever since, including
8 threatened with removal, been suspended without pay, or removed from their jobs immediately
9 prior to Thanksgiving, while publicly humiliated as if one had committed removable offenses,
10 when in fact Plaintiffs did not.

11 475. Plaintiffs have filed charges alleging a failure to accommodate against their
12 respective public sector Employer with the California Department of Fair Employment and
13 Housing and have sought or been immediately issued statutory Right to Sue Letters on said
14 charges. Affected Plaintiffs bring the instant action against Defendant Employer within the one-
15 year period following issuance of same.

16 476. Having satisfied these statutory prerequisites to suit, Plaintiff employees do
17 hereby bring an action against their respective Defendant Employer for having created, tolerated
18 and perpetuated a failure to accommodate Plaintiffs, in violation of the laws of the State of
19 California.

20 477. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
21 Section 12965(b), which provides for the same, against Defendants, and each of them.

22 478. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
23 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
24 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
25 protected information that is being broadly disseminated by Defendants representatives despite
26 privacy protections which prohibit such distributions in person, let alone electronically or vis a vis
27 the worldwide web.
28

1 479. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

2 480. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
3 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.

4 481. Many Plaintiffs have been further forced to obtain medical care, because of
5 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
6 and that masks be worn at all times, based on the false premise the vaccines in use during material
7 times herein were FDA-approved, when they were not. The repeated demands by Defendant
8 Employers and their representatives seeking to enforce same ignores scientific and medical
9 evidence showing the harmful effects of same and the need for accommodations, particularly
10 considering the shedding of the spike protein by vaccinated personnel. Accordingly, Plaintiffs
11 seek special damages, according to proof.

12 482. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
13 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, while
14 accommodating the vaccinated and those exempt from complying with Mandates because of who
15 they know or who they are.

16 **THIRTY-FIRST CAUSE OF ACTION**
17 **(All Plaintiffs listed in Appendix “D”⁶⁶**
18 **against the COUNTY OF LOS ANGELES for**
19 **Unlawful Failure to Accommodate)**

20 483. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
21 Action, Paragraphs 165-168 of the Sixth Cause of Action, Paragraphs 221-223 of the Eleventh
22 Cause of Action, Paragraphs 286-288 of the of the Sixteenth Cause of Action, Paragraphs 351-353
23 of the Twenty-First Cause of Action, and Paragraphs 416-419 of the Twenty-Sixth Cause of
24 Action, as though fully set forth herein.

25 _____
26 ⁶⁶ This listing of Plaintiffs and all members of F2CLA employed by the County of Los Angeles is
27 identical for the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st and 46th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also County-employees is attached to
Appendix “D”, along with the Spreadsheets.

1 484. By their actions when seeking to implement the terms of the Vaccination and
2 PCR/Antigen Testing mandates in the workplace, Defendant Employers and their representatives
3 have displaced unvaccinated employees in its Hospitals and Environmental Health from
4 telecommuting assignments and even refused to accommodate requests from said employees,
5 including RN OLENIK, for reinstatement of same, despite Plaintiffs’ articulation of legitimate
6 reasons to be accommodated, including in OLENIK’s case her seriously ill mother who has since
7 passed away. Plaintiffs are informed and believe that Defendant Employers have claimed there is
8 “no room at the inn” for Plaintiffs, while affording said accommodations instead to vaccinated
9 employees.

10 485. Likewise refusing to demand that vaccinated employees be tested, evidences a
11 continuing effort to treat Plaintiffs differently because of the perception Plaintiffs are disabled,
12 have complained of the hostile and offensive work environment in which one has been assigned to
13 work, and also sought accommodations in the first place.

14 486. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
15 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’
16 and refused to accommodate Plaintiffs in the workplace, on the false premise that one has failed to
17 reveal their vaccination status, when in reality that status has been repeatedly divulged
18 individually and collectively, including at group meetings. Firing employees like CENTENO,
19 PELTON and BILANCSUK, and others, and suspending health care workers for refusing to
20 vaccinate or register with *Fulgent*, including TAMI OLENIK, LISETTE MEJIA-CRUZ, TOBY
21 ILAND, TERESA NOLAN, JOSEPH DELUNA and numerous other F2C Plaintiff, evidence that
22 the COUNTY has engaged in adverse employment actions in these regards. Despite same,
23 Defendant Employers and their representatives have continued to directly and indirectly affect
24 Plaintiffs’ compensation and benefits, including when announcing that the unvaccinated will be
25 denied upward mobility henceforth, while also rethreatening removal of affected Plaintiffs’ from
26 their job duties permanently, while purporting to unilaterally gut civil service protections that
27 otherwise entitle Plaintiffs to due process and a right to contest all accusations levied at them.

28 487. Although various Plaintiffs have provided medical certifications or religious belief

1 exemption requests to support their requests for accommodations, Defendant government entities
2 have refused to accommodate Plaintiffs and have instead forced removal of Plaintiffs from their
3 work assignments and jobs. Plaintiffs are further informed that all Government Employers have
4 sought to diminish the standing of its employees who have refused to vaccinate by reassigning or
5 threatening to reassign said personnel to lesser paying positions.

6 488. PLAINTIFFS have reason to believe that named COUNTY-Defendant entities by
7 and through their elected and appointed officials and management representatives have
8 purposefully soured all work opportunities including promotions previously promised to Plaintiffs,
9 while continuously treating Plaintiffs in a discriminatory and retaliatory fashion.

10 489. In light hereof, Plaintiffs allege that County-Defendant government entities have
11 violated their statutory obligations to achieve a reasonable accommodation of Plaintiffs, in lieu of
12 firing or placing said employees off on disciplinary action without pay indefinitely or for finite
13 periods of time.

14 490. Plaintiff has filed charges of discrimination due to the refusal of Defendant
15 government entities to accommodate Plaintiffs, and/or their children, with the California
16 Department of Fair Employment and Housing and has been issued statutory Right to Sue Letters
17 on said charges. Plaintiff brings the instant action against Defendant government entities within
18 the one-year period following issuance of the Right to Sue Letters.

19 491. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
20 action against Defendants for having failed to accommodate Plaintiffs in violation of the laws of
21 the State of California.

22 492. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
23 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
24 Defendants and their representatives' actions in these regards, Plaintiffs' employment
25 opportunities have been undermined and maligned, without regards to the consequences to
26 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.
27 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
28 trial.

1 493. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
2 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

3 494. To the extent Plaintiffs have been forced to obtain medical care, because of
4 Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
5 according to proof.

6 495. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
7 Section 12965(b), which provides for the same, against DEFENDANTS.

8 496. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
9 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, while
10 accommodating the vaccinated and those exempt from complying with Mandates because of who
11 they know or who they are.

12 **THIRTY-SECOND CAUSE OF ACTION**
13 **(All Plaintiffs listed in Appendix "E"⁶⁷ against LAUSD for**
14 **Unlawful Failure to Accommodate)**

15 497. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
16 Action, Paragraphs 176-179 of the Seventh Cause of Action, Paragraph 234-236 of the Twelfth
17 Cause of Action, Paragraphs 299-301 of the Seventeenth Cause of Action, Paragraphs 364-366 of
18 the Twenty-Second Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action, and
19 Paragraphs 429-432, as though fully set forth herein.

20 498. By their actions when seeking to implement the terms of the Vaccination and
21 testing mandates in the workplace, Defendant Employers and their representatives have displaced
22 unvaccinated employees from telecommuting assignments and virtual assignments and have even
23 refused to accommodate requests from said employees, despite Plaintiffs' articulation of legitimate
24 reasons to be accommodated. Plaintiffs are informed and believe that Defendant Employers have

25 ⁶⁷ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix "F", along
with the Spreadsheets.

1 claimed there is “no room at the inn” for Plaintiffs, while affording said accommodations instead
2 to vaccinated employees. F2C includes teachers, staff, and even field personnel who have
3 purportedly been granted religious exemptions within LAUSD, but then informed that their
4 requests for accommodation have been turned down and the employee terminated, including
5 TREVOR SCHMIDT, or are among many announcements of their fates, ironically at a time when
6 preparations for a new school year are underway. Contemporaneously, F2C is informed that
7 unvaccinated teachers who were transferred to the Virtual Academy as teachers and/or
8 administrators, including JENY VASQUEZ, are now being told to resign or be fired because
9 LAUSD will no longer accommodate said employees. SUSANA HERNANDEZ was also fired
10 for not vaccinating and was not reinstated after foolishly vaccinating in hopes of regaining her job.
11 It is readily obvious that the threat to blemish one’s credential by firing said employee because
12 he/she is seeking to remain unvaccinated is punitive and yet another way to deprive employees of
13 their constitutional and statutory rights, while depriving said employees of their right to an
14 accommodation because of their perceived disabilities.

15 499. Likewise refusing to demand that vaccinated employees be tested, evidences a
16 continuing effort by LAUSD to treat Plaintiffs differently, including to subject said Plaintiffs to a
17 hostile and offensive work environment because one has sought accommodations in the first place.

18 500. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
19 LAUSD has engaged in various material adverse employment actions against Plaintiffs’
20 and refused to accommodate Plaintiffs in the workplace, on the false premise that one has either
21 refused to reveal their vaccination status or refused to be vaccinated, when in reality that status has
22 been repeatedly divulged individually and collectively, including at group meetings. Firing
23 employees, placing same on unpaid leaves of absence, and threatening one’s credentials on guise
24 LAUSD cannot accommodate should be declared unlawful. Despite same, Defendant Employers
25 and their representatives have continued to directly and indirectly affect Plaintiffs’ compensation
26 and benefits, including when announcing that the unvaccinated will be denied upward mobility
27 henceforth, while also threatening and announcing the imminent removal of affected Plaintiffs’
28 from their job duties permanently, at a time when publicly promoting the hiring of teachers

1 without credentials or college educations.

2 501. Although various Plaintiffs including school aged children have provided medical
3 certifications or religious belief exemption requests to support their requests for accommodations,
4 Defendant government entities have refused to accommodate Plaintiffs and have instead forced
5 removal of Plaintiffs from their work assignments and jobs, or in the case of school children, their
6 extra-curricular activities over an extended period of time, while at various times threatening
7 cessation of classroom learning as well. Plaintiffs are further informed that all Government
8 Employers have sought to diminish the standing of its employees who have refused to vaccinate
9 by reassigning or threatening to reassign said personnel to lesser paying positions.

10 502. Plaintiffs have reason to believe that named Defendant entities by and through their
11 elected and appointed officials and management representatives have purposefully soured all work
12 opportunities including promotions previously promised to Plaintiffs, while continuously treating
13 Plaintiffs in a discriminatory and retaliatory fashion.

14 503. In light hereof, Plaintiffs allege that Defendant LAUSD has violated its statutory
15 obligations to achieve a reasonable accommodation of Plaintiffs, in lieu of firing or placing said
16 employees off on disciplinary action without pay indefinitely or for finite periods of time.

17 504. Plaintiffs have filed charges of discrimination due to the refusal of Defendant
18 government entities to accommodate Plaintiffs, and/or their children, with the California
19 Department of Fair Employment and Housing and has been issued statutory Right to Sue Letters
20 on said charges. Plaintiffs brings the instant action against Defendant government entities within
21 the one-year period following issuance of the Right to Sue Letters.

22 505. Having satisfied these statutory prerequisites to suit, Plaintiffs do hereby bring an
23 action against Defendants for having failed to accommodate Plaintiffs in violation of the laws of
24 the State of California.

25 506. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
26 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
27 Defendants and their representatives' actions in these regards, Plaintiffs' employment
28 opportunities have been undermined and maligned, without regards to the consequences to

1 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.

2 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
3 trial.

4 507. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
5 and future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

6 508. To the extent Plaintiffs have been forced to obtain medical care, because of
7 Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
8 according to proof.

9 509. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
10 Section 12965(b), which provides for the same, against DEFENDANTS.

11 510. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
12 Section 12965(b), which provides for the same, against Defendants, and each of them.

13 511. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
14 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, while
15 accommodating the vaccinated and those exempt from complying with Mandates because of who
16 they know or who they are.

17 **THIRTY-THIRD CAUSE OF ACTION**
18 **(Plaintiff Nicholas Thomas as listed in Appendix "F"⁶⁸**
19 **against LACOE for**
20 **for Unlawful Failure to Accommodate)**

21 512. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
22 Action, Paragraphs 187-190 of the Eighth Cause of Action, Paragraph 247-249 of the Thirteenth
23 Cause of Action, Paragraphs 312-314 of the Eighteenth Cause of Action, Paragraphs 377-379
24

25 ⁶⁸ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix "F", along
with the Spreadsheets.

1 of the Twenty-Third Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action, and
2 Paragraph 442-445 of the Twenty-Eighth Cause of Action as though fully set forth herein.

3 513. By their actions when seeking to implement the terms of the Vaccination and PCR
4 mandates in the workplace, Defendant Employers and their representatives have displaced
5 unvaccinated employees like NICHOLAS THOMAS from IT work on the guise he might come in
6 contact with vaccinated workers and refused to accommodate requests from said employee,
7 despite Plaintiff's articulation of legitimate reasons to be accommodated.

8 514. Likewise refusing to extend a testing accommodation to NICHOLAS THOMAS in
9 lieu of firing him during his probationary period because he would not vax, evidences a continuing
10 effort to treat Plaintiffs differently, including to subject said Plaintiffs to a hostile and offensive
11 work environment because one has sought an exemption in the first place.

12 515. Although Plaintiff THOMAS was fully capable of performing his job duties,
13 DEFENDANT LACOE has engaged in various material adverse employment actions against
14 Plaintiff and refused to accommodate Plaintiffs in the workplace. Telling NICHOLAS THOMAS
15 that only by vaccinating could he spare his job, even though THOMAS submitted a religious
16 exemption request, is not a reasonable accommodation.

17 516. Although various Plaintiffs have provided medical certifications or religious belief
18 exemption requests to support their requests for accommodations, Defendant government entities
19 have refused to accommodate Plaintiffs and have instead forced removal of Plaintiffs from their
20 work assignments and jobs, or in the case of school children, their extra-curricular activities, while
21 threatening cessation of classroom learning as well. Plaintiffs are further informed that all
22 Government Employers have sought to diminish the standing of its employees who have refused
23 to vaccinate by reassigning or threatening to reassign said personnel to lesser paying positions.

24 517. PLAINTIFFS have reason to believe that named Defendant entities by and through
25 their elected and appointed officials and management representatives have purposefully soured all
26 work opportunities including promotions previously promised to Plaintiffs, while continuousy
27 treating Plaintiffs in a discriminatory and retaliatory fashion.

28 518. In light hereof, Plaintiffs allege that Defendant government entities have violated

1 their statutory obligations to achieve a reasonable accommodation of Plaintiffs, in lieu of firing or
2 placing said employees off on disciplinary action without pay indefinitely or for finite periods of
3 time.

4 519. Plaintiff has filed charges of discrimination due to the refusal of Defendant
5 government entities to accommodate Plaintiffs, and/or their children, with the California
6 Department of Fair Employment and Housing and has been issued statutory Right to Sue Letters
7 on said charges. Plaintiff brings the instant action against Defendant government entities within
8 the one-year period following issuance of the Right to Sue Letters.

9 520. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
10 action against Defendants for having failed to accommodate Plaintiffs in violation of the laws of
11 the State of California.

12 521. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
13 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
14 Defendants and their representatives' actions in these regards, Plaintiffs' employment
15 opportunities have been undermined and maligned, without regards to the consequences to
16 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.
17 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
18 trial.

19 522. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
20 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

21 523. To the extent Plaintiffs have been forced to obtain medical care, because of
22 Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
23 according to proof.

24 524. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
25 Section 12965(b), which provides for the same, against DEFENDANTS.

26 525. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
27 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, while
28 accommodating the vaccinated and those exempt from complying with Mandates because of who

1 they know or who they are.

2 **THIRTY-FOURTH CAUSE OF ACTION**
3 **(All Plaintiffs listed in Appendix “G”⁶⁹ against the STATE OF CALIFORNIA and**
4 **Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT**
5 **OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE**
6 **DEPARTMENT OF PUBLIC HEALTH and the DEPARTMENT OF**
7 **TRANSPORTATION for Unlawful Failure to Accommodate)**

8 526. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of

10 Cause of Action, Paragraphs 325-327 of the Nineteenth Cause of Action, Paragraphs 390-392, of
11 the Twenty-Fourth Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action and
12 Paragraphs 455-458 of the Twenty-Ninth Cause of Action as though fully set forth herein.

13 527. By their actions when seeking to implement the terms of the Vaccination and PCR
14 mandates in the workplace, Defendant Employers and their representatives have displaced
15 unvaccinated employees from telecommuting assignments and even refused to accommodate
16 requests from said employees, despite Plaintiffs’ articulation of legitimate reasons to be
17 accommodated.

18 528. Likewise refusing to demand that vaccinated employees be tested evidences a
19 continuing effort to treat Plaintiffs differently, including to subject said Plaintiffs to a hostile and
20 offensive work environment because one has sought accommodations in the first place.

21 529. Although Plaintiffs are fully capable of performing their job duties, DEFENDANT
22 EMPLOYERS have engaged in various material adverse employment actions against Plaintiffs’
23 and refused to accommodate Plaintiffs in the workplace, on the false premise that one has failed to
24 reveal their vaccination status, when in reality that status has been repeatedly divulged
25 individually and collectively, including at group meetings. Firing employees, placing same on

26 ⁶⁹ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
27 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to

1 unpaid leaves of absence, and/or extracting monies from one’s payroll in exchange for the
2 opportunity to work is yet another “*pay to play/pay to work*” scheme that has been deemed
3 unlawful in the employment arena. Despite same, Defendant Employers and their representatives
4 have continued to directly and indirectly affect Plaintiffs’ compensation and benefits, including
5 when announcing that the unvaccinated will be denied upward mobility henceforth, while also
6 threatening and announcing the imminent removal of affected Plaintiffs’ from their job duties
7 permanently, while purporting to unilaterally gut civil service protections that otherwise entitle
8 Plaintiffs to due process and a right to contest all accusations levied at them.

9 530. Although various Plaintiffs have provided medical certifications or religious belief
10 exemption requests to support their requests for accommodations, Defendant government entities
11 have refused to accommodate Plaintiffs and have instead forced removal of Plaintiffs from their
12 work assignments and jobs. Plaintiffs are further informed that all Government Employers have
13 sought to diminish the standing of its employees who have refused to vaccinate by reassigning or
14 threatening to reassign said personnel to lesser paying positions, while publicly humiliating those
15 who have to test.

16 531. PLAINTIFFS have reason to believe that named Defendant entities by and through
17 their elected and appointed officials and management representatives have purposefully soured all
18 work opportunities including promotions previously promised to Plaintiffs, while continuously
19 treating Plaintiffs in a discriminatory and retaliatory fashion.

20 532. In light hereof, Plaintiffs allege that Defendant government entities have violated
21 their statutory obligations to achieve a reasonable accommodation of Plaintiffs, in lieu of firing or
22 placing said employees off on disciplinary action without pay indefinitely or for finite periods of
23 time.

24 533. Plaintiff has filed charges of discrimination due to the refusal of Defendant
25 government entities to accommodate Plaintiffs, and/or their children, with the California
26 Department of Fair Employment and Housing and has been issued statutory Right to Sue Letters
27 on said charges. Plaintiff brings the instant action against Defendant government entities within
28 the one-year period following issuance of the Right to Sue Letters.

1 534. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
2 action against Defendants for having failed to accommodate Plaintiffs in violation of the laws of
3 the State of California.

4 535. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
5 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
6 Defendants and their representatives' actions in these regards, Plaintiffs' employment
7 opportunities have been undermined and maligned, without regards to the consequences to
8 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.
9 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
10 trial.

11 536. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
12 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

13 537. To the extent Plaintiffs have been forced to obtain medical care, because of
14 Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
15 according to proof.

16 538. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
17 Section 12965(b), which provides for the same, against DEFENDANTS.

18 539. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
19 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, while
20 accommodating the vaccinated and those exempt from complying with Mandates because of who
21 they know or who they are.

22 **THIRTY-FIFTH CAUSE OF ACTION**
23 **(All City of Los Angeles Plaintiffs listed in Appendix "C"⁷⁰ against the CITY OF LOS**
24 **ANGELES for Failure to Engage in Good Faith Interactive against Government Employers)**

25 _____
26 ⁷⁰ This listing of Plaintiffs and all members of F2CLA employed by the City of Los Angeles is
27 identical for the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th and 45th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also City-employees is attached to Appendix
"C", along with the Spreadsheets.

1 540. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
2 Action, Paragraphs 154-156 of the Fifth Cause of Action, Paragraphs 208-210 of the Tenth Cause
3 of Action, Paragraphs 273-275 of the Fifteenth Cause of Action, Paragraphs 338-340 of the
4 Twentieth Cause of Action, Paragraphs 403-406 of the Twenty-Fifth Cause of Action, and
5 Paragraphs 468-473 of the Thirtieth Cause of Action, as though fully set forth herein.

6 541. By their actions when seeking to implement the terms of the Vaccination and
7 testing mandates in the workplace, Defendant Employers and their representatives have displaced
8 unvaccinated employees from telecommuting assignments and even refused to accommodate
9 requests from said employees, despite Plaintiffs' articulation of legitimate reasons to be
10 accommodated. Plaintiffs are informed and believe that Defendant Employers have claimed there
11 is "*no room at the inn*" for Plaintiffs, while affording said accommodations instead to vaccinated
12 employees. When raising these issues, Defendant Employers by and through their representatives
13 have either refused to commence the good faith interactive process at all, or if convened, to engage
14 in the process in good faith. The decision of the City over an extended period of time to insist that
15 Plaintiffs who are City employees pay \$520.00 per month for PCR testing which is unreliable, if
16 one is to receive an accommodation, while refusing to demand that vaccinated employees be
17 tested let alone pay for same, is ample proof of Defendants intentions to continue treating
18 Plaintiffs differently, including because one has sought to participate in the good faith interactive
19 process in the first place.

20 542. DEFENDANT CITY and its representatives have engaged in various material
21 adverse employment actions against Plaintiffs' and refused to accommodate Plaintiffs in the
22 workplace, while refusing to discuss the merits of same in a good faith interactive process, despite
23 promising same relative to exemption requests if denied. Firing employees, placing same on
24 unpaid leaves of absence, and/or extracting monies from one's payroll in exchange for the
25 opportunity to work is yet another "*pay to play/pay to work*" scheme that has been deemed
26 unlawful in the employment arena. Whether the CITY will extend the Honorable Rupert
27 Byrdsong's ruling beyond LAPD has yet to be readily shown, particularly since the City has
28 continued to threaten and is pursuing terminations in its GSD, Planning, Housing, DOT, Building

1 and Safety and Fire Department, and same should be immediately stopped since these actions are
2 indicative of a failure to engage in a good faith interactive.

3 543. PLAINTIFFS have reason to believe that named Defendant entities by and through
4 their elected and appointed officials and management representatives have purposefully soured all
5 work opportunities including promotions previously promised to Plaintiffs, while continuously
6 treating Plaintiffs in a discriminatory and retaliatory fashion because Plaintiffs have refused to
7 become vaccinated.

8 544. In light hereof, Plaintiffs allege that Defendant government entities have violated
9 their statutory obligations to engage in a good faith interactive process, in lieu of firing or placing
10 said employees off on disciplinary action without pay indefinitely or for finite periods of time.

11 545. Plaintiff has filed charges of discrimination due to the refusal of Defendant
12 government entities to engage in a good faith interactive, with the California Department of Fair
13 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
14 Plaintiff brings the instant action against Defendant government entities within the one-year
15 period following issuance of the Right to Sue Letters.

16 546. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
17 action against Defendants for having failed to engage in a good faith interactive with Plaintiffs in
18 violation of the laws of the State of California.

19 547. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
20 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
21 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'
22 employment opportunities have been undermined and maligned, without regards to the
23 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
24 reputation. Accordingly, Plaintiff claims general damages against their Employer in a sum to be
25 proven at trial.

26 548. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
27 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

28 549. To the extent Plaintiffs have been forced to obtain medical care, as a consequence

1 of Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
2 according to proof.

3 550. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
4 Section 12965(b), which provides for the same, against DEFENDANTS.

5 551. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
6 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, let
7 alone from refusing to engage in a good faith interactive process.

8 **THIRTY-SIXTH CAUSE OF ACTION**
9 **(All Plaintiffs listed in Appendix "D")⁷¹**
10 **against the COUNTY OF LOS ANGELES**
11 **For Failure to Engage in Good Faith Interactive)**

12 552. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
13 Action, Paragraphs 165-168 of the Sixth Cause of Action, Paragraphs 221-223 of the Eleventh
14 Cause of Action, Paragraphs 286-288 of the of the Sixteenth Cause of Action, Paragraphs 351-353
15 of the Twenty-First Cause of Action, Paragraphs 416-419 of the Twenty-Sixth Cause of Action,
16 and Paragraphs 484-489 of the Thirty-Second Cause of Action as though fully set forth herein.

17 553. By their actions when seeking to implement the terms of the Vaccination and PCR
18 mandates in the workplace, Defendant Employers and their representatives have displaced
19 unvaccinated employees from telecommuting assignments and even refused to accommodate
20 requests from said employees, despite Plaintiffs' articulation of legitimate reasons to be
21 accommodated. COUNTY employees, like MEJIA-CRUZ, even sought to have their hours
22 modified to ensure they were not forced to work in an unsafe trailer at OLIVE VIEW, to no avail.
23 When raising these issues, Defendant Employers by and through their representatives have either
24 refused to commence the good faith interactive process at all, or if convened, to engage in the
25 process in good faith. Likewise, although CENTENO proposed an alternative to Fulgent testing,

26 ⁷¹ This listing of Plaintiffs and all members of F2CLA employed by the County of Los Angeles is
27 identical for the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st and 46th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also County-employees is attached to
Appendix "D", along with the Spreadsheets.

1 to ensure her continuing employment, Karyn Smith refused to afford CENTENO an
2 accommodation and insisted that CENTENO be fired instead. Subsequently, the COUNTY has
3 acknowledged that home test kits and testing from one's medical provider are acceptable, but
4 apparently not for CENTENO, let alone ERIC PELTON, JOSEPH DeLUNA, and but not limited
5 to RAMONA BILANCSUK, who have been fired instead.

6 554. DEFENDANT EMPLOYERS have engaged in various material adverse
7 employment actions against Plaintiffs' and refused to accommodate Plaintiffs in the workplace,
8 while refusing to discuss the merits of same in a good faith interactive process, despite promising
9 same relative to exemption requests if denied. Firing employees, placing same on unpaid leaves of
10 absence, and/or extracting monies from one's payroll in exchange for the opportunity to work is
11 yet another "*pay to play/pay to work*" scheme that has been deemed unlawful in the employment
12 arena and should be immediately stopped, were it not for the belief of Defendants that they do not
13 have to engage in a good faith interactive process because of the alleged emergency situation that
14 they themselves are protracting for ulterior reasons.

15 555. PLAINTIFFS have reason to believe that named Defendant entities by and through
16 their elected and appointed officials and management representatives have purposefully soured all
17 work opportunities including promotions previously promised to Plaintiffs, while continuously
18 treating Plaintiffs in a discriminatory and retaliatory fashion because Plaintiffs have refused to
19 become vaccinated and have submitted exemption requests.

20 556. In light hereof, Plaintiffs allege that Defendant government entities have violated
21 their statutory obligations to engage in a good faith interactive process, in lieu of firing or placing
22 said employees off on disciplinary action without pay indefinitely or for finite periods of time.

23 557. Plaintiff has filed charges of discrimination due to the refusal of Defendant
24 government entities to engage in a good faith interactive, with the California Department of Fair
25 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
26 Plaintiff brings the instant action against Defendant government entities within the one-year
27 period following issuance of the Right to Sue Letters.

28

1 558. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
2 action against Defendants for having failed to engage in a good faith interactive with Plaintiffs in
3 violation of the laws of the State of California.

4 559. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
5 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
6 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'
7 employment opportunities have been undermined and maligned, without regards to the
8 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
9 reputation. Accordingly, Plaintiff claims general damages against their Employer in a sum to be
10 proven at trial.

11 560. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
12 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

13 561. To the extent Plaintiffs have been forced to obtain medical care, as a consequence
14 of Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
15 according to proof.

16 562. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
17 Section 12965(b), which provides for the same, against DEFENDANTS.

18 563. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
19 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
20 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
21 information that is being broadly disseminated by Defendants' representatives despite privacy
22 protections which prohibit such distributions in person, let alone electronically or vis a vis the
23 worldwide web.

24 564. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

25 565. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
26 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.
27 Because of Defendants actions, especially during the holidays, including in withdrawing \$520.00
28 per month from paychecks of City employees, Plaintiffs have and or may be forced to withdraw

1 retirement monies to survive. These withdrawals alone will exacerbate the damages even more so
2 when Plaintiffs seek to redeposit said monies to ensure that there is no break in service arising out
3 of one’s wrongful termination and/or placement on a leave of absence without pay.

4 566. Many Plaintiffs have been further forced to obtain medical care, because of
5 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
6 and that masks be worn at all times, based on the false premise the vaccines in use during material
7 times herein were FDA-approved, when they were not. The repeated demands by Defendant
8 Employers and their representatives seeking to enforce same ignores scientific and medical
9 evidence showing the harmful effects of same and the need for accommodations, particularly in
10 light of the shedding of the spike protein by vaccinated personnel. Accordingly, Plaintiffs seek
11 special damages, according to proof.

12 567. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
13 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, let
14 alone from refusing to engage in a good faith interactive process.

16 **(All Plaintiffs listed in Appendix “E”⁷²against LAUSD for Failure to Engage**
17 **in Good Faith Interactive)**

18 568. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
19 Action, Paragraphs 176-179 of the Seventh Cause of Action, Paragraph 234-236 of the Twelfth
20 Cause of Action, Paragraphs 299-301 of the Seventeenth Cause of Action, Paragraphs 364-366 of
21 the Twenty-Second Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action, 429-432
22 of the Twenty-Seventh Cause of Action and Paragraphs 498-503 of the Thirty-Third Cause of
23 Action, as though fully set forth herein.

24
25 ⁷² This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along

1 569. By their actions when seeking to implement the terms of the Vaccination and
2 Testing mandates in the workplace, Defendant Employers and their representatives have displaced
3 unvaccinated employees from telecommuting assignments and even refused to accommodate
4 requests from said employees, despite Plaintiffs’ articulation of legitimate reasons to be
5 accommodated. Plaintiffs are informed and believe that Defendant Employers have claimed there
6 is “no room at the inn” for Plaintiffs, while affording said accommodations instead to vaccinated
7 employees. When raising these issues, Defendant Employers by and through their representatives
8 have either refused to commence the good faith interactive process at all, or if convened, to engage
9 in the process in good faith.

10 570. DEFENDANT LAUSD has engaged in various material adverse employment
11 actions against Plaintiffs’ and refused to accommodate Plaintiffs in the workplace, while refusing
12 to discuss the merits of same in a good faith interactive process, despite promising
13 same relative to exemption requests if denied. Firing employees, placing same on unpaid leaves of
14 absence, and/or threatening a blot on ones credential if one did not resign is unlawful under these
15 circumstances and certainly not indicative of a good faith interactive process because of the
16 alleged emergency situation that they themselves are protracting for ulterior reasons.

17 571. PLAINTIFFS have reason to believe that named Defendant entities by and through
18 their elected and appointed officials and management representatives have purposefully soured all
19 work opportunities including promotions previously promised to Plaintiffs, while continuously
20 treating Plaintiffs in a discriminatory and retaliatory fashion because Plaintiffs have refused to
21 become vaccinated. This is especially evidenced by the firing of TREVOR SCHMIDT from
22 LAUSD’s Construction Unit, even though SCHMIDT identified jobs in the field as well as online
23 that he could in fact perform.

24 572. In light hereof, Plaintiffs allege that Defendant government entities have violated
25 their statutory obligations to engage in a good faith interactive process, in lieu of firing or placing
26 said employees off on disciplinary action without pay while also threatening their licenses.

27 573. Plaintiff has filed charges of discrimination due to the refusal of Defendant
28 government entities to engage in a good faith interactive, with the California Department of Fair

1 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
2 Plaintiff brings the instant action against Defendant government entities within the one-year
3 period following issuance of the Right to Sue Letters.

4 574. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
5 action against Defendants for having failed to engage in a good faith interactive with Plaintiffs in
6 violation of the laws of the State of California.

7 575. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
8 mentally upset, distressed and aggravated and have sustained irreparable damages. As a

11 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
12 reputation. Accordingly, Plaintiff claims general damages against their Employer in a sum to be
13 proven at trial.

14 576. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
15 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

16 577. To the extent Plaintiffs have been forced to obtain medical care, as a consequence
17 of Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
18 according to proof.

19 578. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
20 Section 12965(b), which provides for the same, against DEFENDANTS.

24 **THIRTY-EIGHTH CAUSE OF ACTION**
25 **(Plaintiff Nicholas Thomas as listed in Appendix "F")⁷³**

26 _____
27 ⁷³ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
28 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix "F", along
with the Spreadsheets.

**Against LACOE for
for Failure to Engage in Good Faith Interactive)**

1
2 580. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of

4 Cause of Action, Paragraphs 312-314 of the Eighteenth Cause of Action, Paragraphs 377-379
5 of the Twenty-Third Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action,
6 Paragraph 442-445 of the Twenty-Eighth Cause of Action and Paragraphs 513-518 of the Thirty-
7 Third Cause of Action as though fully set forth herein.

8 581. By their actions when seeking to implement the terms of the Vaccination and PCR
9 mandates in the workplace, Defendant Employers and their representatives have displaced
10 unvaccinated employees from telecommuting assignments and even refused to accommodate
11 requests from said employees, despite Plaintiffs’ articulation of legitimate reasons to be
12 accommodated. Plaintiff NICHOLAS THOMAS is informed and believe that Defendant LACOE
13 has claimed there is “*no room at the inn*” for Plaintiffs, while affording said accommodations
14 instead to vaccinated employees who are allowed to perform IT assignments virtually. When
15 raising these issues, Defendant Employers by and through their representatives have chosen to fire
16 vaccinated workers like THOMAS instead, while refusing to commence the good faith interactive
17 process at all on the guise THOMAS was only a probationary employee and thus did not have any
18 rights.

19 582. DEFENDANT EMPLOYERS have engaged in various material adverse
20 employment actions against Plaintiffs’ and refused to accommodate Plaintiffs in the workplace,
21 while refusing to discuss the merits of same in a good faith interactive process, despite promising
22 same relative to exemption requests if denied. THOMAS had such an exemption request, but same
23 was ignored because LACOE took advantage of THOMAS’ probationary status by giving him a
24 choice between vaccinating or having no job, ironically at the start of THOMAS’ career.
25
26
27
28

1 583. PLAINTIFFS have reason to believe that named Defendant entities by and through
2 their elected and appointed officials and management representatives have purposefully soured all
3 work opportunities including promotions previously promised to Plaintiffs, while continuous
4 treating Plaintiffs in a discriminatory and retaliatory fashion because Plaintiffs have refused to
5 become vaccinated.

6 584. In light hereof, Plaintiffs allege that Defendant government entities have violated
7 their statutory obligations to engage in a good faith interactive process, in lieu of firing or placing
8 said employees off on disciplinary action without pay indefinitely or for finite periods of time.

9 585. Plaintiff has filed charges of discrimination due to the refusal of Defendant
10 government entities to engage in a good faith interactive, with the California Department of Fair
11 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
12 Plaintiff brings the instant action against Defendant government entities within the one-year
13 period following issuance of the Right to Sue Letters.

14 586. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
15 action against Defendants for having failed to engage in a good faith interactive with Plaintiffs in
16 violation of the laws of the State of California.

17 587. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
18 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
19 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'
20 employment opportunities have been undermined and maligned, without regards to the
21 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
22 reputation. Accordingly, Plaintiff claims general damages against their Employer in a sum to be
23 proven at trial.

24 588. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
25 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

26 589. To the extent Plaintiffs have been forced to obtain medical care, as a consequence
27 of Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
28 according to proof.

1 590. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
2 Section 12965(b), which provides for the same, against DEFENDANTS.

3 591. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
4 mentally upset, distressed and aggravated and have sustained irreparable damage to their careers
5 and reputation, especially when disciplinary actions have been imposed for refusal to share one's
6 information that is being broadly disseminated by Defendants' representatives despite privacy
7 protections which prohibit such distributions in person, let alone electronically or vis a vis the
8 worldwide web.

9 592. Accordingly, Plaintiffs claim general damages in a sum to be proven at trial.

10 593. Plaintiffs have been further damaged in the amount of lost earnings and benefits,
11 and future lost promotional opportunities, in ways and in amounts to be proven at time of trial.
12 Because of Defendants actions, especially during the holidays, including in withdrawing \$520.00
13 per month from paychecks of City employees, Plaintiffs have and or may be forced to withdraw
14 retirement monies to survive. These withdrawals alone will exacerbate the damages even more so
15 when Plaintiffs seek to redeposit said monies to ensure that there is no break in service arising out
16 of one's wrongful termination and/or placement on a leave of absence without pay.

17 594. Many Plaintiffs have been further forced to obtain medical care, because of
18 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
19 and that masks be worn at all times, based on the false premise the vaccines in use during material
20 times herein were FDA-approved, when they were not. The repeated demands by Defendant
21 Employers and their representatives seeking to enforce same ignores scientific and medical
22 evidence showing the harmful effects of same and the need for accommodations, particularly in
23 light of the shedding of the spike protein by vaccinated personnel. Accordingly, Plaintiffs seek
24 special damages, according to proof.

25 595. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
26 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, let
27 alone from refusing to engage in a good faith interactive process.

1 **THIRTY-NINTH CAUSE OF ACTION**
2 **(All Plaintiffs listed in Appendix “G”⁷⁴ against the STATE OF CALIFORNIA and**
3 **Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT**
4 **OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE**
5 **DEPARTMENT OF PUBLIC HEALTH and the DEPARTMENT OF**
6 **TRANSPORTATION For Failure to Engage in Good Faith Interactive)**

7 596. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
8 Action, Paragraphs 197-199 of the Ninth Cause of Action, Paragraphs 260-262 of the Fourteenth
9 Cause of Action, Paragraphs 325-327 of the Nineteenth Cause of Action, Paragraphs 390-392, of
10 the Twenty-Fourth Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action,
11 Paragraphs 455-458 of the Twenty-Ninth Cause of Action and Paragraphs 527-531 of the Thirty-
12 Fourth Cause of Action as though fully set forth herein.

13 597. By their actions when seeking to implement the terms of the Vaccination and
14 testing mandates in the workplace, Defendant STATE OF CALIFORNIA entities have scorned
15 unvaccinated employees, deprived same of telecommuting assignments and even refused to
16 accommodate requests from said employees, despite Plaintiffs’ articulation of legitimate reasons
17 to be accommodated. Even efforts by WINZENEAD and MOLANO to make the public display
18 of those testing at CALTRANS and CDCR, private, let alone to discontinue such practices
19 reserved for the unvaccinated, despite vaccinated employees becoming ill and missing work far
20 more often than the unvaccinated, have been deliberately ignored.

21 598. DEFENDANT EMPLOYERS have engaged in various material adverse
22 employment actions against Plaintiffs’ and refused to accommodate Plaintiffs in the workplace,
23 while refusing to discuss the merits of same in a good faith interactive process, despite promising
24 same relative to exemption requests if denied. Firing employees, placing same on unpaid leaves of
25 absence, and publicly humiliating the unvaccinated or one’s who have insisted on freedom to

26 ⁷⁴ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
27 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
“G”, along with the Spreadsheets.

1 choose, should be immediately stopped. Claims by Governor Newsom that he has done nothing
2 wrong, even though after his press releases, CDHR immediately issued the policies to implement
3 vaccinations, testing and masking policies, shows that the STATE OF CALIFORNIA does not
4 believe it must engage in a good faith interactive process because of the alleged emergency
5 situation that they themselves created and are protracting for ulterior reasons.

6 599. PLAINTIFFS have reason to believe that named Defendant entities by and through
7 their elected and appointed officials and management representatives have purposefully soured all
8 work opportunities including promotions previously promised to Plaintiffs, while continuously
9 treating Plaintiffs in a discriminatory and retaliatory fashion because Plaintiffs have refused to
10 become vaccinated.

11 600. In light hereof, Plaintiffs allege that Defendant government entities have violated
12 their statutory obligations to engage in a good faith interactive process, in lieu of firing or ruining
13 their files by placing derogatory disciplinary memos in personnel files. MOLANO has even
14 grieved documents claiming that MOLANO refused to test, when testing was not available, as
15 well as fraudulent actions currently being engaged in at CDCR which shows online that
16 employees expressed informed consent to test, even though said employees had not even been
17 shown the forms in question.

18 601. Plaintiff has filed charges of discrimination due to the refusal of Defendant
19 government entities to engage in a good faith interactive, with the California Department of Fair
20 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
21 Plaintiff brings the instant action against Defendant government entities within the one-year
22 period following issuance of the Right to Sue Letters.

23 602. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
24 action against Defendants for having failed to engage in a good faith interactive with Plaintiffs in
25 violation of the laws of the State of California.

26 603. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
27 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
28 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'

1 employment opportunities have been undermined and maligned, without regards to the
2 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
3 reputation. Accordingly, Plaintiff claims general damages against their Employer in a sum to be
4 proven at trial.

5 604. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
6 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

7 605. To the extent Plaintiffs have been forced to obtain medical care, as a consequence
8 of Defendants actions, and may need additional care, Plaintiffs do hereby seek special damages,
9 according to proof.

10 606. Upon prevailing, Plaintiffs also seek attorneys' fees and costs, Government Code
11 Section 12965(b), which provides for the same, against DEFENDANTS.

12 607. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
13 subjecting Plaintiffs and their colleagues to a continuing failure to accommodate Plaintiffs, let
14 alone from refusing to engage in a good faith interactive process.

15
16 **FORTIETH CAUSE OF ACTION**
17 **(All City of Los Angeles Plaintiffs listed in Appendix "C")⁷⁵**
18 **against the CITY OF LOS ANGELES to Redress DFEH Retaliation)**

19 609. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
20 Action, Paragraphs 154-156 of the Fifth Cause of Action, Paragraphs 208-210 of the Tenth Cause
21 of Action, Paragraphs 273-275 of the Fifteenth Cause of Action, Paragraphs 338-3400 of the
22 Twentieth Cause of Action, Paragraphs 403-406 of the Twenty-Fifth Cause of Action, Paragraphs
23 468-46 of the Thirtieth Cause of Action and Paragraphs 541-544 of the Thirty-Fifth Cause of
24 Action, as though fully set forth herein.

25 _____
26 ⁷⁵ This listing of Plaintiffs and all members of F2CLA employed by the City of Los Angeles is
27 identical for the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th and 45th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also City-employees is attached to Appendix
"C", along with the Spreadsheets.

1 610. Plaintiffs are informed and believe that because they have reported events
2 occurring in the workplace which are discriminatory in nature and protested the Mandates which
3 seek to deprive all persons of their constitutional rights as well as anti-discrimination protections
4 embodied in the Fair Employment and Housing Act, Government Code Section 12900, et seq.,
5 Plaintiffs have been singled out and retaliated against. As noted above, the adverse employment
6 actions have included displacement from telecommuting assignments, issuance of disciplinary
7 memorandum, public belittlement, isolation, placement off on unpaid leaves of absence which in
8 the case of for example, GARY ROGERS, KRISTA MOLLER ANDERSON and BRYAN
9 EPSTEIN have exceeded one year; at least seven months before RUBEN MALDONADO and
10 JOSE ARGUMEDO were reinstated to positions with little if any public contact, and in the case of
11 firefighting personnel, more than one year; yet others, like but not limited to PEARL PANTOJA,
12 DAVID SHUBIN, JESSICA JIMINEZ, ANNE SPURGEON, and SUSAN MALDONADO, have
13 been fired completely. F2C further alleges that the sharing of confidential information with other
14 employees and vendors who are not entitled to know about Plaintiffs personal and financial affairs
15 are material adverse actions as well. In these regards, continuing efforts by the City to extract
16 \$520.00 per month from affected Plaintiffs for PCR testing which is unreliable, if one is to
17 receive an accommodation, while refusing to demand that vaccinated employees be tested let
18 alone pay for same, evidences a continuing effort to treat Plaintiffs differently, including because
19 they dared to protest discriminatory treatment to begin with.

20 611. At the same time, Plaintiffs have been subjected to demeaning comments and
21 hostile working conditions for refusing to do their part in achieving 100% vaccination status,
22 while ignoring the impact upon Plaintiffs physical and emotional wellbeing caused by intentional
23 deprivation of one's constitutional rights referenced in the First through Fourth Causes of action
24 above, as well as ones embodied in the Fair Employment and Housing Act, let alone the Education
25 and Health and Safety Codes.

26 612. As a consequence of the harassment, hostile work environment and differential
27 treatment being afforded Plaintiffs by their superiors and government officials, Plaintiffs have
28 internally protested the actions of said Defendants to Human Resources, Civil Service and others,

1 largely to no avail. Since protesting the actions of individually named Defendants internally,
2 Plaintiffs have been subjected to further unbearable harassment and continuous retaliation by
3 DEFENDANT EMPLOYERS ever since.

4 613. Plaintiffs have filed charges of retaliation with the California Department of Fair
5 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
6 Plaintiffs bring the instant action against Defendant government entities within the one-year
7 period following issuance of the Right to Sue Letters.

8 614. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
9 action against Defendant government entities for having retaliated against Plaintiffs, including
10 relative to opportunities afforded persons with passports, even though said persons carry a greater
11 covid load than others since being vaccinated.

12 615. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
13 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
14 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'
15 employment opportunities have been undermined and maligned, without regards to the
16 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
17 reputation. Plaintiffs allege these damages have been aggravated especially when disciplinary
18 actions have been imposed for refusal to share one's protected information that is being broadly
19 disseminated by Defendants' representatives despite privacy protections which prohibit such
20 distributions in person, let alone electronically or vis a vis the worldwide web. Accordingly,
21 Plaintiff claims general damages against their Employer in a sum to be proven at trial.

22 616. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
23 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
24 Because of Defendants actions, especially during the holidays, including in threatening discharge
25 and/or withdrawal of \$520.00 per month from paychecks of City employees, certain Plaintiffs
26 have been forced to withdraw retirement monies to survive, while other Plaintiffs were forced to
27 resign in lieu of being fired, i.e. DANNY SOTO and BONIFACIO CHAGOLLA. These
28 withdrawals alone will exacerbate the damages even more so when Plaintiffs seek to redeposit said

1 monies to ensure that there is no break in service arising out of one's wrongful termination and/or
2 placement on a leave of absence without pay.

3 617. Many Plaintiffs have been further forced to obtain medical care as a consequence
4 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
5 basis and that masks be worn at all times, collectively based on the false premise the vaccines in
6 use during material times herein were FDA-approved, when they were not. The repeated
7 demands by Defendant Employers and their representatives seeking to enforce same ignores
8 scientific and medical evidence showing the harmful effects of same and the need for
9 accommodations, particularly considering the shedding of the spike protein by vaccinated
10 personnel. Accordingly, Plaintiffs seek special damages, according to proof.

11 618. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
12 subjecting Plaintiffs and their colleagues to further retaliation because of these protests and
13 presentation of same to this Court, at this time.

14 **FORTY-FIRST CAUSE OF ACTION**
15 **(All Plaintiffs listed in Appendix "D")⁷⁶**
16 **against the COUNTY OF LOS ANGELES**
17 **to Redress DFEH Retaliation)**

18 619. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
19 Action, Paragraphs 165-168 of the Sixth Cause of Action, Paragraphs 221-223 of the Eleventh
20 Cause of Action, Paragraphs 286-288 of the of the Sixteenth Cause of Action, Paragraphs 351-353
21 of the Twenty-First Cause of Action, Paragraphs 416-419 of the Twenty-Sixth Cause of Action,
22 Paragraphs 484-489 of the Thirty-Second Cause of Action, and Paragraphs 553-556 of the Thirty-
23 Sixth Cause of Action, as though fully set forth herein.

24
25 ⁷⁶ This listing of Plaintiffs and all members of F2CLA employed by the County of Los Angeles is
26 identical for the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st and 46th Causes of Action. To avoid
27 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
28 above-the-line Plaintiffs and F2C Members who are also County-employees is attached to
Appendix "D", along with the Spreadsheets.

1 620. Plaintiffs are informed and believe that because they have reported events
2 occurring in the workplace which are discriminatory in nature and protested the Mandates which
3 seek to deprive all persons of their constitutional rights as well as anti-discrimination protections
4 embodied in the Fair Employment and Housing Act, Government Code Section 12900, et seq.,
5 Plaintiffs have been singled out and retaliated against. As noted above, the adverse employment
6 actions have included displacement from telecommuting assignments, issuance of disciplinary
7 memorandum, public belittlement, isolation, placement off on unpaid leaves of absence or fired
8 completely and sharing of confidential information with other employees and vendors who are not
9 entitled to know about Plaintiffs personal and financial affairs. For instance, CENTENO,
10 BILANCSUK, DELUNA and PELTON have been fired, while suspensions and placement of
11 nurses like OLENIK and MEJIA-CRUZ and others have also been imposed.

12 621. At the same time, Plaintiffs have been subjected to demeaning comments and
13 hostile working conditions for refusing to do their part in achieving 100% vaccination status,
14 while ignoring the impact upon Plaintiffs physical and emotional wellbeing caused by intentional
15 deprivation of one's constitutional rights referenced in the First through Fourth Causes of action
16 above, as well as ones embodied in the Fair Employment and Housing Act, let alone the Education
17 and Health and Safety Codes.

18 622. As a consequence of the harassment, hostile work environment and differential
19 treatment being afforded Plaintiffs by their superiors and government officials, Plaintiffs have
20 internally protested the actions of said Defendants to Human Resources, the Equity Unit and
21 others, largely to no avail. Since protesting the actions of individually named Defendants
22 internally, Plaintiffs have been subjected to further unbearable harassment and continuous
23 retaliation by DEFENDANT EMPLOYERS ever since, in many occasions related to the sudden
24 decision to deny exemptions and appeals well after the fact of submission.

25 623. Plaintiffs have filed charges of retaliation with the California Department of Fair
26 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
27 Plaintiffs bring the instant action against Defendant government entities within the one-year
28 period following issuance of the Right to Sue Letters.

1 624. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
2 action against Defendant government entities for having retaliated against Plaintiffs, including
3 relative to opportunities afforded persons with passports, even though said persons carry a greater
4 covid load than others since being vaccinated.

5 625. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
6 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
7 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'
8 employment opportunities have been undermined and maligned, without regards to the
9 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
10 reputation. Plaintiffs allege these damages have been aggravated especially when disciplinary
11 actions have been imposed for refusal to share one's protected information that is being broadly
12 disseminated by Defendants' representatives despite privacy protections which prohibit such
13 distributions in person, let alone electronically or vis a vis the worldwide web. Accordingly,
14 Plaintiff claims general damages against their Employer in a sum to be proven at trial.

15 626. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
16 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
17 Because of Defendants actions, especially during the holidays, including in threatening discharge,
18 and in some cases actually firing COUNTY employees before January 1, 2022, Plaintiffs have and
19 or may be forced to withdraw retirement monies to survive. These withdrawals alone will
20 exacerbate the damages even more so when Plaintiffs seek to redeposit said monies to ensure that
21 there is no break in service arising out of one's wrongful termination and/or placement on a leave
22 of absence without pay.

23 627. Many Plaintiffs have been further forced to obtain medical care as a consequence
24 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
25 basis and that masks be worn at all times, collectively based on the false premise the vaccines in
26 use during material times herein were FDA-approved, when they were not. The repeated
27 demands by Defendant Employers and their representatives seeking to enforce same ignores
28 scientific and medical evidence showing the harmful effects of same and the need for

1 accommodations, particularly considering the shedding of the spike protein by vaccinated
2 personnel. Accordingly, Plaintiffs seek special damages, according to proof.

3 628. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
4 subjecting Plaintiffs and their colleagues to further retaliation because of these protests and
5 presentation of same to this Court, at this time.

6 **FORTY-SECOND CAUSE OF ACTION**

7 **(All Plaintiffs listed in Appendix “E”⁷⁷)**

8 **against LAUSD for Redress of DFEH Retaliation)**

9 629. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
10 Action, Paragraphs 176-179 of the Seventh Cause of Action, Paragraph 234-236 of the Twelfth
11 Cause of Action, Paragraphs 299-301 of the Seventeenth Cause of Action, Paragraphs 364-366 of
12 the Twenty-Second Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action,
13 Paragraphs 429-432 of the Twenty-Seventh Cause of Action, Paragraphs 498-503 of the Thirty-
14 Second Cause of Action, and Paragraphs 569-573 of the Thirty-Seventh Cause of Action, as
15 though fully set forth herein.

16 630. Plaintiffs are informed and believe that because they have reported events
17 occurring in the workplace which are discriminatory in nature and protested the Mandates which
18 seek to deprive all persons of their constitutional rights as well as anti-discrimination protections
19 embodied in the Fair Employment and Housing Act, Government Code Section 12900, et seq.,
20 Plaintiffs have been singled out and retaliated against. As noted above, the adverse employment
21 actions have included displacement from telecommuting assignments, issuance of disciplinary
22 memorandum, public belittlement, isolation, placement off on unpaid leaves of absence or fired
23 completely as in the case of SUSANA HERNANDEZ and TREVOR SCHMIDT.

24 _____
25 ⁷⁷ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along
with the Spreadsheets.

1 631. At the same time, Plaintiffs have been subjected to demeaning comments and
2 hostile working conditions for refusing to do their part in achieving 100% vaccination status,
3 while ignoring the impact upon Plaintiffs physical and emotional wellbeing caused by intentional
4 deprivation of one’s constitutional rights referenced in the First through Fourth Causes of action
5 above, as well as ones embodied in the Fair Employment and Housing Act, let alone the Education
6 and Health and Safety Codes. After firing SUSANA HERNANDEZ, then suffering from cancer,
7 for not vaccinating, LAUSD then refused to reinstate HERNANDEZ once she capitulated and
8 vaccinated.

9 632. As a consequence of the harassment, hostile work environment and differential
10 treatment being afforded Plaintiffs by their superiors and government officials, Plaintiffs have
11 internally protested the actions of said Defendants to Human Resources, General Counsel’s
12 representatives, and others, largely to no avail. Since protesting the actions of individually named
13 Defendants internally, Plaintiffs have been subjected to further unbearable harassment and
14 continuous retaliation by DEFENDANT EMPLOYERS ever since, as evidenced by the firing of
15 TREVOR SCHMIDT and the documented threat that JENY VASQUEZ should resign or face a
16 permanent blot on her state credentials since the Virtual Academy would no longer be available
17 for vaccinated employees.

18 632. Plaintiffs have filed charges of retaliation with the California Department of Fair
19 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
20 Plaintiffs bring the instant action against Defendant government entities within the one-year
21 period following issuance of the Right to Sue Letters.

22 633. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
23 action against Defendant government entities for having retaliated against Plaintiffs, including
24 relative to opportunities afforded persons with passports, even though said persons carry a greater
25 covid load than others since being vaccinated.

26 634. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
27 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
28 consequence of Defendants and their representatives’ actions in these regards, Plaintiffs’

1 employment opportunities have been undermined and maligned, without regards to the
2 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
3 reputation. Plaintiffs allege these damages have been aggravated especially when disciplinary
4 actions have been imposed for refusal to share one's protected information that is being broadly
5 disseminated by Defendants' representatives despite privacy protections which prohibit such
6 distributions in person, let alone electronically or vis a vis the worldwide web. Accordingly,
7 Plaintiff claims general damages against their Employer in a sum to be proven at trial.

8 635. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
9 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
10 Because of Defendants actions, especially during the holidays, including in threatening and/or
11 carrying out discharges, Plaintiffs have and or may be forced to withdraw retirement monies to
12 survive. These withdrawals alone will exacerbate the damages even more so when Plaintiffs seek
13 to redeposit said monies to ensure that there is no break in service arising out of one's wrongful
14 termination and/or placement on a leave of absence without pay.

15 636. Many Plaintiffs have been further forced to obtain medical care as a consequence
16 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
17 basis and that masks be worn at all times, collectively based on the false premise the vaccines in
18 use during material times herein were FDA-approved, when they were not. The repeated
19 demands by Defendant Employers and their representatives seeking to enforce same ignores
20 scientific and medical evidence showing the harmful effects of same and the need for
21 accommodations, particularly considering the shedding of the spike protein by vaccinated
22 personnel. Accordingly, Plaintiffs seek special damages, according to proof.

23 637. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
24 subjecting Plaintiffs and their colleagues to further retaliation because of these protests and
25 presentation of same to this Court, at this time.

26
27 //

28 //

FORTY-THIRD CAUSE OF ACTION
(Plaintiff Nicholas Thomas as listed in Appendix “F”⁷⁸
against LACOE to Redress DFEH Retaliation)

638. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, Paragraphs 187-190 of the Eighth Cause of Action, Paragraph 247-249 of the Thirteenth Cause of Action, Paragraphs 312-314 of the Eighteenth Cause of Action, Paragraphs 377-379 of the Twenty-Third Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action, Paragraphs 442-445 of the Twenty-Eighth Cause of Action, Paragraphs 513-518 of the Thirty-Third Cause of Action and Paragraphs 581-584 of the Thirty-Eighth Cause of Action as though fully set forth herein.

639. Plaintiffs, and NICK THOMAS in particular, are informed and believe that because they have reported events occurring in the workplace which are discriminatory in nature and protested the Mandates which seek to deprive all persons of their constitutional rights as well as anti-discrimination protections embodied in the Fair Employment and Housing Act, Government Code Section 12900, et seq., Plaintiffs have been singled out and retaliated against. As noted above, the adverse employment actions have included displacement from telecommuting assignments, issuance of disciplinary memorandum, public belittlement, isolation, placement off on unpaid leaves of absence or fired completely and sharing of confidential information with other employees and vendors who are not entitled to know about Plaintiffs personal and financial affairs. A refusal to even provide THOMAS with a “testing” option in lieu of severance during his probationary period is further proof of retaliation because THOMAS was indeed perceived by his Employer as disabled and condemned for submitting a religious exemption as well.

⁷⁸ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along with the Spreadsheets.

1 640. At the same time, Plaintiffs have been subjected to demeaning comments and
2 hostile working conditions for refusing to do their part in achieving 100% vaccination status,
3 while ignoring the impact upon Plaintiffs physical and emotional wellbeing caused by intentional
4 deprivation of one's constitutional rights referenced in the First through Fourth Causes of action
5 above, as well as ones embodied in the Fair Employment and Housing Act, let alone the Education
6 and Health and Safety Codes.

7 641. As a consequence of the harassment, hostile work environment and differential
8 treatment being afforded Plaintiffs by their superiors and government officials, Plaintiffs have
9 internally protested the actions of said Defendants to supervisors, largely to no avail. Since
10 protesting the actions of individually named Defendants internally, Plaintiffs have been subjected
11 to further unbearable harassment and continuous retaliation by DEFENDANT EMPLOYERS ever
12 since, including as evidenced by the termination of NICHOLAS THOMAS's employment.

13 642. Plaintiffs have filed charges of retaliation with the California Department of Fair
14 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
15 Plaintiffs bring the instant action against Defendant government entities within the one-year
16 period following issuance of the Right to Sue Letters.

17 692. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
18 action against Defendant government entities for having retaliated against Plaintiffs, including
19 relative to opportunities afforded persons with passports, even though said persons carry a greater
20 covid load than others since being vaccinated.

21 693. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
22 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
23 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'
24 employment opportunities have been undermined and maligned, without regards to the
25 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
26 reputation. Plaintiffs allege these damages have been aggravated especially when disciplinary
27 actions have been imposed for refusal to share one's protected information that is being broadly
28

1 disseminated by Defendants’ representatives despite privacy protections which prohibit such
2 distributions in person, let alone electronically or vis a vis the worldwide web. Accordingly,
3 Plaintiff claims general damages against their Employer in a sum to be proven at trial.

4 694. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
5 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
6 Because of Defendants actions, especially during the holidays, including in threatening discharge
7 and/or withdrawal of \$520.00 per month from paychecks of City employees, Plaintiffs have and or
8 may be forced to withdraw retirement monies to survive. These withdrawals alone will exacerbate
9 the damages even more so when Plaintiffs seek to redeposit said monies to ensure that there is no
10 break in service arising out of one’s wrongful termination and/or placement on a leave of absence
11 without pay.

12 695. Many Plaintiffs have been further forced to obtain medical care as a consequence
13 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
14 basis and that masks be worn at all times, collectively based on the false premise the vaccines in
15 use during material times herein were FDA-approved, when they were not. The repeated
16 demands by Defendant Employers and their representatives seeking to enforce same ignores
17 scientific and medical evidence showing the harmful effects of same and the need for
18 accommodations, particularly considering the shedding of the spike protein by vaccinated
19 personnel. Accordingly, Plaintiffs seek special damages, according to proof.

20 696. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
21 subjecting Plaintiffs and their colleagues to further retaliation because of these protests and
22 presentation of same to this Court, at this time.

23 **FORTY-FOURTH CAUSE OF ACTION**
24 **(All Plaintiffs listed in Appendix “G” ⁷⁹)**

25 _____
26 ⁷⁹ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
27 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
28 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
“G”, along with the Spreadsheets.

**against the STATE OF CALIFORNIA and
Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT
OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE
DEPARTMENT OF PUBLIC HEALTH and the DEPARTMENT OF
TRANSPORTATION to Redress DFEH Retaliation)**

697. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, Paragraphs 197-199 of the Ninth Cause of Action, Paragraphs 260-262 of the Fourteenth Cause of Action, Paragraphs 325-327 of the Nineteenth Cause of Action, Paragraphs 390-392, of the Twenty-Fourth Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action, Paragraphs 455-458 of the Twenty-Ninth Cause of Action, Paragraphs 527-531 of the Thirty-Fourth Cause of Action and Paragraphs 597-600 of the Thirty-Ninth Cause of Action as though fully set forth herein.

698. Plaintiffs are informed and believe that because they have reported events occurring in the workplace which are discriminatory in nature and protested the Mandates which seek to deprive all persons of their constitutional rights as well as anti-discrimination protections embodied in the Fair Employment and Housing Act, Government Code Section 12900, et seq., Plaintiffs have been singled out and retaliated against. As noted above, the adverse employment actions have included displacement from telecommuting assignments, issuance of disciplinary memorandum, public belittlement, isolation, and sharing of confidential information with other employees and vendors who are not entitled to know about Plaintiffs personal and financial affairs. MOLANO's good name has been irreparably blemished, particularly because she had to complain to the head of CDCR, KATHLEEN ALLISON and her replacement, JEFF MACOMBER, as well as Warden GLEN PRATT, that testing she was accused of not completing was not even available, while vendors have since dummied up records showing digital signatures from employees purporting to give informed consent, when the employees have not even been shown same.

699. At the same time, Plaintiffs have been subjected to demeaning comments and hostile working conditions for refusing to do their part in achieving 100% vaccination status, while ignoring the impact upon Plaintiffs physical and emotional wellbeing caused by intentional

1 deprivation of one's constitutional rights referenced in the First through Fourth Causes of Action
2 above, as well as ones embodied in the Fair Employment and Housing Act, let alone the Education
3 and Health and Safety Codes. Said employees like MOLANO, have been ridiculed for submitting
4 religious exemption requests, only to find that their previously unblemished personnel files are not
5 blemished so that future promotional opportunities will become non-existent.

6 700. As a consequence of the harassment, hostile work environment and differential
7 treatment being afforded Plaintiffs by their superiors and government officials, Plaintiffs have
8 internally protested the actions of said Defendants to Human Resources, Employee Relations
9 Officers and even Department Heads, to no avail. Even CalTRANS refused to eliminate the public
10 shaming of unvaccinated employees who were forced to publicly test in rooms fully open to the
11 vaccinated. Since protesting the actions of individually named Defendants internally, Plaintiffs
12 have been subjected to further unbearable harassment and continuous retaliation by DEFENDANT
13 EMPLOYERS ever since.

14 701. Plaintiffs have filed charges of retaliation with the California Department of Fair
15 Employment and Housing and has been issued statutory Right to Sue Letters on said charges.
16 Plaintiffs bring the instant action against Defendant government entities within the one-year
17 period following issuance of the Right to Sue Letters.

18 702. Having satisfied these statutory prerequisites to suit, Plaintiff does hereby bring an
19 action against Defendant government entities for having retaliated against Plaintiffs, including
20 relative to opportunities afforded persons with passports, even though said persons carry a greater
21 covid load than others since being vaccinated.

22 703. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
23 mentally upset, distressed and aggravated and have sustained irreparable damages. As a
24 consequence of Defendants and their representatives' actions in these regards, Plaintiffs'
25 employment opportunities have been undermined and maligned, without regards to the
26 consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and
27 reputation. Plaintiffs allege these damages have been aggravated especially when disciplinary
28 actions have been imposed for refusal to share one's protected information that is being broadly

1 disseminated by Defendants’ representatives despite privacy protections which prohibit such
2 distributions in person, let alone electronically or vis a vis the worldwide web. Accordingly,
3 Plaintiff claims general damages against their Employer in a sum to be proven at trial.

4 704. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
5 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.

6 705. Many Plaintiffs have been further forced to obtain medical care as a consequence
7 of Defendants actions, including due to the demand that PCR tests be conducted on a repetitive
8 basis and that masks be worn at all times, collectively based on the false premise the vaccines in
9 use during material times herein were FDA-approved, when they were not. The repeated
10 demands by Defendant Employers and their representatives seeking to enforce same ignores
11 scientific and medical evidence showing the harmful effects of same and the need for
12 accommodations, particularly considering the shedding of the spike protein by vaccinated
13 personnel. Accordingly, Plaintiffs seek special damages, according to proof.

14 706. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
15 subjecting Plaintiffs and their colleagues to further retaliation because of these protests and
16 presentation of same to this Court, at this time.

17 **FORTY-FIFTH CAUSE OF ACTION**
18 **(All City of Los Angeles Plaintiffs listed in Appendix “C”⁸⁰**
19 **against the CITY OF LOS ANGELES to Redress Retaliation due to Whistleblowing)**

20 707. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
21 Action, Paragraphs 154-156 of the Fifth Cause of Action, Paragraphs 208-210 of the Tenth Cause
22 of Action, Paragraphs 273-275 of the Fifteenth Cause of Action, Paragraphs 338-3400 of the
23 Twentieth Cause of Action, Paragraphs 403-406 of the Twenty-Fifth Cause of Action, Paragraphs

24
25 ⁸⁰ This listing of Plaintiffs and all members of F2CLA employed by the City of Los Angeles is
26 identical for the 5th, 10th, 15th, 20th, 25th, 30th, 35th, 40th and 45th Causes of Action. To avoid
27 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
28 above-the-line Plaintiffs and F2C Members who are also City-employees is attached to Appendix
“C”, along with the Spreadsheets.

1 468-406 of the Thirtieth Cause of Action, Paragraphs 541-544 of the Thirty-Fifth Cause of Action,
2 and Paragraphs 609-611 of the Fortieth Cause of Action, as though fully set forth herein.

3 708. Plaintiffs affirmatively allege that commencing soon after the Covid Pandemic was
4 announced and the community, including businesses and churches were locked down by Governor
5 Gavin Newsom, Plaintiffs started researching and collectively discussing their findings about
6 Covid-19, skewing of medical records, removal of transparency in hospitals, and a general failure
7 to report adverse events in the media. Upon FDA's purported issuance of three vaccines
8 referenced in paragraph 46, above, many Plaintiffs accepted invitations to further review licensing
9 documents and openly discussed their findings with each other as well as their superiors. When
10 vaccinations became available commencing at the end of 2020 and the beginning of 2021, these
11 Plaintiffs expressed their concerns to their colleagues and their superiors about the contents of the
12 vaccinations and the ulterior motives for introducing same, including as a means to experiment
13 further on the human body through EUA vaccinations.

14 709. Simultaneously, both individually and collectively Plaintiffs expressed their beliefs
15 that once Governor Newsom started threatening vaccination mandates, introduced PCR and
16 antigen testing and reimposed mask mandates, Plaintiffs complained to their superiors that their
17 constitutional and statutory rights alluded to in the First through Fourth Causes of Action, above,
18 were being negated on the guise of an emergency designed to implement a New World Order.
19 Plaintiffs continued to report these matters to their government representatives particularly once
20 same were mandated for school-aged children and young adults, let alone for the public sector
21 work force, including when directing first responders to display vaccinating each other in the
22 workplace to squelch fears that the public might have about vaccinating. Conversely, said
23 government entities refused to display reports of adverse reactions, including death, to ensure that
24 its workforce let alone the public could exercise informed consent, and then caused CRISTIAN
25 GRANUCCI, a Fire Captain who publicly expressed his concerns, to become injured.
26 GRANUCCI was then subjected to disciplinary proceedings which the FIRE DEPARTMENT
27 refused to continue even though GRANUCCI was having surgery. This ultimately resulted in
28 GRANUCCI retiring because GRANUCCI was unable to present a defense because the LAFD

1 refused to postpone threatened actions and hearings conflicting with scheduled surgeries.

2 710. Because of these complaints, Plaintiffs have found themselves victims of unlawful
3 whistleblowing retaliation, contrary to Labor Code § 1102.5, and other provisions of the Health
4 and Safety and Education Codes. The adverse employment actions imposed upon Plaintiffs and
5 their school aged children, and the perpetuation of an already hostile work environment is
6 unlawful. Because of same, F2C and Plaintiffs provided notice of their intention to pursue
7 statutory claims of whistleblowing to Defendant Employers, not only when submitting their
8 Narrative that supported Plaintiffs Fair Employment and Housing Charges, but ensuring that said
9 correspondence was sent by Priority Mail to all named Defendants and Government entities on
10 December 19 and 20, 2021. Despite doing so, Defendant government entities have refused to
11 acknowledge said filings. At no time have the government entities sued herein advised Plaintiffs
12 and their counsel that the correspondence with the DFEH/Tort Claim Narrative which was served
13 again, due to a refusal of Defendant COUNTY to acknowledge Priority Mail sent on December 19
14 and 20, 2022, including to its elected leaders, was deficient. Nor did Barbara Romero, the head of
15 Sanitation who at least acknowledged Receipt of Service complain about such a deficiency either.

16 711. By this action, PLAINTIFFS do bring an action against Defendant Employers for
17 having tolerated a retaliatory work atmosphere and for engaging in further retaliation against
18 Plaintiffs resulting in terminations, disciplinary actions, leaves without pay, and even the
19 threatened extraction of \$520.00 per month from the wages of City employees. Certain
20 PLAINTIFFS have been denied telecommute assignments, been forced to work in unsafe work
21 areas, or without working elevators, as a price to pay because of their whistleblowing activities.

22 712. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
23 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
24 Defendants and their representatives' actions in these regards, Plaintiffs' employment
25 opportunities have been undermined and maligned, without regards to the consequences to
26 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.
27 Plaintiffs allege these damages have been aggravated especially when disciplinary actions have
28 been imposed for refusal to share one's protected information that is being broadly disseminated

1 by Defendants’ representatives despite privacy protections which prohibit such distributions in
2 person, let alone electronically or vis a vis the worldwide web.

3 713. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
4 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
5 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
6 trial.

7 714. Many Plaintiffs have been further forced to obtain medical care, because of
8 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
9 and that masks be worn at all times, based on the false premise the vaccines in use during
10 material times herein were FDA-approved, when they were not. The repeated demands by
11 Defendant Employers and their representatives seeking to enforce same ignores scientific and
12 medical evidence showing the harmful effects of same and the need for accommodations,
13 particularly considering the shedding of the spike protein by vaccinated personnel. Accordingly,
14 Plaintiffs seek special damages, according to proof.

15 715. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
16 subjecting Plaintiffs and their colleagues to further whistleblowing retaliation because of these
17 protests and presentation of same to this Court, at this time, while also awarding attorneys fees and
18 costs to Plaintiffs.

19 **FORTY-SIXTH CAUSE OF ACTION**
20 **(All Plaintiffs listed in Appendix “D”⁸¹**
21 **against the COUNTY OF LOS ANGELES**
22 **to Redress Retaliation due to Whistleblowing)**

23 716. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
24 Action, Paragraphs 165-168 of the Sixth Cause of Action, Paragraphs 221-223 of the Eleventh

25 ⁸¹ This listing of Plaintiffs and all members of F2CLA employed by the County of Los Angeles is
26 identical for the 6th, 11th, 16th, 21st, 26th, 31st, 36th, 41st and 46th Causes of Action. To avoid
27 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
28 above-the-line Plaintiffs and F2C Members who are also County-employees is attached to
Appendix “D”, along with the Spreadsheets.

1 Cause of Action, Paragraphs 286-288 of the of the Sixteenth Cause of Action, Paragraphs 351-353
2 of the Twenty-First Cause of Action, Paragraphs 416-419 of the Twenty-Sixth Cause of Action,
3 Paragraphs 484-489 of the Thirty-Second Cause of Action, Paragraphs 553-556 of the Thirty-
4 Sixth Cause of Action, and Paragraphs 620-622 of the Forty-Second Cause of Action, though fully
5 set forth herein.

6 717. Plaintiffs affirmatively allege that commencing soon after the Covid Pandemic was
7 announced and the community, including businesses and churches were locked down by Governor
8 Gavin Newsom, Plaintiffs started researching and collectively discussing their findings about
9 Covid-19, skewing of medical records, removal of transparency in hospitals, and a general failure
10 to report adverse events in the media. Upon FDA’s purported issuance of three vaccines
11 referenced in paragraph 46, above, many Plaintiffs accepted invitations to further review licensing
12 documents and openly discussed their findings with each other as well as their superiors. When
13 vaccinations became available commencing at the end of 2020 and the beginning of 2021, these
14 Plaintiffs expressed their concerns to their colleagues and their superiors about the contents of the
15 vaccinations and the ulterior motives for introducing same, including as a means to experiment
16 further on the human body through EUA vaccinations. Although DR. BRAD SELIGMAN at
17 LAC+USC continued to insist the vaccinations were safe and that he had taken same, SELIGMAN
18 has since discouraged employees from taking any further boosters.

19 718. Simultaneously, both individually and collectively Plaintiffs expressed their beliefs
20 that once Governor Newsom started threatening vaccination mandates, introduced PCR testing
21 and reimposed mask mandates, Plaintiffs complained to their superiors that their constitutional and
22 statutory rights alluded to in the First through Twelfth Causes of Action, above, were being
23 negated on the guise of an emergency designed to implement a New World Order. Plaintiffs
24 continued to report these matters to their government representatives particularly once the County
25 of Los Angeles, the City of Los Angeles, LAUSD and LACOE started mandating same for school-
26 aged children, let alone for the public sector work force, including when directing first responders
27 to display vaccinating each other in the workplace to squelch fears that the public might have
28 about vaccinating. Conversely, said government entities refused to display reports of adverse

1 reactions, including death, to ensure that its workforce let alone the public could exercise informed
2 consent.

3 719. Because of these complaints, Plaintiffs have found themselves victims of unlawful
4 whistleblowing retaliation, contrary to Labor Code § 1102.5, and other provisions of the Health
5 and Safety and Education Codes. The adverse employment actions imposed upon Plaintiffs and
6 their school aged children, and the perpetuation of an already hostile work environment is
7 unlawful. Because of same, F2C and Plaintiffs provided notice of their intention to pursue
8 statutory claims of whistleblowing to Defendant Employers, not only when submitting their
9 Narrative that supported Plaintiffs Fair Employment and Housing Charges, but ensuring that said
10 correspondence was sent by Priority Mail to all named Defendants and Government entities on
11 December 19 and 20, 2021, at their official place of business. Despite receiving same, at no time
12 have the government entities or the individually named Defendants who were also served and sued
13 herein advise Plaintiffs and their counsel that the correspondence with the DFEH/Tort Claim
14 Narrative which was served then and again, due to a refusal of Defendant COUNTY to
15 acknowledge Priority Mail sent on December 19 and 20, 2022, was deficient.

16 720. By this action, PLAINTIFFS do bring an action against Defendant Employers for
17 having tolerated a retaliatory work atmosphere and for engaging in further retaliation against
18 Plaintiffs resulting in terminations, disciplinary actions, leaves without pay, and even continued
19 testing with Fulgent. Were it not for vigilance on the part of certain Plaintiffs, including OLENIK
20 and ILAND, County employees would not have even learned that testing could occur without
21 registering with Fulgent, by simply showing one's identification. At the same time, certain of
22 these PLAINTIFFS, including OLENIK, MEJIA-CRUZ and others have been denied telecommute
23 assignments and forced to work in areas laden with asbestos, or in close proximity to where a RN
24 was fatally stabbed by homeless living in the woods near OLIVE VIEW, or without working
25 elevators, or at the LA COUNTY FAIRGROUNDS. These assignments and the requirement that
26 unvaccinated from the South Bay and the Antelope Valley normally assigned to their local
27 hospitals now commute to Olive View, as freeway therapy, is evidence of the price some Plaintiffs
28 have paid because of their whistleblowing activities.

1 721. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
2 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
3 Defendants and their representatives' actions in these regards, Plaintiffs' employment
4 opportunities have been undermined and maligned, without regards to the consequences to
5 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.
6 Plaintiffs allege these damages have been aggravated especially when disciplinary actions have
7 been imposed for refusal to share one's protected information that is being broadly disseminated
8 by Defendants' representatives despite privacy protections which prohibit such distributions in
9 person, let alone electronically or vis a vis the worldwide web.

10 722. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
11 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
12 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
13 trial.

14 723. Many Plaintiffs have been further forced to obtain medical care, because of
15 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
16 and that masks be worn at all times, based on the false premise the vaccines in use during
17 material times herein were FDA-approved, when they were not. The repeated demands by
18 Defendant Employers and their representatives seeking to enforce same ignores scientific and
19 medical evidence showing the harmful effects of same and the need for accommodations,
20 particularly considering the shedding of the spike protein by vaccinated personnel. Accordingly,
21 Plaintiffs seek special damages, according to proof.

22 724. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
23 subjecting Plaintiffs and their colleagues to further whistleblowing retaliation because of these
24 protests and presentation of same to this Court, at this time, while also awarding attorneys fees and
25 costs to Plaintiffs.

28 //

FORTY-SEVENTH CAUSE OF ACTION
(All Plaintiffs listed in Appendix “E”⁸² against LAUSD to Redress
Retaliation due to Whistleblowing)

725. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of Action, Paragraphs 176-179 of the Seventh Cause of Action, Paragraph 234-236 of the Twelfth Cause of Action, Paragraphs 299-301 of the Seventeenth Cause of Action, Paragraphs 364-366 of the Twenty-Second Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action, Paragraphs 429-432, Paragraphs 429-432 of the Twenty-Seventh Cause of Action, Paragraphs 498-503 of the Thirty-Second Cause of Action, Paragraphs 569-573 of the Thirty-Seventh Cause of Action, and Paragraphs 630-631 of the Forty-Second Cause of Action, as though fully set forth herein.

726. Plaintiffs affirmatively allege that commencing soon after the Covid Pandemic was announced and the community, including businesses and churches were locked down by Governor Gavin Newsom, Plaintiffs started researching and collectively discussing their findings about Covid-19, skewing of medical records, removal of transparency in hospitals, and a general failure to report adverse events in the media. Upon FDA’s purported issuance of three vaccines referenced in paragraph 46, above, many Plaintiffs accepted invitations to further review licensing documents and openly discussed their findings with each other as well as their superiors. When vaccinations became available commencing at the end of 2020 and the beginning of 2021, these Plaintiffs expressed their concerns to their colleagues and their superiors about the contents of the vaccinations and the ulterior motives for introducing same, including as a means to experiment further on the human body through EUA vaccinations.

⁸² This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along with the Spreadsheets.

1 727. Simultaneously, both individually and collectively Plaintiffs expressed their beliefs
2 that once Governor Newsom started threatening vaccination mandates, introduced PCR testing
3 and reimposed mask mandates, Plaintiffs complained to their superiors that their constitutional and
4 statutory rights alluded to in the First through Twelfth Causes of Action, above, were being
5 negated on the guise of an emergency designed to implement a New World Order. Plaintiffs
6 continued to report these matters to their government representatives particularly once the County
7 of Los Angeles, the City of Los Angeles, LAUSD and LACOE started mandating same for school-
8 aged children, let alone for the public sector work force, including when directing first responders
9 to display vaccinating each other in the workplace to squelch fears that the public might have
10 about vaccinating. Conversely, said government entities refused to display reports of adverse
11 reactions, including death, to ensure that its workforce let alone the public could exercise informed
12 consent.

13 728. Because of these complaints, Plaintiffs have found themselves victims of unlawful
14 whistleblowing retaliation, contrary to Labor Code § 1102.5, and other provisions of the Health
15 and Safety and Education Codes. The adverse employment actions imposed upon Plaintiffs and
16 their school aged children, and the perpetuation of an already hostile work environment is
17 unlawful. Because of same, F2C and Plaintiffs provided notice of their intention to pursue claims
18 of whistleblowing retaliation, contrary to Labor Code § 1102.5, and other provisions of the Health
19 and Safety and Education Codes, to Defendant Employers, not only when submitting their
20 Narrative that supported Plaintiffs Fair Employment and Housing Charges, but ensuring that said
21 correspondence was sent by Priority Mail to all named Defendants and Government entities on
22 December 19 and 20, 2021. At no time did LAUSD, the Board of Education or its Superintendent,
23 although served at LAUSD's official place of business as well as at LACOE's offices, advise
24 Plaintiffs and their counsel that the correspondence with the DFEH/Tort Claim Narrative which
25 was served by Priority Mail deficient.

26 729. By this action, PLAINTIFFS do bring an action against Defendant Employers for
27 having tolerated a retaliatory work atmosphere and for engaging in further retaliation against
28 Plaintiffs resulting in terminations, disciplinary actions, and threats to blemish ones state

1 credentials. Certain PLAINTIFFS have been denied telecommute assignments as well, largely due
2 to the announcements from the Board of Education that it had fired more than 400 employees on
3 Pearl Harbor Day 2021, and was intent of firing more because of their protests in these regards,
4 including refusing to vaccinate.

5 730. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
6 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
7 Defendants and their representatives' actions in these regards, Plaintiffs' employment
8 opportunities have been undermined and maligned, without regards to the consequences to
9 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.
10 Plaintiffs allege these damages have been aggravated especially when disciplinary actions have
11 been imposed for refusal to share one's protected information that is being broadly disseminated
12 by Defendants' representatives despite privacy protections which prohibit such distributions in
13 person, let alone electronically or vis a vis the worldwide web. Accordingly, Plaintiff claims

15 731. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
16 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
17 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
18 trial.

19 732. Many Plaintiffs have been further forced to obtain medical care, because of
20 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis

3
4 **FORTY-EIGHTH CAUSE OF ACTION**
5 **(Plaintiff Nicholas Thomas as listed in Appendix “F”⁸³**
6 **Against LACOE for**
7 **to Redress Retaliation due to Whistleblowing)**

8 734. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
9 Action, Paragraphs 187-190 of the Eighth Cause of Action, Paragraph 247-249 of the Thirteenth
10 Cause of Action, Paragraphs 312-314 of the Eighteenth Cause of Action, Paragraphs 377-379
11 of the Twenty-Third Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action,
12 Paragraphs 442-445 of the Twenty-Eighth Cause of Action, Paragraphs 513-518 of the Thirty-
13 Third Cause of Action, Paragraphs 581-584 of the Thirty-Eighth Cause of Action, and Paragraphs
14 639-641 of the Forty-Third Cause of Action as though fully set forth herein.

15 735. Plaintiffs affirmatively allege that commencing soon after the Covid Pandemic was
16 announced and the community, including businesses and churches were locked down by Governor
17 Gavin Newsom, Plaintiffs started researching and collectively discussing their findings about
18 Covid-19, skewing of medical records, removal of transparency in hospitals, and a general failure
19 to report adverse events in the media. Upon FDA’s purported issuance of three vaccines
20 referenced in paragraph 46, above, many Plaintiffs accepted invitations to further review licensing
21 documents and openly discussed their findings with each other as well as their superiors. When
22 vaccinations became available commencing at the end of 2020 and the beginning of 2021, these
23 Plaintiffs expressed their concerns to their colleagues and their superiors about the contents of the
24

25 ⁸³ This listing of Plaintiffs and all members of F2CLA employed by the LACOE is identical for the
26 8th, 13th, 18th, 23rd, 28th, 33rd, 38th, 43rd and 48th Causes of Action. To avoid unnecessary
27 duplication of these names, a Cover Sheet that has been alphabetized relative to above-the-line
28 Plaintiffs and F2C Members who are also LACOE employees is attached to Appendix “F”, along
with the Spreadsheets.

1 vaccinations and the ulterior motives for introducing same, including as a means to experiment
2 further on the human body through EUA vaccinations.

3 736. Simultaneously, both individually and collectively Plaintiffs expressed their beliefs
4 that once Governor Newsom started threatening vaccination mandates, introduced PCR testing
5 and reimposed mask mandates, Plaintiffs complained to their superiors that their constitutional and
6 statutory rights alluded to in the First through Fourth Causes of Action, above, as well as the
7 DFEH Claims, were being negated on the guise of an emergency designed to implement a New
8 World Order. Plaintiffs continued to report these matters to their government representatives
9 particularly once the County of Los Angeles, the City of Los Angeles, LAUSD and LACOE
10 started mandating same for school-aged children, let alone for the public sector work force,
11 including when directing first responders to display vaccinating each other in the workplace to
12 squelch fears that the public might have about vaccinating. Conversely, said government entities
13 refused to display reports of adverse reactions, including death, to ensure that its workforce let
14 alone the public could exercise informed consent.

15 737. Because of these complaints, Plaintiffs have found themselves victims of unlawful
16 whistleblowing retaliation, contrary to Labor Code § 1102.5, and other provisions of the Health
17 and Safety and Education Codes. The adverse employment actions imposed upon Plaintiffs and
18 their school aged children, and the perpetuation of an already hostile work environment is
19 unlawful. Because of same, F2C and Plaintiffs provided notice of their intention to pursue
20 statutory claims of whistleblowing to Defendant Employers, not only when submitting their
21 Narrative that supported Plaintiffs Fair Employment and Housing Charges, but ensuring that said
22 correspondence was sent by Priority Mail to all named Defendants and Government entities on
23 December 19 and 20, 2021. At no time did LACOE, the Board of Education or its Superintendent,
24 although served at LACOE's official place of business as well as at LAUSD's offices, advise
25 Plaintiffs and their counsel that the correspondence with the DFEH/Tort Claim Narrative which
26 was served by Priority Mail deficient.

27 738. By this action, PLAINTIFFS do bring an action against Defendant Employers for
28

1 having tolerated a retaliatory work atmosphere and for engaging in further retaliation against
2 Plaintiffs resulting in even the termination of NICHOLAS THOMAS. as a price to pay because of
3 whistleblowing activities.

4 739. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs including
5 NICHOLAS THOMAS have become mentally upset, distressed and aggravated and have
6 sustained irreparable damages. Because of Defendants and their representatives' actions in these
7 regards, Plaintiffs' employment opportunities have been undermined and maligned, without
8 regards to the consequences to Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs'
9 good name and reputation. Plaintiffs allege these damages have been aggravated especially when
10 disciplinary actions have been imposed for refusal to share one's protected information that is
11 being broadly disseminated by Defendants' representatives despite privacy protections which
12 prohibit such distributions in person, let alone electronically or vis a vis the worldwide web.
13 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
14 trial.

15 740. Plaintiffs, including NICHOLAS THOMAS, have been further damaged in the
16 amount of lost earnings and benefits, and future lost promotional opportunities, all in ways and in
17 amounts to be proven at time of trial. Accordingly, Plaintiff claims general damages against their
18 Employer in a sum to be proven at trial.

19 741. Many Plaintiffs have been further forced to obtain medical care, because of
20 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
21 and that masks be worn at all times, based on the false premise the vaccines in use during
22 material times herein were FDA-approved, when they were not. The repeated demands by
23 Defendant Employers and their representatives seeking to enforce same ignores scientific and
24 medical evidence showing the harmful effects of same and the need for accommodations,
25 particularly considering the shedding of the spike protein by vaccinated personnel. Accordingly,
26 Plaintiffs seek special damages, according to proof.

27 742. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
28 subjecting Plaintiffs and their colleagues to further whistleblowing retaliation because of these

1 protests and presentation of same to this Court, at this time, while also awarding attorneys fees and
2 costs to Plaintiffs.

3 **FORTY-NINTH CAUSE OF ACTION**

4 **(All Plaintiffs listed in Appendix “G”⁸⁴ against the STATE OF CALIFORNIA and**
5 **Its DEPARTMENT OF CORRECTIONS AND REHABILITATION, the DEPARTMENT**
6 **OF HUMAN RESOURCES, the DEPARTMENT OF MOTOR VEHICLES, THE**
7 **DEPARTMENT OF PUBLIC HEALTH and the DEPARTMENT OF**
8 **TRANSPORTATION to Redress Retaliation due to Whistleblowing)**

9 743. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of

11 Cause of Action, Paragraphs 325-327 of the Nineteenth Cause of Action, Paragraphs 390-392, of
12 the Twenty-Fourth Cause of Action, Paragraph 404 of the Twenty-Fifth Cause of Action,
13 Paragraphs 455-458 of the Twenty-Ninth Cause of Action, Paragraphs 527-531 of the Thirty-
14 Fourth Cause of Action, Paragraphs 597-600 of the Thirty-Ninth Cause of Action and Paragraphs
15 698-699 of the Forty-Fourth Cause of Action as though fully set forth herein.

16 744. Plaintiffs affirmatively allege that commencing soon after the Covid Pandemic was
17 announced and the community, including businesses and churches were locked down by Governor
18 Gavin Newsom, Plaintiffs started researching and collectively discussing their findings about
19 Covid-19, skewing of medical records, removal of transparency in hospitals, and a general failure
20 to report adverse events in the media. Upon FDA’s purported issuance of three vaccines
21 referenced in paragraph 46, above, many Plaintiffs accepted invitations to further review licensing
22 documents and openly discussed their findings with each other as well as their superiors. When
23 vaccinations became available commencing at the end of 2020 and the beginning of 2021, these
24 Plaintiffs expressed their concerns to their colleagues and their superiors about the contents of the

25 ⁸⁴ This listing of Plaintiffs and all members of F2CLA employed by the State of California is
26 identical for the 9th, 14th, 19th, 24th, 29th, 34th, 39th, 44th and 49th Causes of Action. To avoid
27 unnecessary duplication of these names, a Cover Sheet that has been alphabetized relative to
28 above-the-line Plaintiffs and F2C Members who are also State-employees is attached to Appendix
“G”, along with the Spreadsheets.

1 vaccinations and the ulterior motives for introducing same, including as a means to experiment
2 further on the human body through EUA vaccinations.

3 745. Simultaneously, both individually and collectively Plaintiffs expressed their beliefs
4 that once Governor Newsom started threatening vaccination mandates, introduced PCR testing
5 and reimposed mask mandates, Plaintiffs complained to their superiors that their constitutional and
6 statutory rights alluded to in the First through Twelfth Causes of Action, above, were being
7 negated on the guise of an emergency designed to implement a New World Order. Plaintiffs
8 continued to report these matters to their government representatives particularly once the County
9 of Los Angeles, the City of Los Angeles, LAUSD and LACOE started mandating same for school-
10 aged children, let alone for the public sector work force, including when directing first responders
11 to display vaccinating each other in the workplace to squelch fears that the public might have
12 about vaccinating. Conversely, said government entities refused to display reports of adverse
13 reactions, including death, to ensure that its workforce let alone the public could exercise informed
14 consent.

15 746. Because of these complaints, Plaintiffs have found themselves victims of unlawful
16 whistleblowing retaliation, contrary to Labor Code § 1102.5, and other provisions of the Health
17 and Safety and Education Codes. The adverse employment actions imposed upon Plaintiffs and
18 their school aged children, and the perpetuation of an already hostile work environment including
19 public display of vaccinated being tested at CalTRANS as referenced by WINZENEAD and
20 forcing employees like MOLANO to grieve when testing was not available to avoid false
21 accusations from being levied, evidences same.

22 747. By this action, PLAINTIFFS do bring an action against Defendant Employers for
23 having tolerated a retaliatory work atmosphere and for engaging in further retaliation against
24 Plaintiffs resulting in terminations, disciplinary actions, leaves without pay, and even humiliating
25 working conditions because of their whistleblowing activities. The adverse employment actions
26 imposed upon Plaintiffs and their school aged children, and the perpetuation of an already hostile
27 work environment is unlawful. Because of same, F2C and Plaintiffs provided notice of their
28 intention to pursue statutory claims of whistleblowing to Defendant Employers, not only when

1 submitting their Narrative that supported Plaintiffs Fair Employment and Housing Charges, but
2 ensuring that said correspondence was sent by Priority Mail to all named Defendants and
3 Government entities on December 19 and 20, 2021. Despite doing so, Defendant government
4 entities have refused to acknowledge said filings, although GAVIN NEWSOM by and through his
5 counsel with the DEPARTMENT OF JUSTICE, requested that service upon other parties occur
6 instead, even though the DEPARTMENT OF JUSTICE to whom service is to be effectuated has
7 remained in possession of same.

8 748. As a result of the aforesaid acts of DEFENDANTS, Plaintiffs have become
9 mentally upset, distressed and aggravated and have sustained irreparable damages. Because of
10 Defendants and their representatives' actions in these regards, Plaintiffs' employment
11 opportunities have been undermined and maligned, without regards to the consequences to
12 Plaintiffs' physical and emotional wellbeing, let alone Plaintiffs' good name and reputation.
13 Plaintiffs allege these damages have been aggravated especially when disciplinary actions have
14 been imposed for refusal to share one's protected information that is being broadly disseminated
15 by Defendants' representatives despite privacy protections which prohibit such distributions in
16 person, let alone electronically or vis a vis the worldwide web.

17 749. Plaintiffs has been further damaged in the amount of lost earnings and benefits, and
18 future lost promotional opportunities, all in ways and in amounts to be proven at time of trial.
19 Accordingly, Plaintiff claims general damages against their Employer in a sum to be proven at
20 trial.

21 750. Many Plaintiffs have been further forced to obtain medical care, because of
22 Defendants actions, including due to the demand that PCR tests be conducted on a repetitive basis
23 and that masks be worn at all times, based on the false premise the vaccines in use during
24 material times herein were FDA-approved, when they were not. The repeated demands by
25 Defendant Employers and their representatives seeking to enforce same ignores scientific and
26 medical evidence showing the harmful effects of same and the need for accommodations,
27 particularly considering the shedding of the spike protein by vaccinated personnel. Accordingly,
28 Plaintiffs seek special damages, according to proof.

1 751. Plaintiffs further seek injunctive relief affirmatively prohibiting Defendants from
2 subjecting Plaintiffs and their colleagues to further whistleblowing retaliation because of these
3 protests and presentation of same to this Court, at this time.

4 **FIFTIETH CAUSE OF ACTION**
5 **(All Plaintiffs identified in Appendix “A”⁸⁵ as well as the**
6 **Caption to the First Cause of Action against all Defendants)**

7 752. Plaintiffs re-allege Paragraphs 1-36, 100, 104, 117-119, of the First Cause of
8 Action, Paragraphs 154-157 of the Fifth Cause of Action, Paragraphs 165-168 of the Sixth Cause
9 of Action, Paragraphs 176-179 of the Seventh Cause of Action, Paragraphs 187-190 of the Eighth
10 Cause of Action, Paragraphs 197-199 of the Ninth Cause of Action, Paragraphs 208-210 of the
11 Tenth Cause of Action, Paragraphs 221-223 of the Eleventh Cause of Action, Paragraph 234-236
12 of the Twelfth Cause of Action, Paragraph 247-249 of the Thirteenth Cause of Action, Paragraphs
13 260-262 of the Fourteenth Cause of Action, Paragraphs 273-275 of the Fifteenth Cause of Action,
14 Paragraphs 286-288 of the Sixteenth Cause of Action, Paragraphs 299-301 of the Seventeenth
15 Cause of Action, Paragraphs 312-314 of the Eighteenth Cause of Action, Paragraphs 325-27 of the
16 Nineteenth Cause of Action, Paragraphs 338-340 of the Twentieth Cause of Action, Paragraphs
17 351-353 of the Twenty-First Cause of Action, Paragraphs 364-366 of the Twenty-Second Cause of
18 Action, Paragraphs 377-379 of the Twenty-Third Cause of Action, Paragraphs 390-392 of the
19 Twenty-Fourth Cause of Action, Paragraphs 403-406 of the Twenty-Fifth Cause of Action,
20 Paragraphs 416-419 of the Twenty-Sixth Cause of Action, Paragraphs 429-432 of the Twenty-
21 Seventh Cause of Action, Paragraphs 442-445 of the Twenty-Eighth Cause of Action, Paragraphs
22 455-458 of the Twenty-Ninth Cause of Action, Paragraphs 468-473 of the Thirtieth Cause of
23 Action, Paragraphs 484-489 of the Thirty-First Cause of Action, Paragraphs 498-503 of the
24 Thirty-Second Cause of Action, Paragraphs 513-518 of the Thirty-Third Cause of Action,
25 Paragraphs 527-531 of the Thirty-Fourth Cause of Action, Paragraphs 541-544 of the Thirty-Fifth

26 _____
27 ⁸⁵ Identical to detailed Listing of Plaintiffs in the First Cause of Action, above.
28

1 Cause of Action, Paragraphs 553-556 of the Thirty-Sixth Cause of Action, Paragraphs 569-573 of
2 the Thirty-Seventh Cause of Action, Paragraphs 581-584 of the Thirty-Eighth Cause of Action,
3 Paragraphs 597-600 of the Thirty-Ninth Cause of Action, Paragraphs 609-611 of the Fortieth
4 Cause of Action, Paragraphs 620-622 of the Forty-First Cause of Action, Paragraphs 630-631 of
5 the Forty-Second Cause of Action, Paragraphs 639-641 of the Forty-Third Cause of Action,
6 Paragraphs 698-699 of the Forty-Forth Cause of Action, Paragraphs 708-710 of the Forty-Fifth
7 Cause of Action, Paragraphs 717-720 of the Forty-Sixth Cause of Action, Paragraphs 726-728 of
8 the Forty-Seventh Cause of Action, Paragraphs 735-738 of the Forty-Eighth Cause of Action, and
9 Paragraphs 744-747 of the Forty-Ninth Cause of Action, as though fully set forth herein.

10 753. The Covid Mandates at issue herein not only infringe upon the Constitutional
11 guarantees which Plaintiffs assert in the First through Fourth Causes of Action as having been
12 negated but are also infirm because of the manner and method whereby they were devised and
13 implemented, including to this day. For instance, under the *Ralph M. Brown Act, Government*
14 *Code §§ 54950 et seq.*, public notices and the opportunity for robust debate were totally ignored
15 by County Supervisor Hilda Solis when adopting same, without any notice or posting of her
16 intentions to do same. Defendant Solis also failed to make a finding that an emergency existed to
17 warrant bypassing of these requirements. This lack of notice also occurred without other
18 members of the Board of Supervisors even aware of same, until after the fact. Once notified
19 however, the Board members, named Defendants herein, still refused to permit robust debate. The
20 same can be said for orders issued by the City of Los Angeles which magically appeared in
21 August 2021 and have been allowed to remain outstanding, despite the injuries to both vaccinated
22 and unvaccinated employees and members of the public. The claim by Governor Newsom that he
23 has done nothing wrong, when he in fact directed all Employers to take the very actions at issue
24 herein, throughout the State of California, is specious and unworthy of credence. Even the
25 invitation to conduct an educational forum for themselves and the public, vis a vis the Cease-and-
26 Desist Letter served upon most Defendants on September 20-21, 2021, by Plaintiffs' counsel, was
27 ignored.

28 754. By the date of the Cease-and-Desist Letter, Defendant Employers were offering

1 “findings” in their respective Ordinances and policies concerning the risk of contracting and
2 spreading COVID; said findings however, were refuted by highly reputable medical experts on
3 both sides of the vaccine debate. At the same time, LAUSD and LACOE deceptively represented
4 to a federal judge that mandates affecting school aged children were withdrawn, with same
5 resurfacing shortly thereafter. Plaintiffs no longer believe that the Government Employers and
6 their elected officials, let alone their underlings who carry out the types of orders at issue herein,
7 will not resuscitate prior orders if litigation is not pursued up through and the issuance of
8 declaratory relief.

9 755. Plaintiffs have reason to believe that exceptions were carved out by Hilda Solis and
10 her colleagues for family members, influential persons, other government officials and friends,
11 while it will be most interesting to see how hard-pressed Defendants will become when asked to
12 reveal their vaccination status, hereinafter. Revealing one’s vaccination status has been the basis
13 for LAUSD to fire more than 400 employees, and for LACOE, the County and the City to take
14 similar action, as most recently as the date of filing of this lawsuit. The refusal to reveal one’s
15 status in these regards is not a novel concept, particularly since the Honorable District Judge, R.
16 Stan Baker, when issuing his ruling enjoining Biden’s Executive Order #14042 noted that many
17 employees at various Universities and businesses were refusing to reveal their vaccination status
18 as well. It appears that in other States where the right to privacy is not codified into its
19 Constitution, unlike California, courts have not been persuaded to allow an alleged COVID crisis
20 relied upon by President Biden to usurp First Amendment and equal protection guarantees,
21 including the right to privacy and to obtain exemptions based on one’s religious beliefs, to persist.
22 Nor should this court, regardless of the salary classification or salary schedules of F2C members,
23 particularly since the Ordinances in question have been applied regardless of whether one is a low
24 wage earner or one who is entitled to special compensation before of their specialized skills, i.e.
25 firefighters.

26 756. It is ironic that Defendants have also ignored the requirements of the
27 *California Emergency Services Act*, which is codified California Government Code §§ 8550, et
28 seq. Also see §§ 8630, et seq. which governs local emergencies. The law requires that local

1 officials “review the need for continuing the local emergency at least once every 60 days until the
2 governing body terminates the local emergency.” *Cal. Gov’t Code § 8630(c) and (d)*. Although the
3 City of Los Angeles has now stated that the emergency will no longer exist, effective the
4 beginning of February 2023, same should not be trusted. Too many have died and too many
5 Plaintiffs have suffered at the hands of Employers who have received billions in Covid Relief
6 monies, but have jumped out the chance to fire low-income, middle-income and the upper class
7 simply because they refused to vaccinate.

8 757. For reasons noted above and at time of hearing, it should be readily obvious that
9 the excuses relied upon by Defendants to justify the imposition of the Mandates in the first place,
10 no longer exist, nor did they exist when adopted and implemented to begin with. Instead, the
11 emergency measures illegally considered by Hilda Solis, let alone then Mayor Garcetti, possibly to
12 foster two PCR contracts that had been embraced without placing same out to the public for bid,
13 with the date these contracts were negotiated with Defendant government officials alone refuting
14 the date an emergency, had it been declared, commenced. It readily appears that the “emergency”
15 was because the public did not want to take the “jab” in the first place. Efforts to buy one’s right
16 to bodily autonomy, let alone to reward students for taking the shots with AirPods, demonstrates
17 that public officials have little regard for the health and safety of their own constituents, while
18 taking great measures to ensure their own lives are not impacted by the adverse and lifetime
19 repercussions of the “jab”.

20 758. Plaintiffs have further reason to believe that as evidence of disparate treatment,
21 discrimination, and retaliation continues to materialize, Public Health Officers named herein will
22 detect a new strain to avoid responding to questions about why considering skewed medical and
23 VAERS data, the declaration of emergency which was not even issued locally should remain in
24 effect.

25 759. For the same reason that strict scrutiny standards have a bearing herein, Defendant
26 government entities’ police powers in the first place are not unlimited. In the same vein, under the
27 *Emergency Services Act*, Defendant officials were obligated to narrowly tailor any government
28 action to protect individual rights. The least restrictive means of accomplishing the government’s

1 interest herein has not even been considered.

2 760. Plaintiffs also contend that the Defendants adoption of the Covid-19 mandates
3 was arbitrary and capricious as the State, the City and the County, and their respective
4 Departments and educational entities, including LAUSD and LACOE, by and through their
5 respective elected and appointed officials, failed to consider evidence about the effectiveness and
6 necessity of shots, testing and masking. Defendants also refused to consider evidence that
7 undermined their pre-determined judgment to require the shots, testing and masking, as evidenced
8 by the refusal of Defendants to provide for an educational forum which presented all sides before
9 insisting on adopting and implementing their mandates in the first place. By these and other
10 actions, Defendant government entities, by and through individually named Defendants, acted
11 arbitrarily and capriciously in adopting the Mandates at issue herein.

12 761. A judicial determination of these issues is necessary to clarify the parties' rights
13 and obligations, permit them to have certainty regarding those rights and potential liability, and
14 avoid a multiplicity of actions. In this case, more than 4700 F2C members and others similarly
15 situated would have to bring separate actions, even though the same rights have been violated and
16 their damages can be easily ascertained.

17 762. The County's actions have harmed F2C's members, collectively Plaintiffs
18 identified in Appendix "A", while first responders and their dependents easily cause the number of
19 individuals seeking relief to well exceed 6,000.

20 763. Plaintiffs have no adequate or speedy remedy at law and will suffer irreparable
21 harm if the Court does not enjoin the County and the City from enforcing or resurrecting the
22 unlawful vaccine mandate which includes PCR and antigen testing, masking and passports. Thus,
23 Plaintiffs seek preliminary and permanent injunctive relief for such an order and reserve the right
24 to seek a temporary restraining order as well.

25 764. Because of the way Defendants are carrying out their retaliatory actions, and in
26 many cases the non-availability of union representatives, not all employees including low-income
27 wage earners and employees suffering from preexisting medical conditions, including cancer, have
28 been able to protest the draconian firings which have been imposed upon them. Even internal

1 appeals have been doomed because Defendants have illegally removed many of the defenses that
2 Plaintiffs are entitled to assert to contest their firings, disciplinary actions, and leaves without pay.

3 765. With full knowledge of same, Defendant EMPLOYERS and their representatives,
4 including many individually named as Defendants have intensified their campaign of threats by
5 withholding pay, negating seniority rights, issuing disciplinary and discharge notices for some
6 while also bypassing the Bill of Rights protections to be afforded sworn LAPD and LAFD
7 personnel. F2C notes that numerous employees were placed on unpaid leaves of absence without
8 satisfying due process requirements, while promotional opportunities and granting of even
9 bonafide exemption requests were withheld. Accordingly, Plaintiffs seek relief which affords
10 them compensation for all physical injuries stemming from loss of oxygen as well as the
11 placement of toxic substances into one's body vis a vis vaccinations and/or PCR and antigen tests,
12 including the life-long effects of myocarditis and pericarditis, as well as for the emotional distress
13 which has and will continue to be suffered because of the deliberate actions of the CITY, the
14 COUNTY, LAUSD, LACOE, and the STATE OF CALIFORNIA, by and through all named
15 elected officials as well as Dr. Ferrer, Dr. Davis and Dr. Aragón, and others in seeking to prolong
16 a state of emergency that Plaintiffs believe is not scientifically or medically warranted, especially
17 given that the rate of infection and hospitalizations over the course of the last thirty months
18 mirrors that of pre-pandemic bouts of influenza.

19 766. In light hereof, declaratory relief in favor of Plaintiffs who are unvaccinated, as
20 well as those who firmly believe that the government does not have a right to know about one's
21 medical status, nor may it insist upon medical tyranny, must issue, as follows:

22 a. The requirement that public employees and school aged children receive a vaccination
23 as a condition of continued employment or the right to attend classroom learning in person
24 violates Plaintiffs' inalienable autonomous rights to determine what is done to one's own body;

25 b. The requirement that public employees receive a vaccination as a condition of
26 continued employment and that student must vaccinate as a condition of attending in person
27 classroom learning and participating in extra-curricular activities violates Plaintiffs' inalienable
28 autonomous rights to exercise informed consent to accept, or not accept, novel and unproven

1 medical treatments without force, fraud, deceit, duress, coercion, or undue influence, and,

2 c. Accommodations are reasonably available to Defendants that would allow continued
3 employment and school attendance without a Covid Vaccine.

4 767. F2C and its Members on behalf of themselves and the public, are entitled to
5 preliminary and permanent injunctive relief:

6 a. Prohibiting Defendants from enforcing their mandates that Public and private
7 sector employees, including members of F2C, and new hires must receive a Covid Vaccination as
8 a condition of continued employment;

9 b. Prohibiting Defendants from enforcing their mandates that school children must
10 receive a Covid Vaccination as a condition of in person learning and participation in extra-
11 curricular activities;

12 c. Requiring Defendants to offer reasonable accommodations to Public and private
13 sector employees, including members of F2C, to allow continued employment without a Covid
14 Vaccination and without testing controlled by *Fulgent Genetics* or *BlueStone*;

15 d. Prohibiting Defendants from using the *Passport* and *Microsoft Daily Pass*
16 programs to engage in surveillance of Plaintiffs and others residing in or visiting California;

17 e. Removing restrictions which prohibit the unvaccinated from gaining entrance into
18 events, businesses and cultural activities which the vaccinated are invited to or regularly access;

19 f. Affirmatively finding that the Covid Mandates at issue, including mandating
20 Vaccinations, Masking, PCR testing, Microsoft Daily Pass and Passports, is unconstitutional;

21 g. Prohibiting Defendants from engaging in discrimination, harassment and retaliation
22 against Plaintiffs who have protested these matters, including when bringing this action, and
23 making these Plaintiffs and all others similarly situated whole because of the damages which have
24 been deliberated and callously inflicted upon them; and

25 h. Prohibiting Defendants from encouraging private sector employers as well as
26 colleges and universities to implement their own mandates.

27 768. Until the CDC is able to fully and truthfully disclose all ingredients contained in
28 the COVID vaccines in the current or future marketable forms which one is expected to submit to,

1 and until all adverse events are truthfully reported and maintained hereinafter, then Public and
2 private sector employees, including members of F2C, and school-aged children should receive
3 injunctive relief which a) prohibits the Defendants from continuing to impose their vaccination
4 mandates; b) from mandating PCR testing from staff not currently experiencing COVID
5 symptoms; c) prohibiting *BlueStone* and *Fulgent Genetics* from monopolizing PCR tests for public
6 and private sector employees, including by allowing Plaintiffs and others to offer, if necessary,
7 medical statements or testing results from other currently in use methods of Covid testing,
8 including saliva collection without use of toxic-laden swabs; d) prohibiting continued storage of
9 the results of one’s testing on Passport and Daily pass program, let alone the offering of same to
10 personnel to engage in surveillance activities of students, parents and employees alike; and
11 prohibiting threatened disciplinary action and license revocations upon medical personnel who
12 seek to have the truth told about Covid and the vaccines, testing and masking policies which have
13 evolved since January 2020.

14 769. Plaintiffs further seek a declaration declaring the Mandates void and unenforceable
15 because of the failure of Defendant government officials to comply with the *Ralph M. Brown Act*,
16 *Government Code §§ 54950 et seq.*, as well as the *California Emergency Services Act*, California
17 *Government Code §§ 8550, et seq.* and *§§ 8630, et seq.* which precludes the Defendants from
18 claiming that a state of emergency existed and continues to exist, notwithstanding the failure of the
19 County to find a State of Emergency in the first place, and given the facts presented to this Court
20 which bring into disrepute the necessity for the Mandates to begin with.

21 770. In light hereof, an award of attorneys’ fees under § 1021.5 of the California Code
22 of Civil Procedure in favor of Plaintiffs is warranted.

23 **FIFTY-FIRST CAUSE OF ACTION**

28 Paragraphs 744-747 of the Forty-Ninth Cause of Action, and Paragraphs 753-768 of the Fiftieth

1 Cause of Action, as though fully set forth herein.

2 772. Plaintiffs submit that Defendant government officials were and are obligated to
3 comply with the *Ralph M. Brown Act, Government Code §§ 54950 et seq.*, as well as the
4 *California Emergency Services Act, California Government Code §§ 8550, et seq.* and *§§ 8630, et*
5 *seq.* By failing to give notice before entering her Orders in August 2021, Supervisor Hilda Solis
6 precluded the public from being able to prevent adoption of the Covid Mandates in the first place.
7 F2C believes that for pecuniary reasons, former City Council President, NURY MARTINEZ,
8 likewise stifled debate and refused to permit the City’s Vaccine Ordinance to be repealed, despite
9 efforts seeking same throughout calendar years 2021 and 2022. By refusing to look at the evidence
10 and determine whether a true emergency existed and continues to exist, the County and the City
11 have failed to satisfy its original and continuing obligations under the Emergency Services Act.

12 773. Ever since the City started adopting its mandates, Plaintiffs placed the Board of
13 Supervisors, the Board of Education and the City Council, including the Mayor on notice that their
14 actions contravened California’s Constitution, including the right to privacy, the right to equal
15 protection, the right to an equal education and the right to refuse medical treatment. Additionally,
16 Defendants/Respondents were forewarned about violating the Fair Employment and Housing Act,
17 relative to associations, religious beliefs, and disabilities, as well as the obligation to engage in a
18 good faith interactive process which would permit Plaintiffs to be accommodated, rather than
19 retaliated against even further for having raised these issues, including their claim of unlawful
20 harassment and retaliation.

21 774. Plaintiffs as Petitioners allege that Defendants/Respondents have further ignored
22 civil service protections and the entitlement of most Plaintiffs to continuing public employment,
23 by severing affected Plaintiffs and threatening to terminate more, without regards to complying
24 with due process requirements and principles of fundamental fairness.

25 775. Plaintiffs as Petitioners allege that they have no plain, speedy, and adequate remedy
26 in the ordinary course of law, and thus seek to enjoin further firings and leaves without pay, while
27 ordering the immediate reinstatement with pay of all Plaintiffs who have in fact been removed,
28 discharged, disciplined and/or remain on leave without pay.

1 **PRAYER**

2 **WHEREFORE**, Plaintiffs pray for relief as follows:

3 **FIRST CAUSE OF ACTION:**

- 4 1. Injunctive Relief declaring the mandates unconstitutional and violative of the right to
5 privacy embodied in *Article I, Section I* of the California Constitution;
- 6 2. For pecuniary and non-pecuniary losses, according to proof;
- 7 3. For nominal damages, to be determined;
- 8 4. For punitive damages to be determined; and,
- 9 5. For attorneys' fees pursuant to Code of Civil Procedure §1021.5.

10
11 **SECOND CAUSE OF ACTION:**

- 12 1. Injunctive Relief declaring that the mandates violate constitutional provisions requiring
13 that Plaintiffs be afforded equal protection of the laws;
- 14 2. For pecuniary and non-pecuniary losses, according to proof;
- 15 3. For nominal damages, to be determined;
- 16 4. For punitive damages to be determined; and,
- 17 5. For attorneys' fees pursuant to Code of Civil Procedure §1021.5.

18
19 **THIRD CAUSE OF ACTION:**

- 20 1. Injunctive Relief declaring the mandates at LAUSD and LACOE Schools to constitute
21 a violation of the constitutional right to an equal education;
- 22 2. For pecuniary and non-pecuniary losses, according to proof;
- 23 3. For nominal damages, to be determined;
- 24 4. For punitive damages to be determined; and,
- 25 5. For attorneys' fees pursuant to Code of Civil Procedure §1021.5.

26
27 **FOURTH CAUSE OF ACTION:**

- 28 1. Injunctive Relief declaring the mandates unenforceable and violative of the right to

- 1 refuse medical treatment;
- 2 2. For pecuniary and non-pecuniary losses, according to proof;
- 3 3. For nominal damages, to be determined;
- 4 4. For punitive damages to be determined; and,
- 5 5. For attorneys' fees pursuant to Code of Civil Procedure §1021.5.

6

7

8 **FIFTH CAUSE OF ACTION (AGAINST CITY)**

- 9 1. For the value of lost wages and benefits, and lost promotional opportunities, together
- 10 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
- 11 interest at the legal rate;

- 18 1. For the value of lost wages and benefits, and lost promotional opportunities, together
19 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
20 interest at the legal rate;
- 21 2. For general damages, including for emotional distress, including damage to one's
22 career and reputation, in a sum to be proven at trial;
- 23 3. For special damages, according to proof;
- 24 4. For injunctive relief; and
- 25 5. For attorneys' fees.

26

27 **FORTY-SECOND CAUSE OF ACTION (AGAINST LAUSD):**

- 28 1. For the value of lost wages and benefits, and lost promotional opportunities, together

1 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
2 interest at the legal rate;

3 2. For general damages, including for emotional distress, including damage to one's
4 career and reputation, in a sum to be proven at trial;

5 3. For special damages, according to proof;

6 4. For injunctive relief; and

7 5. For attorneys' fees.
8

9 **FORTY-THIRD CAUSE OF ACTION (AGAINST LACOE):**

10 1. For the value of lost wages and benefits, and lost promotional opportunities, together
11 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
12 interest at the legal rate;

13 2. For general damages, including for emotional distress, including damage to one's
14 career and reputation, in a sum to be proven at trial;

15 3. For special damages, according to proof;

16 4. For injunctive relief; and

17 5. For attorneys' fees.
18

19 **FORTY-FOURTH CAUSE OF ACTION (AGAINST STATE):**

20 1. For the value of lost wages and benefits, and lost promotional opportunities, together
21 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
22 interest at the legal rate;

23 2. For general damages, including for emotional distress, including damage to one's
24 career and reputation, in a sum to be proven at trial;

25 3. For special damages, according to proof;

26 4. For injunctive relief; and

27 5. For attorneys' fees.
28

1 **FORTY-FIFTH CAUSE OF ACTION (AGAINST CITY)**

2 1. For the value of lost wages and benefits, and lost promotional opportunities, together
3 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
4 interest at the legal rate;

5 2. For general damages, including for emotional distress, including damage to one's
6 career and reputation, in a sum to be proven at trial;

7 3. For special damages, according to proof;

8 4. For injunctive relief; and

9 5. For attorneys' fees.

10
11 **FORTY-SIXTH CAUSE OF ACTION (AGAINST COUNTY):**

12 1. For the value of lost wages and benefits, and lost promotional opportunities, together
13 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
14 interest at the legal rate;

15 2. For general damages, including for emotional distress, including damage to one's
16 career and reputation, in a sum to be proven at trial;

17 3. For special damages, according to proof;

18 4. For injunctive relief; and

19 5. For attorneys' fees.

20
21 **FORTY-SEVENTH CAUSE OF ACTION (AGAINST LAUSD):**

22 1. For the value of lost wages and benefits, and lost promotional opportunities, together
23 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
24 interest at the legal rate;

25 2. For general damages, including for emotional distress, including damage to one's
26 career and reputation, in a sum to be proven at trial;

27 3. For special damages, according to proof;

28 4. For injunctive relief; and

1 5. For attorneys' fees.

2

3 **FORTY-EIGHTH CAUSE OF ACTION (AGAINST LACOE):**

4 1. For the value of lost wages and benefits, and lost promotional opportunities, together
5 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
6 interest at the legal rate;

7 2. For general damages, including for emotional distress, including damage to one's
8 career and reputation, in a sum to be proven at trial;

9 3. For special damages, according to proof;

10 4. For injunctive relief; and

11 5. For attorneys' fees.

12

13 **FORTY-NINTH CAUSE OF ACTION (AGAINST STATE):**

14 1. For the value of lost wages and benefits, and lost promotional opportunities, together
15 with interest thereon, in an amount to be proven at time of trial, together with pre-judgment
16 interest at the legal rate;

17 2. For general damages, including for emotional distress, including damage to one's
18 career and reputation, in a sum to be proven at trial;

19 3. For special damages, according to proof;

20 4. For injunctive relief; and

21 5. For attorneys' fees.

22

23 **FIFTIETH CAUSE OF ACTION (AGAINST ALL DEFENDANTS):**

24 1. Injunctive Relief declaring that the mandates violate constitutional guarantees as
25 alleged in the First through Fourth Causes of Action to warrant the declaratory relief sought in
26 paragraphs 286-289, supra, of the Fourteenth Cause of Action; and,

27 2. For attorneys' fees pursuant to Code of Civil Procedure §1021.5.

28

FIFTY-FIRST CAUSE OF ACTION (AGAINST ALL DEFENDANTS):

1 1. For issuance of a Writ of Mandate condemning the failure of County Supervisor Hilda
2 Solis to comply with the *Ralph M. Brown Act*, *Government Code §§ 54950 et seq.* and declaring
3 all Mandates null and void due to the failure of the Board of Supervisors to remedy these
4 violations immediately;

5 2. For issuance of a Writ of Mandate finding that all Defendants have violated the
6 *California Emergency Services Act*, *California Government Code §§ 8550, et seq.* and §§ 8630, *et*
7 *seq.*, including by claiming that a state of emergency exists to justify the Covid Mandates, when
8 ample case authority and facts show that it did not when the Mandates were imposed nor does it
9 exist; and,

10 3. For orders barring additional firings and leaves without pay, while providing for the
11 immediate reinstatement of all employees, including affected Plaintiffs.

12
13 **ALL CAUSES OF ACTION:**

14 1. For costs of suit;
15 2. For a determination that this action may be brought and pursued on behalf of all others
16 similarly situated; and,

17 3. For such other relief as the court deems just and proper.

18 Respectfully submitted,

Join our lawsuit & sign our petition to FIGHT vaccine mandates, mask mandates & medical passports being unjustly imposed in LA City, LA County, and the State of California

Join this fight immediately to help protect your job and your family members. Read, understand & sign our petition to help stop Vaccine Mandates, Mask Mandates & Vaccine Passports in the City & County of Los Angeles, and the State of California.

By my signature below, I believe in the SOVEREIGN RIGHTS guaranteed by the United States Constitution & the State of California's Constitution. I understand and wish to secure my rights and (if applicable, the rights of my family, children and dependents, including the right to privacy and to have exclusive dominion over my (our) own body(s), particularly with respect to health care decisions.

Therefore, I affirm that I oppose any and all mandates regarding forced unethical Covid-19 mandatory vaccinations, mandatory vaccination policies, mandatory passports, mandatory testing and mandatory masking, for myself, my children / dependents (if applicable), and all other public and private sector employees in the City and County of Los Angeles, let alone elsewhere in the State and throughout the United States.

By signing this petition, I agree to allow my name, job classification and if applicable, union affiliation, to be used in court litigation, if necessary. If I have shared personal circumstances on this Website that I would want communicated publicly, i.e. Vaccination Adverse Events and whether I have experienced the effects of shedding of the Spike Protein, then I agree that those details may be revealed to the public, the media and to judicial officers to demonstrate the compelling urgency to enjoin the mandates agreed to by the City and County of Los Angeles, and other public and private sector Employers in California and throughout the United States.

As some of us are aware, it has been a matter of life or death, or debilitating illness from which full recovery is not yet known. I categorically oppose any form of discrimination or retaliation which has been threatened or will soon be issued. I urge the very politicians who have adopted these mandates to extend all deadlines until a proper education from medical professionals, including pathologists, and scientists, can be heard about the consequences of Covid vaccinations, testing and masking. I find it highly offensive that the President of the United States, Joseph Biden, has announced that federal employees and the military, as well as all employees of Employers who receive federal monies must comply, yet Congress and their staffs, as well as Postal Workers and federal court employees need not comply.

I firmly believe that all threats of intimidation, regardless of the source, must cease since dedicated employees are being threatened with disciplinary action, ranging from reprimands and counseling to suspensions and terminations, to announcements that promotional opportunities and training will be withheld from the unvaccinated or employees perceived to be noncompliant. These threats, including reminding an employee that he/she has less than a day to take the first "jab" is itself inherently coercive. Likewise, intended actions to surcharge wages for testing the unvaccinated effectively repeals the living wage, minimum wage and prevailing wages that California has stood for, at a time when the testing itself has proven to be unreliable. Not only do the mandates seriously undermine the stability of the workplace, but the mandates and passport schemes are disruptive of our communities and threaten the wellbeing of our families, our children and grandchildren as well as ourselves. This form of invidious discrimination must stop.

Name **John Smith**

Hilda Solis, Holly Mitchell, Kathryn Barger,
Sheila Kuehl and Janice Hahn, Board of Supervisors
County of Los Angeles
555 S. Grand Street
Los Angeles, California 90012

Honorable Politicians:

My office is inundated with calls from employees who have been served with disciplinary notices, threats of termination and/or leave without pay, pending Skelly Hearings, primarily because these employees have declined to agree to the monetary demands associated with your PCR programs or refused to agree to what your payroll offices uploaded into Fulgent and Bluestone without my clients' permission. I have employees in the County Department of Health and Beaches and Recreation who have received suspensions or been threatened with same, at a time when their exemption requests from several weeks ago have yet to be acted upon.

After threatening Sanitation Department employees and sending people home, just like at the Zoo and in General Services, at least some Sanitation workers have been directed to report back to work. Do you intend to eliminate the rank discrimination which you have now created, ironically at a time when LAPD has not been treated as harshly. The fact you selected employees for the most part who are dependent upon their earnings to feed their families is unconscionable. Should they buy a "turkey" like you for Thanksgiving, or save the funds because they do not know what contradictory orders will place them in the soup lines next.

My clients will not put the "cat" back into the "bag" for you, while you cannot genuinely justify robbing your employees of \$520.00 per month, without even having employees ratify these recessionary contracts. If you think that *FreedomtoChooseL.A.* grew in leaps and bounds at the beginning of September, the recent threats is solidifying that support as I write this letter. Your immediate response is anticipated.

Very truly yours,

HELENA S. WISE

Notes from Fire Chiefs Meeting with Bureau Commanders

1 message

Brian Dameron <brian.dameron@lafcity.org>

Mon, Sep 27, 2021 at 1:09 PM

To: Jason Powell <jason.powell@lafcity.org>, Anthony Handy <anthony.handy@lafcity.org>, Brett Mello <brett.mello@lafcity.org>, Brian Hampton <brian.hampton@lafcity.org>, Bryan Miclette <bryan.miclette@lafcity.org>, Carlos Avina <carlos.avina@lafcity.org>, Craig Poulson <craig.poulson@lafcity.org>, Jamie Heald <jamie.heald@lafcity.org>, John Musil <john.musil@lafcity.org>, Beau Cherry <beau.cherry@lafcity.org>, Brent Tapia <brent.tapia@lafcity.org>, Floyd Comacho <floyd.comacho@lafcity.org>, Joe Flores <joe.flores@lafcity.org>, Kenneth Cordaro <kenneth.cordaro@lafcity.org>, Robert Sharrar <robert.sharrar@lafcity.org>, Timothy Sharma <timothy.sharma@lafcity.org>, Suthone Tiengerd <suthone.tiengerd@lafcity.org>, John Resendez <john.resendez@lafcity.org>, Carl Moskovitz <carl.moskovitz@lafcity.org>, Jason Haney <jason.haney@lafcity.org>

This was discussed today between the Fire Chief and the Bureau Commanders!

FC - Regarding vaccine ordinance/mandate - Presently we have 450 applications for exemption in our department. FC and the City Attorney wanted to remind our members that if an exemption from vaccination is approved - **this does not mean that you remain in your assignment...you will most likely enter the interactive dialogue with the Personnel Department for Reasonable Accommodation (RA)**. If you can be reasonably accommodated to another position, you would assume that new position somewhere else in the City. **This could mean that you could end up working as a clerk, typist or another position that does not require the vaccine. This may not even be available to you considering that nearly every City worker is required to be vaccinated.** It is important to also note that you would also get the salary of the new position and not retain your department salary and you may also be required to switch pensions. **If the RA proves to be a burden to the City (meaning that there are too many people and not enough positions), the law allows for detail to home with no pay or termination.** It is important that our people understand that an approved exemption does not mean that they get to stay at their fire station.

FC - Having said all of that...the Executive Employee Relations Committee (EERC) is meeting tomorrow 9/28 to discuss what the evolution of consequences will look like for people failing to get the vaccine. The City Attorney is currently evaluating the Mayor's emergency powers to terminate if needed. It is important that our people fully understand what is at stake here.

FC - Have accelerated the graduation of the drill tower to November instead of December.

FC - All department training will be postponed until January. **this does not mean company level training.** Only things like OCEP, COCEP and Critical Conversations training.

FC - Budget...asking for 4 more drill tower classes and double the size of Crew 3 and have them paid.

FC - Has been working with UFLAC to determine a better system with regard to who is recalled. It looks like there may be exemptions allowed for number of hours worked in the previous month as well as the recency of the member's last recall obligation. Stand by for additional information on this.

FC - LAFD Memorial taking place on 10/09 at the museum.

ASB - MLU gathering information on members that have been off long-term ID. will provide information to the appropriate bureau's.

ASB - Discussed liability payouts for the month of August.

- 20K - For unprofessionalism (not specific)
- 24k - Traffic accident failure to stop at stop sign

TSB - Electric fire engine at FS 82 looks like it may be delayed until early spring of 2022.

lpa@mail.google.com/mail/u/0/?ui=2&ik=288b15d306&view=spt&asact=...ad&perm=0-0-thread%3A1712087005084368417&siml=msg%3A17120870050

EXHIBIT "3"

OFFICE OF THE SHERIFF

COUNTY OF LOS ANGELES

HALL OF JUSTICE

ALEX VILLANUEVA, SHERIFF

November 29, 2021

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

COMPROMISED FULGENT REGISTRATION/TESTING SYSTEM

This letter is to inform you the Los Angeles County Sheriff's Department (Department) will not participate in COVID-19 registering or testing with Fulgent Genetics Corporation (Fulgent), due to the fact the DNA data obtained is not guaranteed to be safe and secure from foreign governments and "will likely be shared with the Republic of China."¹

On November 24, 2021, I was contacted by the Federal Bureau of Investigation (FBI) Weapons of Mass Destruction Coordinator, who shared with me the FBI's need to brief Los Angeles County (County) leaders as to "very concerning information" they learned regarding the COVID-19 testing of County employees by Fulgent.

On November 26, 2021, I attended a briefing at the FBI Los Angeles Field Office, as did Los Angeles County Counsel Rodrigo A. Castro-Silva and Chief Executive Officer Fesia Davenport. An invitation was also extended to each of you and the head of the Department of Public Health.

The FBI stated the purpose of the meeting was to inform County leaders of the serious risks associated with allowing Fulgent to conduct COVID-19 testing of County employees.

I was shocked to learn Fulgent had strong ties with BGI², WuXi³, and Huawei Technology⁴, all of which are linked to the Chinese Academy of Medical Sciences, the

¹ FBI briefing, November 26, 2021, "Safeguarding the Bio-Economy"

² <https://www.bgi.com/global/>

³ <https://www.wuxibiologics.com/>

211 WEST TEMPLE STREET, LOS ANGELES, CALIFORNIA 90012

A T E P O D

Peoples Republic of China (PRC) State Council and are under the control of the PRC. I was even more shocked to learn Fulgent made no attempt to disguise the fact they will use the genetic information obtained in future studies. On the Fulgent public website, the following statement can easily be found, "*I also give permission for my specimen and clinical information to be used in de-identified studies at Fulgent and for publication, if appropriate.*" Additionally, the 2017 China Cyber-Security Law⁵ makes it legal for PRC to seize any data stored within China, or stored outside of China by an entity which has a presence in China, and that organizations and network operators submit to government-conducted security checks.

This is further explained recently in a New York Times article from October 22, 2021, *U.S. Warns of Efforts by China to Collect Genetic Data*. This article explained, "*Chinese companies are collecting genetic data from around the world, part of an effort by the Chinese government and companies to develop the world's largest bio-database.*"

I am deeply concerned as to the vetting process which either failed to discover this, or discovered it, but chose to ignore it. A simple internet search would have uncovered all of the above facts. On or about October 19, 2021, our Department reached out to the County's Department of Human Resources liaison of Fulgent, Mr. Ben Kempner, to ask him to respond to the questions stated in the news article, *L.A. first responders ordered to turn over personal and genetic data to China-linked company or face firing*,⁶ but we were provided no response. I am equally concerned by the inclusion of an "equity survey" to the mandatory Fulgent database registration process. How can one provide informed consent when participation is mandatory, under penalty of discipline?

Entering into a no-bid contract with Fulgent Genetics and allowing them to have the DNA data obtained from mandatory COVID-19 testing, for unknown purposes, has shattered all confidence my personnel have in this entire process under the County mandate. Many personnel have long suspected this information was being used in an unnecessary manner due to a rushed mandate that we now know will have long-term unintended consequences that will not be fully known for some time.

The FBI felt strongly enough regarding Fulgent being used to test County personnel that they held an emergency briefing to disclose their concerns. I trust you will take steps to immediately assess and mitigate any further risk before any personnel are disciplined under the mandate for refusing to subject their information to the Fulgent system. The Board of Supervisors needs to determine the risk to the County as a whole to correct

⁴ <https://www.huawei.com/en/>

⁶ <https://www.lawenforcementtoday.com/l-a-first-responders-ordered-to-turn-over-personal-and-genetic-data>

this issue, as well as inform the collective bargaining units of this new information in order for us to move forward in light of this information.

The Department will remove itself from working with Fulgent and continue with our own proprietary registration system. The Department will continue to work with properly vetted testing companies with no association to Fulgent.

Should you have any questions or would like to discuss further, please feel free to contact me at (213) 229-3000.

Sincerely,

ADDRESSING EMPLOYEE QUESTIONS REGARDING FULGENT GENETICS

The Department of Human Resources (DHR) is aware of questions and concerns regarding Fulgent Genetics (Fulgent), the County's COVID-19 testing provider, and data security. This memo is intended to provide the facts regarding Fulgent, data security, and testing.

Important facts you should know:

- Fulgent is an American company, publicly traded in the NASDAQ stock exchange, and is certified by the U.S. Food and Drug Administration (FDA), accredited by the College of American Pathologists, and licensed by the California Department of Public Health.
- Fulgent is a national provider of COVID-19 tests and has contracts to perform COVID-19 testing for several federal agencies, as well as multiple states, counties, school districts, cities and large companies.
- To test unvaccinated County employees, Fulgent uses FDA-approved COVID-19 RT-PCR tests. In such testing, County employees' genetic information is not isolated or sequenced. Rather, the test looks for the genetic markers of the COVID-19 virus only. Fulgent is not authorized to review, analyze, use, extract or disclose any employee genetic data, and test samples are destroyed via incineration within 48 hours.
- DHR is aware of concerns that Fulgent may be sharing employees' genetic information with the Chinese government. **The County has no evidence from any law enforcement agency or any other source that any County employee data has been or will be shared with the Chinese government.**

- The County has worked with Fulgent to proactively address employees' data privacy concerns, including facilitating a meeting between Fulgent and the County's labor representatives to discuss Fulgent's data practices and respond to questions. The County will continue to work affirmatively with Fulgent to ensure all County employee data remains safe and secure, consistent with our contractual requirements and applicable law.
 - To keep our workplaces safe for all during this pandemic, we continue to encourage employees to protect themselves by becoming fully vaccinated; while those who cannot be vaccinated due to a medical or religious reason should continue to test to safeguard themselves, their families, and the public we serve. Fulgent Contract Requirements and Data Protection
- The County contracted with Fulgent, an existing vendor with the County, to maintain employee vaccination records and conduct required regular COVID-19 testing, in compliance with the County's COVID-19 Vaccination Policy.
- Fulgent is, by law and contract, required to protect patient privacy and safeguard patient health information in accordance with the Health Insurance Portability and Accountability Act (HIPAA) and all other applicable privacy laws.
- In addition, the County's contract with Fulgent includes important data and privacy safeguards. The County's Chief Information Officer (CIO) reviewed and approved the contract before it was executed and includes the County's standard Information Security and Privacy Requirements, which require Fulgent to abide by all applicable state and federal laws, rules and regulations, as well as applicable industry standards concerning privacy, data protections, information security, confidentiality and integrity of such information. Fulgent must treat all County information as confidential and encrypt County information, which renders County information unusable, unreadable, and indecipherable to unauthorized individuals. **Importantly, the contract requires Fulgent to store and process County employee information only in the continental United States.**
- COVID-19 Testing
- Again, to test unvaccinated County employees, Fulgent uses COVID-19 RT-PCR tests. In such testing, County employees' genetic information is not isolated or sequenced rather, the test looks for the genetic markers of the COVID-19 virus only. Fulgent does not review, analyze, use, extract or disclose any employee genetic data. All test samples are destroyed within 48 hours.
- Employee Resources
- Please visit <https://employee.hr.lacounty.gov/vaccinationsmandate/> and read the Frequently Asked Questions, if you have additional questions or concerns regarding Fulgent.
- As always, we encourage you to reach out to us if you have additional questions or concerns, with the following resources: the LA County Employee Hotline at (833) 990-2352 or email us at COVID19@hr.lacounty.gov.

This email was sent using GovDelivery Communications Cloud on behalf of County of Los Angeles

Congress of the United States
Washington, DC 20540

November 11, 2021

The Honorable Joseph R. Biden, Jr.
President
The White House
1600 Pennsylvania Avenue
Washington, DC 20500

Dear President Biden:

As the nation approaches holiday season, we ask that you put in place requirements for online businesses to provide proof of full vaccination against COVID-19 or a negative test to have a business right. We also ask that fully vaccinated people be more readily eligible for a wide range of public accommodations. It is critical to curb the transmission of COVID-19 and prevent the spread of COVID-19. This is a necessary and long overdue step toward ensuring all Americans feel safe and confident when traveling and taking the chance of our another developing winter surge.

We signed your executive order mandating full vaccination for essential workers serving the United States. Implementation of these vaccine-based requirements is critical to reducing COVID-19 transmission and the potential for another winter surge. In addition, the implementation of these requirements is critical to ensuring that all Americans feel safe and confident when traveling and taking the chance of our another developing winter surge.

Many Americans remain reluctant to spending extended periods of time in crowded public places due to the risk of COVID-19 exposure. Requiring proof of vaccination is a significant step for ensuring that all Americans feel safe and confident when traveling and taking the chance of our another developing winter surge. We encourage you to take the necessary steps to ensure that all Americans feel safe and confident when traveling and taking the chance of our another developing winter surge.

Implementing such a requirement can also be a valuable tool to support the recovery of the tourism and hospitality industries. We encourage you to take the necessary steps to ensure that all Americans feel safe and confident when traveling and taking the chance of our another developing winter surge. We encourage you to take the necessary steps to ensure that all Americans feel safe and confident when traveling and taking the chance of our another developing winter surge.

As the nation of vaccine requirements in the private sector has shown, requiring proof of vaccination for domestic flights has the potential to increase vaccine acceptance among the public. Research by the Kaiser Family Foundation has shown that vaccinated people would be significantly more likely to use air travel, suggesting it is a requirement to fly on airplanes.¹⁸

is in the best interest of our nation's public health to adopt these vaccination requirements for U.S. air travel.

Thank you for your consistent dedication in promoting science-based public health measures to keep Americans safe and healthy. As you continue to work tirelessly to finally end this pandemic, we ask that you ensure vaccine protocol is in place for domestic air travel so that every opportunity has been taken to get eligible Americans vaccinated as quickly as possible.

Sincerely,

Donald S. Beyer Jr.

Re: *Freedom to Choose - LA*

Page 2:

primarily in Southern California. This group has grown in leaps and bounds in less than ten days and has been formed because either you conceived of the notion or have been led to believe by labor unions that there is no opposition to vaccination mandates, PCR testing and various proposals which seek to differentiate between the vaccinated and the unvaccinated relative to terms and conditions of employment. We can assure you there is clear opposition, while statistics shared with your governing boards this past week proves same as well.

In light of the E-Mail campaign that commenced within DWP and elsewhere within the City of Los Angeles, the County and up and down the State, it has become readily apparent that on this basic issue of human life, labor appears to have lost touch with its members, particularly if it has led you to believe that the mandates you are imposing are acceptable. They are not. AFSCME, as opposed to IBEW Local 18 has decided to respond to one such E-Mail recently sent by stating that:

AFSCME and the Coalition of City Unions “continues to bargain the effects of the proposed policy. At this point we have not tentatively agreed on any part of the policy, and we remain committed to fight for those that support and do not support vaccination mandates. ... *The vaccination mandate deadline remains, however, no enforcement mechanism has even been proposed by the City at this point.*”

We find it intriguing to hear that negotiations remain in progress and that purportedly no enforcement mechanism has been proposed, although threats of termination, surcharges for PCRs, and statements that employees who refuse to vaccinate will not be able to promote have clearly been circulated. What the rank and file is being told and what the Coalitions are hearing or doing purportedly in negotiations are clearly at odds. Meanwhile, private sector Employers, operating within the entertainment and health care industries, along with educational institutions are using your actions to fleece their employees and even students of their constitutional rights.

AFCME’s current position is clear, including when it has stated:

“Based on a Supreme Court ruling and Federal Judge ruling, the City can mandate the vaccination and they have done so. We do encourage our members to get vaccinated to protect the health of themselves, their families, and the public however, we are continuing to advocate for a holistic approach to stopping the deadly Delta variant, including a frequent and robust testing option for members who have yet to be vaccinated. We are proposing that all testing for employees be done on City time and paid for by the City of L.A. This is not a process that includes a ratification vote because the courts have ruled the mandate is legal.”

This reasoning is grossly faulty and overly simplistic. First, there is no recent Supreme Court ruling on this subject, except for a dated decision which did not even recognize the strict scrutiny

September 20, 2021

Re: *Freedom to Choose - LA*

Page 3:

standards that have since developed when encroachment upon fundamental rights are at stake.

Nor is there a federal judge ruling in California that mandates “*this*” vaccine, more commonly known as a “*jab*”. A few federal courts elsewhere are finally waking up to these issues. Do you think the Police, Firefighters, Amalgamated Transit Union, SEIU Healthcare Workers and the United Federation of Teachers elsewhere in the country, i.e., New York, Chicago, and Oregon, would be fighting, let alone bargaining to *impasse* if this battle were truly over?

LAUSD, at the beginning of August 2021, narrowly escaped an adverse ruling in the federal courthouse in downtown Los Angeles by suddenly announcing it was abandoning its vaccine mandate and thus there was no case to decide. Such gamesmanship should prove to be their downfall, since we are now hearing that the mandate issue has resurfaced. In fact, LAUSD is now claiming that as one of the largest School District in the country, it will commence vaccinating our children over the age of 12 in November. You heard that right. Our children and our grandchildren!!

In California, the most recent decision used to justify the mandates issued from the California Public Employment Relations Board (PERB) on July 26, 2021, involving AFSCME, see *PERB Decision 2783-H*. Therein, AFSCME claimed that the University of California, then under the direction of its then President Janet Napolitano, did not have the right to compel employees, students, and teachers alike to take the *flu vaccination*. PERB disagreed and stated the Union only had the right to negotiate the effects of the mandate. In the meantime, the new UC President allowed the Order pertaining to the flu vaccination to expire. How many of you declined the flu vaccine ... and for how many years? Besides the suggestion that the flu vaccine is next on the list to be ordered, the Decision itself requires you to rethink where you are heading. A case is only as good as the advocates presenting it.

In examining the decision, we were surprised to see that before PERB, AFSCME did not offer any experts to counter the University of California's claim about the flu influenza and its alleged heightened significance due to Covid-19. One would hope that AFSCME understood the importance of refuting the evidence offered, especially if it sought to convince PERB to reach a different decision, namely one obligating Employers to negotiate the legality of the mandates first and foremost, if one could even assume that collective bargaining is an appropriate setting for addressing these basic issues about human rights.

There is ample evidence from scientists, medical professionals, including pathologists, and people who have experienced the effects of the “*jab*” and its spike protein first and/or second-hand. These stories, suppressed until recently, overwhelmingly shows that that which the City and the County of Los Angeles, and other public entities in the State are insisting on imposing upon its employees and the community is infirm, unsafe, and immoral.

September 20, 2021

Re: *Freedom to Choose - LA*

Page 4:

Just remember that last year you were told by esteemed Social Workers like Dr. Barbara Ferrer, the head of the County's Public Health Unit, let alone Dr. Anthony Fauci, to isolate and to stay 6 feet apart. Now the distance is only 3 feet apart. You were told to mask, unmask and then mask again, and sadly to not sing at church. However, the decision to close our schools and to offer a virtual education based upon that reasoning has adversely impacted not only our educational system, but the very ones who are supposed to benefit from receiving that education, namely our nation's youth attending both public and private schools. As a sad consequence, the suicide rate has skyrocketed, while children are walking like *Zombie*'s because that is what they are being told to emulate.

Meanwhile, worthy students who are not vaccinated are being denied entrance into extracurricular programs, while key players who have been vaccinated are now hospitalized or maimed for life, with actual media coverage of Everest Romney's condition in Utah a case in point. The most recent rationale by Dr. Ferrer that exposure to individuals with allegedly positive tests can justify further segregation and denial of entrance of the unvaccinated into after-school programs is incomprehensible, particularly in light of natural immunities, the presence of antibodies and statistics showing that the vaccinated are now capable of catching and spreading this laboratory-made virus.

These and other events, including your mandates, are occurring simply because of a perceived blind urgency to implement vaccines even though they remain in the experimental stages of testing. This remains the case, despite the alleged "*approval*" of Pfizer at a time when its recent submitted application seeking approval to commence testing on a new test has been received.

Sadly, the elderly have suffered tremendously, especially when confined in nursing homes and hospitals without the benefit of seeing their loved ones, let alone an advocate to speak on their behaves. Having observed what happens in these confinement settings firsthand and having learned elder abuse law, suffice it to say that we believe that accountability and transparency in government and the health care industry has been shelved at a time when needed the most.

In the 1980s there was a Union Access case before PERB on behalf of SEIU's United Healthcare Employees which cast in concrete the right of Unions to access the employee lounges on the various floors of the UCLA Hospital to organize employees. Look up the case, *PERB Decision 0329H (August 5, 1983)*. Read the decision especially since it turned out that the "*mask mandate*" offered to justify prohibiting the Union from meeting with employees in their work areas, instead of the proposed alternative locations in the School of Medicine, was a mandate drummed up for the hearing. It became readily apparent during a Judge-ordered tour wherein participants put on masks and other protective gear to enter the Neonatal Unit that no one else had a mask on -- not a physician, not a nurse, not a parent, nor a neonate. As was concluded during the tour, the only health risk that UC could genuinely articulate was one caused by the "*union bug*".

September 20, 2021

Re: *Freedom to Choose - LA*

Page 5:

Meanwhile, it has just been announced that Oregon is considering exempting police officers from the vaccine mandates because its officers are demanding such. Read the successful challenge in the California Supreme Court brought by the *Long Beach City Employees Association* in 1986, *41 Cal. 3d 937*, to California's Polygraph Statute which required all public employees, except for law enforcement, to submit to polygraphs. The Supreme Court struck the statute in question because law enforcement was exempt -- resulting in a finding that there was impermissible discrimination, to wit a violation of equal protection, while also commenting upon the infringement on one's right of privacy that a polygraph examination invites. Unlike the United States Constitution, California's Constitution specifically recognizes one's right to privacy as well.

Thus, justifications to exempt one group of employees but not others is to create a caste system that is intolerable. Efforts to penalize workers seeking exemptions by now claiming that Religious Exemptions can result in placement of employees on unpaid leave, or that Medical Exemptions previously given because of one's age and/or susceptibilities which justified telecommute assignments can now be revoked are hollow alternatives subject to the whim of government, with no compelling state interest or rationale basis.

Recent news that exemption requests are being scrutinized, at a time when elected and appointed officials have had blanket exemptions built in depending upon where they work, what office they hold, or who their boss is, is itself discriminatory. Distinguishing between members of society who must "*jab*" belies the claim that a genuine medical basis exists for the vaccinations in the first place. One would have expected the banner to otherwise read, "*what is good for the goose, is good for the gander*," But apparently that is not the case, as evidenced by the widely broadcast federal exemptions given to members of Congress and their staffs, court employees and even postal workers. It is rather ironic that prisoners in California were among the first to be vaccinated, even though *Skinner vs. Oklahoma* (1942), 316 U.S. 535 struck a forced sterilization of prisoners' mandate during *World War 2* as unconstitutional. The right to procreate is now at issue even more so.

Suffice it to say that the vaccine mandates and the scheme of passports is divisive and ignores the adverse effects upon the family, our communities, and the fabric of society in general. The ulterior motives of those promoting this in California, the nation, and the rest of the world, do not have your best interests in mind. Famed rock musician, Eric Clapton, who barely survived after receiving his jabs in the United Kingdom has just told the Prime Minister that if only vaccinated can attend his concerts, then he will not play them because that in and of itself is discriminatory.

Efforts by certain members of the County Board of Supervisors to dilute the impact of a vaccine passport by claiming that access to concerts, businesses and stores should be made accessible to those who have taken at least one dose misses the point. Such parsing defies logic, if one insists that having a vaccine is the only way to combat Covid, even though Covid is an alleged virus that has yet to be isolated. Furthermore, if only one dose would be acceptable, then why are you

September 20, 2021

Re: *Freedom to Choose - LA*

Page 6:

being told that booster shots are already in the offing. Do you intend to cram those down the throats of your employees and your constituents as well? For this reason, the demand that employees answer questions, including whether they have received vaccinations since reaching the age of 18, let alone the Covid “*jab*” should be stopped.

It is increasingly obvious that politicians are trying to be scientists while many scientists and medical professionals have turned to their profit margins instead of their Hippocratic oaths. Telling you this is just like another smallpox epidemic ignores what even former heads of the Vaccine companies are now trying to forewarn people about, namely this is a *bioweapon* designed to depopulate the world, while politicians ignore basic tenements of the *Nuremberg Code* embodied in *50 U.S. Code §1520(a)*

Please also ask yourselves why you glorified healthcare workers during the pandemic but are now suddenly threatening their jobs if they continue to refuse to “*jab*”. First responders know precisely what has been happening and their stories need to be told, along with the burgeoning voices of esteemed medical and scientific voices which have been muzzled to date. Recent restricted publicity about the sudden deaths of pilots is frightening, given the heavy reliance upon the airline industry by not only the United States, but the world. It does not appear anyone cares about the serious repercussions which your mandates have and will continue to cause unless stopped.

Suffice it to say, our members do not wish and will not wear “*yellow stars*”, nor will you revive *Manzanar*, on the guise that contact tracing mandates same. The isolation camps setting up in Washington ironically was referenced by the Public Health Director in Ventura in May 2020 when warning Ventura County residents about that County’s rollouts. Thereafter, public housing and dorms for farm workers were targeted for mandatory testing, but such captive audiences should be reexamined since human rights transcends all socio-economic lines.

On behalf of *Freedom to ChooseLA*, which you may access at <https://freedomtochoosela.com> as well as *FreedomtoChooseCA* and *FreedomtoChooseUSA*, we wish to urge you to immediately stop this nonsense and to freeze further implementation of vaccinate mandates, passport proposals and threats of increased usage of the PCR test which has already been shown to not pass muster, either. If it did, considering the increasing number of hospitalizations of vaccinated now suffering from Covid, it would appear you would want vaccinated to take PCR tests as well. But please do not take that as a tacet concession that PCR testing is an alternative because it is not, especially when it is not performed under pristine laboratory conditions.

Our members, to wit, your employees, and their families, do not believe there is any rhyme or reason for your mandates. It is time that a public forum, aired and broadcast by major and fake media, as well as government-controlled outlets allow the true experts to be heard. We are confident that the Alliance of Motion Picture and Television Producers can assist in providing

September 20, 2021
Re: *Freedom to Choose - LA*
Page 7:

major network coverage of such a forum to not only better educate yourselves on the “*jab*”, but the masses who are depending on you to abruptly reverse the path you have started down. We would suggest a Live Public Forum of the Los Angeles County Board of Supervisors, in the *Kenneth Hahn Hall of Administration*, where esteemed experts and victims can be heard, particularly since their input has been grossly suppressed for more than eighteen months.

A few pathologists from abroad as well as in the United States would be happy to share the results of recent autopsies performed on decedents who dutifully accepted their “*human obligation*” to be vaccinated. These same professionals and their colleagues are more than willing to publicly be heard about adverse events, the lack of truthful reporting and the repercussions to the living and the unborn, including due to shedding.

However, if you are unwilling to withdraw your mandates, or at least postpone them so that no employee or student is adversely impacted, then we will have no other choice than to proceed with litigation, not only in Southern California, but throughout the nation. We would prefer to engage in a meaningful dialogue about how a community education program can facilitate a better understanding of these matters, while we are confident labor too will support that request.

Until we hear from you, please do not interpret this grassroots movement as politically motivated because *Freedom to Choose* transcends all boundaries – regardless of one’s politics, race, sex, sexual orientation, national origin, age, disabilities, or religious beliefs. It does not matter whether one is employed in the private or public sector; by a municipality, county, state, or federal government, or covered by a collective bargaining agreement or a simple handshake. *Freedom to Choose* means precisely that!

Very truly yours,

HELENA S. WISE

FDA Safety Surveillance of COVID-19 Vaccines :
DRAFT Working list of possible adverse event outcomes
*****Subject to change*****

- Guillain-Barré syndrome
- Acute disseminated encephalomyelitis
- Transverse myelitis
- Encephalitis/myelitis/encephalomyelitis/meningoencephalitis/meningitis/encephalopathy
- Convulsions/seizures
- Stroke
- Narcolepsy and cataplexy
- Anaphylaxis
- Acute myocardial infarction
- Myocarditis/pericarditis
- Autoimmune disease
- Deaths
- Pregnancy and birth outcomes
- Other acute demyelinating diseases
- Non-anaphylactic allergic reactions
- Thrombocytopenia
- Disseminated intravascular coagulation
- Venous thromboembolism
- Arthritis and arthralgia/joint pain
- Kawasaki disease
- Multisystem Inflammatory Syndrome in Children
- Vaccine enhanced disease

The following table lists the number of adverse events found in the VAERS data which match the outcomes listed above:

FDA listed symptom	Total (Non-Lethal) Adverse Events	Total Deaths	Total (Non-Lethal) AEs for All Other Vaccines (1990-present)	Total Deaths for All Other Vaccines (1990-present)
Guillain-Barre	2813	56	4511	142
Acute Disseminated Encephalomyelitis	215	7	448	30
Transverse Myelitis	631	5	847	16
Encephalitis	2643	339	4876	474
Convulsions/Seizures	16588	537	30049	528
Stroke	16131	1458	1625	113
Narcolepsy, Cataplexy	316	6	386	3
Anaphylaxis	49964	190	41416	173
Acute Myocardial Infarction (Heart Attack)	5344	1500	342	155
Myocarditis/Pericarditis	22980	326	977	88
Autoimmune Disease	2072	33	1126	16
Other Acute Demyelinating Diseases	401	7	862	25
Pregnancy and birth outcomes (Miscarriages)	4607	144	2899	49
Other Allergic Reactions	2450	3	2070	3
Thrombocytopenia	6129	475	3613	136
Disseminated Intravascular Coagulation	266	89	60	25
Venous Thromboembolism	25555	1505	682	114
Arthritis and Arthralgia/Joint Pain	81541	280	29139	79
Kawasaki Disease	94	2	720	9
Systemic Inflammatory Response Syndrome	907	61	367	5

Average Annual Adverse Events by Symptom for Covid-19 Vaccines as a Multiple of All Other Vaccines Combined since 1990

(Data from VAERS through 7/15/22)

Vaccination Related Risks of Covid-19 vs. Flu

These set of figures compare the COVID19 vaccine to the traditional Flu vaccines. 'Risk of Death' percentages depend on the '# of Vaccinations' data, which is only approximate, and was pulled from the [CDC's report](#) on Flu vaccination coverage for the 2019-2020 season, and from [CDC's Vaccination Trends in the US](#) for the COVID19 vaccinations.

Covid19 vaccinations through 5/31/2021 vs. Flu vaccinations 7/1/2019 - 5/31/2020 (last complete flu season)

Vaccine Type	# of Vaccinations ^[3]	# of Deaths	Risk of Death	Percentage	Deaths/Mill. Vaccinations ^[3]
Flu	167,447,642 ^[1]	33	1 in 5,074,171	0.000020%	.20
COVID19	173,493,391 ^[2]	5,798	1 in 29,923	0.003342%	33.42
Risk of dying from COVID vaccine is 170 times greater than Flu Vaccine					

Vaccine Type	# of Vaccinations ^[3]	# of Adverse Reactions	Risk of Adverse Reaction	Percentage	AEs/Mill. Vaccinations ^[3]
Flu	167,447,642	9,728	1 in 17,213	0.00581%	58.10
COVID19	173,493,391	565,581	1 in 307	0.325996%	3,259.96
Risk of adverse reaction from COVID vaccine is 56 times greater than Flu Vaccine					

[1] number of flu vaccinations based on estimated flu vaccine coverage data from [CDC](#) and estimated population data from [US Census](#). Yearly flu vaccination data covers a period of time from 7/1 to 5/31 of the following year.

[2] number of covid19 vaccinations based on estimates from [CDC's Vaccination Trends in the US](#)

[3] Persons vaccinated with at least one dose.

Vaccine Data by Manufacturer

Manufacturer	# of Deaths	% Deaths	Average Deaths/Day	# US Deaths	# US Doses Administered	Average US Deaths/Mill. Doses	Days since EUA approval	EUA Approval Date

FDA Safety Surveillance of COVID-19 Vaccines :
DRAFT Working list of possible adverse event outcomes
*****Subject to change*****

- Guillain-Barré syndrome
- Acute disseminated encephalomyelitis
- Transverse myelitis
- Encephalitis/myelitis/encephalomyelitis/ meningoencephalitis/meningitis/ encepholopathy
- Convulsions/seizures
- Stroke
- Narcolepsy and cataplexy
- Anaphylaxis
- Acute myocardial infarction
- Myocarditis/pericarditis
- Autoimmune disease
- Deaths
- Pregnancy and birth outcomes
- Other acute demyelinating diseases
- Non-anaphylactic allergic reactions
- Thrombocytopenia
- Disseminated intravascular coagulation
- Venous thromboembolism
- Arthritis and arthralgia/joint pain
- Kawasaki disease
- Multisystem Inflammatory Syndrome in Children
- Vaccine enhanced disease

The following table lists the number of adverse events found in the VAERS data which match the outcomes listed above:

FDA Listed Symptom	Total (Non-Lethal) Adverse Events for Covid-19 Vaccine	Total Deaths for Covid-19 Vaccine	Total (Non-Lethal) Adverse Events for All Other Vaccines (1990-present)	Total Deaths for All Other Vaccines (1990-present)
Guillain-Barre	3118	70	4604	147
Acute Disseminated Encephalomyelitis	239	7	456	30
Transverse Myelitis	646	7	852	16
Encephalitis	3077	437	4938	480
Convulsions/Seizures	15892	514	29910	533
Stroke	11100	908	1567	95
Narcolepsy, Cataplexy	279	5	368	3
Anaphylaxis	51108	176	42048	167
Acute Myocardial Infarction (Heart Attack)	5921	1664	363	160
Myocarditis/Pericarditis	24637	407	1022	93
Autoimmune Disease	2616	38	1167	17
Other Acute Demyelinating Diseases	458	7	875	25
Pregnancy and birth outcomes (Miscarriages)	4912	152	2920	50
Other Allergic Reactions	2711	4	2123	3
Thrombocytopenia	5018	432	3412	127
Disseminated Intravascular Coagulation	299	98	61	28

FDA Listed Symptom	Total (Non-Lethal) Adverse Events for Covid-19 Vaccine	Total Deaths for Covid-19 Vaccine	Total (Non-Lethal) Adverse Events for All Other Vaccines (1990-present)	Total Deaths for All Other Vaccines (1990-present)
Venous Thromboembolism	27446	1662	744	121
Arthritis and Arthralgia/Joint Pain	88181	308	29792	81
Kawasaki Disease	95	2	726	7
Systemic Inflammatory Response Syndrome	1053	68	372	7

Vaccination Related Risks of COVID19 Vs. Flu

These set of figures compare the COVID19 vaccine to the traditional Flu vaccines. 'Risk of Death' percentages depend on the '# of Vaccinations' data, which is only approximate, and was pulled from the [CDC's report](#) on Flu vaccination coverage for the 2019-2020 season, and from [CDC's Vaccination Trends in the US](#) for the COVID19 vaccinations.

Covid19 vaccinations through 5/31/2021 vs. Flu vaccinations 7/1/2019 – 5/31/2020 (last complete flu season)

Vaccine Type	# of Vaccinations ^[3]	# of Deaths	Risk of Death	Percentage	Deaths/Mill. Vaccinations ^[3]
Flu	167,447,642 ^[1]	33	1 in 5,074,171	0.000020%	0.20
COVID19	173,479,401 ^[2]	6,360	1 in 27,277	0.003666%	36.66

Risk of dying from COVID vaccine is 186 times greater than Flu Vaccine

Vaccine Type	# of Vaccinations ^[3]	# of Adverse Reactions	Risk of Adverse Reaction	Percentage	AEs/Mill. Vaccinations ^[3]
Flu	167,447,642	9,739	1 in 17,194	0.005816%	58.16
COVID19	173,479,401	578,389	1 in 300	0.333405%	3,334.05

Risk of adverse reaction from COVID vaccine is 57 times greater than Flu Vaccine

^[1] number of flu vaccinations based on estimated flu vaccine coverage data from [CDC](#) and estimated population data from [US Census](#). Yearly flu vaccination data covers a period of time from 7/1 to 5/31 of the following year.

^[2] number of covid19 vaccinations based on estimates from [CDC's Vaccination Trends in the US](#) ^[2]

^[3] Persons vaccinated with at least one dose.

Vaccine Data by Manufacturer

Manufacturer	# of Deaths	% Deaths	Average Deaths/Day	# US Deaths	US Doses Administered	Average US Deaths per 100,000 Doses
JANSEN	2,896	8.61%	4.31	1,911	18,954,913	100
MODERNA	9,330	27.74%	12.57	6,972	248,998,772	28
PFIZER\BIONTECH	21,072	62.65%	28.13	7,254	396,267,682	18
UNKNOWN MANUFACTURER	218	0.65%		64	784,532	

Manufacturer	# of Deaths	% Deaths	Average Deaths/Day	# US Deaths	US Doses Administered	Average US Deaths per Dose
PFIZER\BIONTECH-Bivalent	78	0.23%	0.65	75	30,933,298	2.4
MODERNA-Bivalent	43	0.13%	0.36	43	17,536,128	2.4

Manufacturer	# of AEs	% AEs	Average AEs/Day	# US AEs	US Doses Administered	Average US AEs per Dose
JANSSEN	96,577	6.42%	143.72	71,926	18,954,913	3794
MODERNA	501,458	33.31%	675.82	413,185	248,998,772	1659

I want facts. Data. Analysis. It stuns me how peculiar I have become in this country.

I watched a family of adults go through the process of deciding whether and which jobs. Consulted each other, not a critical brain cell among them.

Ended up shrugging. And submitting.

I've known since 1988, vaccines had no scientific justification and caused harm. I also read about anthrax and squalene. And how little DOD cared about safety, or acknowledged devastating harm afterwards. The surgical team at U of Iowa skinned a man to “solve” his problem. Unsurprisingly the “care” resulted in death.

If it weren't for speakers, researchers, collectors of data, and writers I'd feel completely alone.

Maskless, unjabbed, unlocked down and retired. Thank you so much for reporting on this.

Thank you for compiling this for us! You will certainly be blessed. I'm searching for information on ModeRNA lot number 015B22A. I was only able to obtain what is found here:

<https://wonder.cdc.gov/controller/datarequest/D8;jsessionid=CC3941E4DC9C2A72F534DC4B6F42>. Do you have a breakdown on lot numbers for this,

Please? Appreciation does not go far enough. May God bless you, always.

EXHIBIT "9"

ORDINANCE NO. _____

An ordinance adding Article 10 to Chapter XX of the Los Angeles Municipal Code to require proof of full vaccination with a COVID-19 vaccine to enter certain indoor public locations, large events, and City buildings.

**THE PEOPLE OF THE CITY OF LOS ANGELES
DO ORDAIN AS FOLLOWS:**

Section. 1. Article 10 is added to Chapter XX of the Los Angeles Municipal Code to read as follows:

ARTICLE 10

**PROOF OF FULL VACCINATION WITH A COVID-19 VACCINE REQUIRED TO
ENTER CERTAIN PUBLIC LOCATIONS**

SEC. 200.120. PURPOSE.

The COVID-19 pandemic remains a significant challenge in the City of Los Angeles, particularly in light of the highly contagious delta variant. COVID-19 daily cases and community transmission remain high and, according to health experts, are likely to increase during the coming weeks because respiratory viruses spread more easily in the fall and winter months. The United States Centers for Disease Control and Prevention, California Department of Public Health, and County of Los Angeles Department of Public Health (DPH) uniformly recommend widespread vaccination in order to combat the spread of COVID-19, protect those who cannot be vaccinated by reason of age, safeguard the capacity of the local health care system, and prevent unnecessary and premature deaths. Although vaccines are widely available in the City, many eligible residents are not yet vaccinated. If there is not a significant increase in vaccination coverage, local health experts warn that there will be a cycle of repeated surges every few months. The City has an interest in increasing vaccination rates which, in turn, will help stem the spread of COVID-19 and protect its residents against a disease that threatens the health, safety, and wellbeing of everyone.

On August 24, 2021, the DPH issued a memorandum titled Evaluation of COVID-19 Vaccine Requirements for Indoor Public Spaces, which explained that “[b]ecause Los Angeles County is and has remained at a level of high community transmission, additional layers of protection in certain indoor settings where COVID-19 transmission is more likely to occur must be considered to avoid further negative impacts to the populous and business community.” DPH recommended a vaccination requirement for “indoor public settings that present a higher risk of transmission . . . because of exceptions to the universal indoor masking requirement, increased levels of physical exertion by customers, or large numbers of people at an establishment or the close proximity of employees and/or customers for long periods of time.” DPH allowed for municipalities to require more stringent measures.

On September 17, 2021, DPH issued an Order titled Responding Together at Work and in the Community (Order) with the stated goal of slowing the continuously high trends in and level of transmission of COVID-19. The Order advises “[t]he best way to reduce the current level of community transmission and to prevent future surges is for everyone who is eligible, including those who have recovered from a COVID-19 infection, to get fully vaccinated as soon as possible.” Specifically, the DPH Order mandates proof of vaccination or a negative COVID-19 test for Mega Events defined as event with large crowds, including indoor events with greater than 1,000 attendees and outdoor events with greater than 10,000 attendees. The DPH Order also requires proof of vaccination for all indoor spaces at bars, breweries, wineries, distilleries, nightclubs, and lounges. The locations covered under the DPH Order are required to follow the mandates of the Order. The Order also strongly recommends that operators of all restaurants verify the COVID-19 vaccination status of their patrons for indoor service. The Order does not supersede any stricter limitation imposed by a local public entity and, in announcing the Order, the DPH applauded cities across the County for creating additional safeguards in spaces where people are intermingling with the use of targeted vaccination mandates.

In light of the DPH’s guidance, requiring vaccination of all eligible individuals who frequent recreational indoor businesses that allow groups of unassociated individuals to interact for long periods of time where patrons remove their masks to eat or drink, engage in heavy physical exertion, or do not adequately physically distance, will provide the strongest protection to the health and safety of the City’s residents, including those who for reasons of age cannot be vaccinated. Requiring vaccination or proof of a negative COVID-19 test for large outdoor events between 5,000 and 9,999 attendees also will address several factors that increase the risk of transmission at those events, including crowding, prolonged duration, removal of masks for eating or drinking, and the increased likelihood contagious persons are present when a larger number of people are gathered. Additionally, requiring vaccination for individuals who enter City buildings will protect the health and safety of the City’s workforce who themselves must be vaccinated and will protect the public health at large. These requirements also offer an alternative approach to stringent public health measures such as complete business closures that have been implemented previously. The City of Los Angeles Department of Airports must follow federal regulations concerning air travel and should consider best practices employed by other large airports with respect to protecting its employees and travelers.

The City therefore seeks to promote the health, safety, and welfare of its residents, to protect its workers, and to encourage vaccination, by requiring proof of full vaccination with a COVID-19 vaccine to enter recreational locations and events within the City that routinely allow for higher-risk interaction, and City buildings where City workers put themselves at risk to provide services to the general public. On the premises of these establishments, implementation of a vaccination requirement is critical in order to protect the City’s employees, residents, visitors, and businesses, while also attempting to avoid future shutdowns and maintain the City’s economic

recovery. Nothing herein shall be interpreted to supersede or modify any Orders issued by the DPH, State Public Health Officer, or federal government.

SEC. 200.121. DEFINITIONS.

The following definitions shall apply to this article.

- A. **City** means the City of Los Angeles.
- B. **Citation** means an Administrative Citation issued pursuant to Article 1.2 of Chapter 1 of this Code.
- C. **City Building** means the Indoor Portion of any building, structure, or premises belonging to or under the control of the City.
- D. **Covered Location** means any of the following locations in the City:
 - 1. Establishments where food or beverages are served, including, but not limited to, restaurants, bars, fast food establishments, coffee shops, tasting rooms, cafeterias, food courts, breweries, wineries, distilleries, banquet halls, and hotel ballrooms;
 - 2. Gyms and fitness venues, including, but not limited to: gyms, recreation facilities, fitness centers, yoga, pilates, cycling, barre, and dance studios, hotel gyms, boxing and kickboxing gyms, fitness boot camps, and other facilities used for conducting indoor group fitness classes;
 - 3. Entertainment and recreation venues, including, but not limited to, movie theaters, music and concert venues, live performance venues, adult entertainment venues, commercial event and party venues, sports arenas, convention centers, exhibition halls, museums, malls, shopping centers, performing arts theaters, bowling alleys, arcades, card rooms, family entertainment centers, play areas, pool and billiard halls, and other recreational game centers;
 - 4. Personal care establishments, including spas, nail salons, hair salons, barbershops, tanning salons, estheticians, skin care and cosmetology services, body art professionals, piercing shops, and massage therapy, except as medically required.

A Covered Location does not include any location that does not have an Indoor Portion. A Covered Location does not include any location that is required by a DPH Order to check proof of COVID-19 vaccination status prior to providing indoor service.

Nothing in this article shall be interpreted to preclude locations in the City that are not included in the above list from issuing vaccination requirements. Nothing in this

article shall be interpreted to preclude Covered Locations from issuing more stringent requirements than required by this article.

E. **COVID-19** means coronavirus disease 2019, the infectious disease caused by the SARS-CoV-2 virus that resulted in a global pandemic, including variants thereof.

F. **COVID-19 Vaccine** means a vaccine authorized to prevent COVID-19 by the United States Food and Drug Administration (FDA), including by way of an emergency use authorization, or by the World Health Organization (WHO).

G. **Full Vaccination/Fully Vaccinated** means 14 or more days after completing the entire recommended series of vaccination with a COVID-19 Vaccine. Currently, an individual is considered Fully Vaccinated at least two weeks after receiving a second dose of the Pfizer or Moderna COVID-19 Vaccine or two weeks after receiving the single dose of the Johnson & Johnson Janssen COVID-19 Vaccine.

H. **Individual Eligible for a COVID-19 Vaccine** means a person for whom a COVID-19 Vaccine is authorized for use by the FDA, including by way of an emergency use authorization or, in the case of a foreign visitor or traveler, a person for whom a COVID-19 Vaccine is authorized by the WHO.

I. **Indoor Portion** means any part of a Covered Location or City Facility with a roof or overhang that is enclosed by at least three walls, except that the following will not be considered an Indoor Portion: (1) a structure on the sidewalk or roadway if it is entirely open on the side facing the sidewalk; and (2) an outdoor dining structure for individual parties, such as a plastic dome, if it has adequate ventilation to allow for air circulation.

J. **Non-resident Performer** means a non-resident performing artist, non-resident professional athlete or sports team, or non-resident individual accompanying a performing artist or sports team as part of their regular employment.

K. **Outdoor Large Event** means an outdoor event with between 5,000 and 9,999 attendees. An Outdoor Large Event includes conventions, conferences, expos, concerts, shows, nightclubs, sporting events, live events and entertainment, fairs, festivals, parades, theme parks, amusement parks, water parks, large private events or gatherings, marathons or endurance races, and car shows. Outdoor Large Events may have either assigned or unassigned seating, and may be either general admission or gated, ticketed, and permitted events.

L. **Patron** means an Individual Eligible to Receive a COVID-19 Vaccine who enters, patronizes, attends an event, or purchases goods or services at a Covered Location or Outdoor Large Event.

M. **Photo Identification** means an original or copy of an identification card, including:

1. Driver's license;
2. Government issued identification card;
3. School or work identification card; or
4. Passport.

N. **Proof of Negative COVID-19 Test** means a printed document, email or text message displayed on a phone, from a test provider or laboratory that shows results of a polymerase chain reaction (PCR) or antigen COVID-19 test that either has Emergency Use Authorization (EUA) by the U.S. Food and Drug Administration or is operating per the Laboratory Developed Test requirements by the U.S. Centers for Medicare and Medicaid Services, that was conducted within 72 hours before entry into a Covered Location, City Facility, or Outdoor Large Event. The printed document, email, or text message must include the person's name, type of test performed, date of the test, and negative test result.

O. **Proof of Vaccination** means one of the following demonstrating proof of Full Vaccination:

1. A vaccination card issued by the United States Centers for Disease Control and Prevention (CDC) COVID-19 vaccination card, which includes the name of the person vaccinated, type of vaccine provided, and date last dose administered, or similar documentation issued by another foreign governmental agency;
2. A photo of a vaccination card (both sides), compliant with Subsection O.1, above, as a separate physical photograph or stored on a phone or electronic device;
3. Documentation of vaccination from a licensed healthcare provider;
or
4. A personal digital COVID-19 vaccine record issued by the State of California or similar documentation issued by another state, local, or foreign governmental jurisdiction, or by a private company. California residents can visit the State of California's Digital COVID-19 Vaccine Record website at myvaccinerecord.cdph.ca.gov and download a QR Code on a phone.

SEC. 200.122. PROOF OF VACCINATION REQUIRED FOR A PATRON TO ENTER INDOOR PORTION OF A COVERED LOCATION.

A. Beginning on October 21, 2021, a Covered Location shall display prominently on its premises, visible to Patrons prior to entrance, an advisory notice informing Patrons that, beginning on November 4, 2021, Proof of Vaccination is required to enter any Indoor Portion of a Covered Location.

B. Beginning on November 4, 2021, a Covered Location shall require each Patron to provide Proof of Vaccination upon entering an Indoor Portion of a Covered Location. A Covered Location shall require Proof of Vaccination upon the Patron's first in-person interaction with staff. A Covered Location is required to cross-check Proof of Vaccination for each Patron who appears to be 18 years of age or older against Photo Identification. Subject to the exemptions below, a Patron shall not be permitted to enter an Indoor Portion of a Covered Location without Proof of Vaccination.

1. A Patron may be exempt from the requirements of this section if they are entitled under any applicable law to a reasonable accommodation for a medical condition or restriction or a sincerely held religious belief, as follows.

a. To be eligible for an exemption due to a medical condition or restriction, the Patron must provide the Covered Location with a self-attestation that the Patron has a medical condition or restriction that qualifies the Patron for the exemption.

b. To be eligible for an exemption due to a sincerely held religious belief, the Patron must provide the Covered Location with a self-attestation that the Patron has a sincerely held religious belief that qualifies the Patron for the exemption.

2. If a Covered Location determines a Patron has met the requirements of an exemption pursuant to this section because of a medical condition or restriction or sincerely held religious belief, the Covered Location shall require the Patron to use the portion of a Covered Location that is not an Indoor Portion. If such use is not available, the Patron may be permitted to enter an Indoor Portion of a Covered location by providing Proof of Negative COVID-19 Test and Photo Identification.

3. A Patron who does not provide Proof of Vaccination and who does not qualify for an exemption may use the portion of a Covered Location that is not an Indoor Portion. A Patron who does not provide Proof of Vaccination may be allowed to enter an Indoor Portion of a Covered Location for brief and limited periods of time to use the restroom, order, pick-up, or pay for food or drink "to-go," or perform necessary repairs, provided that the Patron wears a well-fitting mask at all times while in the Indoor Portion of the Covered Location. To the extent feasible, a Covered Location may offer service outside for a Patron who

does not provide Proof of Vaccination, including curbside pickup, drive thru, delivery, and outdoor seating and dining.

4. This section does not apply to a Non-resident Performer, who enters a Covered Location for purposes of performing or competing.

C. A Covered Location must develop and keep a written record describing the protocol for implementing and enforcing the requirements of this article.

SEC. 200.123. PROOF OF VACCINATION REQUIRED TO ENTER AN INDOOR PORTION OF A CITY FACILITY.

A. Beginning on October 21, 2021, a City Facility shall display prominently on its premises, visible to any persons upon entrance, an advisory notice that, beginning on November 4, 2021, Proof of Vaccination is required to enter any Indoor Portion of a City Facility.

B. Beginning on November 4, 2021, an Individual Eligible for a COVID-19 Vaccine shall provide Proof of Vaccination upon entering an Indoor Portion of a City Facility. A City employee at a City Facility is required to cross-check Proof of Vaccination for each individual who appears to be 18 years of age or older against Photo Identification.

C. An Individual Eligible for a COVID-19 Vaccine who does not provide Proof of Vaccination will be provided alternative arrangements for access to government services, to be determined on a case-by-case basis by each department, including, but not limited to, online or remote service, service outdoors, or providing Proof of Negative COVID-19 Test prior to entering any Indoor Portion of a City Facility.

D. This section does not apply to any individual City employee or contractor covered by the COVID-19 Vaccination Requirement for all Current and Future City Employees, Los Angeles Administrative Code Section 4.700 et seq. This section does not apply to a Non-resident Performer who enters a City Facility for purposes of performing or competing.

SEC. 200.124. PROOF OF VACCINATION OR PROOF OF NEGATIVE COVID-19 TEST REQUIRED TO ATTEND OUTDOOR LARGE EVENT.

Beginning on November 4, 2021, an operator of an Outdoor Large Event that is ticketed or held in a defined space with controlled points of entry must verify Proof of Vaccination or Proof of Negative COVID-19 Test for each Patron, prior to entry to the event. An Outdoor Large Event is required to cross-check Proof of Vaccination or Proof of Negative COVID-19 Test for each Patron who appears to be 18 years of age or older against Photo Identification. This section does not apply to a Non-resident Performer, who enters an Outdoor Large Event for purposes of performing or competing.

SEC. 200.125. COMPLIANCE.

A. An operator of a Covered Location or Outdoor Large Event may be issued a Citation for violation of any provision of this article and shall be subject to the following fines:

1. A warning and a notice to correct for a first violation;
2. An administrative fine of \$1,000 for a second violation;
3. An administrative fine of \$2,000 for a third violation;
4. An administrative fine of \$5,000 for a fourth and each subsequent violation.

B. This section shall be enforced beginning on November 29, 2021.

SEC. 200.126. RULES AND REGULATIONS.

The Economic and Workforce Development Department shall promulgate and update as necessary Rules and Regulations consistent with this article for further clarification of the provisions of this article.

SEC. 200.127. SEVERABILITY.

If any subsection, sentence, clause or phrase of this article, or its application to any person or circumstance, is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this article, including its application to other persons or circumstances. The City Council hereby declares that it would have adopted this article and each and every subsection, sentence, clause and phrase thereof not declared invalid or unconstitutional, without regard to whether any portion of the article would be subsequently declared invalid or unconstitutional.

SEC. 200.128. NO CONFLICT WITH FEDERAL OR STATE LAW.

Nothing in this article shall be interpreted so as to create any power or duty in conflict with any state or federal law.

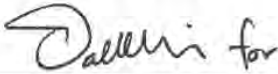

SEC. 200.129. SUNSET.

This article shall sunset upon the lifting of the Declaration of Emergency declared by the Mayor of Los Angeles on March 4, 2020.

Sec. 2. The City Clerk shall certify to the passage of this ordinance and have it published in accordance with Council policy, either in a daily newspaper circulated in the City of Los Angeles or by posting for ten days in three public places in the City of Los Angeles: one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall; one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall East; and one copy on the bulletin board located at the Temple Street entrance to the Los Angeles County Hall of Records.

Approved as to Form and Legality

MICHAEL N. FEUER, City Attorney

DANIA MINASSIAN
Deputy City Attorney

Date 10/6/2021

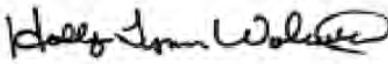

File No. 21-0878

M:\GENERAL COUNSEL DIVISION\ORDINANCES AND REPORTS\ORDINANCES - FINAL YELLOW\LAMC Art. 10, Chapter XX
Vaccine Mandate 10.6.21.docx

The Clerk of the City of Los Angeles hereby certifies that the foregoing ordinance was passed by the Council of the City of Los Angeles.

CITY CLERK

MAYOR

Ordinance Passed October 6, 2021

Approved 10/06/2021

Published Date: 10-08-21
Ordinance Effective Date: 11-08-21

EXHIBIT "10"

RESPONDING TOGETHER AT WORK AND IN THE COMMUNITY
BEYOND THE BLUEPRINT FOR A SAFER ECONOMY, HIGH TRANSMISSION —
ENCOURAGING COVID-19 VACCINATION COVERAGE
WITH MODERATE RISK REDUCTION MEASURES

Issue Date: Tuesday, September 28, 2021
Effective as of 11:59pm on Thursday, October 07, 2021

Brief Highlights (Changes highlighted in yellow):

- Clarifies that starting November 1, 2021, operators of Outdoor Mega Events are required to cross-check proof of full vaccination or negative COVID-19 viral test result against a photo identification for all attendees who are 18 years of age or older.

Please read this Order carefully.

SUMMARY OF THE ORDER: Since June 15, 2021 and after the retiring of the State's Blueprint for a Safer Economy, community transmission of COVID-19 in Los Angeles County has rapidly increased from Low to High. Based on continuously high daily new cases of COVID-19 to a level that indicates High community transmission of the COVID-19 virus, based on the federal Centers for Disease Control and Prevention (CDC) indicators, this Order continues to require masking by all, regardless of vaccination status, in an effort to slow the continuously high trends in and level of transmission of COVID-19 currently being seen in Los Angeles County.

This Order mainly aligns with the State Public Health Officer Order of June 11, 2021 and continues to place certain safety requirements on individuals consistent with federal and state rules. Further, this Order incorporates by reference the July 26, 2021 Order of the State Public Health Officer, which requires specific transmission prevention measures to be taken by Acute Health Care and Long-Term Care settings, High-Risk Congregate settings, and Other Health Care settings. In addition, this Order continues to require that all persons wear face masks while in indoor public settings and businesses, with limited exceptions, as a precautionary measure with this High level of community transmission. On July 28, 2021, the CDC, and the California Department of Public Health each issued new guidance validating the universal indoor masking requirements of this Order. The CDC's Interim Public Health Recommendations for Fully Vaccinated People advises that "preliminary evidence suggests that fully vaccinated people who do become infected with the Delta variant can spread the virus to others" and therefore recommends that fully vaccinated people should wear a mask in indoor settings if they are in a [geographic] area where there is Substantial or High rates of COVID-19 community transmission. Moreover, the State Public Health Officer recommended universal masking, regardless of vaccination status, in public indoor settings across California. The State Public Health Officer explained that universal indoor masking "adds an extra precautionary measure for all to reduce the transmission of COVID-19, especially in communities currently seeing the highest rates of transmission."

In addition, this Order continues some requirements on businesses and government entities, such as a general requirement to report positive cases in the workplace and in schools, a requirement for signage, and a proof of vaccination or testing negative for COVID-19

requirement to admit people to attend Indoor and Outdoor Mega Events. Also, this Order includes best practice recommendations to reduce COVID-19 risk for individuals, businesses, and government entities.

COVID-19 daily cases and community transmission remain high; on **September 28, 2021** alone, Los Angeles County reported **1,147** new cases. As of **September 21, 2021**, and although the test positivity rate and hospitalizations have declined or appear to be stable, Los Angeles County is also reporting a 7-day daily average case rate of **12.9** cases per 100,000 people. This indicates a continued and high risk of COVID-19 infection for those who are not or cannot be vaccinated against COVID-19. Based upon federal CDC indicators and thresholds, this means that community transmission of COVID-19 within the County of Los Angeles is now High, and highly likely to increase during the coming weeks as we start to move into the Winter months when respiratory viruses, like influenza and SARS-CoV-2, have spread more easily.

Even though more people in Los Angeles County and the region are vaccinated against the virus that causes COVID-19, there remains a risk that people may come into contact with others who may have COVID-19 when outside their residence. There are millions of people in Los Angeles County who are not yet vaccinated against COVID-19, including children under 12 years old who are not currently eligible to be vaccinated, and people who are immuno-compromised and may be particularly vulnerable to infection and disease. Most COVID-19 infections are caused by people who have no or mild symptoms of infection. Variants of the virus that spread more easily or cause more severe illness remain present and have increased in our County. In the absence of physical distancing requirements for the public and capacity limits for indoor and outdoor settings, unvaccinated and partially vaccinated persons are more likely to get infected and spread the virus, which is transmitted through the air and concentrates in indoor settings. We have also seen surges in our County and in other parts of the country and the world, continuously impacting younger adults.

At this time, the current COVID-19 vaccines are effective at helping to reduce the risk of getting and spreading the infection and also of getting seriously ill even if a fully vaccinated person gets COVID-19, including against the current variants of the virus that causes COVID-19. Although no vaccine is 100 percent effective at preventing illness in vaccinated people, the currently authorized COVID-19 vaccines remain the best form of protection against COVID-19. Vaccinations remain widely available to those 12 years and older.

The best way to reduce the current level of community transmission and to prevent future surges is for everyone who is eligible, including those who have recovered from a COVID-19 infection, to get fully vaccinated as soon as possible. People at risk for severe illness with COVID-19, such as unvaccinated older adults and unvaccinated individuals with health risks, and members of their households are strongly urged to get vaccinated against COVID-19 as soon as they can if they have not already done so. Those who are not fully vaccinated are urged to adhere to both the required and recommended risk reduction measures.

We must remain vigilant against variants of the virus that causes COVID-19, especially given High levels of transmission here and in other parts of the world and due to the possibility of a new variant being identified for which the current COVID-19 vaccines may not be effective. Currently, the Delta variant remains predominant in Los Angeles County. The Delta variant is

two times as contagious than early COVID-19 variants and continues to lead to increased infections. Further, recent data suggests that the immune response to COVID-19 vaccination might be reduced in some immunocompromised people, which increases their risk of serious health consequences from COVID-19 infection. It is, therefore, prudent to require continued indoor masking for all as an effective public health measure to reduce transmission between people.

This Order is issued to help slow and improve the High level of community transmission of COVID-19 here in Los Angeles County.

This Order's primary intent is to reduce the transmission risk of COVID-19 in the County for all, especially those who are not fully vaccinated and fully vaccinated but immunocompromised persons, in the absence of other protective measures, like physical distancing requirements and capacity limits. Accordingly, this Order allows Businesses, schools, and other activities to remain open while at the same time putting in place certain requirements designed to (1) limit transmission risk of COVID-19 and (2) contain any COVID-19 outbreaks.

This Order will be revised in the future, if needed, to reflect the State Executive Orders, California Division of Occupational Safety and Health's (better known as Cal/OSHA) worksite requirements, State Public Health Officer Orders and guidance, and CDC recommendations. Should local COVID-19 conditions warrant, the County Health Officer may, after consultation with the Board of Supervisors, issue Orders that are more restrictive than those of the State Public Health Officer.

This Order is effective within the County of Los Angeles Public Health Jurisdiction, defined as all cities and unincorporated areas within the County of Los Angeles, with the exception of the cities of Long Beach and Pasadena that must follow their respective City Health Officer orders and guidance. This Order is effective at 11:59pm on Thursday, October 07, 2021 and will continue until further notice.

**UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND
SAFETY CODE SECTIONS 101040, 101085, AND 120175,
THE COUNTY OF LOS ANGELES HEALTH OFFICER ORDERS:**

1. This Order supersedes the Health Officer's Prior Order.
2. This Order's intent is to continue to protect the community from COVID-19, in particular for those who are not or cannot be fully vaccinated¹ against COVID-19 in the County, in the absence of other protective measures and to increase vaccination rates to reduce spread of COVID-19 long-term, so that the whole community is safer and the COVID-19 pandemic can come to an end. Failure to comply with any of the Order's provisions constitutes an imminent threat and menace to public health, and a public nuisance, and is punishable by citation or fine.

¹ People are considered "fully vaccinated" against COVID-19 two weeks or more after they have received the second dose in a 2-dose series (e.g., Pfizer-BioNTech or Moderna) or 2 weeks or more after they have received a single-dose vaccine (e.g., Johnson and Johnson [J&J]/Janssen).

- a) This Order does not supersede any stricter limitation imposed by a local public entity within the County of Los Angeles Public Health Jurisdiction. The Order is consistent with existing authority that local health jurisdictions may implement or continue more restrictive public health measures if the jurisdiction's Local Health Officer determines that health conditions in that jurisdiction warrant such measures. Where a conflict exists between this Order and any State Public Health Officer Order related to controlling the spread of COVID-19 during this pandemic, the most restrictive provision controls, unless the County of Los Angeles is subject to a court order requiring it to act on, or enjoining it from enforcing, any part of this Order.
3. All persons living within the County of Los Angeles Public Health Jurisdiction should continue to practice required and recommended COVID-19 infection control measures at all times and when among other persons when in community, work, social or school settings, especially when multiple unvaccinated persons from different households may be present and in close contact with each other, especially when in indoor or crowded outdoor settings.
4. **Face Masks.** All individuals must follow the requirements included in both the requirements of this Order and the July 28, 2021 Guidance for the Use of Face Coverings issued by the California Department of Public Health.
- a) These requirements are aligned with July 28, 2021 recommendations issued by the CDC. The CDC recommendations provide information about both indoor and higher risk settings where masks are required or recommended to prevent transmission to:
- i. Persons with a higher risk of infection (e.g., unvaccinated or immunocompromised persons),
 - ii. Persons with prolonged, cumulative exposures (e.g., workers), or
 - iii. Persons whose vaccination status is unknown.

When people wear a mask correctly, they protect others as well as themselves. Consistent and correct mask use is especially important indoors and outdoors when in close contact with (less than six feet from) others who are not fully vaccinated against COVID-19 or whose vaccination status is unknown.

- b) Masks are required to be worn by everyone, regardless of COVID-19 vaccination status, in the following settings:
- i. On public transit (examples: airplanes, ships, ferries, trains, subways, buses, taxis, and ride-shares),
 - ii. In transportation hubs (examples: airport, bus terminal, marina, train station, seaport or other port, subway station, or any other area that provides transportation),
 - iii. Indoors in K-12 schools, childcare and other youth settings,
 - iv. Healthcare settings (including long term care facilities),
 - v. State and local correctional facilities and detention centers,
 - vi. Homeless shelters, emergency shelters, and cooling centers,

- vii. All indoor public settings, venues, gatherings, and public and private businesses (some examples: offices, manufacturing, warehouses, retail, food and beverage services, theaters, family entertainment centers, meetings, and state and local government offices serving the public, Indoor Mega Events, among others), and
 - viii. Outdoor Mega Events.
- c) Recommendation for higher level of protection: In indoor public and private settings where there is close contact with other people who may not be fully vaccinated, individuals should consider wearing a higher level of protection, such as wearing two masks (“double masking”) or a wearing a respirator (e.g., KN95 or N95). This is particularly important if an individual is not fully vaccinated and is in an indoor or crowded outdoor setting.
- d) Individuals, businesses, venue operators or hosts of public indoor settings, venues, gatherings, and businesses, and Outdoor Mega Events must:
- i. Require all patrons, customers, and guests to wear masks when inside at all indoor settings and at Outdoor Mega Events, regardless of their vaccination status; and
 - ii. Post clearly visible and easy to read signage, with or without having an employee present, at all entry points for indoor and outdoor settings to communicate the masking requirements for patrons, customers, and guests.
- e) For clarity, patrons, customers, or guests at public indoor settings, venues, gatherings, and public and private businesses, and at Outdoor Mega-Events are required to wear a face mask except while:
- i. Actively eating or drinking, which is the limited time during which the mask can be removed briefly to eat or drink, after which it must be immediately put back on. Patrons, customers, or guests must be seated at a table or positioned at a stationary counter, ticketed seat, or place while actively eating or drinking.
 - ii. Showering or engaging in personal hygiene or a personal care service that requires the removal of the face mask;
 - iii. Alone in a separate room, office or interior space;
- f) Special considerations are made for people with communication difficulties or certain disabilities. Clear masks or cloth masks with a clear plastic panel that [fit well](#) are an alternative type of mask for people who interact with: people who are deaf or hard of hearing, children or students learning to read, people learning a new language, and people with disabilities.
- g) All businesses, venue operators or hosts must implement measures to clearly communicate to non-employees the masking requirements on their premises.
- h) No person can be prevented from wearing a mask as a condition of participation in an activity or entry into a business.
- i) The categories of persons who are exempt from mask requirements remain unchanged at this time and can be found at <http://publichealth.lacounty.gov/acd/ncorona2019/masks/#notwear>. In workplaces,

certain employees may be exempt from wearing a mask when performing specific tasks which cannot feasibly be performed while wearing a mask. This exception is limited to the period of time in which such tasks are actually being performed. Workers who cannot feasibly wear a mask while performing their work must be tested for COVID-19 at least twice per week, unless the employer is provided proof of the employee's full vaccination against COVID-19 or proof of recovery from laboratory-confirmed COVID-19 within the past 90 days against COVID-19.

- j) In workplaces, most employers and businesses are subject to the Cal/OSHA COVID-19 [Emergency Temporary Standards \(ETS\)](#) and some to the [Cal/OSHA Aerosol Transmissible Diseases Standards](#), and should consult those regulations for additional applicable requirements. The ETS allow local health jurisdictions to require more protective mandates. This County Health Officer Order, which requires masking of all individuals at indoor public settings and businesses, and Outdoor Mega-Events, regardless of vaccination status, is a such a mandate in Los Angeles County, and overrides the more permissive ETS regarding employee² masking.
- k) All employers and businesses subject to Cal/OSHA must review and comply with the active Cal/OSHA COVID-19 Prevention Emergency Temporary Standards (ETS). As approved and effective, the full text of the COVID-19 Prevention emergency standards will be listed under [Title 8, Subchapter 7, sections 3205-3205.4](#) of the California Code of Regulations. All businesses or employers with independent contractors should also review the State Labor Commissioner's Office webpage entitled, "[Independent contractor versus employee](#)", which discusses the "employment status" of persons hired as independent contractors, to ensure correct application of the ETS.

5. Mandatory Reporting by Businesses and Governmental Entities. Persons and businesses within the County of Los Angeles Public Health Jurisdiction must continue to follow the COVID-19 infection control protocols and guidance provided by the County Department of Public Health regarding isolation of persons confirmed or suspected to be infected with the virus that causes COVID-19 disease or quarantine of those exposed to and at risk of infection from COVID-19. In instances where the County has not provided a specific guidance or protocol, specific guidance or protocols established by the State Public Health Officer shall control.

- a) In the event that an owner, manager, or operator of any business knows of three (3) or more cases of COVID-19 among their employees within a span of 14 days, the employer must report this outbreak to the Department of Public Health at (888) 397-3993 or (213) 240-7821, or online at www.redcap.link/covidreport.
- b) In the event that an owner, manager, or operator of any business is informed that one or more employees, assigned or contracted workers, or volunteers of the business has tested positive for, or has symptoms consistent with COVID-19 (case), the employer must have a protocol to require the case(s) to isolate themselves at home and require the immediate self-quarantine of all employees that had a workplace exposure to the case(s).

² Some independent contractors are considered as employees under the State Labor Code. For more details, check the California Department of Industrial Relations' [independent contractor versus employee](#) webpage.

6. **LACDPH Best Practice Guidance.** All individuals and Businesses are strongly urged to follow the LACDPH Best Practice Guidance, containing health and safety recommendations for COVID-19.
7. **Considerations for Persons at Higher Risk for Negative Health Outcomes:** At this time, people at risk for severe illness or death from COVID-19—such as unvaccinated older adults and unvaccinated individuals with health risks—and members of their household, should defer participating in activities with other people outside their household where taking protective measures, including wearing face masks and social distancing, may not occur or will be difficult, especially indoors or in crowded spaces. For those who are not yet fully vaccinated, staying home or choosing outdoor activities as much as possible with physical distancing from other households whose vaccination status is unknown is the best way to prevent the risk of COVID-19 transmission.
8. **Encourage Activities that Can Occur Outdoors.** All Businesses and governmental entities are urged to consider moving operations or activities outdoors, where feasible and to the extent allowed by local law and permitting requirements, because there is generally less risk of COVID-19 transmission outdoors as opposed to indoors.
9. **Ventilation Guidelines.** All Businesses and governmental entities with indoor operations are urged to review the Ventilation Guidelines and implement ventilation strategies for indoor operations as feasible. See California Department of Public Health [Interim Guidance for Ventilation, Filtration and Air Quality in Indoor Environments](#) for detailed information. Nothing in this Order limits any ventilation requirements that apply to particular settings under federal, state, or local law.
10. **High-Risk Health Care and Congregate Settings.** This Order incorporates by reference the State Public Health Officer Order of July 26, 2021, which requires additional statewide facility-directed measure to protect particularly vulnerable populations. The Order is found here: [State Public Health Officer Order issued July 26, 2021](#)
11. **Sectors that Continue to Require Additional Risk Reduction Measures.** The following sectors serve persons and populations that have lower rates of vaccination, who are at higher risk of being infected, or who are not yet eligible to be vaccinated. As such, these sectors continue to require additional risk reduction measures and must operate subject to the following conditions listed below and those specified in the County sector-specific reopening protocol(s) located at <http://publichealth.lacounty.gov/media/Coronavirus/index.htm>:
 - a) **Day camps.** Day camp owners and operators must implement and post the required Los Angeles County Department of Public Health Reopening Protocol for Day Camps, attached to this Order as **Appendix K**.
 - b) **Schools (K-12) and School Districts.** All public and private schools (K-12) and school districts within the County of Los Angeles may open for in-person classes. Educational facilities serving students at any grade level must prepare, implement and post the required Los Angeles County Department of Public Health Reopening Protocols for K-12 Schools, attached to this Order as **Appendix T1**, and must follow the Protocol for

COVID-19 Exposure Management Plan in K-12 Schools, attached to this Order as Appendix T2.

- c) **Mega Events (Outdoor and Indoor).** Mega Events are characterized by large crowds greater than 1,000 indoor or 10,000 outdoor attendees. Mega Events include conventions, conferences, expos, concerts, shows, nightclubs, sporting events, live events and entertainment, fairs, festivals, parades, theme parks, amusement parks, water parks, large private events or gatherings, marathons or endurance races, and car shows. Mega Events may have either assigned or unassigned seating, and may be either general admission or gated, ticketed and permitted events. These events are considered higher risk for COVID-19 transmission.
- i. **Indoor Mega Events:** Indoor Mega Events where 1,000 or more people are in attendance, remain open to the public. In addition to the public health recommendations, Indoor Mega Event operators must verify the full vaccination status³ or pre-entry negative COVID-19 viral test⁴ result of all attendees. Attendees must wear a face covering while indoors at an Indoor Mega Event. Indoor Mega Event operators must prominently place information on all communications, including reservation and ticketing systems, to ensure guests are aware of the proof of pre-entry negative testing or full vaccination status, including masking requirements, and acceptable modes of verification. For Indoor Mega Events taking place on or after September 20, 2021, self-attestation can no longer be used as a method to verify an attendee's status as fully vaccinated or as proof of a negative COVID-19 test result.
 - ii. **Outdoor Mega Events:** Outdoor Mega Events that attract crowds of over 10,000 persons, remain open to the public. Beginning October 7, 2021, Outdoor Mega Event operators of events that are ticketed or held in a defined space with controlled points of entry must verify the full vaccination status (see footnote 3) or pre-entry negative COVID-19 viral test (see footnote 4) result of all attendees, ages 12 and older, prior to entry to the event. All attendees must wear face masks at all times, except when actively eating or drinking. Outdoor Mega Event operators must prominently place information on all communications, including reservation and ticketing systems, to ensure guests are aware of both the County Health Officer's Order that all persons must wear a face mask while in attendance and the County Health Officer requirement that all attendees, ages 12 and older, either be fully vaccinated against COVID-19 or obtain a negative COVID-19 viral test prior to attending the event. Beginning November 1, 2021, operators are required to cross-check proof of full vaccination or negative COVID-19 viral test result against a photo

³ The following are acceptable as proof of full vaccination status: 1) A photo identification of the attendee and 2) their vaccination card (which includes name of person vaccinated, type of COVID-19 vaccine provided and date last dose administered) OR a photo of a vaccination card as a separate document OR a photo of the attendee's vaccine card stored on a phone or electronic device OR documentation of the person's full vaccination against COVID-19 from a healthcare provider.

⁴ Pre-entry negative testing is testing that must be conducted within 72 hours before event start time (both PCR and antigen are acceptable). Results of the test must be available prior to entry into the event or venue. The following are acceptable as proof of a negative COVID-19 viral test result: 1) A photo identification of the attendee and 2) a printed document from the test provider or laboratory OR an email or text message displayed on a phone from the test provider or laboratory. The information should include person's name, type of test performed, and negative test result (date of test must be within prior 72 hours).

identification for all attendees who are 18 years of age or older. Operators are to make face masks available for all attendees.

iii. **Additional Recommendations for Both Outdoor and Indoor Mega**

Events: Mega Event operators are encouraged to follow these additional recommendations:

1. Assign staff to remind all guests to wear face masks while on the premises or location.
2. Encourage everyone to get vaccinated when eligible.
3. Facilitate increased ventilation of indoor spaces (i.e., open all windows and doors to increase natural air flow), following California Department of Public Health [Interim Guidance for Ventilation, Filtration and Air Quality in Indoor Environments](#).
4. Encourage everyone to sign up for [CA Notify](#) as an added layer of protection for themselves and the community to receive alerts when they have been in close contact with someone who tests positive for COVID-19.
5. Convey the risk of attending large, crowded events where the vaccine status of other attendees may be unknown to the individuals.
6. Convey the risk of attending large, crowded events for populations that may not currently be eligible for vaccination or may be immunocompromised and whose vaccine protection may be incomplete.
7. Encourage all venues along any parade or event route to provide outdoor spaces for eating/drinking/congregating to reduce the risk of transmission in indoor settings.

d) **Overnight Organized / Children's Camps.** An organized camp is a site with program and facilities established for the primary purpose of providing an overnight outdoor group living experience for recreational or other purposes for five days or more during one or more seasons of the year. A Notice of Intent to Operate must be submitted by the Camp operator to the Environmental Health Division Communityhealth@ph.lacounty.gov prior to operation. The owner or operator of an Overnight Organized/ Children's Camp must prepare, implement, and post the required Los Angeles County Public Health Protocols for Overnight Organized / Children's Camps, attached to this Order as **Appendix K-1**.

e) **Organized Youth Sports Activities.** Organized youth sports include all school (TK-12 Grades) and community-sponsored programs and recreational or athletic activities and privately organized clubs and leagues. Organized Youth Sport Protocols do not apply to collegiate or professional sports. This Protocol provides direction on outdoor and indoor youth sports activities to support an environment that presents less risk for participants of these sports. The organizers and operators of Organized Youth Sport Activities must review, implement, and post the required Los Angeles County Public Health Protocol for Organized Youth Sports, effective September 1, 2021, attached to this Order as **Appendix S**.

- f) **Bars, Breweries, Wineries and Distilleries.** Effective October 7, 2021, bars that have a low-risk food facility public health permit and breweries, wineries, and distilleries with a #1, #2, #4, #23 and/or #74 state alcohol license that do not possess or that are not required to have a public health permit to operate must require patrons, who are 12 years of age or older, to provide proof of their COVID-19 vaccination status for entry. Between October 7 and November 3, 2021, all patrons must provide proof they have received at least one dose of COVID-19 vaccination for entry into the facility to obtain indoor service at a bar, brewery, winery, or distillery. Beginning November 4, 2021, all bars, breweries, wineries, and distilleries must require patrons, who are 12 years of age or older, to provide proof of full vaccination against COVID-19 for entry into the facility to obtain indoor service. Patrons who do not provide proof of vaccination against COVID-19, as specified, may be served in and use the outdoor portions of the facility, where the risk of exposure to the virus that causes COVID-19 is less likely when compared to being indoors. See paragraph 11.i for further clarification. Bars, breweries, wineries, and distilleries must comply with the [Guidance for Verifying Proof of COVID-19 Vaccination](#) and [Guidance for Verifying Proof of a Negative COVID-19 Test](#) attached to this Order. In addition, by November 4, 2021, all on-site employees must provide their employer with proof of full vaccination against COVID-19.⁵
- g) **Nightclubs and Lounges.** Effective October 7, 2021, nightclubs and lounges⁶ that are open only to persons 18 years of age or older, must require patrons and on-site personnel to provide proof of their COVID-19 vaccination status for entry. Between October 7 and November 3, 2021, patrons must provide proof they have received at least one dose of COVID-19 vaccination for entry into the facility to obtain indoor service at a nightclub or lounge. Beginning November 4, 2021, all nightclubs and lounges must require patrons to provide proof of full vaccination for entry into the facility to obtain indoor service. Patrons who do not provide proof of full vaccination against COVID-19 may be served in outdoor portions of the facility, where the risk of exposure to COVID-19 is less likely when compared to indoors. Nightclubs and lounges must comply with the [Guidance for Verifying Proof of COVID-19 Vaccination](#) and [Guidance for Verifying Proof of a Negative COVID-19 Test](#) attached to this Order. In addition, by November 4, 2021, all

⁵ On-site employees of the bars, breweries, wineries, distilleries, nightclubs and lounges may be exempt from the vaccination requirements only upon providing their employer, a declination form, signed by the individual stating either of the following: (1) the worker is declining vaccination based on sincerely held religious beliefs, or (2) the individual is excused from receiving any COVID-19 vaccine due to Qualifying Medical Reasons.

- a. To be eligible for a Qualified Medical Reasons exemption the individual must also provide to their employer a written statement signed by a physician, nurse practitioner, or other licensed medical professional practicing under the license of a physician stating that the individual qualifies for the exemption (but the statement should not describe the underlying medical condition or disability) and indicating the probable duration of the worker's inability to receive the vaccine (or if the duration is unknown or permanent, so indicate). See the most updated version of the [CDC's Interim Clinical Considerations for Use of COVID-19 Vaccines guidance](#).
- b. If an operator of a bar, brewery, winery, distillery, nightclub or lounge deems its on-site employee to have met the requirements of an exemption, the unvaccinated exempt employee must meet the following requirements when entering or working in such facility:
- Test for COVID-19 at least once per week with either polymerase chain reaction (PCR) or antigen test that either has Emergency Use Authorization (EUA) by the U.S. Food and Drug Administration or be operating per the Laboratory Developed Test requirements by the U.S. Centers for Medicare and Medicaid Services.
 - Wear a surgical mask or higher-level respirator approved by the National Institute of Occupational Safety and Health (NIOSH), such as an N95 filtering facepiece respirator, at all times while in the bar, brewery, winery, distillery, nightclub or lounge.

⁶ Nightclub means a commercial establishment dispensing beverages for consumption on the premises and in which dancing is permitted or entertainment is provided, and/or has as its primary source of revenue (a) the sale of alcohol for consumption on the premises, (b) cover charges, or (c) both. A lounge is defined as a business that operates primarily for the preparation, sale, and service of beer, wine, or spirits. Minors are not allowed in a lounge.

on-site employees must provide their employer with proof of full vaccination against COVID-19 (see footnote 5).

- h) **Restaurants.** These indoor venues serve food or drink indoors and are required to maintain a valid public health permit to operate. Due to the increased risk of transmission at places where persons are indoors and unmasked, the County Health Officer strongly recommends that the operators of these venues reserve and prioritize indoor seating and service for patrons who are fully vaccinated against COVID-19. They should verify the full vaccination status of all patrons, 12 years of age or older, who will be seated indoors for food or beverage service. Patrons who cannot provide proof of full vaccination against COVID-19 should be served in outdoor portions of the facility, where the risk of exposure to the virus that causes COVID-19 is less likely when compared to being indoors. See paragraphs 11.i.a through 11.i.c for further clarification.
- i) For clarity, individuals who do not provide proof of partial or full vaccination at bars, breweries, wineries, distilleries, nightclubs and lounges, may use the outdoor portions of the facility, but may not remain inside the facility except as solely provided in the subsections below:
 - a. The individual, who is wearing a well-fitted mask, may enter the indoor portion of the facility as part of their employment to make a delivery or pick-up, provide a service or repair to the facility, or for an emergency or regulatory purpose.
 - b. The individual, who is wearing a well-fitted mask, may enter the indoor portion of the facility to get to the outdoor portion of the facility or to use the restroom.
 - c. The individual, who is wearing a well-fitted mask, may enter the indoor portion of the facility to order, pick-up, or pay for food or drink “to go.”

REASONS FOR THE ORDER

12. This Order is based upon the following determinations: continued evidence of sustained and High community transmission of COVID-19 within the County; documented asymptomatic transmission; scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically; evidence that millions of people in the County population continue to be at risk for infection with serious health complications, including hospitalizations and death from COVID-19, due to age, pre-existing health conditions, being unvaccinated or not eligible for vaccination, and the increasing presence of more infectious variants of the virus that causes COVID-19 and which have been shown to cause more severe disease being present in the County; preliminary evidence that suggests that fully vaccinated people who do become infected with the Delta variant can spread the virus to others; and further evidence that other County residents, including younger and otherwise healthy people, are also at risk for serious negative health outcomes and for transmitting the virus to others. The Order’s intent is to continue to reduce the risk of COVID-19 infection for all, especially those who are not or cannot be fully vaccinated against COVID-19 in the County.

13. Existing community transmission of COVID-19 in Los Angeles County remains High and continues to present a high risk of infection and harm to the health of those who are not or cannot be vaccinated against COVID-19. COVID-19 vaccinations are widely available to those 12 years and older, but as of August 8, 2021, nearly 2.5 million eligible people age 12 years and older in our community have not received a COVID-19 vaccination and remain susceptible to infection, in addition to the approximately 1.4 million children under the age of 12 years who are not currently eligible to receive a COVID-19 vaccination. New variants of the virus that may spread more easily or cause more severe illness are increasingly present in our county and remain a high risk for those who are not vaccinated against COVID-19 in the absence of other community mitigation measures, like physical distancing requirements and capacity limits in indoor and outdoor settings. As of, September 28, 2021, there have been at least 1,456,275 cases of COVID-19 and 26,047 deaths reported in Los Angeles County. Increased interactions among members of the public have resulted in an increased number of daily new cases. As of September 21, 2021, the 7-day average daily case rate is now at 12.9 cases per 100,000 people, indicating High community transmission, in the absence of capacity limits and physical distancing requirements across sectors in both indoor and outdoor settings. Making the risk of community transmission worse, some individuals who contract the COVID-19 virus have no symptoms or have only mild symptoms, and so are unaware that they carry the virus and are transmitting it to others. Because even people without symptoms can transmit the virus, and because new evidence shows the infection is now more easily spread, universal indoor masking is a risk reduction measure that is proven to reduce the risk of transmitting the virus.

14. Epidemiologic evidence demonstrates that the rate of community transmission, hospitalizations and testing positivity rates have all drastically increased since June 15, 2021. Although more than 12,345,075 vaccine doses have been administered and more than 6,062,928 residents ages 12 and older are fully vaccinated against COVID-19 in Los Angeles County, COVID-19 infection remains a significant health hazard to all residents.

In line with the State Public Health Officer, the Health Officer will continue to monitor scientific evidence and epidemiological data within the County.

15. The Health Officer will continue monitoring epidemiological data to assess the impact of lifting restrictions and fully re-opening sectors. Those Indicators include, but are not limited to:

- a) The number of new cases, hospitalizations, and deaths among residents in areas in the lowest Healthy Places Index (HPI) quartile and by race/ethnicity.
- b) The COVID-19 case rate.
- c) The percentage of COVID-19 tests reported that are positive.
- d) The availability of COVID-19 vaccines and the percentage of eligible County residents vaccinated against COVID-19.
- e) The number of fully vaccinated people who get sick, are hospitalized, or die from COVID-19.

ADDITIONAL TERMS

16. The County shall promptly provide copies of this Order by: (a) posting it on the Los Angeles Department of Public Health's website (www.publichealth.lacounty.gov), (b) posting it at the Kenneth Hahn Hall of Administration located at 500 West Temple Street, Los Angeles, CA 90012, (c) providing it to any member of the public requesting a copy, and (d) issuing a press release to publicize the Order throughout the County.
- a) The owner, manager, or operator of any facility that is likely to be impacted by this Order is strongly encouraged to post a copy of this Order onsite and download, review and implement all applicable Best Practice Guidance.
 - b) Because guidance may change, the owner, manager, or operator of any facility that is subject to this Order is encouraged to consult the Los Angeles County Department of Public Health's website (www.publichealth.lacounty.gov) daily to identify any modifications to this Order and the Best Practice Guidance and continue to implement these important and necessary infection control protocols.
17. If any subsection, sentence, clause, phrase, or word of this Order or any application of it to any person, structure, gathering, or circumstance is held to be invalid or unconstitutional by a decision of a court of competent jurisdiction, then such decision will not affect the validity of the remaining portions or applications of this Order.
18. This Order incorporates by reference, the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom and the March 4, 2020 declarations of a local and public health emergency issued by the Los Angeles County Board of Supervisors and Los Angeles County Health Officer, respectively, and as they may be supplemented.
19. This Order may be revised in the future as the State Public Health Officer amends its guidance to reflect evolving public health conditions and recommendations issued by the federal CDC and other public health authorities. Should local COVID-19 conditions warrant, the Health Officer may, after consultation with the Board of Supervisors, issue orders that are more restrictive than the guidance and orders issued by the State Public Health Officer.
20. This Order is consistent with the provisions in the Governor's Executive Order N-60-20 and the State Public Health Officer's May 7, 2020 Order, that local health jurisdictions may implement or continue more restrictive public health measures in the jurisdiction if the local health officer believes conditions in that jurisdiction warrant them. Where a conflict exists between this Order and any state public health order related to controlling the spread of COVID-19 during this pandemic, the most restrictive provision controls. Consistent with California Health and Safety Code section 131080, except where the State Health Officer may issue an order expressly directed at this Order or a provision of this Order and based upon a finding that a provision of this Order constitutes a menace to the public health, any more restrictive measures in this Order may continue to apply and control in the County of Los Angeles Public Health Jurisdiction.

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER**

21. Pursuant to Sections 26602 and 41601 of the California Government Code and Section 101029 of the California Health and Safety Code, the Health Officer requests that the Sheriff and all chiefs of police in all cities located in the Los Angeles County Public Health Jurisdiction ensure compliance with and enforcement of this Order. The violation of any provision of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment or both.
22. This Order is issued pursuant to Health and Safety Code sections 101040, 120175, and 120295.
23. This Order shall become effective at 11:59pm on Thursday, October 07, 2021 and will continue to be until it is revised, rescinded, superseded, or amended in writing by the Health Officer.

IT IS SO ORDERED:

A handwritten signature in blue ink, appearing to read 'Muntu Davis, M.D., M.P.H.', is written over a horizontal line.

Muntu Davis, M.D., M.P.H.

Health Officer,
County of Los Angeles

EXHIBIT "11"

County of Los Angeles
Department of Human Resources
POLICIES, PROCEDURES, AND GUIDELINES

Subject: COVID-19 VACCINATION POLICY	Policy Number: 640	Pages: 7
	Effective Date: October 1, 2021	
	Approved By: 	

PURPOSE

It is the obligation of the County of Los Angeles (County) to provide a safe and secure workplace.

Guidance provided by the federal Centers for Disease Control and Prevention (CDC), the California Department of Public Health (CDPH), the Los Angeles County Department of Public Health (DPH), and other local health authorities related to the SARS-CoV-2 virus (COVID-19) uniformly cite vaccination as the most effective way to prevent transmission and limit COVID-19 hospitalizations and deaths. Unvaccinated County workforce members are at greater risk of contracting and spreading COVID-19 within the workplace, at County facilities, and to/from the public that depends on County services.

To best protect its workforce members and others in County facilities from the spread of COVID-19, and fulfill its obligations to the public, the County is adopting a *COVID-19 Vaccination Policy* (Policy).

In alignment with the directive of the Los Angeles County Board of Supervisors, this Policy is effective as of October 1, 2021. Upon termination of the local emergency proclaimed by the Chair of the Board of Supervisors on March 4, 2020, the Department of Human Resources will review the Policy and determine whether it should be modified or terminated.

POLICY

All County workforce members must be fully vaccinated against COVID-19 and must provide proof of full vaccination against COVID-19, unless they have been granted an exemption as outlined in this Policy.

Failure to comply with this Policy may result in corrective action, up to and including discharge, in accordance with the accompanying *COVID-19 Vaccination Policy Corrective Action Plan* and Countywide authorities.

Subject: COVID-19 VACCINATION POLICY	Policy Number: 640 Effective Date: October 1, 2021
---	---

DEFINITIONS

"County workforce members" means County employees (including all full-time, part-time, recurrent, probationary, temporary, and as-needed County employees regardless of appointment status), interns, volunteers, and commissioners.

"Fully vaccinated" means it has been at least two weeks since an individual has received:

1. The second dose in a two-dose COVID-19 vaccine series, such as the Pfizer-BioNTech or Moderna vaccines;
2. A single-dose COVID-19 vaccine, such as the Johnson and Johnson [J&J]/Janssen vaccine; or
3. The final dose of any vaccine authorized by the World Health Organization (e.g. AstraZeneca/Oxford).

"COVID-19 booster shot" means any additional dose of a COVID-19 vaccine authorized for use by the U.S. Food and Drug Administration (FDA).

"Unvaccinated" means an individual is not fully vaccinated.

"Proof of Vaccination" means any of the following documentation showing that an individual is vaccinated:

- Official COVID-19 Vaccination Record Card (issued by the Department of Health and Human Services CDC or World Health Organization Yellow Card), which includes the name of the person vaccinated, type of vaccine provided, and date of the last dose administered ("Vaccination Record Card");
- Copy (including a photographic copy) of a Vaccination Record Card;
- Documentation of vaccination from a licensed medical provider;
- A digital record that includes a QR code that when scanned by a SMART Health Card reader displays to the reader client name, date of birth, vaccine dates, and vaccine type. *The QR code must also confirm the vaccine record as an official record of the State of California;* or
- Documentation of vaccination from contracted employers who follow the CDPH vaccination records guidelines and standards.

PROCEDURES

Vaccination Requirement

Unless otherwise prescribed by federal, state or local orders:

Subject: COVID-19 VACCINATION POLICY	Policy Number: 640 Effective Date: October 1, 2021
---	---

1. All new County workforce members and rehires commencing County service after the effective date of this Policy must be fully vaccinated against COVID-19 and must provide proof of vaccination against COVID-19 or request an exemption as outlined in this Policy during the onboarding process.
2. All County workforce members must be fully vaccinated against COVID-19 and must provide proof of vaccination against COVID-19, unless they have been granted an exemption as outlined in this Policy.
3. County workforce members may be required to receive and provide proof of receipt of a COVID-19 booster shot to be considered fully vaccinated in accordance with CDC or CDPH definitions.

Proof of vaccination may be subject to review and audit.

Request for Exemptions

County employees may request an exemption from this Policy's COVID-19 vaccination requirement due to the following:

- A medical condition that does not allow them to get vaccinated for COVID-19; or
- A sincerely held religious belief, practice, or observance that conflicts with receiving a COVID-19 vaccine.

In accordance with federal and state law, the County is obligated and committed to ensure the equitable treatment of all employees regardless of disability, religion or other protected characteristics. Medical conditions that may qualify for an exemption under this Policy include (1) a contraindication or precaution to COVID-19 vaccination recognized by the CDC or vaccine manufacturers; or (2) a disability or medical condition as determined by a licensed medical provider that interferes with the employee's ability to receive a COVID-19 vaccine.

Personal or philosophical objections to a COVID-19 vaccine are not sufficient justification for granting an exemption under this Policy.

County employees seeking an exemption from the COVID-19 vaccination requirement must submit the appropriate completed Request for Accommodation forms to their Departmental Human Resources Manager (DHRM) or designee. All requests for exemption will be reviewed on a case-by-case basis. Submission of a request for exemption does not automatically excuse an employee from the requirements of this Policy. County departments will engage an employee requesting an exemption in a timely, good faith interactive process. County employees represented by a union may request union representation during the interactive process.

Subject: COVID-19 VACCINATION POLICY	Policy Number: 640 Effective Date: October 1, 2021
---	---

No corrective action will be taken until the interactive process is complete and the employee is notified in writing of the outcome of their request and any request for reconsideration, if applicable.

County employees who request an exemption may be subject to additional requirements to help maintain workplace safety, in alignment with federal, state and local public health guidance. Such requirements may include masking, physical distancing, and/or regular COVID-19 testing as a condition of continued employment.

NOTE: County workforce members covered under the State Public Health Officer Orders of July 26, 2021 (Health Care Worker Protections in High-Risk Settings), August 5, 2021 (Health Care Worker Vaccine Requirement), August 19, 2021 (State and Local Correctional Facilities and Detention Centers Health Care Worker Vaccination Requirement), the Los Angeles County Health Officer Order of August 12, 2021 (Health Care Worker Vaccination Requirement), and similar orders covering County workforce members must also satisfy the requirements in those orders. Departments subject to these orders may take any non-disciplinary operational actions necessary to comply with them. However, any disciplinary actions taken for violations of this Policy must be in accordance with this Policy and the accompanying *COVID-19 Vaccination Policy Corrective Action Plan*.

Regular Testing Requirements

Unvaccinated County workforce members may be required to undergo regular COVID-19 testing as a condition of continued employment. However, testing does not eliminate the requirement that County workforce members must be fully vaccinated unless they have been granted an exemption. Testing frequency will be determined by the County in its discretion, which may be informed by federal, state and local public health guidance, among other relevant considerations. Unvaccinated County workforce members may be required to submit to regular COVID-19 testing through a provider and at a location designated by the County. Unvaccinated County workforce members who are asymptomatic and without a recent exposure may return to the workplace while awaiting routine test results.

County workforce members undergoing regular COVID-19 testing at the direction of their department are required to provide proof of testing through the system designated by the County and notify their Departmental Human Resources Manager and/or designee of test results in accordance with department safety protocols.

Workplace Screening Requirements and Safety Protocols

County workforce members must adhere to all applicable workplace screening requirements and safety protocols when in a County facility or work location and/or when in contact with other County workforce members or members of the public while working.

Subject: COVID-19 VACCINATION POLICY	Policy Number: 640 Effective Date: October 1, 2021
---	---

A County workforce member who receives a positive COVID-19 test result must immediately remove themselves from the County workplace and take all applicable workplace safety measures in accordance with federal, state and local requirements and department safety protocols. They may not return to work until after they have completed the relevant isolation period for COVID-19 infection. In accordance with CDC guidance, a County workforce member who tests positive for COVID-19 based on a viral test should not be subjected to testing pursuant to this Policy for 90 days following the onset of initial symptoms or the date of the first positive viral test result if the employee never had symptoms, so long as the County workforce member does not develop new symptoms during the 90-day period.

Testing on County Time

Consistent with existing practice, County employees shall be allowed reasonable time to test for COVID-19. Exempt employees will continue to receive their regular pay for such activities under the following conditions:

- Leave to receive a COVID-19 test shall be requested and approved as far in advance as reasonable to minimize interruption of departmental services or operations.
- The employee may be required to provide verification of receipt of the COVID-19 test in order to receive paid time off for these purposes.

Paid time off to receive COVID-19 testing may include the time an employee spent traveling to and from a location to receive the COVID-19 test. Under no circumstances within the control of or reasonably foreseeable by the employee shall an employee accrue overtime or compensatory time spent for COVID-19 testing purposes. Eligible employees who are designated as mileage permittees or occasional drivers/permittees (as designated by their department) are eligible for mileage reimbursement, if appropriate.

Testing will be provided at no cost to the employee. Where practicable, onsite testing will be offered. An employee should request reasonable time off from their supervisor to test for COVID-19.

Vaccination on County Time

County employees shall be allowed reasonable paid time off to receive or recover from a COVID-19 vaccination or booster shot required by the County. Employees will continue to receive their regular pay for such activities under the following conditions:

- Leave shall be requested and approved as far in advance as reasonable to minimize interruption of departmental services or operations.
- The employee may be required to provide verification of receipt of the COVID-19 vaccine as outlined in this policy in order to receive paid time off.

Subject: COVID-19 VACCINATION POLICY	Policy Number: 640 Effective Date: October 1, 2021
---	---

Paid time off to receive a COVID-19 vaccine may include the time an employee spent traveling to and from a vaccination appointment, receiving the vaccination, and recovering from vaccination-related side effects that prevent the employee from being able to work or telework.

Under no circumstances within the control of or reasonably foreseeable by the employee shall an employee accrue overtime or compensatory time spent for COVID-19 vaccination purposes. Eligible employees who are designated as mileage permittees or occasional drivers/permittees (as designated by their department) are eligible for mileage reimbursement, if appropriate.

Confidentiality of Records

Records pertaining to an employee's vaccination status and COVID-19 tests are considered confidential health records for purposes of the County's employee records and privacy policies and are only to be shared with individuals who have a legitimate need to know such information, as required by law.

**COUNTY OF LOS ANGELES
COVID-19 VACCINATION POLICY**

EXEMPTION / REASONABLE ACCOMMODATION GUIDELINES

I. INTRODUCTION

It is the obligation of the County of Los Angeles (County) to provide and support a safe and secure workplace. Guidance provided by the federal Centers for Disease Control and Prevention, the California Department of Public Health, the Los Angeles County Department of Public Health, and other local health authorities related to the SARS-CoV-2 virus (COVID-19) uniformly cite vaccination as the most effective way to prevent transmission and limit COVID-19 hospitalizations and deaths. Unvaccinated County employees are at greater risk of contracting and spreading COVID-19 within the workplace, at County facilities, and to the public that depends on County services. To best protect its workforce members and others in County facilities, and fulfill its obligations to the public, the County is requiring that all County employees be vaccinated against COVID-19 infection to protect the health of our workforce, their families, customers and visitors, and the community at large, and help to stem the spread of COVID-19.

County employees may request an exemption from this vaccination policy due to the following:

- A medical condition or disability that does not allow them to get vaccinated against COVID-19; or
- A sincerely held religious belief, practice, or observance that conflicts with the employee's ability to get a COVID-19 vaccine.

Social, political, or economic philosophies, as well as mere personal preferences, are not sufficient justification for granting an exemption under the County's policy.

COMPLIANCE WITH FEDERAL AND STATE LAWS

The Americans with Disabilities Act and the California Fair Employment and Housing Act (FEHA) prohibit employment discrimination against applicants and employees on the basis of disability. Title VII of the Civil Rights Act (Title VII) and the FEHA prohibit employment discrimination against applicants and employees on the basis of religion. In accordance with these laws, it is the policy of the County to provide equal employment opportunities to disabled applicants and employees, and applicants and employees with sincerely held religious beliefs, practices, or observances.

COMPLIANCE WITH THE EQUAL EMPLOYMENT OPPORTUNITY POLICY

Discriminating against, or harassing employees, applicants or persons providing services by contract to the County of Los Angeles because of their sex, race, age, religion, color, national origin, ancestry, physical disability, mental disability, medical condition

(associated with cancer, a history of cancer, or genetic characteristics), HIV/AIDS status, genetic information, marital status, sexual orientation, gender, gender identify, gender expression, military and veteran status, or other protected category under the law is prohibited and unlawful.

II. MEDICAL AND RELIGIOUS EXEMPTIONS

Departments must consider an employee's request for a reasonable accommodation which exempts them from complying with the County's COVID-19 vaccination policy due to a medical condition or a sincerely held religious belief, practice, or observance.

Departments must review requests for exemption from the County's COVID-19 vaccination policy on a case-by-case basis and engage in an interactive process with employees who submit such requests.

Exemptions from the COVID-19 vaccination requirement may be granted under the following circumstances:

1. the employee has a medical condition that conflicts with their ability to get a COVID-19 vaccination; or
2. the employee holds a sincere religious belief, practice, or observance that conflicts with the employee's ability to get a COVID-19 vaccine.

Unvaccinated County employees who receive an exemption may be required to undergo regular COVID-19 testing as a condition of continued employment. Testing frequency is at the discretion of the County and will be informed by federal, state and local public health guidance. County employees may be required to submit to regular COVID-19 testing through a provider and at a location designated by the County. Asymptomatic employees may return to the workplace while awaiting test results.

County employees undergoing regular COVID-19 testing at the direction of their department are required to provide proof of testing and results to their Departmental Human Resources Manager and/or designee upon receipt.

Regardless of test results, County employees must adhere to all workplace screening requirements and safety protocols when in a County facility or work location and/or when in contact with other County employees or members of the public while working.

NOTE: County workforce members covered under the State Public Health Officer Orders of July 26, 2021 (Health Care Worker Protections in High-Risk Settings) and August 5, 2021 (Health Care Worker Vaccine Requirement) must also satisfy the requirements in those orders, including any process for seeking exemption as outlined by those respective orders.

PROCEDURES FOR MANAGING REQUESTS FOR MEDICAL EXEMPTION

1. The employee is encouraged to complete and sign the ***Request for Medical Accommodation Form*** on or before October 15, 2021. The employee must also submit a completed ***Healthcare Provider Certification Form*** from their licensed healthcare provider to support their request. Both the ***Request for Medical Exemption Accommodation Form*** and the ***Healthcare Provider Certification Form*** should be submitted at the same time.

Completed forms must be submitted to the Departmental Human Resources Manager (DHRM) or their designee; forms may be submitted electronically or via hard copy. If an employee needs additional time to request their healthcare provider submit the relevant medical information supporting the employee's request for a medical exemption, the employee can request ten (10) additional business days following their initial submission of the ***Request for Medical Accommodation Form*** to provide a completed ***Healthcare Provider Certification Form***. The employee must request such an extension in writing. The department may then authorize the ten (10) additional business days for the employee to submit the completed ***Healthcare Provider Certification Form***. Confirmation of the extension will be provided by the department in writing.

2. The department must acknowledge receipt of an employee's request for a medical exemption from the COVID-19 vaccination policy within three (3) business days of receipt. Acknowledgements may be made by email stating that the request has been received.
3. Designated department personnel must engage employees in a timely, good faith interactive process if the need for a medical exemption from the COVID-19 vaccination requirement is not established by the required forms submitted by the employee.
4. ***Designated department personnel must make a determination within fourteen (14) business days from receipt of a completed exemption request.***

For approved requests, designated department personnel must use the ***Approval of Request for Accommodation Form*** to document and communicate the department's determination.

5. For requests that are denied, designated department personnel must use the ***Denial of Request for Exemption Form***. The reason(s) for any denial must be stated on the form.

6. Copies of all forms must be uploaded to the disability management module on the Ventiv platform; along with the employee's "unvaccinated" status for the purpose of tracking COVID-19 testing.

PROCEDURES FOR MANAGING REQUESTS FOR RELIGIOUS EXEMPTION

1. The employee is encouraged to complete and sign the ***Request for Religious Accommodation Form*** on or before October 15, 2021.
2. Completed ***Request for Religious Accommodation Forms*** are to be submitted to the Departmental Human Resources Manager (DHRM) or their designee; this form may be submitted electronically or via hard copy. If additional time is needed to provide the completed form, the employee must submit a written request for extension. The department may authorize up to ten (10) additional business days for the employee to obtain and submit the completed forms. Confirmation of the extension will be provided by the department in writing.
3. The department must acknowledge receipt of an employee request for a religious exemption from the COVID-19 vaccination policy within three (3) business days of receipt. Acknowledgements may be made by email stating that the request has been received.
4. Designated department personnel must engage employees in a timely, good faith interactive process if the need for a religious exemption from COVID-19 vaccination requirements is not established by the completed ***Request for Religious Accommodation Form***.

NOTE: In situations where, after engaging the employee in the interactive process, the department becomes aware of facts that provide an objective basis for questioning either the religious nature or the sincerity of a requesting employee's particular belief, practice, or observance, the department may seek additional information to support an employee's religious accommodation request by issuing the employee a ***Religious Accommodation Statement Form***.

Before releasing the *Religious Accommodation Statement Form* to the employee, the department must consult and receive approval from the Principal Analyst in the Department of Human Resources' (DHR) Occupational Health Programs Disability Management & Compliance Unit and their assigned Deputy County Counsel in the Labor & Employment Division.

If a request for additional information is appropriate, the **Religious Accommodation Statement Form** will be authorized to be provided to the employee, and the employee will have ten (10) business days to submit a completed **Religious Accommodation Statement Form** from their religious leader, religious scholar, or a person knowledgeable regarding the employee's religious belief(s), practice(s) or observance(s) to support their request.

Additional information which the employee can, at their discretion, submit as part of a completed **Religious Accommodation Statement Form** may include:

- Articles from religious scholars that describe the nature of the religious belief(s), practice(s), or observance(s) and the need for an exemption from COVID-19 vaccination
 - Excerpts from religious or sacred texts explaining the religious belief(s), practice(s), or observance(s) that conflicts with the employee's ability to get the COVID-19 vaccination;
 - Written materials that describe the religious belief(s), practice(s), or observance(s) that prohibit vaccination;
 - Statements, or other documents from the employee describing their religious belief(s), practice(s), or observance(s), as well as when, where, and how the employee has adhered to the belief, practice, or observance that conflicts with the employee's ability to get the COVID-19 vaccination;
 - or
 - Statements, or other documents from persons identified by the employee as having knowledge of whether the employee adheres to the religious belief(s), practice(s), or observance(s) that conflicts with the employee's ability to get a COVID-19 vaccination (e.g., religious leader, family, friend, neighbor, supervisor, or coworker who may have observed the employee's past adherence, or lack thereof, or discussed it with the employee).
5. Designated department personnel must make a determination within fourteen (14) business days from receipt of the employee's completed exemption request.
 6. For approved accommodation requests, designated department personnel must use the **Approval of Request for Accommodation Form** to document and communicate the department's determination.
 7. When an exemption is approved, the **Approval of Request for Accommodation Forms** will be uploaded to the disability management module on the Ventiv platform.
 8. **Before a department denies a request for accommodation based on religious grounds, the department must consult and receive approval from the Principal Analyst in DHR's Occupational Health Programs Disability**

Management & Compliance Unit and their assigned Deputy County Counsel in the Labor & Employment Division. For denied requests, designated department personnel must use the ***Denial of Request for Exemption Form***. The reason(s) for any denial must be stated on the form.

III. PROCEDURES WHILE AN EMPLOYEE'S REQUEST FOR EXEMPTION IS PENDING

While exemption requests are pending, departments may inform employees they will or may be subject to the following safety protocols for unvaccinated employees:

- Regular COVID-19 testing at a County-designated COVID-19 Testing Location. Unless otherwise required by an applicable public health order, testing frequency will be at the discretion of the County and will be informed by federal, state and local public health guidance.

Employees may also be required to provide proof of testing and results to their Departmental Human Resources Manager and/or designee upon receipt.

- Employees with a positive COVID-19 test result must immediately remove themselves from the workplace and take all applicable workplace safety measures in accordance with federal, state and local requirements and department safety protocols. Employees may not return to work until after having completed the relevant isolation or quarantine period for a COVID-19 infection.

Regardless of test results, employees must adhere to all workplace screening requirements and safety protocols when in a County facility or work location and/or when in contact with other County employees or members of the public while working.

- Employees may be directed to comply with the specific departmental safety practices applicable to their position.

IV. PROCEDURES FOR SEEKING RECONSIDERATION OF A DEPARTMENT'S DENIAL OF AN EXEMPTION REQUEST

Employees may seek reconsideration of a Department's denial of a request for exemption from the Department of Human Resources. Employees seeking reconsideration must submit a completed ***Request for Reconsideration Form*** within ten (10) business days of a Department's denial.

DHR will acknowledge receipt of a reconsideration request within five (5) business days. DHR will issue a Final Determination Notice to the employee within fourteen (14) days from receipt of a request for reconsideration.

**COVID-19 VACCINATION POLICY
CORRECTIVE ACTION PLAN**

I. INTRODUCTION

It is the obligation of the County of Los Angeles (County) to provide and support a safe and secure workplace. In accordance with guidance provided by the Centers for Disease Control and Prevention, the California Department of Public Health, and local health authorities, the County is adopting a *COVID-19 Vaccination Policy* (Policy) to protect the health of our workforce and their families, customers and visitors, and the community at large from the spread of COVID-19.

County departments must ensure employees are in full compliance with the Policy. This Corrective Action Plan (Plan) identifies the corrective actions that departments must take in response to employees' noncompliance with the Policy and that employees must take to remedy noncompliance.

Unless otherwise expressly provided in the Policy, any corrective action taken as a result of employees' noncompliance with the Policy will be consistent with existing Countywide and departmental policies, procedures and guidelines, as well as applicable Memoranda of Understanding provisions. Failure to comply with the Policy will result in corrective action, up to and including discharge.¹

Employees shall retain their rights under applicable MOU procedures or Civil Service Rules to challenge any discipline issued under this Policy.

II. EMPLOYEE NONCOMPLIANCE WITH VACCINATION REQUIREMENT

All County employees must be fully vaccinated against COVID-19 and provide proof of full vaccination against COVID-19, unless they have been granted an exemption under state or federal regulations or have a pending request for an exemption as outlined in the Policy. Additionally, employees may be required in the future to receive and provide proof of receipt of a COVID-19 booster shot.

If a department determines that an employee is noncompliant with the foregoing vaccination requirements, it must take the actions outlined below.

A. Notice of Vaccination Requirement

- An employee who does not provide proof of full vaccination and has not submitted a request for exemption to their Departmental Human Resources Manager or designee will be issued a Notice of Vaccination Requirement by their department.

¹ Probationary, recurrent, and temporary workforce members will not be subject to the disciplinary actions described in this Plan; consistent with existing practice, applicable authorities will be used to address any failure to comply with the Policy.

- The Notice of Vaccination Requirement will instruct an employee who is noncompliant with the full vaccination requirement to submit proof of receipt of all doses of a COVID-19 vaccine within forty-five (45) calendar days from the date the Notice was sent to the employee. The Notice of Vaccination Requirement will state that it does not constitute discipline and inform the employee that the department may initiate disciplinary action if the employee fails to comply with the Notice's requirements.
- An employee will not receive a Notice of Vaccination Requirement for failure to provide proof of full vaccination where the employee has submitted proof of receipt of all doses of a COVID-19 vaccine, even if two weeks have not yet passed since receipt of the final dose.
- At the time a Notice of Vaccination Requirement is issued to an employee for failure to provide proof of full vaccination, and before any formal disciplinary action is taken for such noncompliance, the employee's department will provide the employee a fact sheet containing current scientific information about COVID-19 vaccination.
- Disciplinary action will not be taken against an employee who has submitted a completed request for exemption from the vaccination requirement before the employee is notified of the outcome of their request and, where applicable, the outcome of their request for reconsideration. In the event an employee's accommodation request is denied, the timeframe for compliance with the vaccination requirement will be provided to them in the decision denying the exemption request or the decision denying the request for reconsideration, if applicable.
- Should a booster shot become required to meet the definition of "fully vaccinated" under the Policy, employees will be provided notice of the requirement and a thirty (30) calendar-day period to comply from the date the notice is issued. An employee who fails to comply with the notice will be subject to the disciplinary process established in Part B.

B. Disciplinary Action for Noncompliance

- If an employee fails to comply with the requirements outlined in the Notice of Vaccination Requirement or the timeline set in the decision denying the exemption request or the decision denying the request for reconsideration, the employee will receive a five (5) day suspension. This five (5) day suspension will also notify the employee of potential future disciplinary action should the employee remain in noncompliance after the five (5) day suspension is served.

- Should the employee remain in noncompliance after thirty (30) calendar days following the employee's return from the suspension, the employee will be served with a notice of intent to discharge.
- Should the employee fail to achieve compliance within the time period designated for their response to the notice of intent to discharge, the employee will be discharged.
- Should the employee comply with the requirements outlined in the Notice of Vaccination Requirement at any point after receiving the suspension and before being issued the notice of intent to discharge, the employee's suspension and any documents supporting the suspension shall be removed from the employee's official personnel folder, including the Electronic Personnel Folder (ePR) for applicable departments. However, the employee will not receive back pay for the period of the suspension.
- The County will take into consideration any extenuating circumstances which might delay compliance with the Policy through no fault of the employee and/or any substantial efforts by the employee to comply with the Policy prior to issuing discipline, should the employee inform their department of such circumstances or efforts prior to any deadlines set forth in or pursuant to the Policy.
- Any employee who is discharged for noncompliance with the Policy's vaccination requirement is not prohibited from seeking employment with the County.

III. EMPLOYEE NONCOMPLIANCE WITH TESTING REQUIREMENT

Unvaccinated employees may be required by their departments to submit to regular testing pursuant to the Policy.

If a department determines that an employee is noncompliant with a testing requirement imposed pursuant to the Policy, it must take the actions outlined below.

A. Notice of Testing Requirement

- An employee who fails to comply with a testing requirement imposed by their department pursuant to the Policy will be issued a Notice of Testing Requirement by their department.
- The Notice of Testing Requirement will instruct the employee to comply with the testing requirement within five (5) calendar days from the date the Notice of Testing Requirement is sent to the employee. The Notice of Testing Requirement will also state that it does not constitute discipline. The Notice of Testing Requirement will inform the employee that if the employee fails to satisfy the Policy's regular testing requirements, the department may initiate disciplinary action for noncompliance.

B. Disciplinary Action for Noncompliance

- If an employee fails to comply with the requirements outlined in the Notice of Testing Requirement, the employee will receive a five (5) day suspension. This five (5) day suspension will also notify the employee of potential future disciplinary action should the employee remain in noncompliance after the five (5) day suspension is served.
- Should the employee remain in noncompliance after ten (10) calendar days following the employee's return from the suspension, the employee will be served with a notice of intent to discharge.
- Should the employee fail to achieve compliance within the time period designated for their response to the notice of intent to discharge, the employee will be discharged.

IV. SUBMISSION OF FALSE INFORMATION OR DOCUMENTATION

- Any employee who submits false information or falsified documentation related to their compliance with the Policy may be subject to discipline up to and including discharge.

EXHIBIT "12"

**DEPARTMENT OF HUMAN RESOURCES
Disability Management & Compliance**

TO: Employee of County of Los Angeles
FROM: County of Los Angeles
RE: **Interactive Process: Status Update & Request for Additional Information**

I hope this letter finds you well. As you are aware, the County of Los Angeles (County) COVID-19 Vaccination Policy requires all County employees to be fully vaccinated against COVID-19, unless they have been granted an exemption as outlined in the policy. You requested an exemption due to a sincerely held religious belief, observance or practice that conflicts with your ability to get a COVID-19 vaccine. We received a completed Request for Religious Accommodation Form from you.

As part of the interactive process, please allow this letter to serve as an update to your request for an exemption from the COVID-19 vaccine requirement.

In reviewing the form, it has been determined additional information is needed as to how your religious belief conflicts with the County's COVID-19 vaccination requirement.

Please complete the attached Religious Accommodation Clarification Form, which you can use to provide the additional information requested as noted above relating to your sincerely held religious belief, observance or practice and return it via email to ERT@hr.lacounty.gov no later than 10 business days from when this letter was sent.

Enc: Religious Accommodation Clarification Form

**DEPARTMENT OF HUMAN RESOURCES

**COUNTY OF LOS ANGELES
RELIGIOUS ACCOMMODATION CLARIFICATION FORM**

Employee's Name: _____

Employee's Position/Classification: _____

1. A number of common drugs, cosmetics, and food utilize fetal cells in their development for example, vaccines commonly administered during childhood (chicken pox, rubella, hepatitis, and rabies) as well as commonly used drugs such as Acetaminophen and Ibuprofen. Please explain how you consistently apply your avoidance of products that utilize fetal cells in their development or testing.

2. Please clarify, in your own words, how your inability to be vaccinated with a COVID-19 vaccine conflicts with your religious belief(s) and is not necessarily a personal choice or an act of conscious:

I certify that my statement above is true and accurate.

Printed Name: _____

Signature: _____ Date: _____

Once you have completed this document, it must be submitted via email to ERT@hr.lacounty.gov no later than 10 business days after this letter and form were sent.

Subject: Religious Accommodation Clarification Form

Much has been hidden from consumers by product manufacturers . As a matter of fact, more has been done to resist animal cruelty and GMO food products than to resist the benefiting from the murder of a child. I resist and find it morally repugnant and do not wish to benefit from abortion as an individual with sincerely held religious beliefs. I mourn and pray for those who will give an account to Almighty G-d for their roll in perpetuating the death of a human life. In the Religious Accommodation Clarification form there is a mentioning of common drugs cosmetics and food that utilize fetal cells in their development. I am not aware of having knowingly taken any drug or vaccine in my adult life that would not affirm my sincerely held religious beliefs. There is a mentioning specifically of Acetaminophen, eg. brand name Tylenol that I will address. This drug was developed decades before abortion became legal in 1973. Therefore, Tylenol was NOT researched, tested or developed using fetal cell lines. I know nothing of the history of Ibuprofen but avoid it's use because of risk for GI bleed and renal failure. Decades after many of these drugs were approved by the FDA additional testing was done by "some" using cell lines from aborted babies. Without aborted fetal cell lines we would have no COVID shots, but we would still have Tylenol. I am not being forced to take any over the counter drugs, use certain cosmetics or eat food that has been developed with aborted fetal cells but, there is an attempts to force me to take an experimental inoculation produced and/or made with aborted fetal cell lines is against my sincerely held religious beliefs.

I can say with confidence that 61 yrs ago I did not have control over the childhood vaccines that I received. If there were knowledge of aborted

fetal cells in the childhood vaccines my mother would NOT have given consent but, more truthfully my mother was likely never given informed consent. It was presumed during this era that vaccines containing aborted cells never would have been an issue to lament over Also, Rabies is not one of the common vaccines given in childhood.

Please clarify the use of the word "conscious" in # 2.

Thank you.

Respectfully

Tami Olenik RNII

EXHIBIT "13"

Notice of Mandatory COVID-19 Vaccination Policy Requirements

While Awaiting an Exemption/Appeal Determination

To protect the City's workforce and the public it serves, City of Los Angeles Ordinance 187134 ("COVID-19 Vaccination Requirement For All Current and Future City Employees") was enacted on August 24, 2021, requiring all employees be fully vaccinated for COVID-19 by October 20, 2021, or request a medical or religious exemption, and report their vaccination status by October 19, 2021.

In accordance with the Ordinance, I certify:

1. I reported my COVID-19 vaccination status as other than "fully vaccinated"; and/or I am unvaccinated.
2. I filed an intent to seek a medical or religious exemption from the vaccination mandate as provided for in the Ordinance.

Until the City has made a determination about whether to grant or deny my request for a medical or religious exemption under the Ordinance, including the time the City requires to evaluate any appeal to an initial denial I may choose to file, I agree to comply with the following required terms and conditions:

1. I will undergo twice weekly COVID-19 testing.
2. I shall assume responsibility for using my own compensated time to manage an absence from the workplace due to COVID-19 infection or exposure. This does not preclude me from filing a claim for workers' compensation benefits, as appropriate.
3. I shall be required to test through the City or a vendor of its choosing. No third-party tests shall be substituted for tests provided for by the City or the vendor of its choosing.
4. I shall reimburse the City \$260 per pay period for four tests at \$65 each. Reimbursement shall be made automatically on a biweekly basis through my paycheck unless I decline authorization below.
5. I shall test on my own time, i.e., not on paid work time.

If my application for exemption is denied and I do not file an appeal under the Mandatory Vaccination Policy Exemption Procedures, or if my appeal is denied, I shall continue to adhere to the requirements above. At that time, unless I elect to voluntarily separate from City employment, I will become vaccinated according to the following time frame:

6. Within fourteen (14) calendar days from the notice of denial of my exemption, exemption appeal, or expiration date of my medical deferral, I shall submit proof that I have received the first dose of a two-dose COVID-19 vaccine or a single dose of a one-dose COVID-19 vaccine. This proof of vaccination must include the date(s) I received any dose of the COVID-19 vaccination.
7. I will have no more than twenty-eight (28) calendar days from the date of having received the first dose of a COVID-19 vaccine of a two-dose regimen to receive the second dose of a two-dose vaccine regimen.

Notice of Mandatory COVID-19 Vaccination Policy Requirements

While Awaiting an Exemption/Appeal Determination

8. I must update my vaccination status within no more than five (5) business days from the date I receive the second dose of a two-dose vaccine regimen by submitting proof that I received a complete dosage of a vaccine against COVID-19.

If any of the dates above falls on a weekend or observed holiday, the deadline for providing the required proof is due on the next business day.

I understand that if I do not follow all the terms and conditions above, including showing proof of full vaccination within the time frame above, I will immediately be placed off duty without pay pending pre-separation due process procedures (Skelly) and I will be served with a written notice of proposed separation from City employment for failing to meet a condition of employment. During such time as due process procedures are pending, I may utilize available compensated time off as appropriate. For sworn employees employed by the Los Angeles Fire Department who proceed to a Board of Rights for failure to meet the condition of employment to be fully vaccinated, the City will abide by all applicable Charter provisions regarding relief of duty without pay. For sworn employees employed by the Los Angeles Police Department (LAPD) who proceed to a Board of Rights for lack of fitness for duty due to failure to meet the condition of employment to be fully vaccinated, the City will abide by all applicable Charter provisions regarding relief of duty without pay.

At any time during the process, if I decide, in lieu of being vaccinated, to resign, retire, or, in the case of sworn personnel who are currently enrolled in the Deferred Retirement Option Program (DROP), exit DROP, I may show proof of filing resignation, retirement, or DROP exit paperwork with a date certain to my appointing authority, at which time I shall remain out of the workplace until such date of resignation, retirement or exit from DROP. If I elect to resign during any time in this process, I shall do so in good standing in lieu of discipline.

From the time I provide proof of intended resignation, retirement, or DROP exit and the date of occurrence, but no later than 90 days after my final denial, I may use my available time in order to remain on active payroll in the following order: (1) accrued vacation time; (2) compensated time off, e.g., banked overtime; then, (3) Leave Without Pay.

If I resign or I am separated from City service and become vaccinated for COVID-19 subsequent to my separation or if the mandatory vaccination order is lifted, I may be restored to the applicable eligible list and/or otherwise become eligible for rehire in the same classification in which I had standing immediately prior to my separation from City service, in accordance with Civil Service Rule Sections 5.14 and 9.1. Sworn employees employed by the LAPD must also pass all required reinstatement background processes conducted by the City or LAPD and can only be reinstated to a position as governed and permitted by the Civil Service Rules of the City.

Notice of Mandatory COVID-19 Vaccination Policy Requirements

While Awaiting an Exemption/Appeal Determination

Employees who fail to sign this agreement will be invoiced for the costs of testing at a rate of \$260 per pay period while awaiting an exemption or appeal determination.

I agree to abide by all of the terms and conditions of this Notice. I authorize the City to deduct \$260 per pay period from my pay check for the purpose of reimbursing the City for the COVID-19 testing required of me until (1) my exemption request or appeal is granted; (2) I have been fully vaccinated for COVID-19; or (3) I have voluntarily separated from City employment. I understand that, if my exemption request or appeal is granted, the City will refund the deduction or payments, or cancel the invoices, for the biweekly testing provided for above.

I do NOT authorize the City to deduct \$260 per pay period from my paycheck. I understand that I will be invoiced. (Please check the box for this option)

Our STN: BL 125742/0

BLA APPROVAL

BioNTech Manufacturing GmbH
Attention: Amit Patel
Pfizer Inc.
235 East 42nd Street
New York, NY 10017

August 23, 2021

Dear Mr. Patel:

Please refer to your Biologics License Application (BLA) submitted and received on May 18, 2021, under section 351(a) of the Public Health Service Act (PHS Act) for COVID-19 Vaccine, mRNA.

LICENSING

We are issuing Department of Health and Human Services U.S. License No. 2229 to BioNTech Manufacturing GmbH, Mainz, Germany, under the provisions of section 351(a) of the PHS Act controlling the manufacture and sale of biological products. The license authorizes you to introduce or deliver for introduction into interstate commerce, those products for which your company has demonstrated compliance with establishment and product standards.

Under this license, you are authorized to manufacture the product, COVID-19 Vaccine, mRNA, which is indicated for active immunization to prevent coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) in individuals 16 years of age and older.

The review of this product was associated with the following National Clinical Trial (NCT) numbers: NCT04368728 and NCT04380701.

MANUFACTURING LOCATIONS

Under this license, you are approved to manufacture COVID-19 Vaccine, mRNA drug substance at Wyeth BioPharma Division of Wyeth Pharmaceuticals LLC, 1 Burt Road, Andover, Massachusetts. The final formulated product will be manufactured, filled, labeled and packaged at Pfizer Manufacturing Belgium NV, Rijksweg 12, Puurs, Belgium and at Pharmacia & Upjohn Company LLC, 7000 Portage Road, Kalamazoo, Michigan. The diluent, 0.9% Sodium Chloride Injection, USP, will be manufactured at Hospira, Inc., (b) (4) and at Fresenius Kabi USA, LLC, (b) (4).

You may label your product with the proprietary name, COMIRNATY, and market it in 2.0 mL glass vials, in packages of 25 and 195 vials.

We did not refer your application to the Vaccines and Related Biological Products Advisory Committee because our review of information submitted in your BLA, including the clinical study design and trial results, did not raise concerns or controversial issues that would have benefited from an advisory committee discussion.

DATING PERIOD

The dating period for COVID-19 Vaccine, mRNA shall be 9 months from the date of manufacture when stored between -90°C to -60°C (-130°F to -76°F). The date of manufacture shall be no later than the date of final sterile filtration of the formulated drug product (at Pharmacia & Upjohn Company LLC in Kalamazoo, Michigan, the date of manufacture is defined as the date of sterile filtration for the final drug product; at Pfizer Manufacturing Belgium NV in Puurs, Belgium, it is defined as the date of the (b) (4)

Following the final sterile filtration, (b) (4)

, no

reprocessing/reworking is allowed without prior approval from the Agency. The dating period for your drug substance shall be (b) (4) when stored at (b) (4). We have approved the stability protocols in your license application for the purpose of extending the expiration dating period of your drug substance and drug product under 21 CFR 601.12.

FDA LOT RELEASE

Please submit final container samples of the product in final containers together with protocols showing results of all applicable tests. You may not distribute any lots of product until you receive a notification of release from the Director, Center for Biologics Evaluation and Research (CBER).

BIOLOGICAL PRODUCT DEVIATIONS

You must submit reports of biological product deviations under 21 CFR 600.14. You should identify and investigate all manufacturing deviations promptly, including those associated with processing, testing, packaging, labeling, storage, holding and distribution. If the deviation involves a distributed product, may affect the safety, purity, or potency of the product, and meets the other criteria in the regulation, you must submit a report on Form FDA 3486 to the Director, Office of Compliance and Biologics Quality, electronically through the eBPDR web application or at the address below. Links for the instructions on completing the electronic form (eBPDR) may be found on CBER's web site at <https://www.fda.gov/vaccines-blood-biologics/report-problem-center-biologics-evaluation-research/biological-product-deviations>:

Food and Drug Administration
Center for Biologics Evaluation and Research
Document Control Center

10903 New Hampshire Ave.
WO71-G112
Silver Spring, MD 20993-0002

MANUFACTURING CHANGES

You must submit information to your BLA for our review and written approval under 21 CFR 601.12 for any changes in, including but not limited to, the manufacturing, testing, packaging or labeling of COVID-19 Vaccine, mRNA, or in the manufacturing facilities.

LABELING

We hereby approve the draft content of labeling including Package Insert, submitted under amendment 74, dated August 21, 2021, and the draft carton and container labels submitted under amendment 63, dated August 19, 2021.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, please submit the final content of labeling (21 CFR 601.14) in Structured Product Labeling (SPL) format via the FDA automated drug registration and listing system, (eLIST) as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the Package Insert submitted on August 21, 2021. Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As* at <http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible via publicly available labeling repositories.

CARTON AND CONTAINER LABELS

Please electronically submit final printed carton and container labels identical to the carton and container labels submitted on August 19, 2021, according to the guidance for industry *Providing Regulatory Submissions in Electronic Format — Certain Human Pharmaceutical Product Applications and Related Submissions Using the eCTD Specifications* at <https://www.fda.gov/regulatory-information/search-fda-guidance-documents/providing-regulatory-submissions-electronic-format-certain-human-pharmaceutical-product-applications>.

All final labeling should be submitted as Product Correspondence to this BLA STN BL 125742 at the time of use and include implementation information on Form FDA 356h.

ADVERTISING AND PROMOTIONAL LABELING

You may submit two draft copies of the proposed introductory advertising and promotional labeling with Form FDA 2253 to the Advertising and Promotional Labeling Branch at the following address:

Food and Drug Administration
Center for Biologics Evaluation and Research
Document Control Center
10903 New Hampshire Ave.
WO71-G112
Silver Spring, MD 20993-0002

You must submit copies of your final advertising and promotional labeling at the time of initial dissemination or publication, accompanied by Form FDA 2253 (21 CFR 601.12(f)(4)).

All promotional claims must be consistent with and not contrary to approved labeling. You should not make a comparative promotional claim or claim of superiority over other products unless you have substantial evidence or substantial clinical experience to support such claims (21 CFR 202.1(e)(6)).

ADVERSE EVENT REPORTING

You must submit adverse experience reports in accordance with the adverse experience reporting requirements for licensed biological products (21 CFR 600.80), and you must submit distribution reports at monthly intervals as described in 21 CFR 600.81. For information on adverse experience reporting, please refer to the guidance for industry *Providing Submissions in Electronic Format—Postmarketing Safety Reports for Vaccines* at <https://www.fda.gov/regulatory-information/search-fda-guidance-documents/providing-submissions-electronic-format-postmarketing-safety-reports-vaccines>. For information on distribution reporting, please refer to the guidance for industry *Electronic Submission of Lot Distribution Reports* at <http://www.fda.gov/BiologicsBloodVaccines/GuidanceComplianceRegulatoryInformation/Post-MarketActivities/LotReleases/ucm061966.htm>.

PEDIATRIC REQUIREMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication in pediatric patients unless this requirement is waived, deferred, or inapplicable.

We are deferring submission of your pediatric studies for ages younger than 16 years for this application because this product is ready for approval for use in individuals 16 years of age and older, and the pediatric studies for younger ages have not been completed.

Your deferred pediatric studies required under section 505B(a) of the Federal Food, Drug, and Cosmetic Act (FDCA) are required postmarketing studies. The status of these postmarketing studies must be reported according to 21 CFR 601.28 and section 505B(a)(4)(C) of the FDCA. In addition, section 506B of the FDCA and 21 CFR 601.70 require you to report annually on the status of any postmarketing commitments or required studies or clinical trials.

Label your annual report as an “**Annual Status Report of Postmarketing Study Requirement/Commitments**” and submit it to the FDA each year within 60 calendar days of the anniversary date of this letter until all Requirements and Commitments subject to the reporting requirements under section 506B of the FDCA are released or fulfilled. These required studies are listed below:

1. Deferred pediatric Study C4591001 to evaluate the safety and effectiveness of COMIRNATY in children 12 years through 15 years of age.

Final Protocol Submission: October 7, 2020

Study Completion: May 31, 2023

Final Report Submission: October 31, 2023

2. Deferred pediatric Study C4591007 to evaluate the safety and effectiveness of COMIRNATY in infants and children 6 months to <12 years of age.

Final Protocol Submission: February 8, 2021

Study Completion: November 30, 2023

Final Report Submission: May 31, 2024

3. Deferred pediatric Study C4591023 to evaluate the safety and effectiveness of COMIRNATY in infants <6 months of age.

Final Protocol Submission: January 31, 2022

Study Completion: July 31, 2024

Final Report Submission: October 31, 2024

Submit the protocols to your IND 19736, with a cross-reference letter to this BLA STN BL 125742 explaining that these protocols were submitted to the IND. Please refer to the PMR sequential number for each study/clinical trial and the submission number as shown in this letter.

Submit final study reports to this BLA STN BL 125742. In order for your PREA PMRs to be considered fulfilled, you must submit and receive approval of an efficacy or a labeling

supplement. For administrative purposes, all submissions related to these required pediatric postmarketing studies must be clearly designated as:

- **Required Pediatric Assessment(s)**

We note that you have fulfilled the pediatric study requirement for ages 16 through 17 years for this application.

POSTMARKETING REQUIREMENTS UNDER SECTION 505(o)

Section 505(o) of the Federal Food, Drug, and Cosmetic Act (FDCA) authorizes FDA to require holders of approved drug and biological product applications to conduct postmarketing studies and clinical trials for certain purposes, if FDA makes certain findings required by the statute (section 505(o)(3)(A), 21 U.S.C. 355(o)(3)(A)).

We have determined that an analysis of spontaneous postmarketing adverse events reported under section 505(k)(1) of the FDCA will not be sufficient to assess known serious risks of myocarditis and pericarditis and identify an unexpected serious risk of subclinical myocarditis.

Furthermore, the pharmacovigilance system that FDA is required to maintain under section 505(k)(3) of the FDCA is not sufficient to assess these serious risks.

Therefore, based on appropriate scientific data, we have determined that you are required to conduct the following studies:

4. Study C4591009, entitled “A Non-Interventional Post-Approval Safety Study of the Pfizer-BioNTech COVID-19 mRNA Vaccine in the United States,” to evaluate the occurrence of myocarditis and pericarditis following administration of COMIRNATY.

We acknowledge the timetable you submitted on August 21, 2021, which states that you will conduct this study according to the following schedule:

Final Protocol Submission: August 31, 2021

Monitoring Report Submission: October 31, 2022

Interim Report Submission: October 31, 2023

Study Completion: June 30, 2025

Final Report Submission: October 31, 2025

5. Study C4591021, entitled “Post Conditional Approval Active Surveillance Study Among Individuals in Europe Receiving the Pfizer-BioNTech Coronavirus

Disease 2019 (COVID-19) Vaccine,” to evaluate the occurrence of myocarditis and pericarditis following administration of COMIRNATY.

We acknowledge the timetable you submitted on August 21, 2021, which states that you will conduct this study according to the following schedule:

Final Protocol Submission: August 11, 2021

Progress Report Submission: September 30, 2021

Interim Report 1 Submission: March 31, 2022

Interim Report 2 Submission: September 30, 2022

Interim Report 3 Submission: March 31, 2023

Interim Report 4 Submission: September 30, 2023

Interim Report 5 Submission: March 31, 2024

Study Completion: March 31, 2024

Final Report Submission: September 30, 2024

6. Study C4591021 substudy to describe the natural history of myocarditis and pericarditis following administration of COMIRNATY.

We acknowledge the timetable you submitted on August 21, 2021, which states that you will conduct this study according to the following schedule:

Final Protocol Submission: January 31, 2022

Study Completion: March 31, 2024

Final Report Submission: September 30, 2024

7. Study C4591036, a prospective cohort study with at least 5 years of follow-up for potential long-term sequelae of myocarditis after vaccination (in collaboration with Pediatric Heart Network).

We acknowledge the timetable you submitted on August 21, 2021, which states that you will conduct this study according to the following schedule:

Final Protocol Submission: November 30, 2021

Study Completion: December 31, 2026

Final Report Submission: May 31, 2027

8. Study C4591007 substudy to prospectively assess the incidence of subclinical myocarditis following administration of the second dose of COMIRNATY in a subset of participants 5 through 15 years of age.

We acknowledge the timetable you submitted on August 21, 2021, which states that you will conduct this assessment according to the following schedule:

Final Protocol Submission: September 30, 2021

Study Completion: November 30, 2023

Final Report Submission: May 31, 2024

9. Study C4591031 substudy to prospectively assess the incidence of subclinical myocarditis following administration of a third dose of COMIRNATY in a subset of participants 16 to 30 years of age.

We acknowledge the timetable you submitted on August 21, 2021, which states that you will conduct this study according to the following schedule:

Final Protocol Submission: November 30, 2021

Study Completion: June 30, 2022

Final Report Submission: December 31, 2022

Please submit the protocols to your IND 19736, with a cross-reference letter to this BLA STN BL 125742 explaining that these protocols were submitted to the IND. Please refer to the PMR sequential number for each study/clinical trial and the submission number as shown in this letter.

Please submit final study reports to the BLA. If the information in the final study report supports a change in the label, the final study report must be submitted as a supplement to this BLA STN BL 125742. For administrative purposes, all submissions related to these postmarketing studies required under section 505(o) must be submitted to this BLA and be clearly designated as:

- **Required Postmarketing Correspondence under Section 505(o)**
- **Required Postmarketing Final Report under Section 505(o)**
- **Supplement contains Required Postmarketing Final Report under Section 505(o)**

Section 505(o)(3)(E)(ii) of the FDCA requires you to report periodically on the status of any study or clinical trial required under this section. This section also requires you to periodically report to FDA on the status of any study or clinical trial otherwise

undertaken to investigate a safety issue. In addition, section 506B of the FDCA and 21 CFR 601.70 require you to report annually on the status of any postmarketing commitments or required studies or clinical trials.

You must describe the status in an annual report on postmarketing studies for this product. Label your annual report as an **Annual Status Report of Postmarketing Requirements/Commitments** and submit it to the FDA each year within 60 calendar days of the anniversary date of this letter until all Requirements and Commitments subject to the reporting requirements of section 506B of the FDCA are fulfilled or released. The status report for each study should include:

- the sequential number for each study as shown in this letter;
- information to identify and describe the postmarketing requirement;
- the original milestone schedule for the requirement;
- the revised milestone schedule for the requirement, if appropriate;
- the current status of the requirement (i.e., pending, ongoing, delayed, terminated, or submitted); and,
- an explanation of the status for the study or clinical trial. The explanation should include how the study is progressing in reference to the original projected schedule, including, the patient accrual rate (i.e., number enrolled to date and the total planned enrollment).

As described in 21 CFR 601.70(e), we may publicly disclose information regarding these postmarketing studies on our website at <http://www.fda.gov/Drugs/Guidance/ComplianceRegulatoryInformation/Post-marketingPhaseIVCommitments/default.htm>.

We will consider the submission of your annual report under section 506B of the FDCA and 21 CFR 601.70 to satisfy the periodic reporting requirement under section 505(o)(3)(E)(ii) provided that you include the elements listed in section 505(o) and 21 CFR 601.70. We remind you that to comply with section 505(o), your annual report must also include a report on the status of any study or clinical trial otherwise undertaken to investigate a safety issue. Failure to periodically report on the status of studies or clinical trials required under section 505(o) may be a violation of FDCA section 505(o)(3)(E)(ii) and could result in regulatory action.

POSTMARKETING COMMITMENTS SUBJECT TO REPORTING REQUIREMENTS UNDER SECTION 506B

We acknowledge your written commitments as described in your letter of August 21, 2021 as outlined below:

10. Study C4591022, entitled “Pfizer-BioNTech COVID-19 Vaccine Exposure during Pregnancy: A Non-Interventional Post-Approval Safety Study of Pregnancy and Infant Outcomes in the Organization of Teratology Information Specialists (OTIS)/MotherToBaby Pregnancy Registry.”

Final Protocol Submission: July 1, 2021

Study Completion: June 30, 2025

Final Report Submission: December 31, 2025

11. Study C4591007 substudy to evaluate the immunogenicity and safety of lower dose levels of COMIRNATY in individuals 12 through <30 years of age.

Final Protocol Submission: September 30, 2021

Study Completion: November 30, 2023

Final Report Submission: May 31, 2024

12. Study C4591012, entitled “Post-emergency Use Authorization Active Safety Surveillance Study Among Individuals in the Veteran’s Affairs Health System Receiving Pfizer-BioNTech Coronavirus Disease 2019 (COVID-19) Vaccine.”

Final Protocol Submission: January 29, 2021

Study Completion: June 30, 2023

Final Report Submission: December 31, 2023

13. Study C4591014, entitled “Pfizer-BioNTech COVID-19 BNT162b2 Vaccine Effectiveness Study - Kaiser Permanente Southern California.”

Final Protocol Submission: March 22, 2021

Study Completion: December 31, 2022

Final Report Submission: June 30, 2023

Please submit clinical protocols to your IND 19736, and a cross-reference letter to this BLA STN BL 125742 explaining that these protocols were submitted to the IND. Please refer to the PMC sequential number for each study/clinical trial and the submission number as shown in this letter.

If the information in the final study report supports a change in the label, the final study report must be submitted as a supplement. Please use the following designators to prominently label all submissions, including supplements, relating to these postmarketing study commitments as appropriate:

- **Postmarketing Commitment – Correspondence Study Update**
- **Postmarketing Commitment – Final Study Report**
- **Supplement contains Postmarketing Commitment – Final Study Report**

For each postmarketing study subject to the reporting requirements of 21 CFR 601.70, you must describe the status in an annual report on postmarketing studies for this product. Label your annual report as an **Annual Status Report of Postmarketing Requirements/Commitments** and submit it to the FDA each year within 60 calendar days of the anniversary date of this letter until all Requirements and Commitments subject to the reporting requirements of section 506B of the FDCA are fulfilled or released. The status report for each study should include:

- the sequential number for each study as shown in this letter;
- information to identify and describe the postmarketing commitment;
- the original schedule for the commitment;
- the status of the commitment (i.e., pending, ongoing, delayed, terminated, or submitted); and,
- an explanation of the status including, for clinical studies, the patient accrual rate (i.e., number enrolled to date and the total planned enrollment).

As described in 21 CFR 601.70(e), we may publicly disclose information regarding these postmarketing studies on our website at <http://www.fda.gov/Drugs/Guidance/ComplianceRegulatoryInformation/Post-marketingPhaseIVCommitments/default.htm>.

POST APPROVAL FEEDBACK MEETING

New biological products qualify for a post approval feedback meeting. Such meetings are used to discuss the quality of the application and to evaluate the communication process during drug development and marketing application review. The purpose is to learn from successful aspects of the review process and to identify areas that could benefit from improvement. If you would like to have such a meeting with us, please contact the Regulatory Project Manager for this application.

Sincerely,

Mary A. Malarkey
Director
Office of Compliance
and Biologics Quality
Center for Biologics
Evaluation and Research

Marion F. Gruber, PhD

**Integrity of Science Review
in Current Mask Science**

TITLE:

**Meta-Analysis
of
Universal Public Masking
and
Associated Risks**

PREPARED BY:

Tyson Gabriel, BS, IH, OSH Pro

REPORT:

**PRM.MR.005
Revision: 001
Date: September 1, 2022**

1. **EXECUTIVE SUMMARY**

Background

The World Health Organization (WHO) declared COVID-19 a worldwide pandemic on March 11, 2020. In response some in the public understandably assumed that “mask” use was an obvious response for protection from infection (Note: heretofore the term “mask” and “facial coverings” shall be described using the term “masks”. But public health officials at the National Institute of Health (NIH) Director Anthony Fauci and then U.S. Surgeon General Jerome Adams and Center for Disease Control (CDC) Director Robert Redfield affirmed the long-standing science that masks are not considered respiratory protection and should not be considered for universal use in the public or a community. This reflected decades of studies regarding flu viruses that demonstrated that masks were not effective for the protection from infectious diseases.

Then on April 3, 2020, the before mentioned public health officials reversed their position by recommending universal mask use claiming new scientific evidence. This new evidence reportedly supports mask wearing in all aspects of public human interaction, plus many private, personal interactions. Masks, it was now claimed, would provide protection for the wearer, and would reduce infectious material from being spread in a community. Therefore, masks were prescribed for all. A parallel argument would later follow that masks were “source control.”

This new claim surprised many in the exposure science field. Exposure science is an applied science that anticipates, recognizes, evaluates, controls, and confirms protection from hazards that may result in injury, illness, or affect the well-being of people. Members in the exposure science sector often serve as instructors to the health care industry on topics of exposure prevention methodologies such as ventilation, air filtration, ergonomics, proper personal protective equipment (PPE) use (such as masks), and respiratory protection.

These new claims for broad employment of masks surprised specialists in the exposure science sector because no such evidence had ever been previously discovered and these new claims had no existing published studies to support this new doctrine. Studies supporting these claims began to be posted in May of 2020, though without scrutiny from exposure scientists. It was as though an alloy had been proposed for all new bridge construction, though never used for such purpose, and without first consulting any experts in metallurgy.

Universal Public Masking

Face masks have been positioned in a new role outside of their designed scope of use. Does this new science identify, investigate, and measure the components and elements in the sphere of this new role? This report reviews new mask science referenced by the before mentioned and current public health officials in their mask recommendations. We examine other criteria for assessing such research and we then apply those standards to this research to determine if it is being properly described and it possesses the same level of integrity with the extensive system of review that is typical in protective efforts before they are implemented in society. We further compare the efforts of the current study to identify, explore and answer the relevant questions of the new public policies of this universal public masking.

The point of the science at the CDC is to support the idea that everybody wearing a mask is the correct policy. The premise for their presentation of published scientific papers on the CDC’s website, is to support its recommendation of universal public masking in the form of cloth or homemade face masks, surgical masks, and N95 respirators. Universal public masking is the keystone foundation from which the basis of government and private sector policy and guidelines regarding COVID-19 response strategies. As such, the first basic question must be asked; What happens in Universal Public Masking?

Answering that question reveals the components, obstacles, items, behaviors, and time frames that make up the whole equation of what is taking place in the real world setting of “universal public masking.” We may not have full understanding of every element of universal public masking, but we

know at some point in the equation there is potentially infectious material that will travel from our mouth to the mask.

We also know at a minimum; universal public masking calls for an extended amount of time for wearing a mask. We know that it involves children and adults, with varying physical, health, and work circumstances. It is primarily self-managed in public with varying biases and behaviors. This situation involves critically low-level training of mask use when contrasted to professional mask wearers in healthcare and laboratory environments. Moreover, masks and N95 respirators have quite distinct professional and legal requirements for usage.

In addition, unlike professionals who work in contamination protected environments with professionally manufactured and tested PPE, the public is encouraged to construct its own respiratory protection using generalized processes, and nonspecific material to try to achieve protection levels as near as possible to the professional grade tools. We rely on science to identify and explore all the inter-working components to provide us the net result of its function. This report seeks to examine how current science is fulfilling its role on this issue.

2. SCIENCE OF INDUSTRIAL HYGIENE

There were two (2) responses to the pandemic which consisted of a medical response and an exposure mitigation response. Many have inaccurately assumed that the medical industry has expertise in both areas but this is incorrect. The medical industry is unschooled in exposure science and is in fact a customer to the exposure science industry known as industrial hygiene. Medical scientists primarily work in an office whereas exposure control experts such as industrial hygienists operate in the field where workers and the public are located. In real world scenarios, industrial hygienists winnow the causes of symptoms being exposed by individuals of a group of individuals and provide solutions to reduce or eliminate the aforementioned cause(s); physician primarily work in an office environment perform specific causation diagnosis, but do not perform the general causation and solution roles of industrial hygienists. Their roles are often complimentary, but clearly quite different.

The medical response consists of learning about the pathogen in how it travels, how it affects and enters the body, the pathogen's structure and weaknesses, and what treatments work after exposure to the pathogen has occurred. Exposure mitigation sciences will initially take the medical science, to specifically evaluate possible options for combating the pathogen. Then, each occupied space will be evaluated to identify current hazards and ensure a customized approach to each exposure will be met to ensure the occupants have optimal safety and health results.

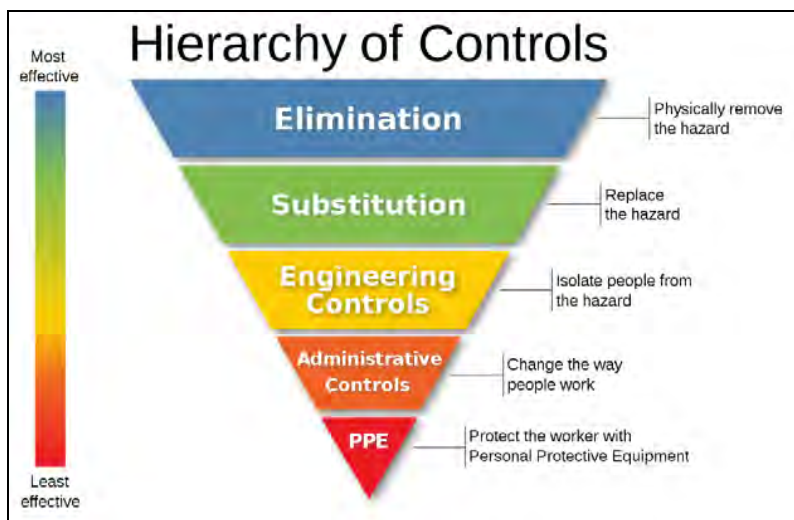

The exposure science industry consists of occupational safety and health professionals and industrial hygienists. As such experts we work in concert to mitigate various exposures in every single industry. You will find us in construction, mining, manufacturing, law enforcement, the military, insurance, food service, government, consumer shopping, and yes we serve the medical industry too!

The Occupational Safety and Health Administration (OSHA) sums what industrial hygiene is as the "science and art devoted to the anticipation, recognition, evaluation, and control of those environmental factors or stresses arising in or from the workplace, which may cause sickness, impaired health and well-being, or significant discomfort among workers or among the citizens of the community." While the American Industrial Hygiene Association (AIHA) defines an industrial hygienist as "scientists and engineers committed to protecting the health and safety of people in the workplace and the community."

As occupational safety and health professionals and industrial hygienists, we can affirm that our profession consists of trained experts in evaluating an environment for risks and exposure with the ability to measure the determined exposures and devise a mitigation plan.

We use a long standing proven scientific system call the Hierarchy of Controls (Figure 2-A) that was introduced by the National Safety Council (NSC) in 1950 to layer our exposure mitigation strategies. This system also enables us to prioritize the mitigating efforts to better educate our industry customers as to which strategies are going to work the best.

The Hierarchy of Controls is a system used to implement effective controls within an organization, workplace, or community to identify the most effective ways to mitigate hazards. Within the inverted pyramid below the more effective controls are on the large, top side of the pyramid, whereas the least effective controls are on the bottom. Following this hierarchy normally leads to the implementation of inherently safer systems, where the risk of illness or injury has been substantially reduced.

(Figure 2-A: Hierarchy of Controls Graphic)

The human interaction with a control, while it is engaged with the risk or contamination, is a primary difference between the class of controls on the high end of the hierarchy and those at the low end. In any compliance program, the most critical component of whether it will succeed or not is in fact human behavior. We see behavior being the cause of 90% of roadway collisions, cyber-attacks, and workplace incidents. Human behavior as it relates to compliance or safety and health, is such juggernaut that we have entire education courses on Behavioral Based Safety, which is why we always seek solutions that have a foundation in engineering controls.

Here is a brief description of each level of effectiveness – from most effective to least effective – within the Hierarchy of Controls model.

Elimination

Elimination is a hazard control strategy based on completely removing a material or process causing a hazard. Elimination is the most effective of the five members of the hierarchy of controls in protecting personnel, and where possible should be implemented before all other control methods.

Removing the use of a hazardous chemical is an example of elimination. Some substances are difficult or impossible to eliminate because they have unique properties necessary to the process, but it may be possible to instead substitute less hazardous versions of the substance. Elimination also applies to equipment as well. For example, noisy equipment can be removed from a room used for other purposes, or an unnecessary blade can be removed from a machine.

Substitution

Substitution is a hazard control strategy in which a material or process is replaced with another that is less hazardous. Substitution is the second most effective of the five (5) members of the hierarchy of hazard controls in protecting people, after elimination.

A common substitution is to replace a toxic chemical with a less toxic one. Some examples include replacing the solvent benzene, a carcinogen, with xylene; switching from organic solvents to water-based detergents; and replacing paints containing lead with those containing non-lead pigments.

Engineering Controls

Engineering controls is the third of five (5) members of the hierarchy of controls, which orders control strategies by their feasibility and effectiveness. These are strategies designed to protect workers from hazardous conditions by placing a barrier between the person and the hazard or by removing a hazardous substance through air ventilation. Some examples of engineering controls are Heating, Ventilation, and Air Condition (HVAC) systems, area specific air ventilation systems, Ultraviolet (UV) air sanitation systems, specifically designed workspaces, machine guards, and physical barriers. In protection against infectious diseases, these can be summarized as dilution (ventilation with more fresh outdoor air), filtration and destruction (e.g., bi-polar ionization, UV-GI, etc. technologies).

Administrative Controls

Administrative controls are the efforts to change the behavior of personnel to act safer. Within organizations, this is typically done through training, policies, procedures, and disciplinary action. Generally, administrative controls are cheaper to begin, but they may become more expensive over time as higher failure rates and the need for constant training or re-certification eclipse the initial investments of the three (3) more desirable hazard controls in the hierarchy.

PPE

The purpose of personal protective equipment (PPE) is to reduce human exposure to hazards when engineering controls and administrative controls are not feasible or effective to reduce these risks to acceptable levels. PPE is needed when there are hazards present. PPE has the serious limitation that it does not eliminate the hazard at the source and may result in personnel being exposed to the hazard if the equipment fails.

Examples of PPE use is protective clothing, helmets, eye and hand protection, or other garments or equipment designed to protect the wearer's body from injury or infection. The hazards addressed by protective equipment include physical, electrical, heat, chemicals, biohazards, and airborne particulate matter.

Real Solutions

It has been said that masks might do a little bit of good. In the field of industrial hygiene, we do not look at solutions to do a little bit of good. Let's assume that masks stop ~1% of the virus (and this doesn't account for the real, measured and recorded negative side effects of masking on kids). As industrial hygienists, we have a requirement that if we are going to provide a solution that helps the public, it better at least have a 90% relative risk reduction.

Engineering controls isolate people from the hazard while the design and function of an administrative control is maintained by specific consistent proper execution of the procedural control. Any deviation from that then becomes contamination behavior and is deteriorating or downgrading its effectiveness. Then at the bottom of the effectiveness chain is the PPE category of controls. With PPE there is complete reliance on human use and interaction, to maintain its designed scope of protection. In industrial hygiene profession has experienced personnel failing to use their PPE due to a lack of comfort, poor training, or myths they carried with them from a previous employer.

Masks do not seal to the face and cannot offer protection. It can reduce exposure to blood splatter for medical professionals at best, but it is not deemed a true protective piece. Therefore, a mask can in no way scientifically be considered a primary solution to an exposure issue as many doctors and politicians have claimed. A competent response would be focused on dilution, filtration, and destruction of the pathogen that are found within engineering controls.

This is important to understand because the AIHA conducted a study in 2020 (Figure 2-B) that found engineering controls (such as a ventilation system) provide the optimal solution for human protection. They produced a graph demonstrating a 95-99.9% risk reduction for exposure by simply having six (6) to twelve (12) air changes per hour.

It should be noted that this study was done in a medical setting with trained personnel in hygiene, sanitization, donning and doffing. The N95's optimal performance is based on the user's adherence to

the Respiratory Protection standard as well as the manufacturer's requirements for discarding the N95 after two (2) to four (4) hours of use.

(Figure 2-B: AIHA Reducing the Risk of COVID-19 Using Engineering Controls Graphic)

By having an educated understanding in the fundamentals in exposure sciences, it is clearly seen that the solution has always been through engineering controls. However, early in the mask debate unqualified scientists conducted studies that promoted mask use but had there been an understanding in the hierarchy of controls, this confusion could have been averted.

3. MASKS vs RESPIRATORS

Protecting oneself and others from a virus contamination has been a confusing matter for the public and for public health officials. In part, that confusion may stem from confusion about masks and respirators, especially N95 respirators.

In fact, many people now believe that an N95 respirator and a surgical mask belong in the same category. They do not! They are different tools for different jobs. The dangerous misunderstanding has been exacerbated by many of the mask studies conflate these vastly different forms of PPE in their research. Such errors horribly undermine any “scientific” results.

Briefly, here is the difference between masks and respirators, and why it matters:

Masks, such as surgical masks are designed to keep rooms sterile, prevent germs from the mouth and nose of a wearer from contaminating the surrounding area, and is fluid resistant to splash and spatter of blood and other infectious material. Surgical masks are not designed to filter out viruses (which are smaller than germs) and are not designed for respiratory protection or long-term use since their constructive material will degrade with exposure to heat and moisture and there is a possibility for contamination.

The N95 is, in fact, not merely a mask but is a respirator. The N95 respirator is made of a fine mesh of synthetic polymer fibers, specifically a nonwoven polypropylene fabric. It is produced by melt blowing and forms the inner filtration layer that filters out hazardous particles. The following table (Figure 3-A) explains what the letters and numbers mean in the respirator's name. For example, an N95 respirator is non-oil resistant with 95% filter efficiency.

Filter Efficiency	N (Non-Oil Environments)	R (Oil Resistant)	P (Oil Proof)
95%	95	95	95
99%	99	99	99
99.97%	100	100	100

(Figure 3-A: Respirator Filter Efficiency)

Respirators are designed to protect the wearer which is why the filter efficiency is so high. The air breathed out is not filtered and should be considered one-way protection. To properly use a respirator a medical evaluation and a "Fit Test" is required to ensure it is safe for the wearer to use a respirator and that there is a size match to the wearer's face (Respiratory Protection Standard (RPS) - 29 CFR § 1910.134 App A). This is a critically important and is the only scientific methodology to determine a "Fit Factor". The Fit Test enables the wearer to achieve maximum protection for which the respirator was designed. Note: the RPS has many other requirements for those requiring others to wear a respirator and for the wearer as well; there are no equivalent masks regulatory requirements.

It is also important to know that most N95s will degrade after four (4) hours of use (Figure 3-B) in a medical setting but its degradation in work environments without the superior indoor air quality features found in a medical work environment. The more heat and moisture the N95 respirator are exposed the faster the degradation. Especially harmful to the N95 respirator is the wearer's heat and moisture which comes from the wearer's breath and perspiration.

<p>ABSTRACT</p> <p>The present study evaluated the efficacy of disposable surgical masks as a microbial barrier with 95% of Bacteria Filtration Efficacy (BFE) according to the wearing time (1, 2, 4 and 6 hours). The masks showed a decrease in efficacy after a 4-hour wearing time.</p> <p>Key words: surgical masks, hospital infection, microbial barrier</p>
--

(Figure 3-B: Brazilian RCT - Influence of Wearing Time on Efficacy of Disposable Masks)

It is critical in examining masks to differentiate the abilities of respirators and masks. Then match the proper tool to the task. This is assuming that any sort of PPE is a safe last resort option.

Virus Particle

If you can see visible dust in around you, that dust is on the level of about fifty (50) microns. The virus is five hundred (500) times smaller than that dust you can see. If you look at a cross section of a human hair, the COVID particle is around one thousand (~1,000) times smaller than that human hair cross section. This simple fact demonstrates that the particle can easily escape through a mask. It's a super-freeway (Figure 3-C) for the virus to come and go.

(Figure 3-C: Source Redirect – Super-Freeway for the Virus)

(Figure 3-D: COVID Particle vs Human Hair Particle)

This is fact of the mask not having the proper mechanics for the job is further illustrated in a 2003 study from North Carolina State University (Figure 3-E), that reviewed the pore size of the most used masks in the medical field. The study demonstrates that the front mask pore size is at minimum seventeen (16.9) to fifty-one (51) microns in size, which means viral particles can pass through.

Mask	Thickness mm	Weight gm/m ²	Pore Size µm		Synthetic Blood Resistance (% Passed)		
			Mean	Max.	80 mm Hg	120 mm Hg	160 mm Hg
1	0.3345	66.908	23.97	41.74	70	0	0
2	0.2339	58.657	19.29	43.27	100	100	50
3	0.4417	95.775	16.90	27.19	100	100	100
4	0.6137	140.828	35.06	87.74	0	0	0
5	0.3607	145.760	51.00	146.60	0	0	0
6	0.4742	164.405	31.72	92.12	0	0	0

(Figure 3-E: Mask Pore Sizes)

The source control argument is also bogus. Source control means the person wearing the mask can keep the virus from somehow escaping the mask. This assumption is unscientific because if there is a super-freeway, the virus doesn't care where it's coming in or going out. If one has a gap area ~3% of the mask area whatever effectiveness the mask had is ~0% (Figure 3-F).

(Figure 3-F: Mask Gaps)

The source control aspect was tested for the American Society for Testing and Materials (ASTM) and this is what the ASTM F3502 - 21 Standard Specification for Barrier Face Coverings yielded; “NOTE 5 - The leakage assessment represents the total inward leakage likely to occur during wear. Whether measured quantitatively or assessed qualitatively, the leakage assessment does not represent the likely outward leakage of particles generated by the wearer. This is because there are currently no specific accepted techniques that are available to measure outward leakage from a barrier face covering or other products. Thus, no claims may be made with respect to the degree of source control offered by the barrier face covering based on the leakage assessment” (Figure 3-G). This clearly null and voids the source control argument.

NOTE 5—The leakage assessment represents the total inward leakage likely to occur during wear. Whether measured quantitatively or assessed qualitatively, the leakage assessment does not represent the likely outward leakage of particles generated by the wearer. This is because there are currently no specific accepted techniques that are available to measure outward leakage from a barrier face covering or other products. Thus, no claims may be made with respect to the degree of source control offered by the barrier face covering based on the leakage assessment.

(Figure 3-G: Note 5 of ASTM F3502-21 Standard)

There has been great disinformation about COVID being a droplet. Particles can be classified as droplets or aerosols based on their size. Droplets are over five (5) microns, while aerosols are under five (5) microns, with the COVID-19 particle is less than one (1) micron. A 2021 study (Figure 3-H) using monkeys has shown that over 99.9% of COVID particles are aerosols of less than five (5) microns, which means the virus is not being transmitted in a significant manner via droplets.

(Figure 3-H: 99.9% of COVID Particles are Aerosolized)

On February 15, 2021, the following scientists wrote a lengthy memo regarding CDC’s misleading language of droplets and requested that it be corrected:

- Michael Osterholm, PhD, MPH, University of Minnesota CIDRAP
- Rick Bright, PhD, Former Director of BARDA, Dept of Health and Human Services
- Lisa M. Brosseau, ScD, CIH, University of Minnesota CIDRAP
- Lynn R. Goldman, MD, MS, MPH, George Washington University
- Céline Gounder, MD, ScM, NYU Grossman School of Medicine & Bellevue Hospital Center
- Jose Jimenez, PhD, University of Colorado at Boulder
- Yoshihiro Kawaoka, DVM, PhD, University of Wisconsin-Madison and University of Tokyo
- Linsey Marr, PhD, Virginia Tech
- David Michaels, PhD, MPH, George Washington University
- Donald K. Milton, MD, DrPH, University of Maryland
- Kimberly Prather, PhD, University of California San Diego > Robert T. Schooley, MD, University of California San Diego
- Peg Seminario, MS, AFL-CIO (retired)

They wrote in part: “To address and limit transmission via inhalation exposure and prevent COVID infections and deaths, we urge the Biden administration to take the following immediate actions:

- Update and strengthen CDC guidelines to fully address transmission via inhalation exposure to small inhalable particles from infectious sources at close, mid, and longer range. Updated guidelines should be informed by a risk assessment model that focuses on source and pathway (ventilation) controls first, followed by respiratory protection.
- Issue an OSHA emergency standard on COVID-19 that recognizes the importance of aerosol inhalation, includes requirements to assess risks of exposure, and requires implementation of control measures following a hierarchy of controls.”

4. SCIENCE THAT DROVE MASKING

Section three (3) details the mechanics of why masking does not work to prevent infectious disease transmission. These facts are not new and is the reasoning on why a universal masking policy has never been deployed in modern times. Scientists who do not have a background in the science of industrial hygiene have assumed that the new science has overridden what we knew in the past.

As we explore the science that drove the universal public masking policy across the world, it is critical to keep two (2) things in mind. First, public health officials have claimed that masks offer protection, prevent infection, and can be used for source control. The masks were not designed for these functions, so the science parameters to use a tool outside of its scope of design, will have to meet or exceed the already know scientific foundations. We will discuss the Hierarchy of Evidence (Figure 4-A) to show how scientific foundations are set.

Second, the scientists who conduct these studies should have expertise or at least experience in the industrial hygiene field. Medical professionals are not considered experts or experienced in the field of industrial hygiene and are therefore not qualified to offer exposure mitigation tactics.

Hierarchy of Evidence

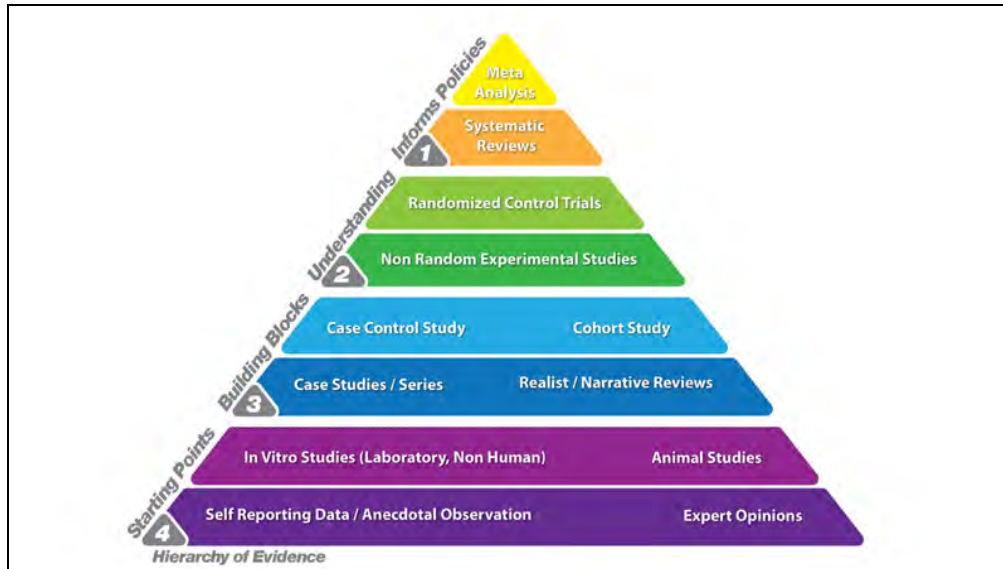

According to the NIH, several hierarchies of evidence have been developed to enable different research methods to be ranked according to the validity of their findings. However, most have focused on evaluation of the effectiveness of researched interventions. The development of such a hierarchy is for ranking of evidence. The aims of this hierarchy are twofold.

First, it is to provide a means by which the evidence from a range of methodologically different types of research can be graded. Second, it is to provide a logical framework that can be used during the development of systematic review protocols to help determine the study designs which can contribute valid evidence when the evaluation extends beyond effectiveness.

Since the Hierarchy of Evidence is not as specific as the Hierarchy of Controls, this version of the Hierarchy of Evidence was chosen as a simple means to demonstrate what category of scientific evidence each study falls under.

The proposed hierarchy was developed based on a review of literature, investigation of existing hierarchies and examination of the strengths and limitations of different research methods. It closely follows the typically accepted order of evidence-based hierarchies. The proposed hierarchy of evidence focuses on three (3) dimensions of the evaluation: effectiveness, appropriateness, and feasibility. Research that can contribute valid evidence to each is suggested with its levels. To address the varying strengths of different research designs, four (4) fundamental grades of value are inferred to align with each noted section: four (4) Poor, three (3) Fair, two (2) Good, and one (1) Excellent. This hierarchy proposes that there is a logical path from four (4) through one (1) to achieve the best science possible.

“Starting Points” progresses to “Building Blocks” which moves us into “Understanding” and finally evolving to a quality that “Informs Policies”. To support policies and scientific protocols, such a standard is built upon considerable rigor and direction inclusive of preceding data from many complimentary studies.

(Figure 4-A: Hierarchy of Evidence Graphic)

Level 1: Meta-Analysis

Meta-analysis is a research process used to systematically synthesize or merge the findings of single, independent studies, using statistical methods to calculate an overall or 'absolute' effect. Meta-analysis does not simply pool data from smaller studies to achieve a larger sample size. Analysts use well recognized, systematic methods to account for differences in sample size, variability in study approach and findings. Results can be duplicated by others.

Level 1: Systematic Reviews

A review of the evidence on a clearly formulated question that uses systematic and explicit methods to identify, select and critically appraise relevant primary research, and to extract and analyze data from the studies that are included in the review. The methods used must be reproducible and transparent.

Level 2: Randomized Control Trials

A study design that randomly assigns participants into an experimental group or a control group. As the study is conducted, the only expected difference between the control and experimental groups in a randomized controlled trial (RCT) is the outcome variable being studied. RCTs are quantitative, comparative, controlled experiments in which investigators study two or more interventions in a series of individuals who receive them in random order.

Level 2: Non-Randomized Experimental Studies

These are studies that aim to evaluate interventions but that do not use randomization. Like randomized trials, these experiments aim to demonstrate causality between an intervention and an outcome. Non-randomized studies can use both preintervention and postintervention measurements as well as nonrandomly selected control groups.

Level 3: Case Control Study

A case-control study is usually a retrospective study that looks back in time to find the relative risk between a specific exposure and an outcome. A control group of people who do not have the disease or who did not experience the event is used for comparison. The goal is figure out the relationship between risk factors and disease or outcome and estimate the odds of an individual getting a disease or experiencing an event.

Level 3: Cohort Studies

Cohort studies can be retrospective or prospective. Retrospective cohort studies are NOT the same as case-control studies. In retrospective cohort studies, the exposure and outcomes have already happened. They are usually conducted on data that already exists (from prospective studies) and the exposures are defined before looking at the existing outcome data to see whether exposure to a risk factor is associated with a statistically significant difference in the outcome development rate.

Prospective cohort studies are more common. People are recruited into cohort studies regardless of their exposure or outcome status. This is one of their important strengths. People are often recruited because of their geographical area or occupation, and researchers can then measure and analyze a range of exposures and outcomes.

The study then follows these participants for a defined period to assess the proportion that develop the outcome/disease of interest. Cohort studies are good for assessing prognosis, risk factors and harm. The outcome measure in cohort studies is usually a risk ratio / relative risk.

Level 3: Case Studies / Series

A report based on a single patient or subject; sometimes collected into a short series of similar cases. Case Series or Reports that are an uncontrolled, observational, or descriptive study design involving an intervention and outcome with a detailed profile of the people and systems in play. Although limited in making causal inferences about the relationship between risk factors and an outcome of interest, they are helpful in developing a hypothesis that can be tested using an analytic study design.

Level 3: Realist / Narrative Reviews

A Realist Review provides an explanatory analysis aimed at discerning what works for whom, in what circumstances, in what respects and how. This is not a systemized data synthesis approach and may include many types of evidence, or varying quality. Narrative Reviews aim to identify several studies that describe a problem of interest. Narrative reviews have no predetermined research question or specified search strategy, only a topic of interest. They are not systematic and follow no specified protocol or level of scientific vigor that systematic reviews do; however narrative reviews are better suited to addressing a topic in wider ways.

Level 4: In Vitro Studies (Laboratory, Non-Human)

In vitro methods used in a laboratory can often include things like studying bacterial, animal, or human cells in culture. Although this can provide a controlled environment for an experiment, it occurs outside of a living organism and results must be considered carefully. The key components of In Vitro experiments are a controlled environment, adjustable variables, and no human involvement in the mechanics of an experiment.

Level 4: Animal Studies

It is important to realize that animal models are indeed just models. They often cannot fully represent or copy the human condition. But the animal model will often provide relevant information where the genetics and molecular pathways are similar. One should also realize that the alternatives in the form of cell cultures or more complex alternatives such as organoids or organs on a chip are also just models. They also have their limitations and the questions that one can answer with them are often more limited.

Level 4: Expert Opinion

The opinions of experts are based not only on their personal clinical experiences, but also on their accumulated knowledge from a wide range of sources. These include the expert's personal assessment of the validity of published reports, new knowledge learned at meetings and symposia, awareness of unpublished studies with "negative" results, and knowledge of the (often unreported) practice styles of colleagues in their field of expertise.

Level 4: Self-Reporting Data / Anecdotal Observations

Information collected from survey or self-reporting is highly subject to several biases, some of which effect recall accuracy, understanding, interpretation of expectations, and effect of circumstances. For example, answering yes to a question which triggers consequences they would rather avoid. Anecdotal observation may be the initial testing or sampling of an idea or process. It could be considered the first impression, or what seems apparent at the onset.

Asymptomatic Spread

The CDC's first salvo of science supporting a universal public mask policy were seven (7) studies about asymptomatic spread of COVID-19, which appears to be a theory born of false test data. The first mistake decision makers made is that they assumed the case results they were witnessing from the PCR testing was accurate. In addition, individual cycle threshold information was not reported from some reason.

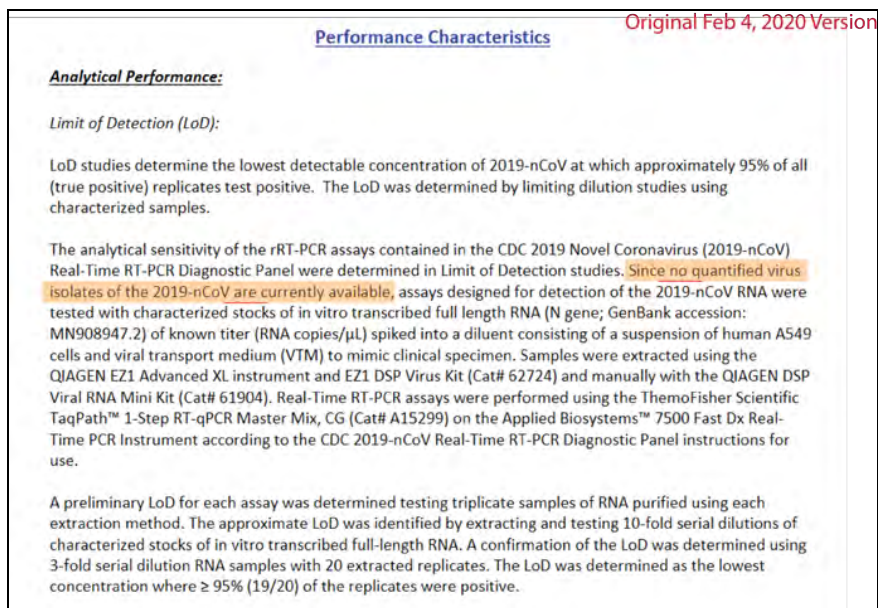

People who were flagged "positive" was considered infectious regardless of whether it took seven (7) or thirty-seven (37) cycles to be flagged as positive. Knowing what specific cycle someone was identified as a "positive" case would have allowed accurate quantifying of viral load which would have been immeasurably useful in guiding the pandemic response.

The protocol was set up so that societal healthcare had merely a "Yes" or "No" indicator to use. More importantly, the PCR template appears to be deliberately designed to be deceptive.

Sometime in January of 2020, the CDC was discussing and applied for an Emergency Use Authorization (EUA) for PCR testing with the EUA being approved on February 4th.

Also, on February 4th the EUA for the PCR Diagnostic was published by the CDC (Figure 4-B). This document is the template of the PCR test, in which all approved 3rd party test builds would have to baseline from.

The wording of the original document stated that "no quantified virus isolates are currently available." Since no isolates were supposedly available, they decided to create a contrived material of coronaviruses to baseline from.

(Figure 4-B: Original PCR EUA Diagnostic)

The problem is that according to the CDC's published COVID cell culture timeline (Figure 4-C), they received the first isolated virus sample from a live person, on January 20th. On February 2nd, the

CDC generated enough viral material grown in cell culture to distribute to medical and scientific researchers. Then on February 4th the CDC shipped SARS-CoV-2 to the BEI Resources Repository.

The screenshot shows a webpage titled "Guidance for COVID-19" with a navigation menu on the left and a main content area on the right. The main content area is titled "Some areas of COVID-19 research that public and academic institutions may study with the SARS-CoV-2 strains include:" and lists four research areas: Antiviral research, Vaccine development, Pathogenesis research, and Virus stability research. Below this is a "Timeline:" section with four bullet points detailing the events from January 20 to February 4, 2020. The timeline includes: receiving a clinical specimen on Jan 20, generating enough virus in cell culture on Feb 2, and shipping the virus to the BEI Resources Repository on Feb 4. The page also features a "Get Email Updates" form, social media icons, and a footer with the text "Last Updated Dec. 29, 2020" and "Content source: National Center for Immunization and Respiratory Diseases (NCIRD), Division of Viral Diseases".

(Figure 4-C: CDC COVID Cell Culture Timeline)

So, from Jan 20th to Feb 4th, that's two weeks that they chose to keep their pure isolates on the shelf and moved forward with the contrived substance which was not specifically calibrated to COVID-19.

That is how one can turn cases of illnesses with similar symptoms to COVID-19, such as the cold and flu into COVID-19 cases. This also explains why so many well-intentioned medical professionals were fooled into thinking they were witnessing, for the first time in medical history, efficient asymptomatic spread and that masking made the flu go away.

The current version of that PCR diagnostics document (Figure 4-D) still states that no isolates paragraph in it. If you read on page 40 in the 2nd paragraph the phrase was changed to "since isolates weren't available at the time", but they were available and they were deliberately not used! At this point we are over two (2) years into the pandemic and no effort has been made to correct this significant issue. As a trained compliance investigator, I would consider this a willful act.

Current IN USE version

Performance Characteristics

Analytical Performance:

Limit of Detection (LoD):

LoD studies determine the lowest detectable concentration of 2019-nCoV at which approximately 95% of all (true positive) replicates test positive. The LoD was determined by limiting dilution studies using characterized samples.

The analytical sensitivity of the rRT-PCR assays contained in the CDC 2019 Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel were determined in Limit of Detection studies. Since no quantified virus isolates of the 2019-nCoV were available for CDC use at the time the test was developed and this study conducted, assays designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA (N gene; GenBank accession: MN908947.2) of known titer (RNA copies/ μ L) spiked into a diluent consisting of a suspension of human A549 cells and viral transport medium (VTM) to mimic clinical specimen. Samples were extracted using the QIAGEN EZ1 Advanced XL instrument and EZ1 DSP Virus Kit (Cat# 62724) and manually with the QIAGEN DSP Viral RNA Mini Kit (Cat# 61904). Real-Time RT-PCR assays were performed using the Thermo Fisher Scientific TaqPath™ 1-Step RT-qPCR Master Mix, CG (Cat# A15299) on the Applied Biosystems™ 7500 Fast Dx Real-Time PCR Instrument according to the CDC 2019-nCoV Real-Time RT-PCR Diagnostic Panel instructions for use.

A preliminary LoD for each assay was determined testing triplicate samples of RNA purified using each extraction method. The approximate LoD was identified by extracting and testing 10-fold serial dilutions of characterized stocks of in vitro transcribed full-length RNA. A confirmation of the LoD was determined using 3-fold serial dilution RNA samples with 20 extracted replicates. The LoD was determined as the lowest concentration where \geq 95% (19/20) of the replicates were positive.

(Figure 4-D: Current PCR EUA Diagnostic)

Hair Salon Study

The CDC has published several mask sciences studies on their website, in which all have problems and do not meet the before mentioned standards explained earlier in this section. As such, we will review the most impactful studies that initiated the universal public masking guidance by public health officials.

An internationally famed study, known as the hair salon study, is called, “Absence of Apparent Transmission of SARS-CoV-2 from Two Stylists After Exposure at a Hair Salon with a Universal Face Covering Policy” highlights those one hundred and thirty-nine (139) clients avoided infection from two (2) infected hair stylists.

(Figure 4-E: Hair Salon Study)

The study insinuates that one hundred and thirty-nine (139) clients were not infected but the researchers in fact cannot make that claim. The sample size may have been one hundred and thirty-nine (139), but the researchers were only able to collect factual evidence on sixty-seven (67) clients.

Thirty-seven (37) clients who were contacted refused to be tested and were self-reporting during a period when people had an incentive not to report themselves being sick, due to quarantine and isolation expectations. Another thirty-five (35) clients were not contacted and did not receive a test, nor did they participate in self reporting. The fact of the research is that only 48% of the sample size was evaluated, while 52% had no factual data. Having data on less than 50% of the sample size is too low in research standards to consider this study for public policy.

The study admitted limitations by not evaluating hygiene and sanitization efforts, limiting services, and stylists and clients not facing each other during services. These are administrative controls and introduce a safer process than PPE. In addition, the hygiene and sanitization processes end the flow of contamination, whereas masking does not offer such a solution.

The hair stylists developed respiratory symptoms and continued working with clients until day eight (8), when the stylist received a positive test result for COVID-19. Viral shedding is at its highest during the two (2) to (3) days before symptom onset. Clients who interacted with the stylists before they became symptomatic were not recruited for contact tracing. How this was mentioned and not taken more seriously by the CDC is baffling. By not evaluating this group of clients alone negates this study from being used on a platform such as the CDC.

In addition, the study does not admit the limitation of not evaluating the HVAC system. This is critical because the HVAC system is a primary tool in the strategy of preventing infectious material from accumulating in the workspace and when used correctly offers the ability to the ventilation and filtration strategy.

The research team evaded long standing scientific protocols of evaluating exposure control methods following the hierarchy of controls. In addition, the research team fraudulently makes the claim that one hundred and thirty-nine (139) clients evaded infection, however the team did not make contact or did not acquire scientific data on 52% of their sample size. More egregiously, the research team made no effort to evaluate the wave of clientele that were exposed to the two (2) hair stylists during their most infectious period. This research is considered a very low-level case study series in the hierarchy of evidence and does not meet or exceed existing known science with masking.

Mass General

This study is significant because this is what the cloth masking guidance derived from. The "Association Between Universal Masking in a Health Care System and SARS-CoV-2 Positivity Among Health Care Workers" was conducted from March 2020 thru April 2020 and was one of the foundational mask studies that moved the CDC into the recommendation of cloth masks for universal masking in community settings. Coincidentally, our current CDC Director worked for this hospital system during this study.

The study never reveals which groups were tested on which days. The study does mention a job description percentage breakdown but does not seem to utilize that information anywhere in the mechanisms of the study. When looking at the timeline of the figure chart, there appears to be no identifier to distinguish the Health Care Worker's (HCW) job descriptions, which would allow more understanding to if there were more high-risk workers getting sick. This could alter the suggested trends of the study.

It is noteworthy that the hospital took in more than seventy (70) patients on March 6th, 2020, from a large Biogen Conference (Figure 4-F) Held in Boston between February 24th and 27th, 2020. This event was not mentioned in the study but is the likely super spreader event that drove infection trends that align with the figure chart of the published study.

(Figure 4-F: Biogen Conference)

The hospital system did not begin to take mitigation action until March 13, 2020. So, for a week personnel were exposed to the incoming from the Biogen Conference that likely included staff members. The infection carried a cycle of around fourteen (14) days and the initial wave of exposed HCW would have had their illness period end around March 20, 2020, or so. Since mitigation efforts did not begin to take place until March 13th, the latter group exposed from the initial wave would be ending between March 21st and 27th, 2020. This was not factored into the study, but this time frame aligns with the infection case trends found in the study's figure chart (Figure 4-G) and shows a decline of HCW infections in these suggested time periods.

(Figure 4-G: Study's Figure Chart)

On March 13, 2020, the hospital implemented higher forms of controls with personnel working from home, elective medical procedures were postponed, had self-service vending machines disabled, converted Connors Center 7 to a Special Pathogens Unit ICU (SPU), and on March 18th more SPUs were created for COVID-19 patients.

On March 14, 2020, they began new policies to reduce HCW from public exposure with a new visitor policy allowed a sick patient to be accompanied with only one (1) well person. They continued this effort on March 16, 2020, by having separate entrances for HCWs and patients, and by having all business travel cancelled to reduce carrying the virus from other areas.

On March 18, 2020, the hospital system implemented testing drive-through's which enabled hospital personnel to test potentially sick and contagious people in a sealed barrier booth, with safety protocols, and PPE.

On March 19, 2020, they suspended all valet services, and implemented protocols to prohibit most visitors. The hospital system produced a video making their enhanced sanitization and hygiene procedures known to the public.

The hospital system implemented a PPE policy of universal masking for HCW on March 25, 2020. This was assumed to be put in place and universally followed but there are several indicators that show this was not.

First, hospital personnel were in distress because of PPE shortages, so much so that they filed complaints with OSHA. They were forced to wear the same face covering for weeks at a time. The shortages of PPE were well documented and influenced the owner of the New England Patriots football team, Robert Kraft, to purchase and deliver PPE to the hospital system. To claim that the mask requirement made the difference in decreasing COVID-19 cases does not correlate with what was truly happening within the hospital system.

The HCWs did not have proper supplies, were forced to wear the same face coverings for weeks if they had the supply, and the replenishment of PPE stock was not met until April 5, 2020. On April 12, 2020, the hospital converted their staff to N95 respirators but failed to note this distinction in the study. Likely due to the lack of understanding the difference between masks and the N95, as we continue to see that the medical field conflates masks with N95s.

Sometime in early April of 2020, the hospital system implemented a video intercom system to enable inpatients with COVID-19 and their providers to interact via secure video conferencing. In each patient room, a bedside iPad is clamped to a nearby IV pole. Medical staff could initiate a video chat with the patient by using an application on an iPad, partners laptop or personal mobile device. As a result, providers did not need to enter patient rooms for every routine question or conversation, reducing the risk of infection and conserving PPE.

The researchers of this study used flimsy data derived from biased observations and did not have a sophisticated methodology of accumulating information. In addition, this study had so many other mitigation strategies, with more advanced PPE in their SPUs before the mandatory masking came into fruition. All these other controls are higher ranked in the Hierarchy of Controls and are thus considered better options than a face covering. In so doing, these other mitigation efforts contaminated the study and make it impossible to conclude masks were the difference maker.

Masks for PPE

One of the most egregious experiences came on September 16, 2020, when then CDC Director Robert Redfield went before the Senate Committee on Appropriations and stated, "These facemasks are the most important, powerful public health tool we have...I might even go so far as to say that this facemask is more guaranteed to protect me against COVID than when I take a COVID vaccine."

(Figure 4-H: Dr. Robert Redfield Testifying on Masks - Senate Committee on Appropriations)

The study Dr. Redfield used to form this opinion was called “Quantitative Method for Comparative Assessment of Particle Removal Efficiency of Fabric Masks as Alternatives to Standard Surgical Masks for PPE.” The study yielded these findings:

The Portacounts (equipment used) were not calibrated before the study. The researchers did daily calculations as their version of calibration quality control. However, this introduces human subjectivity to the research and reduces its quality. This fact was omitted from the published study.

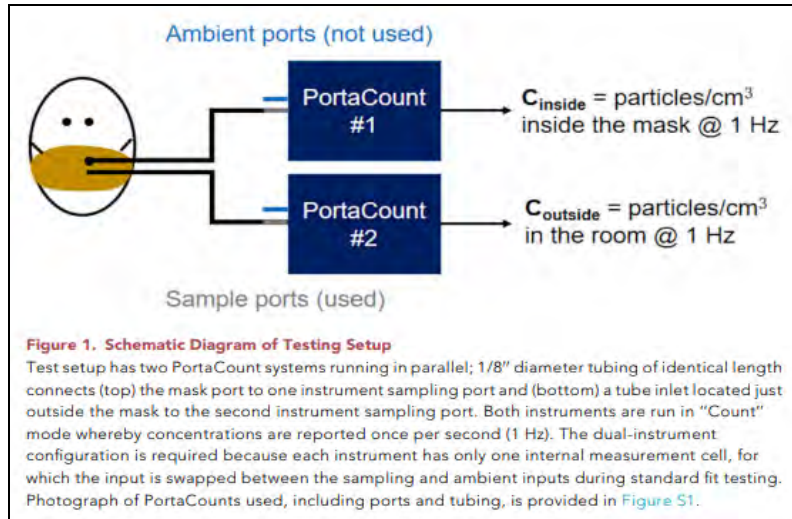

The significant difference in the original preprint and the preprint utilized by the research team (which became the official study name) was that the initial admission of the Portacounts being out of calibration was removed with no further indication of this limitation mentioned in the official preprint and published study.

The research team changed the original preprint title of this study and many organizations, including several prestigious universities who conducted their own meta-analysis included both versions assuming they were separate studies and clearly, they didn’t understand the science enough to decipher this and shows yet another indicator of scientists operating outside of their lane of expertise.

The study was striving to discover other mask options for the public to use as a supplement for an N95 respirator. As such 29 CFR § 1910.134 Appendix A, clearly defines a long proven scientific method to make this determination. The study did mention this regulatory standard but instead misused the Portacounts by setting them to the particulate “count” setting instead of the “fit test” setting.

To determine a fit factor the respiratory protective device is required to be tested against real world scenarios of body movement also found in the CFR. This study decided that because of social distancing practices, this was not necessary, and they had their single test subject not move her head, not breathe out of her mouth, and to only breathe from her nose. It is assumed that the researchers presumed that people in public would not move their heads and talk while wearing a mask. This was a designed methodology to rig the results because less particles are produced when you’re not moving your head and not breathing from your mouth.

The masks had to be manipulated with a nylon layer to obtain a performance suitable to justify mask use which is a violation of 29 CFR § 1910.132(c).

(Figure 4-I: Portacount Set Up in Study)

As stated in the title of this study, the researchers were attempting to find an alternative to masks for the public to use as PPE. As such they made no mention of the need for people to have a medical evaluation before using respiratory devices found in 29 CFR § 1910.134(e). The researchers did make mention of this regulatory standard but again, did not properly apply its requirement.

I was once asked if having a medical evaluation before attempting to wear a respirator was really that important? My response to that is, how do you advance safety measure by degrading them?

Double Masking

In February of 2021, Dr. Anthony Fauci went on a media campaign to push the public to wear two (2) masks (Figure 4-J).

(Figure 4-J: Dr. Fauci Demonstrating Wearing 2 Masks)

The study used manikins and, in an effort, to get a tighter fit they tied knots at the ear straps of the masks, which does not simulate the real world and violates 29 CFR § 1910.132(c) (Figure 4-K).

(Figure 4-K: Manikins from the Double Mask Study)

Other concerns jump out, that were also shared by the authors themselves. Unfortunately, they did not bother exploring them further for clarification.

“The findings of these simulations should neither be generalized to the effectiveness of all medical procedure masks or cloths masks nor interpreted as being representative of the effectiveness of these masks when worn in real-world settings”. Which is fascinating because that is exactly what this study was used for.

“Double masking might impede breathing “. Not investigating this more before distributing this study to the unknowing public was a major miss by the CDC.

Medical Scientists

The Department of Labor defines a “qualified” person as one who by possession of a recognized degree, certificate, or professional standing, or who by extensive knowledge, training, and experience, has successfully demonstrated the ability to solve or resolve problems relating to the subject matter, the work, or the project. There is an obvious significance that medical science is required for a competent pandemic response, however medical scientists are not the qualified people to recommend exposure mitigation strategies.

History has shown this before but the public and media did not catch these past mistakes. An example of the inept training of control measures in the medical field occurred during the Ebola outbreak in 2014. A hospital in Dallas, Texas took in Ebola patients and found themselves completely unprepared. The medical professionals got on the internet and unprofessionally used some PPE and as a result nurses were exposed and became infected. Moreover, it can be assumed that the nurses were not fit tested for respirator use and no training on their control plan was provided. Thankfully, the nurses survived this incompetence (Figure 4-L).

(Figure 4-L: Nurse Who Caught Ebola Settles Suit Against Dallas Hospital)

Even early in the current pandemic I witnessed firsthand the lack of training in the medical field on general PPE use. In my doctor's office, petite nurses were wearing large disposable N95 respirators, which is an indicator that they were not fit tested, in some cases they took the bottom strap off, while others had their disposable N95 respirator on upside down. In addition, doctors were wearing a surgical mask with a disposable N95 respirator on top of it. This is improper use because the face mask was preventing the respirator from capturing a seal to the face.

There are pictures of the famous Chinese Dr. Li Wenliang (Figure 4-M) who warned the world of the current pandemic wearing his PPE in the same fashion as the before mentioned doctors. Unfortunately, Dr. Li's improper use and choice of PPE was a likely contributing factor to his fatal exposure to the COVID-19 virus.

(Figure 4-M: Dr. Li from China)

A friend of mine, who works as an Instructor for an OSHA Education Center, shared the story about his wife who works as a nurse in a Phoenix, AZ area hospital. She suffers from a pulmonary disease and was forced to wear an N95 at work. When her husband became aware of this scenario, he intervened because of the obvious risk created by her employer. He learned that the hospital personnel who were able to get this implemented did so without following the Respiratory Protection standard found within the Code of Federal Regulations (CFR).

Nobody had gone through any respiratory protection training, no medical evaluations, no fit testing, and no instruction of the respirator's change out schedule, maintenance, how to fit check, etc. He was able to get this corrected, but he learned the decision makers at this hospital believed that they were exempt from OSHA because they worked in the medical field.

We have been in several conversations with doctors and school administrators on COVID-19 exposure mitigation tactics and have been met with the straw man argument that nobody really knows which exposure control measures are working and which ones work better than others. Clearly, they did not have any competencies in exposure sciences or the Hierarchy of Controls.

The inadequacies in the medical industry's comprehension of exposure mitigation are further illustrated in that around 90% of the OSHA citations that involve the pandemic are in the medical industry. Their citations consistently revolve around violations of the regulatory standards in Personal Protective Equipment (PPE) (29 CFR § 1910.132) and Respiratory Protection (29 CFR § 1910.134). If these are the "experts" then why are they experiencing these shortcomings?

The reasoning behind the ineptitude of public health officials surrounding their universal public masking guidance derives from poor science executed by scientists travelling outside of their lane of expertise.

5. **UNIVERSAL MASKING RESULTS**

The unknowing public who has blindly followed this guidance have asked, what is the harm in wearing a mask? After more than two (2) years we have some evidence that indicates that the one (1) size fits all approach, has added enough risk to negate any minimal benefit to the PPE strategy.

Mask Contamination

A case study in Kansas (Figure 5-A) has been used for comparison because the state allowed each of its one hundred and five (105) counties to decide whether to implement mask mandates in which eighty-one (81) counties deciding against the measure. Results from the study indicates that mask mandates caused about 50% more deaths compared to no mask mandates.

The Foegen effect
A mechanism by which facemasks contribute to the COVID-19 case fatality rate
Zacharias Fögen, MD* 

(Figure 5-A: Analysis of Masking Trends in Kansas)

This is a likely causation to the contamination of infectious materials that will accumulate on a misused face covering.

We had a mask contamination study from Vietnam in 2015 (Figure 5-B) that showed that masks in long term use patterns serves as a collection point for contamination and if used this way will add to the wearer's risk of getting sick.

(Figure 5-C: Bacterial and Fungal Isolation on Masks)

The industrial hygiene field has known that PPE contamination is a huge risk, which is why there are specific protocols for donning and doffing contaminated PPE. The WHO attempted to inform the public of how to avoid cross contamination (Figure 5-D) but these efforts to adequately and consistently communicate this to the public fell short.

A mask’s ability to function properly is presumptive upon being worn properly, fit tightly, not touched, not adjusted, and cleaned. Therefore, if it is not worn, fitted, cleaned, or touched properly, it is not working. If such concerns did not exist why did the WHO produce this list of “Don’ts” (see Figure 5-D)? How did they determine that these belong on the “Don’ts” list?

(Figure 5-D: WHO Mask Safety Sheet - Don'ts)

Since those answers were not delivered by the WHO or the CDC, here is what my professional experiences have taught when a person does the “Don'ts”:

- More exposure points and risks are generated.
- The trail of contamination is enabled to make its next step.
- At minimum there is a significant reduction in capability but more so it will nullify any protection or spread prevention the mask is trying to accomplish.

If there are no correlating safe behaviors with the deployment of masking (just as with any PPE policy) the mask cannot work and causes harm. Safety data for decades shows that at minimum 90% of the population will participate in the “Don'ts” list and nullify its use.

Every mask case study on the CDC's website is predicated on the notion that masks are an engineering control. When they are placed on the face then they are working at 100% efficiency, as though one is turning a power switch on.

An important distinction between engineering controls and PPE is that when a contamination is interacting with an engineering control, it is doing its work automatically and the human is rarely influencing the engineering control and is not in the direct presence of the risk. With PPE the human and the control are always in contact with the risk, thus the human, can always influence the control, and always be exposed to the risk.

Case studies look at spreadsheet data that says whether masks were on faces, or not, and during which times, and not. No case study has ever calculated the contamination behavior taking place that is continually working to negate, what was already, at best, a minimal measurement of benefit.

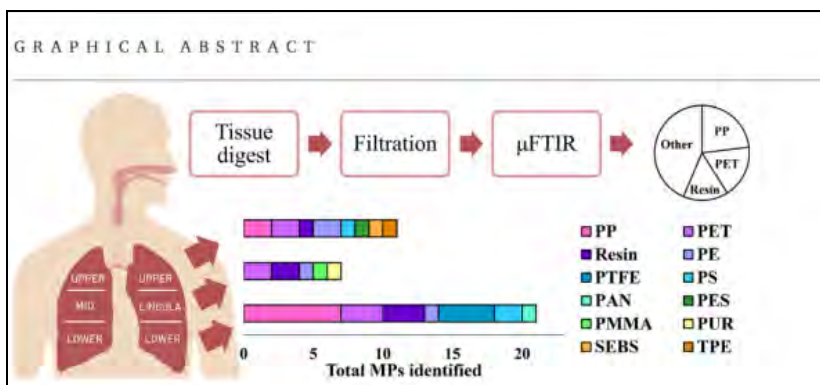

When PPE is used in the professional environment it was designed for, it is accompanied by strict behavioral processes (29 CFR § 1910.134(f)) for the purpose of reducing contamination behavior. That's what it takes for a mask to succeed in its roll. This critical mechanism of mask functionality has been entirely removed in the public use of masks.

Why did the doctors who are prescribing public deployment of masks think masks would somehow magically work without compensating for contamination behavior? If we are going to be scientifically consistent, we must be able to reproduce this in all settings.

Should all the medical facilities stop the donning and doffing of their goggles, gowns, gloves, and masks? The message from doctors influencing public policy is clearly that behavior is not important to the protective function of a mask. That concept conflicts with our training and how we strive to execute strategies in the safety and industrial hygiene profession.

Inhalation Exposures

There is now evidence that has come forward in March of 2022 yielding results that microplastics are now being found in human lung tissue from extended mask use (Figure 5-E).

(Figure 5-E: Microplastics Found in Lungs)

Also, we are learning that wearing a mask carries an exposure risk to titanium dioxide (a human carcinogen) nano particles which are being demonstrated in synthetic textile fibers of face masks intended for the general public (Figure 5-F).

Titanium dioxide particles frequently present in face masks intended for general use require regulatory control

(Figure 5-F: Titanium Dioxide Found in Masks)

Harms Children

To the CDC’s credit though, it has done some research into the risks of universal mask use and on their science brief page “Community Use of Masks to Control the Spread of SARS-CoV-2”. Though the research has several flaws within it, it did reveal that mask use in children carried risk levels up to 7% (Figure 5-G). The before mentioned AIHA study showed a benefit of ~5% on cloth masks (which is what most children/students use) and ~10% on surgical masks. Risk benefit ratio from the risk study negates any advantage to universal masking because industrial hygiene solutions seek a 90% or better solution for exposure control.

Children

A study of 60 elementary school children reported no adverse cardiovascular (e.g., heart rate) or pulmonary (e.g., peripheral oxygen saturation) effects among children while wearing a cloth face covering in a classroom for 30 consecutive minutes of instructional time.⁷⁹ A separate study observed no oxygen desaturation or respiratory distress after 60 minutes of monitoring among children less than 2 years of age when masked during normal play.⁸⁰ A randomized trial among 40 children aged 3–10 years old scheduled for elective surgery, found that protective surgical face masks could be used safely in the postoperative period.⁸¹ In a prospective school-based cohort study of children aged 10–17 years who wore masks for 6–7 hours during the school day, some children self-reported general (4–7%) or situation-specific (2–4%) side-effects such as skin irritation, headache, or difficulty breathing during physical education.⁸²

(Figure 5-G: Potential Adverse Health Effects of Mask Wearing - Children)

A Brownstone paper by Paul Elias Alexander published December 21, 2021, shows both the effectiveness of masks and their harms, citing 150 studies. One of these author's testified in the Western District Court of Michigan on September 28, 2021 that the nearly fifty studies cited by the CDC purportedly showing masks are effective did not support statements made by the CDC and most suffered from a lack of a control group (group similar to the mask study group not wearing masks) or confounding factors (multiple factors such as changes in HVAC systems, distancing, quarantining, and masks) wherein one cannot determine the specific contribution by masking. The most egregious part of this statement is that it only addresses supposed benefits and not their liabilities.

Well-established data shows that mask wearing for children delivers significant harms and does add risk such as reduced learning and development; physical, emotional, and social harms (see Figures 5-H to 5-O).

The slide features a blue background with white text. On the left, there is a thumbnail of a report cover titled 'i-Ready Understanding Student Learning Analysis from Fall 2021' by Curriculum Associates. On the right, under the heading 'Key Findings', there are three bullet points with blue arrows. The first bullet point discusses reading performance in upper-elementary and middle school grades compared to pre-pandemic levels. The second bullet point discusses mathematics performance across all grades. The third bullet point discusses the disparity in on-grade-level performance between Black and Latino students and White students.

CURRICULUM ASSOCIATES – NOV. 2021*

Key Findings

- In reading, the percentage of students who are on grade level in the upper-elementary and middle school grades is close to pre-pandemic levels, whereas in the early grades the percentage of students who are on grade level is lower than before the pandemic.
- In mathematics, the percentage of students who are on grade level is lower in nearly all grades than what we saw prior to the pandemic.
- Fewer students attending schools serving mostly Black and Latino students are on grade level this fall than students attending schools serving mostly White students, and these inequities pre-date the pandemic.

BROWN UNIVERSITY STUDY*

ABSTRACT

Since the first reports of novel coronavirus in the 2020, public health organizations have advocated preventative policies to limit virus, including stay-at-home orders that closed businesses, daycares, schools, playgrounds, and limited child learning and typical activities. Fear of infection and possible employment loss has placed stress on parents; while parents who could work from home faced challenges in both working and providing full-time attentive childcare. For pregnant individuals, fear of attending prenatal visits also increased maternal stress, anxiety, and depression. Not surprising, there has been concern over how these factors, as well as missed educational opportunities and reduced interaction, stimulation, and creative play with other children might impact child neurodevelopment. Leveraging a large on-going longitudinal study of child neurodevelopment, we examined general childhood cognitive scores in 2020 and 2021 vs. the preceding decade, 2011-2019. **We find that children born during the pandemic have significantly reduced verbal, motor, and overall cognitive performance compared to children born pre-pandemic. Moreover, we find that males and children in lower socioeconomic families have been most affected.** Results highlight that even in the absence of direct SARS-CoV-2 infection and COVID-19 illness, the environmental changes associated COVID-19 pandemic is significantly and negatively affecting infant and child development.

January 2022 England Dept. of Education Study – Masks Negatively Affected Learning

The review acknowledged the use of face coverings are harmful:

“A survey conducted by the Department for Education in April 2021 found that almost all secondary leaders and teachers (94%) thought that wearing face coverings has made communication between teachers and students more difficult, with 59% saying it has made it a lot more difficult”

“Wearing face coverings may have physical side effects and impair face identification, verbal and non-verbal communication between teacher and learner.”

Evidence Summary
Department for Education
January 2022

(Figure 5-N: Loss of Communication and Physical Effects)

OTHER NEGATIVE EFFECTS OF WEARING MASKS		
Increased risk of adverse effects when using masks:		
Internal diseases COPD Sleep Apnea Syndrome advanced renal Failure Obesity Cardiopulmonary Dysfunction Asthma	Psychiatric illness Claustrophobia Panic Disorder Personality Disorders Dementia Schizophrenia helpless Patients fixed and sedated Patients	Neurological Diseases Migraines and Headache Sufferers Patients with intracranial Masses Epilepsy
Pediatric Diseases Asthma Respiratory diseases Cardiopulmonary Diseases Neuromuscular Diseases Epilepsy	ENT Diseases Vocal Cord Disorders Rhinitis and obstructive Diseases	Occupational Health Restrictions moderate / heavy physical Work
	Dermatological Diseases Acne Atopic	Gynecological restrictions Pregnant Women

(Figure 5-O: Areas of Quantitated Adverse Effects on Children and Adults)

There has been a bombardment by policy makers to “follow the science”. However, the curious thing about that is that even the CDC science does not actually say what the public has been told it says. Especially where the health-related studies are concerned, there is no research that offers a comparison to the real-life daily activities that both adults and children are engaged in.

The studies are careful to express a more nuanced approach to the problems at hand, where adjustments are called to be made in certain circumstances, rather than the forced one (1) size fits all approach that is called for by people in positions of authority. Every single health study admits significant limitations that could degrade or nullify its data. Every single health study calls for further studies to build upon their data. Yet, The CDC sees fit to place these fledgling observations into policy creation status.

These are keystone observations to make when critically examining the CDC health studies:

- The participants are typically in perfect health, whereas the public at large is typically unhealthy over a broad spectrum.
- The lab conditions and air are climate controlled as a baseline, and do not account for various work environments such as construction or industrial, where air is already at a subpar baseline.
- In each of the CDC mask risk experiments, measurable clinical numbers always move or fluctuate. However, none of the studies bother to explore the continued rate of measurables beyond the chosen time limits of the study. This is a critically important omission as people in society are engaged in life activities for hours at a time, day after day, for weeks on end.

The following studies demonstrated some of these before mentioned issues and negate the one (1) size fits all approach recommended by the CDC (see Figures 5-P to 5-S).

Beyond the larger sample size, advantages of our study include testing cloth facemasks that are actually being used by people in day-to-day life during the current pandemic, not excluding subjects with common co-morbidities like asthma [15], and measuring ventilation and not just oxygenation [12]. Our study has limitations that could be addressed in future work. First, our sample size is modest, though notably larger than many prior studies assessing gas exchange while wearing masks. Second, the duration of each study phase was 10 minutes, which was chosen to provide adequate time to observe physiologic changes but not require people to volunteer more than 90 minutes of their time. Though the substantial increase in heart rate with walking supports that the duration and intensity were sufficient, future studies may consider a longer duration and/or higher intensity of physical activity. Similarly, the rigor of the activity could be better controlled by using a treadmill. Third, the order of testing could be randomized to make sure that vitals obtained during the last phases (i.e. wearing the surgical mask) were not influenced by the subjects being tired from the prior phases. However, each subject had a 10 minute period of rest (sitting) before each walking phase during which their heart rate returned to baseline, so it is unlikely that the slight increase in heart rate observed with surgical masks was due to subject fatigue. Fourth, we used transcutaneous measurements of CO₂ tension rather than arterial blood sampling in order to minimize pain for the subjects, which may be a less accurate method of measurement. However, the SenTec monitor is validated as a surrogate for arterial blood sampling [16] and the measurements taken in triplicate in our study subjects were very consistent (almost always within 1–2 mmHg of each other).

Conclusion

In conclusion, facemasks did not impair oxygenation or ventilation among 50 adults at rest or during physical activity. No episodes of hypoxemia or hypercarbia occurred with either cloth or surgical masks, both at rest and while walking briskly. The risk of pathologic gas exchange impairment with cloth masks and surgical masks is near-zero in the general adult population.

(Figure 5-P: “The effects of wearing facemasks on oxygenation and ventilation at rest and during physical activity” Authors: Shein SL, Whitticar S, Mascho KK, Pace E, Speicher R, et.al.)

Pediatrics

There are important differences in respiratory physiology in infants and young children as compared with adults (see Reference 55 for review). Infants and young children have underdeveloped accessory muscles of respiration and thus rely more on the diaphragm for most of the Wb. An increase in respiratory muscle work is largely accomplished by an increase in the respiratory rate, and the diaphragm can become fatigued more quickly than in adults. Children under the age of 6 years have proportionally more extrathoracic anatomical dead space owing to the larger ratio of head size to body size (56). These anatomical differences combined with an inherently higher basal metabolic rate place infants and young children at greater risk of respiratory failure than adults from various significant health threats. These differences decrease as children age, and other than in children younger than 2 years and those with significant respiratory or neurological conditions, there are no significant differences in respiratory physiology for older children and adolescents that are expected to substantially alter the effects of masks as described above, but additional data are needed to clarify this issue.

(Figure 5-Q: “Face Masks and the Cardiorespiratory Response to Physical Activity in Health and Disease Authors; Hopkins SR, Dominelli PB, Davis CK, et al.”)

On the surface, the addition of a small increase in the \dot{V}_E and re-ventilation of low concentrations of CO_2 with any type of face mask would appear to pose more problems for individuals with underlying cardiopulmonary disease. Other drawbacks for such individuals with face-mask wearing may include anxiety and greater dyspnea (60, 61), reduced fine-motor performance (62), possible cognitive effects as a result of slight CO_2 retention and mildly increased hypoxemia, and increased \dot{V}_E (63).

Increased temperature around the face (64) and a 0.5°C body-temperature elevation with loss of normal respiratory heat dissipation (65) may also have effects. Patients with mild-to-moderate pulmonary disease will likely tolerate cloth/surgical masks with an acceptable extent of discomfort, but with advanced disease, this may become more burdensome because of the effects of mask wearing described above (66, 67). More efficient filtering masks will be difficult for almost anyone with severe nonasthmatic lung disease and may warrant closer monitoring of symptoms and arterial saturation with oximetry. Patients with altered ventilatory control and blunted drives to breathe, such as those with obesity hypoventilation syndrome, may also warrant monitoring for greater hypoxemia and increased CO_2 retention, resulting from potential small increases in dead space with a face mask.

(Figure 5-R: “Face Masks and the Cardiorespiratory Response to Physical Activity in Health and Disease Authors; Hopkins SR, Dominelli PB, Davis CK, et al.”)

Limitations and future research

It is important to note the study limitations. Our sample reflects young, apparently healthy, physically active adults, and thus results may not be applicable to other populations (eg, children, older adults, sedentary population, individuals with medical conditions). Next, despite following a thorough process for pretest mask fit, leakage may have occurred during the CPET, especially at higher workloads/stages when ventilation increased. Additionally, while we standardised the cloth face mask for the purposes of the study, there is significant variability in masks used by the public (eg, size, shape, material, design), each of which may impact the effect of masks on exercise responses. Further, resting measurements of dyspnoea would provide insight into the effect of wearing a cloth face mask at rest and measurement of lactate would provide insight into the explanation of reduced $\dot{V}\text{O}_2$ to account for differences associated with effort versus physiological limitations. Finally, participants did not undergo a 'preparatory' exercise test, nor were the study team blinded to masked or unmasked conditions (eg, use of a sham). Future research should examine the effect of those specific mask configurations on exercise performance and related physiological variables and whether 'acclimatisation'—or even improved exercise performance²⁹—to wearing masks during exercise occurs, as well as quantitative resting rates of dyspnoea. Further, increased RPE and dyspnoea across all stages during the masked condition warrant future investigation of implications for individuals with history of conditions such as chronic obstructive lung disease, chronic heart failure³⁰ and asthma.³¹ Future research should examine cognitive capacity to tasks while wearing a mask during exercise, as well as the relationship between $\dot{V}\text{O}_2$ data and CPET stages.

Conclusion

Our data suggest that wearing a cloth face covering negatively impacts exercise performance in healthy adults during a maximal treadmill test. As both physiological and perceptual factors were negatively impacted, coaches, trainers and athletes should be aware of the effect of cloth face coverings as the population continues to exercise safely during the global pandemic.

(Figure 5-S: “Effects of wearing a cloth face mask on performance, physiological and perceptual responses during a graded treadmill running exercise test Authors; Driver S, Reynolds M, Brown K, et al.)

An example of the CDC in its continued inept scientific comprehension in this lane can be found on page six (6) of the “Types of Masks and Respirators” publication. It insinuates that N95 respirators are safe for children (see Figure 5-T) in fact most manufacturers such as 3M and Moldex will state in their instructions that the N95 is not designed for the use of children (see Figure 5-U).

Considerations for Children

Masks

Anyone ages 2 years or older who is not vaccinated or not up to date on vaccines should wear masks in indoor public spaces. This recommendation also applies to people who are up to date on their vaccines when they are in an area of substantial or high transmission. CDC also currently recommends universal indoor masking for all teachers, staff, students, and visitors to K-12 schools, regardless of their vaccination status or the area's transmission rates. The benefits of mask-wearing are well-established.

Respirators

Parents and caregivers may have questions about NIOSH-approved respirators (such as N95s) for children. Although respirators may be available in smaller sizes, they are typically designed to be used by adults in workplaces, and therefore have not been tested for broad use in children.

Selecting Masks

- Masks and respirators should not be worn by children younger than 2 years.
- Choose a well-fitting and comfortable mask or respirator that your child can wear properly. A poorly fitting or uncomfortable mask or respirator might be worn incorrectly or removed often, and that would reduce its intended benefits.
 - Choose a size that fits over the child's nose and under the chin but does not impair vision.
- Follow the user instructions for the mask or respirator. These instructions may show how to make sure the product fits properly.
- Some types of masks and respirators may feel different if your child is used to wearing a regular cloth or disposable procedure masks.

(Figure 5-T: Misleading CDC Language Regarding Children Wearing Masks and Respirators)

Use Instructions

- 1) Failure to follow all instructions and limitations on the use of this respirator and/or failure to wear this respirator during all times of exposure can reduce respirator effectiveness and **may result in sickness or death.**
- 2) In the U.S., before occupational use of this respirator, a written respiratory protection program must be implemented meeting all the requirements of OSHA 29.CFR.1910.134, such as training, fit testing, medical evaluation, and applicable OSHA substance specific standards. In Canada, CSA standard Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Follow all applicable local regulations.
- 3) The particles which can be dangerous to your health include those so small that you cannot see them.
- 4) Leave the contaminated area immediately and contact supervisor if dizziness, irritation, or other distress occurs.
- 5) Store the respirator away from contaminated areas when not in use.
- 6) Inspect respirator before each use to ensure that it is in good operating condition. Examine all the respirator parts for signs of damage including the two headbands, attachment points, nose foam, and noseclip. The respirator should be disposed of immediately upon observation of damaged or missing parts. Filtering facepieces are to be inspected prior to each use to assure there are no holes in the breathing zone other than the punctures around staples and no damage has occurred. Enlarged holes resulting from ripped or torn filter material around staple punctures are considered damage. Immediately replace respirator if damaged. Staple perforations do not affect NIOSH approval (For B110S only).
- 7) Conduct a user seal check before each use as specified in the Fitting Instructions section. **If you cannot achieve a proper seal, do not use the respirator.**
- 8) Dispose of used product in accordance with applicable regulations.

Use Limitations

- 1) This respirator does not supply oxygen. Do not use in atmospheres containing less than 19.5% oxygen.
- 2) Do not use when concentrations of contaminants are immediately dangerous to life and health, are unknown or when concentrations exceed 10 times the permissible exposure limit (PEL) or according to specific OSHA standards or applicable government regulations, whichever is lower.
- 3) Do not alter, wash, abuse or misuse this respirator.
- 4) Do not use with beards or other facial hair or other conditions that prevent a good seal between the face and the sealing surface of the respirator.
- 5) Respirators can help protect your lungs against certain airborne contaminants. They will not prevent entry through other routes such as the skin, which would require additional personal protective equipment (PPE).
- 6) This respirator is designed for occupational/professional use by adults who are properly trained in its use and limitations. **This respirator is not designed to be used by children.**
- 7) Individuals with a compromised respiratory system, such as asthma or emphysema, should consult a physician and must complete a medical evaluation prior to use.

(Figure 5-U: 3M Instructions CDC Listed 3M N95 Respirators - Not Designed for Children)

Other industrial hygienist colleagues and I wrote a letter to the CDC Director Dr. Rochelle Walensky in an effort to educate and assist her team in rescinding this publication and implementing strategies that are low risk and actually yield positive results (a copy of the letters is in Appendix F). The CDC did respond and dodged the question of why they would recommend N95s for children when the

manufacturers warn against it. The CDC's position continues to be that masks work if they are used properly (i.e., glued on your face with no gaps) which is never the case in the real world, especially with an untrained public. They also continue to conflate the terms "masks" and "N95 respirators."

6. CONCLUSION

The mask mechanism studies (such as the famous Bangladesh Mask study) always assumed that the masks had efficacy that met scientific standards and best practices (e.g., industrial hygiene and OSHA requirements), but they never considered otherwise because they did not filter their assessments through the Hierarchy of Controls. Nor did they understand the safety and health profession to properly evaluate masks for protection. Our field of industrial hygiene should have been involved in the peer review process and the embarrassing findings in these studies would have been identified before publication.

The mask health studies conducted short intervals of assessing health conditions while wearing face coverings which do not emulate the real-world scenarios of children and adults wearing masks for hours in a day. The studies admit that they primarily used healthy subjects and rejected unhealthy participants and openly affirm that there is a health risk in wearing masks and that there is a need for exemptions and situational adjustments. The public was not informed of this.

The WHO and CDC cherry picked studies conducted by scientists who lacked integrity and the proper expertise to conduct them. Most of these studies lacked proper control groups or had confounding factors that would not allow the effect of masking alone to be determined.

Not a single CDC approved study supporting the science of universal public masking ever asked the first fundamental scientific question, "what happens in universal public masking?" As a result, the CDC has not produced any science that is relevant to the real-world scenarios we all face.

These studies did not satisfy if universal masking is safe for children and adults to wear for hours at a time, with varying physical, health, and work circumstances. Additionally, public health officials apparently felt that contamination was not a concern and did not ensure that the public were receiving proper decontamination procedures such as donning and doffing to reduce the risk.

They never evaluated when do masks become a source of contamination? These scientists assumed the contamination goes into an alternate universe, so why do we continue to don and doff protective equipment in medical settings?

The strategy of fresh-air dilution, filtration, and destruction should have been implemented from day one (1). We had the tools to fulfill this from the beginning and had we had done so, businesses and schools would have never been shut down, and the deaths would have been significantly reduced.

The before letter mentioned that was sent to CDC Director Walensky was also sent to the White House COVID-19 Response Coordinator, Jeffrey Zients, and to his credit, it appears he may have taken our guidance and is now pushing for engineering controls as the solution. On March 23, 2022, (thirty-one days after the White House received our letter) the White House posted the "Let's Clear the Air on COVID" brief that communicates engineering control technologies as the best solution to mitigate exposure and reasoning. Mr. Zients and his team deserve credit for finally sharing with the American people solutions that are science based and that work!

(Figure 6-A: White House Brief on Engineering Controls)

The people that drove this policy claimed that they were following the science is false. It is clear that they were making rules and then seeking studies that validated their desired position on these nonsensical policies.

We are beginning to witness the retreat from the universal public masking narrative.

Steve Gottlieb and the CDC admitted that cloth masks do not offer protection in January of 2022. Medical scientists who have frequent television appearances, went in the media claiming that the science changed when in fact it did not.

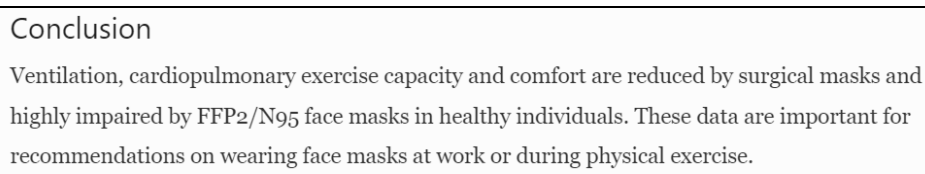

(Figure 6-B: Steve Gottlieb on Face the Nation)

Even former Pfizer VP Michael Yeadon admitted this past May “It was known long before COVID-19 that face masks don’t do anything”.

It’s clear that the political leaders who drove universal public masking never actually read the studies themselves. The science they push does not say what they think it says. The words written in the studies, they, themselves approved, talk about the need for nuanced adjustments to situations. That there is a need for exclusions and exceptions for several groups of people.

A study even specifically advised to be aware of the dangers of mask wearing during sporting activities (Figure 6-C). The public did not get any of this messaging from our leaders or the scientists tasked with an honest analysis of the science to drive mitigation strategies.

(Figure 6-C: Risk of Mask use during Physical Exercise)

As a firm that professionally assess risks in the aspects of environmental, health, and safety; it is Premier Risk Management's position that the risks of universal masking far outweigh any benefit. Our recommendation is that all universal masking policies should be immediately rescinded.

Sincerely,

Tyson Gabriel, BS, IH, OSH Pro

Re: Request for Immediate Corrections to the CDC Guidance on Masks and Respirators

Dear Dr. Walensky, Dr. Fauci, Senator Johnson, Mr. Parker, and Mr. Zients:

We the undersigned, professional experts in the field of industrial hygiene, with combined experience of nearly 150 years, are highly concerned with the inaccurate and misleading guidance being promoted by the CDC on its website regarding efficacy of masking to prevent COVID-19 and now similar guidance regarding respirators and request for immediate correction to said guidance. The guidance is overly broad, inaccurate, and especially inappropriate for children and the general public.

For reference, the field of industrial hygiene is defined as:

“That science and art devoted to the anticipation, recognition, evaluation, and control of those environmental factors or stressors arising in or from the workplace, which may cause sickness, impaired health and well-being, or significant discomfort among workers or among of the citizens of the community”
(<https://www.aiha.org/about-ih/Pages/default.aspx>).

The AIHA defines an Industrial Hygienist (<https://www.aiha.org/ih-careers/discover-industrial-hygiene>) as:

“Scientists and engineers committed to protecting the health and safety of people in the workplace and the community.”

Thus, our profession is dedicated, in part, to providing controls to exposures and rely upon what is known as the hierarchy of controls. The hierarchy of controls was first developed by the National Safety Council (NSC) in 1950. This guides us as to the most effective to least effective exposure controls (see Figure 1):

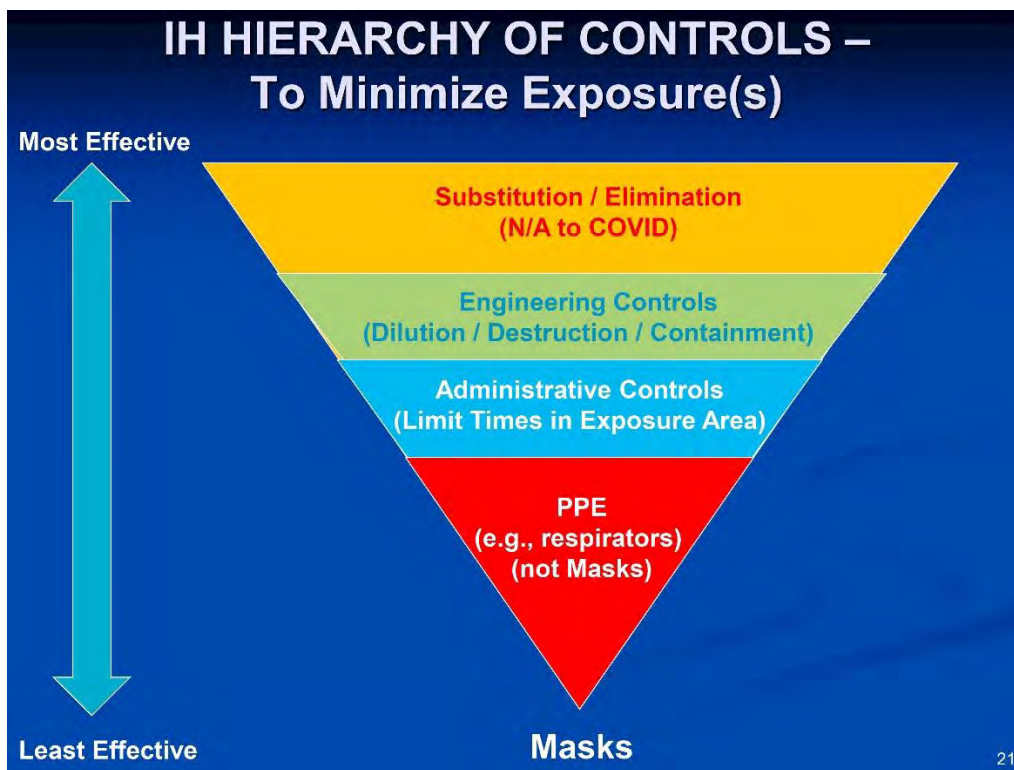

Figure 1: Hierarchy of Controls

Note that masks do not fit into the hierarchy of controls simply because they are not even personal protective equipment. This is recognized in the recent ASTM Face Covering (mask) Standard [ASTM F3502-21 – Standard Specification for Barrier Face Coverings (BFCs)] illustrated in Figure 2:

3.1.8 *respirator, n*—personal protective equipment (PPE) designed to protect the wearer from inhalation of hazardous contaminants.

3.1.8.1 *Discussion*—Barrier face coverings are not designed to meet the performance requirements of NIOSH-approved respirators. For the purpose of this specification, healthcare

Figure 2: ASTM 2021 BFC Standard – Masks Not PPE (Respirators)

The best industrial hygiene solution has for decades been engineering controls of dilution with fresh air, filtration, and/or destruction – all of which are readily available technologies.

Given this background, we the undersigned have been increasingly concerned about the mis-information provided by the CDC to the public; often reflected by inappropriately conclusive language that *omits technical limitations and documented negative effects associated with masks and face coverings*. Examples of our concerns follow:

Issue #1: Recommending N-95 type masks is inappropriate for the general population and children:

The CDC’s January 14, 2022 and January 28, 2022 webpage language have instructed people to move away from masks and toward N95-type respirators (see for example <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/types-of-masks.html>), including KN95 respirators (Figure 3):

Respirators

When choosing a respirator, look at how well it fits and read the manufacturer instructions. These instructions should include information on how to wear, store, and clean or properly dispose of the respirator. Respirators have markings printed on the product to indicate they are authentic, [see appropriate N95 markings](#) and [KN95 markings](#).

COVID-19

4/8

in and out around the edges of the respirator. Gaps can be caused by choosing the wrong size or type of respirator or when a respirator is worn with facial hair. **For information about how to use your N95 correctly, see [How to Use Your N95 Respirator](#)**. The information on this page is about N95 respirators but also applies to international respirators, like KN95 respirators.

Most publicly available respirators are disposable and should be discarded when they are dirty, damaged, or difficult to breathe through.

More information on these two types of respirators is provided below.

Figure 3: CDC January 14 & January 28, 2022 Guidance on Respirators – pgs. 4-5

Under the topic of respirators, the CDC lists both N95 and KN95 respirators.

Moreover, as the CDC knows, persons or entities providing respirators in the workplace (unlike masks) must follow OSHA's Personal Protective Equipment Standard (OSHA 29 CFR 1910.132) to establish the nature of the hazard (Hazards Assessment) and the Respiratory Protection Standard (RPS) requirements (29 CFR 1910.134). Non-employees must also follow the RPS under the manufacturers' instructions (as we shall show later). These RPS requirements are substantial and include factors such as:

- Written RPS Plan
- Medical Clearance
- Initial Fit Test
- Annual Fit Test
- Training by a professional such as an IH on fit testing, cleaning, storage, and changeout.

As the CDC knows, or should know, movement from masks to respirators comes with significant requirements or as the manufacturers such as 3M state on their instructions, improper usage "may result in sickness or death".

In this context, we have recently been provided by the following request, and rejection by OSHA, to investigate improper usage of KN respirators by an employer (Figure 4):

February 9, 2022

[Redacted]

RE: OSHA Complaint No. 1864651

Dear [Redacted]

The Occupational Safety and Health Administration (OSHA) has received your notice of alleged workplace hazard(s) against notified Gun Lake Casino. After careful review we have decided not to conduct an inspection because:

On the basis of the information provided to our office during our phone conversation the employer has provided and is requiring employees to wear KN95 masks which are not NIOSH certified respirators and would not be covered by OSHA's respiratory protection standard.

If you do not agree with this decision, you may contact me for a clarification of the matter at (419) 259-7542.

Section 11(c) of the OSH Act provides protection for employees against discrimination because of their involvement in protected safety and health related activity. If you believe you are being treated differently or action is being taken against you because of your safety or health activity, you may file a complaint with OSHA. You should file this complaint as soon as possible, since OSHA normally can accept only those complaints filed within 30 days of the alleged discriminatory action.

Thank you for your concern for a safe and healthful workplace.

Respectfully,

Todd Jensen
Area Director

Figure 4: OSHA February 9, 2022 Response Letter to Gun Lake Casino Complaint

OSHA rejected the employee complaint on a technicality that the employer was not following the OSHA RPS because the respirator was a KN95 rather than an N95. And, as shown in Figure 5, NIOSH does not approve KN95's:

NIOSH-approved N95 Particulate Filtering Facepiece Respirators

This list is reviewed and updated weekly.

Manufacturers Listed from A to Z – L

The N95 respirator is the most common of the seven types of particulate filtering facepiece respirators. This product filters at least 95% of airborne particles but is not resistant to oil-based particles.

This web page provides a table of NIOSH-approved N95 respirators listed by manufacturer from A-Z. You can find a specific manufacturer by clicking on the first letter of their name on the index below. Web links in the table go to the NIOSH Approval Holder's website. See the [Notes](#) section for information about private labels.

NIOSH entered a [Memorandum of Understanding](#) (MOU) in 2018 with the Food and Drug Administration (FDA). This MOU granted NIOSH the authority to approve surgical N95 filtering facepiece respirators. Prior to this MOU, both NIOSH and FDA approved and cleared surgical N95s. The **Model Number/Product Line in bold text followed by (FDA)** indicates these surgical N95 respirators in the table below. NIOSH also provides a [table of the surgical N95 respirators approved prior to the MOU](#). Surgical N95 respirators approved under the MOU do not require FDA's 510(k) clearance. These NIOSH-approved surgical N95 respirators are only on the [Certified Equipment List \(CEL\)](#).

A respirator labeled as a KN95 respirator is expected to conform to China's GB2626 standard. NIOSH does not approve KN95 products or any other respiratory protective devices certified to international standards. For more information, view [Factors to Consider When Planning to Purchase Respirators from Another Country](#).

Figure 5: NIOSH Language Regarding Approval of KN95 Respirators

So, in an obvious case of deception, the CDC recommends the usage of N95 and KN95 respirators (see Figure 3) yet must know they are not approved by NIOSH and that OSHA will not enforce the RPS. The irony here is that NIOSH is part of the CDC (see Figure 5 letterhead), so the CDC clearly knows this. Note that it is known that KN95 respirators from China are known to be less expensive than those made with the N95 designation and find widespread usage; this too was known, or should have been known, by the CDC.

Thus, the CDC pushes KN95 respirators as part of the move toward respirators, knowing they are not approved by their sub-agency NIOSH, which allows employers to make employees wear respirators without the protections of OSHA's Respiratory Protection Standard (RPS). This is an unconscionable breach of the public health function and should be corrected immediately.

Issue #2: CDC has issued harmful guidance for masking children that contradicts manufacturers' recommendations, world-wide standard practice and CDC's own guidance, and without appropriate risk-benefit analysis:

The CDC's January 28, 2022 webpage language misleadingly implies respirators are acceptable for children yet knows that this is not the case simply based on manufacturer instructions, they link the reader to <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/types-of-masks.html> – see Figure 6:

Considerations for Children

Masks

Anyone ages 2 years or older who is not vaccinated or not up to date on vaccines should wear masks in indoor public spaces. This recommendation also applies to people who are up to date on their vaccines when they are in an area of substantial or high transmission. CDC also currently recommends universal indoor masking for all teachers, staff, students, and visitors to K-12 schools, regardless of their vaccination status or the area's transmission rates. The benefits of mask-wearing are well-established.

Respirators

Parents and caregivers may have questions about NIOSH-approved respirators (such as N95s) for children. Although respirators may be available in smaller sizes, they are typically designed to be used by adults in workplaces, and therefore have not been tested for broad use in children.

Selecting Masks

- Masks and respirators should not be worn by children younger than 2 years.
- Choose a well-fitting and comfortable mask or respirator that your child can wear properly. A poorly fitting or uncomfortable mask or respirator might be worn incorrectly or removed often, and that would reduce its intended benefits.
 - Choose a size that fits over the child's nose and under the chin but does not impair vision.
- Follow the user instructions for the mask or respirator. These instructions may show how to make sure the product fits properly.
- Some types of masks and respirators may feel different if your child is used to wearing a regular cloth or disposable procedure masks.

<https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/types-of-masks.html>

6/8

Figure 6: Misleading CDC Language Regarding Children Wearing Masks and Respirators

As illustrated in detail below, the CDC provided language in its January 28, 2022 guidance for children that is particularly misleading by obfuscating and omitting information readily known, or likely to have been known by the CDC.

“The benefits of mask-wearing are well-established.”

First, the benefits of children, or anyone for that matter, of wearing masks being well

established is simply false. A Brownstone paper by Paul Elias Alexander published December 21, 2021 (<https://brownstone.org/articles/more-than-150-comparative-studies-and-articles-on-mask-ineffectiveness-and-harms/>) shows both the effectiveness of masks and their harms, citing 150 studies. One of these author's testified in the Western District Court of Michigan on September 28, 2021, in a half-dozen interviews (e.g., Jeff Hayes Films: <https://rumble.com/vrfoox-covid-revealed-episode-8b-bonus-video-stephen-petty.html>), in his own podcasts (<https://rumble.com/c/PettyPodcasts>) and in the Liberty Dispatch in Canada (<https://podcasts.apple.com/us/podcast/episode-99-masks-dont-work-an-interview-with-ppe/id1559570986?i=1000550149187>). During this testimony it was shown that the nearly 50 studies cited by the CDC purportedly showing masks are effective did not support statements made by the CDC and most suffered from a lack of a control group (group similar to the mask study group not wearing masks) or confounding factors (multiple factors such as changes in HVAC systems, distancing, quarantining, and masks) wherein one cannot determine the specific contribution by masking.

But the most egregious part of this statement is that it only addresses supposed benefits, not liabilities. Even the WHO - UNICEF (https://www.who.int/publications/i/item/WHO-2019-nCoV-IPC_Masks-Children-2020.1) understands that risk-rewards analysis should be done before recommending unproven, unscientifically-supported policies before masking them. Remember – do no harm – is the overarching principle (Figures 7 & 8):

Advice to decision makers on the use of masks for children in the community

Overarching guiding principles

Given the limited evidence on the use of masks in children for COVID-19 or other respiratory diseases, including limited evidence about transmission of SARS-CoV-2 in children at specific ages, the formulation of policies by national authorities should be guided by the following overarching public health and social principles:

- Do no harm: the best interest, health and well-being of the child should be prioritized.
- The guidance should not negatively impact development and learning outcomes.
- The guidance should consider the feasibility of implementing recommendations in different social, cultural and geographic contexts, including settings with limited resources, humanitarian settings and among children with disabilities or specific health conditions.

Figure 7: WHO UNICEF Recommendations for Children and Masks

From Figure 7, the overarching guiding principle is to do no harm.

Advice on the use of masks in children

WHO and UNICEF advise decision makers to apply the following criteria for use of masks in children when developing national policies, in countries or areas where there is known or suspected community transmission^a of SARS-CoV-2 and in settings where physical distancing cannot be achieved.

1. Based on the expert opinion gathered through online meetings and consultative processes, children aged up to five years should not wear masks for source control. This advice is motivated by a “do no harm” approach and considers:
 - childhood developmental milestones^{b 41}
 - compliance challenges and
 - autonomy required to use a mask properly.

The experts (following the methods described above) recognized that the evidence supporting the choice of the age cut-off is limited (see above, section related to transmission of COVID-19 in children), and they reached this decision mainly by consensus. The rationale included consideration of the fact that by the age of five years, children usually achieve significant developmental milestones, including the manual dexterity and fine motor coordination movements needed to appropriately use a mask with minimal assistance.

In some countries, guidance and policies recommend a different and lower age cut-off for mask use⁴²⁻⁴⁵. It is recognized that children may reach developmental milestones at different ages and children five years of age and under may have the dexterity needed to manage a mask. Based on the do no harm approach, if the lower age cut-off of two or three years of age is to be used for recommending mask use for children, appropriate and consistent supervision, including direct line of sight supervision by a competent adult and compliance need to be ensured, especially if mask wearing is expected for an extended period of time. This is both to ensure correct use of the mask and to prevent any potential harm associated with mask wearing to the child.

Children with severe cognitive or respiratory impairments who have difficulties tolerating a mask should, under no circumstances, be required to wear masks.

Other IPC, public health and social measures should be prioritized to minimize the risk of SARS-CoV-2 transmission for children five years of age and under; specifically maintaining physical distance of at least 1 meter where feasible, educating children to perform frequent hand hygiene and limiting the size of school classes. It is also noted that there may be other specific considerations, such as the presence of vulnerable persons or other local medical and public health advice that should be considered when determining if children five years of age and under need to wear a mask.

2. For children between six and 11 years of age, a risk-based approach should be applied to the decision to use of a mask. This approach should take into consideration:
 - intensity of transmission in the area where the child is and updated data/available evidence on the risk of infection and transmission in this age group;
 - social and cultural environment such as beliefs, customs, behaviour or social norms that influence the community and population’s social interactions, especially with and among children;
 - the child’s capacity to comply with the appropriate use of masks and availability of appropriate adult supervision;
 - potential impact of mask wearing on learning and psychosocial development; and
 - additional specific considerations and adaptations for specific settings such as households with elderly relatives, schools, during sport activities or for children with disabilities or with underlying diseases.
3. Advice on mask use in children and adolescents 12 years or older should follow the WHO guidance for mask use in adults¹ and/or the national mask guidelines for adults.

Even where national guidelines apply, additional specific considerations (see below) and adaptations for special settings such as schools, during sport, or for children with disabilities or with underlying diseases will need to be specified.

Figure 8: WHO UNICEF Recommendations for Children and Masks by Age

Note that from Figure 8, WHO recommends against masking below age 6 and that children ages 6 to 11 may be masked upon completion of a risk assessment. England has similar guidance. But the CDC requires masks for children down to age 2 against WHO guidance and based on extensive reviews, has yet to perform any risk assessment on the net benefits of children wearing masks.

Specifically, it is well established that significant harms (i.e., reduced learning and development and physical, emotional, and social harms) have been reported in the literature (Figures 9-18):

BROWN UNIVERSITY STUDY*

ABSTRACT

Since the first reports of novel coronavirus in the 2020, public health organizations have advocated preventative policies to limit virus, including stay-at-home orders that closed businesses, daycares, schools, playgrounds, and limited child learning and typical activities. Fear of infection and possible employment loss has placed stress on parents; while parents who could work from home faced challenges in both working and providing full-time attentive childcare. For pregnant individuals, fear of attending prenatal visits also increased maternal stress, anxiety, and depression. Not surprising, there has been concern over how these factors, as well as missed educational opportunities and reduced interaction, stimulation, and creative play with other children might impact child neurodevelopment. Leveraging a large on-going longitudinal study of child neurodevelopment, we examined general childhood cognitive scores in 2020 and 2021 vs. the preceding decade, 2011-2019. We find that children born during the pandemic have significantly reduced verbal, motor, and overall cognitive performance compared to children born pre-pandemic. Moreover, we find that males and children in lower socioeconomic families have been most affected. Results highlight that even in the absence of direct SARS-CoV-2 infection and COVID-19 illness, the environmental changes associated COVID-19 pandemic is significantly and negatively affecting infant and child development.

Drop in Children Born Post Pandemic Performance

Figure 5. Diseases/predispositions with significant risks, according to the literature found, when using masks. Indications for weighing up medical mask exemption certificates.

Figure 18: Kisielinski et al., – Areas of Quantitated Adverse Effects on Children and Adults

Clearly, the CDC has not conducted a net risk assessment and should have, and must do so to avoid continuing harms to children.

Even more disturbing, in their innocent looking, new Guidance for Children (Learn the Signs, Act Early) the CDC has in part, extended the timeframes for children to achieve learning outcomes (<https://www.cdc.gov/ncbddd/actearly/milestones/index.html>). Regarding these changes – Figure 19, CDC refers the reader to an American Academy of Pediatrics (AAP) webpage (<https://publications.aap.org/pediatrics/article-abstract/doi/10.1542/peds.2021-052138/184748/Evidence-Informed-Milestones-for-Developmental?redirectedFrom=fulltext>):

CDC's Developmental Milestones

CDC's milestones and parent tips have been updated and new checklist ages have been added (15 and 30 months). Due to COVID-19, updated photos and videos have been delayed but will be added back to this page in the future. For more information about the recent updates to CDC's developmental milestones, please view the [Pediatrics journal article](#) describing the updates.

Figure 20: CDC Referenced AAP Paper by Zubler (CDC) et al. Dated February 8, 2022

Zubler et al., write in part:

*“The Centers for Disease Control and Prevention’s (CDC) Learn the Signs. Act Early. program, funded the American Academy of Pediatrics (AAP) to convene an expert working group to revise its developmental surveillance checklists. The goals of the group were to identify evidence-informed milestones to include in CDC checklists, clarify when most children can be expected to reach a milestone (to discourage a wait-and-see approach), and support clinical judgment regarding screening between recommended ages. Subject matter experts identified by the AAP established 11 criteria for CDC milestone checklists, including using milestones most children ($\geq 75\%$) would be expected to achieve by specific health supervision visit ages and those that are easily observed in natural settings. A database of normative data for individual milestones, common screening and evaluation tools, and published clinical opinion was created to inform revisions. **Application of the criteria established by the AAP working group and adding milestones for the 15- and 30-month health supervision visits resulted in a 26.4% reduction and 40.9% replacement of previous CDC milestones. One third of the retained milestones were transferred to different ages; 67.7% of those transferred were moved to older ages.** Approximately 80% of the final milestones had normative data from ≥ 1 sources. Social-emotional and cognitive milestones had the least normative data. These criteria and revised checklists can be used to support developmental surveillance, clinical judgment regarding additional developmental screening, and research in developmental surveillance processes. Gaps in developmental data were identified particularly for social-emotional and cognitive milestones.*

Thus, at least 22.3% [67.7% of 33%] of the CDC child developmental milestones in place for ~18 years, were moved from a younger age to an older age in February 2022.

One must conclude the CDC, rather than acknowledging the harms being done to children’s development by their COVID policies, including masking, is simply moving the goalposts for what constitutes normal child development rather than admitting and moving away from failed policies.

Statements under “Respirators” and “Selecting Masks”:

- Parents and caregivers may have questions about NIOSH-approved respirators (such as N95s) for children. *Although respirators may be available in smaller sizes, **they are typically designed to be used by adults in workplaces**, and therefore have not been tested for broad use in children.*
- **Masks and respirators should not be worn by children younger than 2 years.**
- Choose a size that fits over the child’s nose and under the chin but does not impair vision. **Follow the user instructions for the mask or respirator. These instructions may show how to make sure the product fits properly.**

This language may be the most misleading and egregious given that the links CDC provides to manufacturers’ instruction state that their N95s are not for use with children – the CDC has to know this.

The links to manufacturers’ instructions from the January 28, 2022 mask and January 25, 2022 How to Use Your N95 Respirator are shown in Figures 21 and 22 respectively:

Last Updated Jan. 28, 2022

Figure 21: CDC January 28, 2022 Link – Bottom of Page and CDC January 25, 2022 Link to Manufacturers' Guidance and Warnings

The “How to Use Your N95 Respirator” is at the bottom of the CDC January 28, 2022 webpage.

The screenshot shows a webpage with a dark teal header containing the text 'COVID-19'. Below the header is the main title 'How to Use Your N95 Respirator' and a sub-header 'Updated Jan. 25, 2022'. The main content area has a light blue background and features the section title 'Wear Your N95 Properly So It Is Effective' followed by a bulleted list of two points. At the bottom of this section, there is a highlighted link: 'For specific manufacturer's instructions for your N95 model, see Free N95 Respirator Manufacturers.'

Figure 22: CDC January 15, 2022 Link to How to Use Your N-95 Respirator – Link to Manufacturers

The link in turn takes one to the following page (<https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/free-n95-manufacturers.html>) (Figure 23):

COVID-19

Free N95 Respirator Manufacturers

Distributed from the Strategic National Stockpile

Updated Jan. 25, 2022

What You Need to Know

- The Strategic National Stockpile has distributed N95 respirators to pharmacy distribution centers throughout the country.
- You can find specific manufacturer's instructions for your N95 model below.

For information about how to use your N95 correctly, see [How to Use Your N95 Respirator](#).

MODEL

Figure 23: CDC January 15, 2022 Link to How to Use Your N-95 Respirator – Link to Manufacturers – pg. 1

From this webpage, four manufacturers are listed representing 12 respirators:

- 3M (6 models)
- Drager (1 model)
- Honeywell (2 models)
- Moldex (3 models).

For each model, the link can be clicked to get directly to the manufacturers' instructions for each respirator. For 3M and Moldex, major suppliers, only one set of instructions is used for each of their individually listed respirators. In other words, the same instructions were provided for each of the manufacturers' listed products.

Both 3M and Moldex explicitly state that their masks are not to be use by children (Figure 24).

Occupational/Workplace Use: 3M™ 8210, 8110S, 8210Plus N95 User Instructions

Use Instructions

- 1) Failure to follow all instructions and limitations on the use of this respirator and/or failure to wear this respirator during all times of exposure can reduce respirator effectiveness and **may result in sickness or death.**
- 2) In the U.S., before occupational use of this respirator, a written respiratory protection program must be implemented meeting all the requirements of OSHA 29 CFR 1910.134, such as training, fit testing, medical evaluation, and applicable OSHA substance specific standards. In Canada, CSA standard Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Follow all applicable local regulations.
- 3) The particles which can be dangerous to your health include those so small that you cannot see them.
- 4) Leave the contaminated area immediately and contact supervisor if dizziness, irritation, or other distress occurs.
- 5) Store the respirator away from contaminated areas when not in use.
- 6) Inspect respirator before each use to ensure that it is in good operating condition. Examine all the respirator parts for signs of damage including the two headbands, attachment points, nose foam, and noseclip. The respirator should be disposed of immediately upon observation of damaged or missing parts. Filtering facepieces are to be inspected prior to each use to assure there are no holes in the breathing zone other than the punctures around staples and no damage has occurred. Enlarged holes resulting from ripped or torn filter material around staple punctures are considered damage. Immediately replace respirator if damaged. Staple perforations do not affect NIOSH approval (For 8110S only).
- 7) Conduct a user seal check before each use as specified in the Fitting Instructions section. **If you cannot achieve a proper seal, do not use the respirator.**
- 8) Dispose of used product in accordance with applicable regulations.

Use Limitations

- 1) This respirator does not supply oxygen. Do not use in atmospheres containing less than 19.5% oxygen.
- 2) Do not use when concentrations of contaminants are immediately dangerous to life and health, are unknown or when concentrations exceed 10 times the permissible exposure limit (PEL) or according to specific OSHA standards or applicable government regulations, whichever is lower.
- 3) Do not alter, wash, abuse or misuse this respirator.
- 4) Do not use with beards or other facial hair or other conditions that prevent a good seal between the face and the sealing surface of the respirator.
- 5) Respirators can help protect your lungs against certain airborne contaminants. They will not prevent entry through other routes such as the skin, which would require additional personal protective equipment (PPE).
- 6) This respirator is designed for occupational/professional use by adults who are properly trained in its use and limitations. **This respirator is not designed to be used by children.**
- 7) Individuals with a compromised respiratory system, such as asthma or emphysema, should consult a physician and must complete a medical evaluation prior to use.

Figure 24: 3M Instructions for CDC Listed 3M N95 Respirators – Not Designed to be Used by Children

Note the following observations from Figure 24:

- ***This respirator is not designed to be used by children!***
- The respirator is only intended to be used for occupational or professional adults properly trained (e.g., under the RPS).
- Failure to follow instructions may result in sickness or death.
- A written respiratory protection plan, under the requirements of 29 CFR 1910.134 (RPS) must be in place prior to use of this respirator.

The Moldex instructions are essentially the same.

Moreover, 3M warns it is not protective against infectious diseases (Figure 25):

Biological Particles

This respirator can help reduce inhalation exposures to certain airborne biological particles (e.g. mold, *Bacillus anthracis*, *Mycobacterium tuberculosis*, etc.) but cannot eliminate the risk of contracting infection, illness or disease. OSHA and other government agencies have not established safe exposure limits for these contaminants.

5

Figure 25: 3M Instructions for CDC Listed 3M N95 Respirators – Not Protective Against Infection, Illness, or Disease

Note that anthrax and TB are much larger particles than virus particles like the COVID-19 virus.

In light of this discussion, the CDC should immediately correct their webpage stating explicitly that respirators, according to manufacturers' instructions, "Are not designed to be used by Children" and that anyone using a respirator must be doing so under a written respiratory protection plan that follows the OSHA RPS.

Issue #3: The CDC continues to ignore the fact that COVID-19 is primarily spread by aerosols (not droplets) making mask use mostly ineffective:

The CDC continues to make the misleading argument that masks stop COVID droplets. This is misleading because while masks do stop some droplets (> 50 to 10 micron), the vast majority of COVID particles are smaller aerosols (≤ 5 microns) – see Figure 26:

Types of Masks and Respirators

Masks are made to contain droplets and particles you breathe, cough, or sneeze out. If they fit closely to the face, they can also provide you some protection from particles spread by others, including the virus that causes COVID-19.

Respirators are made to protect you by filtering the air and fitting closely on the face to filter out particles, including the virus that causes COVID-19. They can also contain droplets and particles you breathe, cough, or sneeze out so you do not spread them to others.

Figure 26: CDC – Misleading Guidance on Masks and Droplets

We are not the only ones who have written you regarding this issue. On February 15, 2021, the following scientists wrote a lengthy memo to you regarding your misleading language in this area and asked you to correct it:

- Rick Bright, PhD, Former Director of BARDA, Dept of Health and Human Services
- Lisa M. Brosseau, ScD, CIH, University of Minnesota CIDRAP
- Lynn R. Goldman, MD, MS, MPH, George Washington University
- Céline Gounder, MD, ScM, NYU Grossman School of Medicine & Bellevue Hospital Center
- Jose Jimenez, PhD, University of Colorado at Boulder
- Yoshihiro Kawaoka, DVM, PhD, University of Wisconsin-Madison and University of Tokyo
- Linsey Marr, PhD, Virginia Tech
- David Michaels, PhD, MPH, George Washington University
- Donald K. Milton, MD, DrPH, University of Maryland
- Michael Osterholm, PhD, MPH, University of Minnesota CIDRAP
- Kimberly Prather, PhD, University of California San Diego
- Robert T. Schooley, MD, University of California San Diego
- Peg Seminario, MS, AFL-CIO (retired)

They wrote in part:

“To address and limit transmission via inhalation exposure and prevent COVID infections and deaths, we urge the Biden administration to take the following immediate actions:

- Update and strengthen CDC guidelines to fully address transmission via inhalation exposure to *small inhalable particles* from infectious sources at close, mid and longer range. Updated guidelines should be informed by a risk assessment model that focuses on source and pathway (ventilation) controls first, followed by respiratory protection...

- Issue an OSHA emergency standard on COVID-19 that recognizes the importance of aerosol inhalation, includes requirements to assess risks of exposure, and requires implementation of control measures following a hierarchy of controls...

Edwards et al. (<https://www.pnas.org/content/118/8/e2021830118>) demonstrated that the vast majority of COVID particles emitted during illness are aerosols not droplets (see Figure 27):

Figure 27: Edwards et al., 2021 – Particle Size Emissions by Size and Time

Edwards et al. concluded their paper with the following statements:

- Our finding that the proportion of small respiratory droplets (i.e., aerosols) were the majority of particles exhaled in all subjects.
- There may be an elevated risk of the airborne transmission of SARS CoV 2 by way of the very small droplets (aerosols) that transmit through conventional masks and *traverse distances far exceeding the conventional social distance of 2 m (~7')*.
- Exhaled aerosol numbers appear to be not only an indicator of disease progression, *but a marker of disease risk in non-infected individuals.*

While the mask may contain droplets, they only do so for a period. As the masks are exposed to heat and moisture they suffer from degradation within a few hours.

We ask that the CDC immediately suspend misleading statements in all their public information that masks stop droplets when the vast majority of particles are smaller aerosols that stay suspended for days to weeks (vs. minutes for droplets), readily pass through gaps around the masks, and can reach deep into the lungs (see for example Fennelly, Kevin, P., 2020, Particle sizes of infectious aerosols: implications for infection control, Lancet Respir Med 2020; 8: 914–24).

Issue #4: CDC’s position for masks used by the general public lacks proper scientific justification and creates potential harm based on a false sense of security:

Statements that a mask can provide protection are false and mislead the public into a false sense of security. Industrial Hygiene solutions seek a more than 90% relative risk reduction, and this publication continues to focus on the lowest form of non-protection that does not meet the least desirable mode of protection (PPE) in the Hierarchy of Controls with PPE. The September 9, 2020 guidance from AIHA illustrated this concept of the need for a super reduction in relative risk, not a minor one (<https://aiha-assets.sfo2.digitaloceanspaces.com/AIHA/resources/Guidance-Documents/Reducing-the-Risk-of-COVID-19-using-Engineering-Controls-Guidance-Document.pdf> - pg. 4).

Moreover, the CDC continues to provide guidance that gaps in masks can be eliminated; in the real world that never happens (Figure 28):

Choosing a Mask or Respirator for Different Situations

Masks and respirators (i.e., specialized filtering masks such as “N95s”) can provide different levels of protection depending on the type of mask and how they are used. Loosely woven cloth products provide the least protection, layered finely woven products offer more protection, well-fitting disposable surgical masks and KN95s offer even more protection, and well-fitting NIOSH-approved respirators (including N95s) offer the highest level of protection.

Whatever product you choose, it should provide a good fit (i.e., fitting closely on the face without any gaps along the edges or around the nose) and be comfortable enough when worn properly (covering your nose and mouth) so that you can keep it on when you need to. Learn how to improve how well your mask protects you by visiting CDC’s [Improve How Your Mask Protects You](#) page.

A respirator has better filtration, and if worn properly the whole time it is in use, can provide a higher level of protection than a cloth or procedural mask. A mask or respirator will be less effective if it fits poorly or if you wear it improperly or take it off frequently. Individuals may consider the situation and other factors when choosing a mask or respirator that offers greater protection.

Do NOT wear cloth masks with

- Gaps around the sides of the face or nose
- Exhalation valves, vents, or other openings (see example)
- Single-layer fabric or those made of thin fabric that don’t block light
- Wet or dirty material

Figure 28: CDC Guidance Suggesting Gaps in Masks Can be Eliminated

The CDC statement that masks should not be worn if gaps cannot be eliminated is meaningless because this cannot occur; only properly selected and fitted respirators can accomplish this.

Masks cannot ever obtain a perfect fit to the face and efficiencies of masks when worn in real world scenarios (day-long usage). When the mask has more than a 3% gap, it offers effectively zero protection (Figure 29):

Figure 29: Loss of Mask Effectiveness in the Real World

Thus, the core issue with masks, and even respirators, is the seal – small gap areas effectively render these devices ineffective.

The American Society for Testing and Materials (ASTM) Standard Specification for Barrier Face Coverings F3502-21 Note 2 states, “There are currently no established methods for measuring outward leakage from a barrier face covering, medical mask, or respirator. Nothing in this standard addressed or implied a quantitative assessment of outward leakage and no claims can be made about the degree to which a barrier face covering reduces emission of human-generated particles.”

As well as, importantly, Note 5, “There are currently no specific accepted techniques that are available to measure outward leakage from a barrier face covering or other products. Thus, no claims may be made with respect to the degree of source control offered by the barrier face covering based on the leakage assessment.”

Every breath increases atmospheric viral load, or the amount of viral matter held aloft in an enclosed space. In instances when it does not take very much of an airborne pathogen for vulnerable individuals to get sick, a contagious individual should not wear a mask or respirator that creates a concentrated plume of aerosols, thinking they are protecting others from their respiratory emissions.

Explosive force-generating events, such as coughs and sneezes, increase the pressure behind exhaled matter. Masks can exacerbate the spread of airborne pathogens by creating focused plumes of fine particulates, in turn increasing emission trajectory, with the added concern of aerosolization of droplets through the mask membrane.

Finally, what is now most concerning, is that public entities are taking CDC guidance and making respirators available for free (Figure 30):

Figure 30: “Free” Open Contaminated N95s Being Given Away to the Public at Grocery Stores

These entities, based on CDC guidance, likely and/or unknowingly, do not address the requirements of the Respiratory Protection Standard and causing additional harm to the public by such a lack of understanding. Inevitably, this practice will result in harm and liability to their employees and customers for improper distribution and storage of respirators under the RPS.

Conclusion:

The CDC has built a series of recommendations for masking that are inconsistent with the technical and medical literature. The policy and procedural recommendations exaggerate the benefits, while ignoring the limitations and harms, especially for children and the general population. In addition, the CDC has taken a policy position of “it might work” and “it can’t hurt” and use selective and weak observational data in the place of actual controlled scientific study to justify inappropriate recommendations for masks and face coverings.

Recently, the CDC has deployed a respiratory protection policy (i.e., masks to N95s) that dismisses the key principles in any Safety and Health program regarding the use of respirators – namely the Respiratory Protection Program. There is no mention of potential risks if the respirator is not properly used or fitted correctly. Moreover, it is clear that respirators are not intended for use with children. In our profession, if PPE and respiratory protection guidance was to ever be delivered without risk identification, fit testing, and training, we would be liable for putting personnel in a high-risk scenario, which is what the CDC is doing with their policy.

We would ask the CDC to accept these basic industrial hygiene facts that we have presented, update their public guidance accordingly regarding the issue of droplets vs. aerosols, stop confusing the public regarding the effectiveness of masks, and stop implying respirators are acceptable for children, and to be given generally to the public. In addition, it is clear the CDC knows, or should know, that gaps between the face and mask are a major problem for real mask effectiveness and could never have met our industry’s requirement of 90% relative risk reduction.

The CDC is doing enormous damage to science and scientists by allowing politics to dictate public health policy rather than actual science. Increasingly, and for good reason as we have illustrated, the public does not trust the CDC and its science; this must change.

We recognize that it is easy to judge from afar and know that you and your team are under tremendous stress during this period. Our desire is to see the CDC and our country succeed in these efforts. As such, instead of just being critical, we want to offer our time to your organization to find solutions together. We would be willing to collaborate in the creation of a competent plan that will be based on the Hierarchy of Controls and will be tailored to various work and living environments. We will also help develop data points we can use to monitor and measure this program to enable proper adjustments as needed.

We look forward to your responses to our concerns as we continue to work to protect the public.

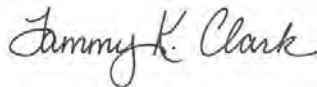

Sincerely:

Stephen Petty
President
EES Group, Inc.
1701 E Atlantic Boulevard, Suite 5
Pompano Beach, FL 33060

Dear Stephen Petty:

Thank you for your letter to Senator Ronald H. Johnson, White House Coronavirus Response Coordinator Jeffrey Zients, Chief Medical Advisor to the President of the United States and National Institute of Allergy and Infectious Diseases Director Anthony Fauci, MD, Occupational Safety and Health Administration Assistant Secretary of Labor Douglas L. Parker, and Centers for Disease Control and Prevention (CDC) Director Rochelle P. Walensky, MD, MPH regarding coronavirus disease 2019 (COVID-19) mask guidance. I am responding on behalf of Dr. Walensky.

CDC continues to learn more about SARS-CoV-2, the virus that causes COVID-19, as the COVID-19 pandemic evolves. CDC's Science Briefs¹ summarize the scientific evidence behind specific guidance and recommendations. In our "Science Brief: Community Use of Masks to Control the Spread of SARS-CoV-2,"² we summarize the studies that have assessed the effectiveness of mask-wearing to prevent the spread of COVID-19, which have informed our masking guidance.

CDC's guidance on masks was updated to provide information for those who choose to wear N95s or other respirators and was not a broad recommendation for their use. CDC recommends that individuals consider their situation and other factors when choosing a mask that offers greater protection. The most critical aspect of this recommendation is that individuals should wear the most protective mask they can, which both fits them well and which they will wear consistently.

Experimental and epidemiologic data support community masking to reduce the spread of SARS-CoV-2 among adults and children. The preventative benefit of masking in community settings is derived from a combination of source control and wearer protection. The relationship between source control and wearer protection is likely complementary and possibly synergistic, such that individual benefit increases with increasing community mask use.

¹ <https://www.cdc.gov/coronavirus/2019-ncov/science/science-briefs/index.html>

² <https://www.cdc.gov/coronavirus/2019-ncov/science/science-briefs/masking-science-sars-cov2.html>

Mask use has been found to be safe, including in children, and is not associated with clinically significant impacts on respiration or gas exchange under most circumstances, except for intense exercise. The limited available data indicate no clear evidence that masking impairs emotional or language development in children. Available evidence suggests that even children who may have difficulty wearing a mask can do so effectively through targeted interventions.

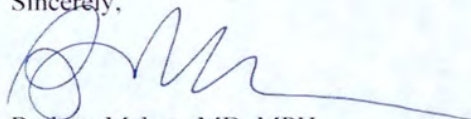

Throughout the pandemic, CDC has recommended utilizing a number of controls to prevent transmission within the community, workplaces, and healthcare settings. Examples of these guidance include Ventilation in Buildings,³ Ventilation in Schools and Childcare Programs,⁴ Upper-Room Ultraviolet Germicidal Irradiation (UVGI),⁵ Testing in Non-Healthcare Workplaces,⁶ Testing in Schools,⁷ and Infection Prevention and Control Recommendations for Healthcare Settings.⁸

Remaining up to date⁹ on COVID-19 vaccines is the best protection from COVID-19-associated severe illness, hospitalization, and death; however, wearing a mask also remains an important tool in preventing the spread of disease. Masks are effective at reducing transmission of SARS-CoV-2 when worn consistently and correctly.

CDC continues its research to learn more about the effectiveness of different types of masks for preventing COVID-19, and we will continue to update our guidance as the science indicates.

I appreciate your letter as we work together to fight COVID-19. Please share this response with the cosigners of your letter. CDC remains committed to leading with science, promoting equity, and protecting the American public during this pandemic.

Sincerely,

Barbara Mahon, MD, MPH

Notes - Please clarify where you are getting your data

9
0 37 pending Bluestone upload and confirmation
0 Numbers have been updated in Sheet1
1
Numbers adjusted to reflect departures from the Bureau due to retirement
0
Column E should be 285, Column F "Not" should not be 33, it should be 25, but out of those 3 are fully vaccinated but couldn't upload their vac card, also 5 of the 6 default declined to state are fully vaccinated.
-1 Declined to State -1* is a DWP employee [1]
-1 Default Decline to State (58) -13 fully vaccinated, must update in Bluestone; 14 on leave; 6 no longer with the City; 1 no longer with department; 15 exempt examiners; 5 commissioners no longer active.
-33 Empty (10) - All 10 fully vaccinated, must update in Bluestone
-33
The employee on a LOA captured in Sheet 1 is not reflected in this tab.
2 Student Workers, waiting for Bluestone confirmation of fully vaccinated status. Numbers in Sheet 1 are accurate.
-33
0
Two new hires fully vaccinated but waiting for Bluestone to confirm
6
0 Dept Input Correct - Update not yet shown in SNOW
26
Of the 58 full time employees, Two are not vaccinated but have an exemption (56+116=172). Not vac number does not include the 9 exemptions (24+9=33). SNOW numbers are correct.
-1 One commissioner is showing up in SNOW who is fully vaccinated
0
Column E should be 1356, Column F should be 159, 6 employees are fully vaccinated, but reflected as not vaccinated in SNOW. Working to update information on atestation google form. 67 employees on LOA status, which is where the remaining difference is coming from.
3
Difference is due to employees on leave (vacate status unverified) and 6 part time staff that are no longer at LAFD (still showing up in SNOW).
-40
Columns BIC do not reflect information on Sheet 1, attempted to correct but cell are protected. # of field positions is off (2271 + 90 new hires and vac into that needs to be updated in SNOW
-22
One new hire is fully vaccinated, but waiting for bluestone to upload vaccination card
0
In addition to the 28 discrepancies reflected in Column H, we have 13 other discrepancies involving Partial/No vs. Declined/Default Decline. Our data comes from our COVID Vaccination Division and from occasional checks of the CAIR database.

Notes - Please clarify where you are getting your data

To account for the discrepancies LAPD has identified 44 new recruits that are fully vaccinated and 15 new hires fully vaccinated that we are in the process of updating their SNOW records. Additionally, the Department has also identified 173 employees that have provided their fully vaccinated status to their Commanding Officers and the Department is in the processing of compiling their attestation.

LAPD total employees should be 1,569 as there are 12 employees on an approved leave of absence with an unreported vac status. Fully vac (1,431) + Not vac (126) + Unreported (12) = 1,569.

Also, there are 8 new hires who are categorized as 'Not Fully Vaccinated' in SNOW whose fully vaccinated status has been verified by staff but have not uploaded into Bluestone.

The -20 difference in Not Vaccinated is made up of Unreported (12) + New Hires (8).

Personnel has 4 FT employees who are still having issues with uploading to Bluestone.

Data provided by RHP was from 02/03/22. New Pay/SR entries were made since then. The 5 additional unvaccinated have been verified by staff but has not been verified in Bluestone.

Payor updated with new hires/transfers & retransfers. 4 vacated employees attested to HR not reflected in SNOW.

0 Data has been updated in sheet 1 - new hires added to the payroll.

[1] 285 full + 1 partial + 5 declined to state + 3 No = 294 fully vaccinated

EXHIBIT "18"

The poster features a dark red background with a festive holiday theme. At the top, there are green pine branches, warm white string lights, and several red and white striped Christmas ornaments. A large red ornament hangs in the center. The text is centered and uses a mix of serif and sans-serif fonts. A white-bordered box highlights the list of activities. The bottom section includes information about Santa Claus, sponsors, and COVID-19 protocols, all in white text. Snowflake and ribbon graphics are scattered throughout the design.

RE: **Notice to Complainant's Attorney**
DFEH Matter Number: 202112-15595509
Right to Sue: Stiller / County of Los Angeles and its Board of Supervisors,
Commissions and Department Officials detailed in attachment et al.

Dear Helena Sunny Wise:

Attached is a copy of your complaint of discrimination filed with the Department of Fair Employment and Housing (DFEH) pursuant to the California Fair Employment and Housing Act, Government Code section 12900 et seq. Also attached is a copy of your Notice of Case Closure and Right to Sue.

Pursuant to Government Code section 12962, DFEH will not serve these documents on the employer. You must serve the complaint separately, to all named respondents. Please refer to the attached Notice of Case Closure and Right to Sue for information regarding filing a private lawsuit in the State of California. A courtesy "Notice of Filing of Discrimination Complaint" is attached for your convenience.

Be advised that the DFEH does not review or edit the complaint form to ensure that it meets procedural or statutory requirements.

Sincerely,

Department of Fair Employment and Housing

December 9, 2021

RE: Notice of Filing of Discrimination Complaint

DFEH Matter Number: 202112-15595509

Right to Sue: Stiller / County of Los Angeles and its Board of Supervisors,
Commissions and Department Officials detailed in attachment et al.

To All Respondent(s):

Enclosed is a copy of a complaint of discrimination that has been filed with the Department of Fair Employment and Housing (DFEH) in accordance with Government Code section 12960. This constitutes service of the complaint pursuant to Government Code section 12962. The complainant has requested an authorization to file a lawsuit. A copy of the Notice of Case Closure and Right to Sue is enclosed for your records.

This matter may qualify for DFEH's Small Employer Family Leave Mediation pilot program. Under this program, established under Government Code section 12945.21, a small employer with 5 -19 employees, charged with violation of the California Family Rights Act, Government Code section 12945.2, has the right to participate in DFEH's free voluntary mediation service. Under this program both the employee requesting an immediate right to sue and the employer charged with the violation may request that all parties participate in DFEH's free voluntary mediation service. A request for mediation must be made within 30 days of receipt of the Notice of Case Closure and Right to Sue. If mediation is requested, the employee is prohibited from filing a civil action until mediation is complete. The employee's statute of limitations to file a civil action, including for all related claims not arising under section 12945.2, is tolled from DFEH's receipt of a mediation request under section 12945.21 until mediation is complete. To request DFEH Small Employer Family Leave Mediation, email DRDOnlineRequests@dfeh.ca.gov and include the DFEH matter number indicated on the Right to Sue notice.

Please refer to the attached complaint for a list of all respondent(s) and their contact information.

No response to DFEH is requested or required.

Sincerely,

Department of Fair Employment and Housing

December 9, 2021

Neil Stiller
1335 Rocking W. Dirve, Suite 119
Bishop, CA 93514

RE: **Notice of Case Closure and Right to Sue**
DFEH Matter Number: 202112-15595509
Right to Sue: Stiller / County of Los Angeles and its Board of Supervisors,
Commissions and Department Officials detailed in attachment et al.

Dear Neil Stiller:

This letter informs you that the above-referenced complaint filed with the Department of Fair Employment and Housing (DFEH) has been closed effective December 9, 2021 because an immediate Right to Sue notice was requested.

This letter is also your Right to Sue notice. According to Government Code section 12965, subdivision (b), a civil action may be brought under the provisions of the Fair Employment and Housing Act against the person, employer, labor organization or employment agency named in the above-referenced complaint. The civil action must be filed within one year from the date of this letter.

This matter may qualify for DFEH's Small Employer Family Leave Mediation pilot program. Under this program, established under Government Code section 12945.21, a small employer with 5 -19 employees, charged with violation of the California Family Rights Act, Government Code section 12945.2, has the right to participate in DFEH's free voluntary mediation service. Under this program both the employee requesting an immediate right to sue and the employer charged with the violation may request that all parties participate in DFEH's free voluntary mediation service. A request for mediation must be submitted to the DFEH within 30 days of receipt of the Notice of Case Closure and Right to Sue. If mediation is requested, the employee is prohibited from filing a civil action until mediation is complete. The employee's statute of limitations to file a civil action, including for all related claims not arising under section 12945.2, is tolled from DFEH's receipt of a mediation request under section 12945.21 until mediation is complete. To request DFEH Small Employer Family Leave Mediation, email DRDOnlinerequests@dfeh.ca.gov and include the DFEH matter number indicated on the Right to Sue notice.

To obtain a federal Right to Sue notice, you must contact the U.S. Equal Employment Opportunity Commission (EEOC) to file a complaint within 30 days of receipt of this DFEH Notice of Case Closure or within 300 days of the alleged discriminatory act, whichever is earlier.

Respondents

1. Respondent County of Los Angeles and its Board of Supervisors, Commissions and Department Officials detailed in attachment is an **employer** subject to suit under the California Fair Employment and Housing Act (FEHA) (Gov. Code, § 12900 et seq.).

2. Complainant is naming City of Los Angeles and its City Council as well as responsible officials in the Departments and Commissions described in attachment business as Co-Respondent(s).
Complainant is naming **Los Angeles Unified School District (LAUSD) and its Board of Education as described in Attachment** business as Co-Respondent(s).

1 Complainant is naming **Los Angeles County Office of Education (LACOE) and its**
2 **Governing Board as described in Attachment** business as Co-Respondent(s).
3 Complainant is naming **State of California** business as Co-Respondent(s).
4 Complainant is naming **Gavin Newsom** individual as Co-Respondent(s).
5 Complainant is naming **Hilda Solis** individual as Co-Respondent(s).
6 Complainant is naming **Holly Mitchell** individual as Co-Respondent(s).
7 Complainant is naming **Janice Hahn** individual as Co-Respondent(s).
8 Complainant is naming **Sheila Kuehl** individual as Co-Respondent(s).
9 Complainant is naming **Kathryn Barger** individual as Co-Respondent(s).
10 Complainant is naming **Eric Garcetti** individual as Co-Respondent(s).
11 Complainant is naming **Megan Reilly** individual as Co-Respondent(s).
12 Complainant is naming **Debra Duardo** individual as Co-Respondent(s).
13 Complainant is naming **Barbara Ferrer** individual as Co-Respondent(s).

14 **3. Complainant Neil Stiller, resides in the City of Bishop, State of CA.**

15 **4. Complainant alleges that on or about December 9, 2021, respondent took the**
16 **following adverse actions:**

17 **Complainant was harassed** because of complainant's race, national origin (includes
18 language restrictions), color, sex/gender, genetic information or characteristic, disability
19 (physical or mental), age (40 and over), other.

20 **Complainant was discriminated against** because of complainant's race, color,
21 sex/gender, genetic information or characteristic, disability (physical or mental), medical
22 condition (cancer or genetic characteristic), age (40 and over), other, association with a
23 member of a protected class and as a result of the discrimination was terminated, laid off,
24 denied hire or promotion, reprimanded, denied equal pay, suspended, demoted, asked
25 impermissible non-job-related questions, denied any employment benefit or privilege, denied
26 reasonable accommodation for a disability, denied accommodation for religious beliefs,
27 denied work opportunities or assignments, denied or forced to transfer, denied family care or
28 medical leave (cfra).

29 **Complainant experienced retaliation** because complainant reported or resisted any form
30 of discrimination or harassment, requested or used a disability-related accommodation,
31 requested or used a religious accommodation, participated as a witness in a discrimination
32 or harassment complaint, requested or used family care or medical leave (cfra) and as a
33 result was terminated, laid off, denied hire or promotion, reprimanded, denied equal pay,
34 suspended, demoted, asked impermissible non-job-related questions, denied any
35 employment benefit or privilege, denied reasonable accommodation for a disability, denied
36 accommodation for religious beliefs, other, denied work opportunities or assignments,
37 denied or forced to transfer, denied family care or medical leave (cfra).

1 **Additional Complaint Details:** The details provided above reflect what Neil Stiller and/or
2 his colleagues, friends, and residents of the State of California have or will soon experience,
3 including discrimination, harassment and unlawful retaliation. The Charges describing the
4 harm is detailed in the Attachment to this Charge which is being filed on behalf of more than
5 4700 members of FreedomtoChooseL.A. who have authorized this filing and whose names
6 are included in Appendix "A" hereto, including lead plaintiffs, Neil Stiller, Kimberly Stiller,
7 Tracy Baron, Manny Barrios, Ramona Bilancsuk, Joanna Centeno, Gloria Chavez, Gabriel

FREEDOMTOCHOOSEL.A.

ATTACHMENT TO DFEH CHARGES AND TORT CLAIMS

Page 1 of 4:

FREEDOMTOCHOOSEL.A. (F2C) has more than 4700 members, of whom at least 2500 are employed by Respondents and in excess of 2200 are family members, dependents, and affected community members, with these members listed in Appendix "A". On behalf of these members, F2C Founder, Neil Stiller, an employee of the City of Los Angeles' Department of Water and Power, does hereby file on behalf of all persons listed on Appendix "A", Charges of Discrimination, Harassment and Retaliation, as well as applicable Tort Claims, against Respondent Employers, their elected and appointed officials and individually named Department Heads, for actions taken and threatened relative to Covid Mandates. Respondents are as follows:

1) THE STATE OF CALIFORNIA, GOVERNOR GAVIN NEWSOM and DR. TOMAS ARAGON, 1500 11th Street, Sacramento, CA 95814;

2) THE CITY OF LOS ANGELES, 200 N Spring, Los Angeles, CA 90012, and the following designated officials and representatives, Mayor ERIC GARCETTI; MICHEL MOORE, Chief of Police, LOS ANGELES POLICE DEPARTMENT; MARTIN ADAMS, General Manager, DEPARTMENT OF WATER AND POWER; RALPH TERRAZAS, Fire Chief, LA CITY FIRE DEPARTMENT; JUSTIN ERBACCI, Chief Executive Officer, LOS ANGELES WORLD AIRPORTS; DENISE M. VERRET, Chief Executive Officer, LA ZOO; MICHAEL SHULL, General Manager, RECREATION AND PARKS; BARBARA ROMERO, General Manager, BUREAU OF SANITATION; TONY ROYSTER, General Manager, GENERAL SERVICES DEPARTMENT; ANN SEWILL, General Manager, LA HOUSING DEPARTMENT; EUGENE SEROKA, Executive Director and MARLA BLEVINS, Deputy Executive Director and Chief Financial Officer, PORT OF LOS ANGELES and its HARBOR DEPARTMENT; OSAMA YOUNAN, General Manager and ERIC JAKEMAN, Assistant Bureau Chief, LA BUILDING AND SAFETY; BRUCE WHIDDEN, Executive Director, THE LOS ANGELES CIVIL SERVICE COMMISSION; MATTHEW SZABO, City Administrative Officer; as well as the LOS ANGELES CITY COUNCIL Members, including GIL CEDILLO, PAUL KREKORIAN, PAUL KORETZ, BOB BLUMENFIELD, NITHYA RAMAN, MONICA RODRIGUEZ, NURY MARTINEZ, CURRY PRICE MARQUEESE HARRIS-DAWSON, MIKE BONIN, MARK RIDLEY-THOMAS, JOHN LEE, KEVIN DE LEÓN, MITCH O'FARRELL, and JOE BUSCAINO; and Board of Water Commissioners, CYNTHIA McCLAIN HILL, SUSANA REYES, NICOLE NEEMAN BRADY, JILL BANKS BARAD-HOPKINS and MIA LEHRER;

3) THE COUNTY OF LOS ANGELES, 222 N. Grand, Los Angeles, CA 90012, and the following designated officials and representatives, HILDA SOLIS, SHEILA KUEHL, KATHRYN BARGER, and HOLLY MITCHELL, as Members of the BOARD OF SUPERVISORS; FESIA DAVENPORT as the COUNTY CHIEF EXECUTIVE OFFICER and LISA M. GARRETT, as the Director of Personnel;

4) THE LOS ANGELES UNIFIED SCHOOL DISTRICT, 333 Beaudry, Los Angeles, CA 90017 and the LOS ANGELES COUNTY OFFICE OF EDUCATION, 9300 Imperial Highway, Downey, CA 90242; Superintendents MEGAN REILLY and DR. DEBRA DUARDO, as well as Members of the Board of Education, KELLY GONEZ, GEORGE MCKENNA, MONICA GARCIA, SCOTT SCHMERELSON, NICK MELVOIN, TANYA ORTIZ FRANKLIN and JACKIE GOLDBERG; and

5) PUBLIC HEALTH OFFICERS, DRS. TOMÁS ARAGÓN (STATE OF CALIFORNIA), MUNTO DAVIS, and BARBARA FERRER, for the City of Los Angeles and the County of Los Angeles.

FREEDOMTOCHOOSEL.A.

ATTACHMENT TO DFEH CHARGES and TORT CLAIMS

Page 2 of 4

Charging Parties alleges that all Respondents named on page 1, above, have been trying since the beginning of January 2021, and in many cases successfully forcing upon employees, residents and school aged-children, without informed consent, Covid-19 vaccinations and genetic testing which had only been approved for emergency use (EUA) by the Federal Drug Administration. Contrary to literature circulated by the Department of Fair Employment and Housing (DFEH) as of March 4, 2021, the vaccinations had and still have not been FDA-approved, but rather only authorized for emergency use, thereby necessitating that one be fully informed (“informed consent”) and then given the option of refusing same.

With respect to employees, Respondents by and through their Department heads, school site administrators, human resources, personnel and payroll departments, have not established a bonafide occupational qualification, nor are applicable civil servants disqualified from maintaining their job positions since these Charging Parties are capable of performing their duties, with and without accommodation. Nonetheless, Respondents and their agents have threatened, harassed, disciplined, suspended with and without pay, and even fired employees who have protested medical tyranny in these regards, despite ample evidence of adverse repercussions actually experienced by themselves, their colleagues and/or their family members. The Lead Plaintiffs in the action to be filed by FreedomtoChooseL.A. and all of its Members detailed in Appendix "A", against Respondents are also aware that adverse events have taken place, including ones aggravated because of ones race, color, national origin, ancestry, disabilities (physical and psychological), medical condition, age, sex, and genetics.

Charging Parties are informed that employees who have sought exemptions because of their religious beliefs and/or disabilities in the State of California, the County of Los Angeles and the City of Los Angeles, including at various schools falling under the jurisdiction of the Los Angeles Unified School District and the Los Angeles County Office of Education, have had their requests either lost by Respondents, seriously delayed or are now being subjected to intense scrutiny about the latest red *herring*, including whether one has ever consumed medications or foods, or took prior vaccinations with cells from fetuses. This inquiry alone is contrary to the right of employees to not be discriminated against because of their religious beliefs, while the questioning is an attempt to enmesh the government in freedom of religion issues otherwise guaranteed by the United States Bill of Rights.

At the same time, the 30 Lead Plaintiffs identified on Appendix “A” are further aware that employees whose exemption requests in the City of Los Angeles have yet to be acted upon are now being forced to agree to pay \$260.00 per pay period for genetic testing, with said sum demanded by or on behalf of *BlueStone Safe*, a vendor who received the contract without complying with bidding laws, and without the bargaining units let alone employees ratifying said changes in their terms and conditions of employment. Employees who are Charging Parties and their family members and neighbors have ample reason to conclude that the PCR testing is

FREEDOMTOCHOOSEL.A.

ATTACHMENT TO DFEH CHARGES and TORT CLAIMS

Page 3 of 4

infirm and rife with evidence of racketeering. Charging Parties who are employees of Respondents likewise believe same applies to the County, LAUSD, LACOE and the State of California who have delayed responding to exemption requests, have refused to accommodate the unvaccinated when perceiving these employees to be disabled, i.e. like “lepers”, with respiratory and now genetic infirmities. Charging Parties have reason to believe that all Respondents share this same perception that employees named as Charging Parties are disabled, and have even severed telecommuting assignments previously given because of one’s susceptibility to “covid” attributable to one being “*high risk*” due to one’s age or disabilities, while affording better treatment to vaccinated employees in these and other regards. Lead Plaintiffs are also informed that Respondents have refused to accommodate the unvaccinated, as opposed to the vaccinated, and have not engaged in a good faith interactive process.

Most recently, on November 29, 2021, Los Angeles County Sheriff Alex Villanueva has advised that pursuant to an FBI Briefing held on November 26, 2021, *Fulgent Genetics*, the genetics testing group selected by the County, also without bid compliance, has direct ties to the Chinese Communist Party. Efforts to change the Contract after-the-fact cannot eradicate the uploading of data that has already taken place, nor erase the constitutional violations which have and will continue to occur.

By these and other actions, Respondents are discriminating against Charging Parties employed by Respondents in terms of their compensation, as well as terms, conditions and privileges of employment, and have in fact stated that one must forfeit his/her employment completely, or forego future promotional opportunities even though Charging Parties employed by Respondents have more than demonstrated their capabilities of doing their jobs, are most suited for advancement opportunities and should be protected from discrimination, harassment and retaliation, including because of genetic information, a perception of disabilities, one’s protests in these regards, as well as one’s associations with employees due to their religious beliefs or who because of their races, national origins, ages and ethnicities are more susceptible to adverse reactions including death.

Charging Parties believe these actions have been taken despite protections in the Fair Employment and Housing Act prohibiting discrimination, harassment and retaliation; federal and state laws, including Labor Code §1102.5, as well as Constitutional and statutory provisions in California, if not federally as well, which mandate equal protection, alludes to or directly establishes a right to privacy, a right to an equal education, and a right to determine one’s own medical treatment.

Violations of these fundamental rights stem from Respondent Employers and their management’s chronic accusations and adverse employment actions imposed upon employees, parents and school-aged children who remain unvaccinated, or who refuse to divulge their status because of the private nature of the information sought and upon which Respondents seek to intrude. Parents of school-aged children working for Respondents also allege that efforts to spy

on families and their associations are commonplace because of LAUSD Protocols, including the Microsoft Daily Pass which, depending upon daily PCR results will result in either admission to classes or quarantines at home. At the same time, despite ample case authority for the right of students to an equal education, LAUSD and LACOE, by and through Dr. Barbara Ferrer, the County Health Officer, has chosen to discriminate against unvaccinated students, including by denying said children the right to participate in extracurricular activities. This has occurred even though many parents deposited monies for said programs, while Respondents have full knowledge that a refusal to permit participation by the unvaccinated in such programs results in a substandard education which will impact opportunities for admission into better colleges and universities, trade programs and better paying jobs in general.

Charging Parties affirmatively allege that employees of the Respondents, as well as unvaccinated students have been shunned, isolated and subjected to different terms and conditions, contrary to applicable laws seeking to enhance equal opportunities let alone to respect religious beliefs tendered in exemption requests which have largely been ignored or denied. This harassment and hostile environment is unacceptable, especially since Respondents have also refused to consider ample scientific and medical evidence which even shows that masking does not contribute to the wellbeing of healthy adults and school aged children, while certain vaccinations lead to inflammation of the heart muscle and the lining of the heart, if not other ailments because of the use of ingredients with molecular structures which are found in anti-freeze.

Charging Parties further allege that the same criteria for denying equal employment opportunities will be utilized to prevent residents, children, young adults, taxpayers and visitors alike to move freely throughout the County and City of Los Angeles, in light of Passport programs that seek to confirm vaccination and PCR status, both of which are supposed to be protected from disclosure. By so doing, Charging Parties allege that not only have employment and housing opportunities been adversely affected, but survival of the human race, including the ability to associate with one another and to feed one's self and one's dependents will continue to be compromised.

Many of the Charging Parties listed with dependents allege, as parents and grandparents of the designated school-aged children referenced in Appendix "A" that Respondent State, the County of Los Angeles, the City of Los Angeles, the Los Angeles Unified School District and the Los Angeles County Office of Education and their elected and appointed officials, are seeking to pick and choose the fittest and who should succeed, including when subjecting those who have vaccinated to greater adverse consequences which for the most part were never disclosed to begin with. Instead, Respondents have sought to interfere with the parental relationship, while bolstering bullyism within its schools because of a perception of unvaccinated students being disabled and because of who they associate with. Respondents must be stopped from continuing these actions, particularly since the role played by LACOE and LAUSD amongst School Districts in the State if not the nation will adversely impact the quality of education as well as the ability of America to compete against other nations henceforth.

For these and other reasons, Charging Parties allege that Respondents collectively have discriminated, harassed and retaliated against Charging Parties, including because of whistleblowing activities, despite constitutional guarantees, state and federal laws and public policies which were designed to protect Charging Parties and provide an avenue for relief from Respondents unlawful activities in these and other regards which are hereinafter discovered.

APPENDIX "A"

Freedom To Choose L.A. Lawsuit Authorized by:

Lead Plaintiffs:										
#	Last Name	First Name	Job Title	Dependents	Spouse/Other	#	Dependents 0 -26 years old	#	Additional Dependents, i.e., Elderly, Disabled, etc.	#

Ladies and Gentlemen:

Please be advised that I represent *Freedom to Choose-LA*, a grassroots humanitarian organization consisting of more than 4,000 public and private sector employees seeking to pursue Whistleblowing and Constitutional Claims against the State of California, including CalTRANS, Corrections and Rehabilitation, Human Resources, Public Health and Motor Vehicles, and all government entities referenced above.

Kindly docket Tort Claims on behalf of all Plaintiffs identified in the Appendix to the Charges of Discrimination which were filed on December 9, 2021 with the Department of Fair Employment and Housing, with same submitted with this mailing. The damages will well exceed the jurisdictional limits of the Court, while medical care has been received by many of the Plaintiffs.

Please direct all future communications to this office.

Very truly yours,

HELENA S. WISE
